Independent Auditor's Report

Board of Trustees
University of Wyoming
Wyoming Public Wyoming
Laramie, Wyoming

Opinion

We have audited the financial statements of Wyoming Public Media (the Network), a public media entity licensed to the Trustees of the University of Wyoming, reported as part of the University of Wyoming, as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the Network's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Network as of June 30, 2023 and 2022, and the changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of the Network are intended to present the financial position, the changes in financial position and cash flows of only that portion of the University of Wyoming that is attributable to the transactions of the Network. They do not purport to, and do not, present fairly the financial position of the University of Wyoming as of June 30, 2023 and 2022, and the changes in its financial position or its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Network and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Board of Trustees
University of Wyoming
Wyoming Public Wyoming

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Network's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Network's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Network's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Board of Trustees
University of Wyoming
Wyoming Public Wyoming

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Wyoming Public Media

Management's Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

Introduction and Reporting Entity

The following discussion/analysis summarizes the financial position and activities of Wyoming Public Media (WPM or the Network) for the years ended June 30, 2023 and 2022, with comparative information for fiscal year 2021. WPM Management prepared the following discussion to be read with the financial statements and related footnotes prepared by the University of Wyoming (UW) which follow this section. WPM is licensed to the Trustees of the University of Wyoming appointed by the Governor of Wyoming. Institutional oversight rests with the President through the office of the Vice President of Research and Economic Development. Direction and operation of the Network are delegated to the WPM General Manager who leads the operation with the mandate of providing a nationally recognized public broadcasting service to the public of Wyoming and ensuring Federal Communications Commission (FCC) and Corporation for Public Broadcasting (CPB) compliance at the broadcast and institutional levels. WPM operates under the CPB General Provision and Eligibility Criteria based on the *Communications Act* and applicable to Community Service Grant recipients. It maintains a Public Advisory Council. WPM is the third largest state network in the United States by geographic reach, and the only university-licensed public radio entity serving the citizens of Wyoming.

WPM provides high quality information and cultural media content via four broadcast services and one digital platform: Wyoming Public Radio, Classical Wyoming, Jazz Wyoming, Wyoming Sounds, and wyomingpublicmedia.org. In addition, the Network produces and distributes two podcast programs: HumaNaturepodcast.org and TheModernWest.org. WPM is a multi-platform producer.

WPM is a charter member of National Public Radio (NPR), an affiliate of Public Radio International (PRI), American Public Media (APM), and Koahnic Broadcast Corporation/Native Issues. The primary service, Wyoming Public Radio (WPR), broadcasts a varied schedule of news and information, Americana/Classical/Jazz music formats, cultural and entertainment programming. Information programming is generated by NPR, BBC, APM, Koahnic, and local production. WPM employs 22 full-time professionals in engineering, technology, programming/production, fundraising, and administration, in addition to part-time interns and students. Of these, eight are professional journalists, supplemented by freelancers around the state and regional reporters from the Mountain West News Bureau. WPM consistently wins state and national media awards and is a multi-year Edward R. Murrow awardee. Content is produced for both local and global distribution. Stories, features, and podcasts often air on NPR, reaching an audience of close to four million individuals per airing.

The Wyoming Public Radio service originates from the UW campus and is distributed via satellite and IP to transmitters around the state. In addition, several communities receive the 24-hour Classical Wyoming, Jazz Wyoming, and Wyoming Sounds signals on either analog or HD radio. All four services are available globally via internet streaming and generate a global audience. The combined signals reach approximately 97% of the state's 570,000+ citizens. Over 60,000 people aged 12 and above listen to WPM each week, and close to 6,000 households and businesses contribute financially.

Wyoming Public Media

Management's Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

WPM operates under a strategic plan created in 2011 by the General Manager and UW Administration to upgrade the network into the emerging digital lane and to solidify its position as a Wyoming network operated for Wyomingites. The plan addresses four key initiatives: 1) connect Wyoming via terrestrial and digital multi-platform delivery systems, 2) articulate Wyoming's issues and culture by increasing Wyoming-centric programming for Wyoming audiences while identifying and expanding content applicable for national/global distribution, 3) establish fiscal stability for current and projected future operations, and 4) merge into the social fabric through partnerships and collaborations with Wyoming communities and institutions. In 2020/2021, a fifth, learning-based initiative was articulated – 5) generate learning opportunities in broadcasting that a) sharpen professional staff skills, and b) provide intern opportunities that ignite interest in public media and/or are transferable to other life disciplines. The strategic plan is updated every year and has worked well under six UW administrations. It applies President Seidel's 4 Pillars (digital, entrepreneurial, inclusive, and interdisciplinary) to the public broadcasting disciplines and supports UW's community outreach missions within FCC guidelines.

Strategic Initiative No. 1 connects all Wyoming via terrestrial radio and extends the service to underserved areas. WPM continually upgrades sites, thus strengthening the Network's coverage and reliability. The main thrust is to cover Interstates: I-80 (Nebraska to Utah) and I-25/I-90 (Cheyenne to Ranchester/Buffalo to Sundance). Secondary roads connect Rawlins to Cody/Powell, Lander/Rock Springs to Jackson, and Torrington to Newcastle. Off-highway locations continued improvement with Classical Wyoming and Wyoming Sounds services. Today, driving through the state a listener is able to connect with the main channel statewide, and also find the other channels in select cities and towns.

WPM moved to a new satellite for audio distribution, as the previous satellite was being discontinued. This required the repointing of the uplink dish and the repointing of all the downlink dishes throughout the state. This allows WPM to continue to provide high-quality audio throughout Wyoming and serves as backup audio feed should internet connection fail.

Additionally, WPM installed internet audio distribution links in Laramie, Rock Springs, Rawlins, and Jackson. WPM will continue to add these links at other sites over the coming years. This improves reliability in bad weather and provides a redundant audio supply should the satellite system fail.

WPM has also added Wyoming Sounds channels in Green River/Rock Springs, Sheridan, and Buffalo.

WPM continued to upgrade satellite network connectivity in new uplink facilities and downlink receivers. This new technology strengthens program distribution throughout the state and access to digital data for listeners with text capable receivers.

In tandem with analog radio, digital HD Radio technology upgrades serve Wyoming with over 55% of listeners able to access the HD radio signal. This also provides Classical Wyoming and Wyoming Sounds to audiences that would not be able to ordinarily receive an analog signal in the same region of the state.

In addition to existing infrastructure, WPM applied for new NCE FM Stations in the noncommercial educational reserved band during the FCC filing window. Locations include Alta, Ranchester, Gillette, Dubois, Kaycee, Alpine, Pinedale, Jeffery City, and two in Kemmerer. All applications have been

Wyoming Public Media

Management's Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

successful. Gillette is in the process of reassessment for a superior site modification. Each site will bring either expansion of signal and/or format. WPM will also be expanding coverage around Rawlins. This involves building a new tower and bringing a higher power transmitter online. In 2023 the project was stalled due to engineering personnel changes and inability to complete installation of a cement pad prior to the set-in of winter conditions. The Alta and Alpine locations are nearing completion.

WPM's original \$5 million 5-year request to the state to upgrade and digitize the statewide technology was put on hold starting in 2017. WPM proposes reinstating these requests in coming years, as high-cost equipment and technology reach their expected lifetimes, and replacement/upgrade costs outpace the Network's operating budget. In addition to reinstating the state requests, WPM will ask UW to bring its annual funding commitment to WPM back up to 2015 levels. Apart from these requests, WPM is applying for the Corporation for Public Broadcasting/FEMA Next Generation Emergency Funding to address costs of equipment upgrades and emergency broadcast reliability.

Connecting Wyoming digitally, WPM joined the global transition from analog to multi-platform smart technology and expanded content development for new digital platforms. Wyomingpublicmedia.org provides a content-rich experience for individuals, students, and teachers. It is connected to the national public radio/NPR digital backbone, thus capturing national traffic. Content delves into areas such as the Wind River Reservation, UW Highlights, Wyoming Stories, Wyoming History, Wyoming Destinations, Health, Education, Energy, Natural Resources, etc. Two podcasts, *HumaNature* and *The Modern West*, were created to target audiences beyond Wyoming's borders and continue to grow in numbers and in peer recognition. Both are recognized in major podcast reviewers. The public affairs program, *Open Spaces*, is now a radio, online, and podcast program. Mobile use of technology was introduced for smartphone access to national and local content. Capitalizing on the volume of digital content, a podcast-to-radio program was initiated to target predominantly radio consumers and is currently available for national distribution. For fiscal year 2021-2022, there were 1,749,772 total page views for wyomingpublicmedia.org, including podcasts, radio channels, and local programs. During that timeframe, 48,000 podcasts were downloaded.

Strategic Initiative No. 2 increases Wyoming-centric programming and content. WPM created several radio and multi-platform modules and programs which can be found on wyomingpublicmedia.org under a variety of tabs. WPM suspended a kids podcast and two museum-related modules partnering with the Buffalo Bill Center of the West and the UW American Heritage Center, while a new Northwest Journalist was identified. Statewide coverage was maintained with four Wyoming regional reporting initiatives serving northeast, northwest, and central Wyoming including the Wind River Reservation. The WPM/Buffalo Bill Center of the West journalism partnership is being extended, as well as the multi-state Mountain West Bureau -- a CPB-funded initiative that began in 2018. Expansion funding came from non-university sources. As part of its strategic outreach initiative, WPM brings national public broadcasting entities to Wyoming, including the *Story Corps* project, entertainers Ira Glass, David Sedaris, Garrison Keillor, journalists Scott Simon, Lakshmi Singh, Lynn Neary, David Greene, Susan Stamberg, Don Gonyea, NPR Presidents/CEO's Kevin Klose, Gary Knell, and Jarl Mohn, among others. In 2020/2021 COVID-19 halted this program, and WPM migrated outreach activity to virtual formats. Some of these formats proved highly beneficial in reaching the public conveniently and relatively inexpensively, and they were incorporated into the network's outreach plan. To help balance the currently fractured media environment, WPM added multi-perspective topical debate/discussion national programs, while also developing local content within its *I Respectfully*

Wyoming Public Media

Management’s Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

Disagree series. In 2023, WPM was one of seven networks nationally to receive a two-year grant to cover state government and its impact on Wyoming’s citizens.

Strategic Initiative No. 3 establishes fiscal stability in current and future operational environments. WPM reorganized the fundraising department and upgraded procedures to match public broadcasting industry best practices and regulations. Administrative fundraising costs remain well under the 20% of revenue benchmark favored by the philanthropic industry. WPM works with the UW Foundation and continues to associate with NPR as a national collaborator in its ongoing system-wide beta test. Activity supported through WPM fundraising is considered as “service to community,” and assessed and evaluated annually by the CPB as per FCC guidelines. A strong service activity report card strengthens WPM’s ability to maintain federal funding and attract donors. A snapshot of operating revenue activity over the past 10 years shows growth in individual giving, relatively flat activity in corporate support, and a steady decline in university support. Corporate activity is somewhat hampered by the number and size of Wyoming’s business community and the recent downturn precipitated by the pandemic. University declines can be partially attributed to Wyoming’s fiscal environment and institutional reorganizations. The overall national environment for public media fundraising took a downturn in 2022/2023.

Strategic Initiative No. 4 builds involvement with communities. WPM sponsors activities in towns and cities throughout Wyoming, holds meet-and-greet opportunities (virtual in 2020/2021) with management, and funds a robust statewide public service announcement program online. Complying with federal requirements, WPM provides a detailed annual report evidencing its public service commitment in areas of

Wyoming Public Media

Management's Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

programming, education, addressing diverse audiences, health and welfare, promoting a strong electorate, and increasing community involvement in civic life. As required by federal law, reports are available on the WPM website and are part of the Congressional record. WPM maintains a public file as per FCC regulations. Many community activities migrated to virtual format because of the pandemic. WPM articulated its Diversity, Equity, Inclusion statements and reports as per CPB requirements. A key focus of WPM's diversity reporting is centered in Wyoming's Indigenous population. WPM allocated a full-time position based on the Wind River Reservation to this initiative. This position is donor funded.

Strategic Initiative No. 5 provides a platform for learning for the next generation of broadcasters and others who seek to learn the broadcast profession. Professional staff development is encouraged, utilizing a rich source of public broadcast training initiatives that have expanded over the last two years. WPM administers an intern program for UW students. This program was temporarily reduced because of the pandemic and is currently in rebuilding stages and beginning to reach pre-pandemic numbers of students. In addition to training, the program offers opportunity to diversify the work environment through inclusion of UW's diverse student body.

Audience for WPM has increased significantly over 56 years of broadcasting. The past year, however, reflected a slight downturn that corresponded to national trajectories. Though the pandemic affected all national philanthropic fundraising, WPM's non-university funding has steadily strengthened due to outstanding audience support. The 2022/2023 operating budget is over \$3 million, of which 60% is funded from sources outside the University. An endowment was added after the turn of the century as per best practices and recommendations for public broadcasting. CPB had in previous years designated WPM as a "soaring" station in its Financial Health and Audience Service analysis of all CPB radio grantees, and this position still holds. The University of Wyoming surveyed state residents about their perceptions of the University, finding that WPM and UW Athletics were the most recognized entities of the University. The findings are evidence that WPM continues to serve the people of Wyoming with a strong and well received broadcast and media service that fulfills outreach missions of the University.

In 2021, under UW Trustee guidance, WPM applied for and received a federal PPP loan. Loan forgiveness was filed for in early 2022 and achieved in accordance of program provisions. This loan was sought to bridge current and future losses incurred from the pandemic, particularly in anticipated reductions in corporate underwriting funding.

WPM's trajectory as a leading Wyoming statewide media with national prominence continued as per UW's charge to the General Manager. The network transitioned into digital media operations and platforms with global reach. UW precipitated directional changes were made in engineering/digital operations. Growth changes were made in news content and coverage scope, national content submissions, cultural reporting, community outreach, and a restructured fundraising model. WPM's General Manager assumes leadership roles in numerous national organizations as per position requirements and serves on regional and national broadcasting boards dealing with public broadcasting directions, technologies, and delivery systems. WPM employees are assigned to work with national areas of programming, engineering, technology, and emerging distribution platforms. Staff members participate in national training initiatives, and industry professional consultants and leaders are engaged in areas requiring national visioning. Though the smallest

Wyoming Public Media

Management's Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

state network in the U.S. with a population of 570,000+, WPM retains a position of prominence in the national public radio arena as evidenced by its national and regional grants.

As all broadcasters, WPM was affected by COVID-19 and responded immediately incorporating both FCC-based guidelines and UW regulations. The post pandemic environment produced profound behavioral changes in professional candidate pools and willingness to work or relocate. WPM had and continues to have its share of these changes. Hence positions are filled at a slower rate than desired. The full impact of the pandemic is expected to draw out for many years. Basing projections on national trends and findings, WPM expects fluctuations in all areas of operation.

Overview of the Financial Statements

WPM's financial statements consist of the statements of net position; the statements of revenues, expenses, and changes in net position; and the statements of cash flows (direct method). These statements are prepared in conformity with Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, (Statement 34) and Government Accounting Standards Board Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities* (Statement 35). Statement 34 requires the classification of net position into three categories – net investment in capital assets; restricted; and unrestricted. Statement 35 applies Statement 34 to colleges and universities.

The statements of net position includes assets, liabilities, and net position of WPM as of June 30, 2023 and 2022. This statement is classified into current and noncurrent assets and liabilities, with net position classified in the categories noted above. The statements of revenues, expenses and changes in net position depicts the operating revenues and expenses resulting in net operating income or loss, which is then combined with nonoperating revenues and expenses to provide the total change in net position.

Significant recurring sources of WPM's revenues (including general revenue from the University of Wyoming, indirect administrative support from the University of Wyoming, and investment income (loss)) expended for operations are considered nonoperating revenues according to definitions prescribed by the Governmental Accounting Standards Board.

These diversified revenue streams are critically important sources of funds used to supplement operating revenue in the delivery of WPM programs and services. Under this required reporting format, operating expenses will always exceed operating revenues and the statements of revenues, expenses and changes in net position will reflect a loss from operations every year. The statements of cash flows shows the sources and uses of cash from operations, noncapital financing activities, capital and related financing activities, and investing activities. The financial statements also include notes that explain important information in the financial statements and provide more detailed data.

Wyoming Public Media

Management's Discussion and Analysis (Unaudited)

Years Ended June 30, 2023 and 2022

Financial Highlights

The financial position of WPM at June 30, 2023 remains strong. Net position totaled \$5,861,445 as of June 30, 2023 and \$5,501,152 as of June 30, 2022. WPM's net position increased by 6.5%, or \$360,293, in FY 2023 as compared with an increase of 13.6%, or \$658,117, in FY 2022.

The largest driver for the increase in FY 2023 net position was higher investment income. The largest driver for the increase in FY 2022 net position was the forgiveness of the Paycheck Protection Program loan.

Revenues and expenses are categorized as either operating or nonoperating and an operating income or loss is displayed. Significant recurring sources of the University's revenues, including WPM's share of state appropriations received as general revenues from UW, indirect administrative support, and investment income expended for operations are considered nonoperating revenues according to definitions prescribed by GASB.

WPM's operating revenue and support decreased from \$2,708,826 in FY 2022 to \$2,665,035 in FY 2023. The 1.6%, or \$43,791, decrease in FY 2023 operating revenue is primarily due to \$95,090 lower membership revenue, partially offset by \$31,170 higher grant revenue and \$29,633 higher program underwriting revenue.

WPM's operating revenue and support increased from \$2,667,357 in FY 2021 to \$2,708,826 in FY 2022. The 1.6%, or \$41,469, increase in FY 2022 operating revenue is primarily due to \$96,730 higher membership and underwriting revenue, partially offset by \$55,261 of lower grant revenue.

Operating expenses increased from \$3,695,300 in FY 2022 to \$4,032,611 in FY 2023. The 9.1%, or \$337,311, increase in FY 2023 operating expenses is primarily due to higher payroll and indirect administrative support expenses. In FY 2023, there were several positions filled that were vacant for a portion of FY 2022.

Operating expenses decreased from \$3,904,543 in FY 2021 to \$3,695,300 in FY 2022. The 5.4%, or \$209,243, decrease in FY 2022 operating expenses is primarily due to lower payroll due to several open positions in FY 2022 and indirect administrative support expenses, partially offset by higher repairs and maintenance expenses.

The net operating loss for FY 2023 was \$1,367,576 which included noncash depreciation and amortization expense of \$127,393, while net operating loss for FY 2022 was \$986,474 which included noncash depreciation and amortization expense of \$175,983. The net operating loss for FY 2021 was \$1,237,186 which included noncash depreciation and amortization expense of \$206,558.

Net nonoperating revenues were \$1,727,869 in FY 2023, compared to \$1,634,716 in FY 2022. The higher net nonoperating revenues in FY 2023 was primarily due to higher investment income and indirect administrative support. Partially offsetting the increase in FY 2023, was the income recognized in FY 2022 for the forgiveness of the Paycheck Protection Program which occurred in FY 2022.

Wyoming Public Media
Management's Discussion and Analysis (Unaudited)
Years Ended June 30, 2023 and 2022

Net nonoperating revenues were \$1,634,716 in FY 2022, compared to \$2,046,379 in FY 2021. Included in nonoperating revenues are general revenue and indirect administrative support from the University of Wyoming (UW) and investment income. The decrease in FY 2022 is driven by \$665,459 lower investment income, partially offset by the forgiveness of the Paycheck Protection Program loan totaling \$364,708.

WPM's land, equipment, and buildings (including leased assets), net of accumulated depreciation and amortization, totaled \$722,653, \$746,165 and \$787,317 at June 30, 2023, 2022 and 2021, respectively.

Financial Analysis of the Statements

WPM's condensed financial statements are presented below for FY 2023, FY 2022 and FY 2021.

Condensed Statements of Net Position

	2023	2022	2021
Assets			
Current assets	\$ 4,589,378	\$ 4,230,807	\$ 3,683,701
Noncurrent assets	<u>2,285,770</u>	<u>2,257,954</u>	<u>2,445,591</u>
Total assets	<u>6,875,148</u>	<u>6,488,761</u>	<u>6,129,292</u>
Liabilities			
Current liabilities	889,708	891,933	827,093
Noncurrent liabilities	<u>123,995</u>	<u>95,676</u>	<u>459,164</u>
Total liabilities	<u>1,013,703</u>	<u>987,609</u>	<u>1,286,257</u>
Net Position			
Net investment in capital assets	552,459	623,408	631,302
Restricted for			
Nonexpendable endowment	137,913	137,913	129,700
Expendable, donor purpose	424,830	526,277	370,015
Unrestricted	<u>4,746,243</u>	<u>4,213,554</u>	<u>3,712,018</u>
Total net position	<u>\$ 5,861,445</u>	<u>\$ 5,501,152</u>	<u>\$ 4,843,035</u>

Current assets consist primarily of cash and cash equivalents, accounts receivable and contributions receivable, and prepaid assets. Noncurrent assets consist primarily of investments, and property and equipment. Current liabilities consist of accounts payable and accrued expenses and unearned revenues. Noncurrent liabilities consist of lease liabilities in FY 2021, FY 2022 and FY 2023 and FY 2021 includes \$364,708 of outstanding debt associated with a Paycheck Protection Program loan which was fully forgiven in FY 2022.

Wyoming Public Media

Wyoming Public Media

Notes to Financial Statements

June 30, 2023 and 2022

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Wyoming Public Media (the Network) is a public media entity licensed to the Trustees of the University of Wyoming (the University) and is reported as part of the University of Wyoming. These financial statements are intended to present the financial position, the changes in financial position and cash flows of only that portion of the University that is attributable to the transactions of the Network. They do not purport to, and do not, present fairly the financial position of the University as of June 30, 2023 and 2022, the changes in its financial position or cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. Financial results for the University are presented in separate financial statements prepared by the University.

The Network is comprised of 44 separate radio signals and associated translators, Alpine-KPUW FM, Alta-KXUW FM, Gillette-KUWG FM, Reliance-KZUW FM, Rock Springs-KUWZ FM, Bondurant-K256CI FM, Sheridan-KSUW FM, Sheridan-Translator FM, Buffalo-KBUW FM, Buffalo-Translator FM, Casper-KUWC FM, Rawlins-KUWI FM, Sinclair-K206AJ FM, Shoshoni-KTWY FM, Shoshoni-KWWY FM, Thermopolis KUWT FM, Douglas-KDUW FM, Driggs-K219LW FM, Saratoga-KAIW FM, Mountain View-K296AG FM, Fort Washakie-KUWW FM, Kaycee-KUWK FM, Powell-KUWP FM, Cody-KNWT FM, Evanston-KUWE FM, Evanston-K228AB FM, Pinedale-KUWX FM, Lingle-KUWV FM, Newcastle-KUWN, FM, Laramie-KUWL FM, Laramie-KUWR FM, Laramie-KUWY FM, Laramie-K278CM FM, Worland-K227BB FM, Jackson-K240EK FM, Hudson-KXWY FM, Riverton-K213EZ FM, Lander-K220GP FM, Jackson-KUWJ FM, Jackson-K247BC FM, Torrington-KEUW FM, Torrington-K208FY FM, Afton-KUWD FM, and Dubois-K217BP FM.

Basis of Accounting and Presentation

The financial statements of the Network have been prepared on the accrual basis of accounting whereby revenues are recorded when earned and all expenses are recorded when they have been incurred for all exchange transactions, while those from government-mandated nonexchange transactions (*i.e.*, grants) are recognized when all applicable eligibility requirements are met.

Reporting Guidelines

The Network is reported as a single purpose business-type activity entity. In addition, the Network's financial statements have been prepared in accordance with the Corporation for Public Broadcasting's (CPB) *Application Principles of Accounting and Financial Reporting to Public Telecommunications Entities*.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses

Wyoming Public Media

Notes to Financial Statements

June 30, 2023 and 2022

and other changes in net position during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Network considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2023 and 2022, cash and cash equivalents consist of claims on cash with the University and cash and cash equivalents held by the University of Wyoming Foundation (the Foundation). Interest on the cash pooled with the University is allocated based on the Network's proportion of the pool.

Investments Restricted for Endowment

Investments restricted for endowment are held in the Foundation's Endowment Fund, which is a pooled investment of individual endowments benefiting the University and its related entities including the Network. In accordance with GASB No. 72, *Fair Value Measurement and Application*, for investments in pooled funds, the fair value is determined as the number of units or shares held in the fund multiplied by the price per unit or shares. Investments are reported at the net asset value (NAV).

Accounts Receivable

Accounts receivable consists of amounts due for underwriting. Accounts receivable is recorded net of estimated uncollectible amounts.

Contributions Receivable

Contributions receivable consists of amounts due for unconditional promises to give to the Network. Contributions receivable is recorded net of estimated uncollectible amounts which is based upon a review of outstanding pledges, historical collections and existing economic conditions.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method.

Prepaid Expenses

Prepaid expenses represent payments for benefits not yet received, such as prepaid rent under short-term leases or membership dues paid in advance. The expenses are amortized and recognized in the period in which the benefit is received.

Capital Assets

Capital assets are recorded at historical cost at the date of purchase, or acquisition value at the date of donation if acquired by gift. For equipment, the Network's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life greater than one year. Renovations to buildings and land improvements that significantly increase the value or extend the

Wyoming Public Media

Notes to Financial Statements

June 30, 2023 and 2022

useful life are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful life of each asset. The following estimated useful lives are being used by the Network:

Buildings and improvements	50 years
Equipment	3 – 7 years

Lease Assets

Lease assets are initially recorded at the initial measurement of the lease liability, plus lease payments made at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease, plus initial direct costs that are ancillary to place the asset into service. Lease assets are amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Underwriting and Grants Received in Advance

Underwriting and grants received in advance represents unearned amounts from contract sponsors which have not yet been earned under the terms of the agreement and on grants awards for which the Network has not met all of the applicable eligibility requirements.

Net Position

Net position of the Network is classified in four components. Net investment in capital assets consists of capital and lease assets net of accumulated depreciation and amortization and reduced by the outstanding balances of borrowings used to finance the purchase of those assets. Restricted expendable net position is made up of noncapital assets that must be used for a particular purpose as specified by creditors, grantors or donors external to the Network. Restricted nonexpendable net position consists of noncapital assets that are required to be maintained in perpetuity as specified by parties external to the Network, such as permanent endowments. Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital and lease assets or restricted which may be used for the operation of the Network at the discretion of the governing board.

The Network first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Classification of Revenues

The Network has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues – Operating revenues include activities that are considered to be principal ongoing operations of the Network and include sources that are primarily used to provide services to the Network’s audience, such as (1) membership contributions, (2) program underwriting and (3) grants. Revenue from membership contributions is recognized when an unconditional promise to give exists. Unrestricted grants are recorded as revenues at the time the grant awards are

Wyoming Public Media

Notes to Financial Statements

June 30, 2023 and 2022

received and when eligibility requirements have been met. Restricted support and revenues are recognized upon incurring the appropriate expenses or meeting the eligibility requirements.

Nonoperating revenues – Nonoperating revenues include all those revenues not considered to be operating revenues as defined above, such as state appropriations received from the University, subsidies received from the federal government related to COVID-19, investment income, and indirect administrative support from the University.

In-kind Contributions

Contributed materials, supplies, facilities, and property are recorded at their estimated fair value at the date of donation. However, if the fair value of contributed materials, supplies, facilities, and property cannot be reasonably determined they are not recorded. Donated services from volunteers are not included in the accompanying financial statements as there is no measurable and objective basis for determining the fair value of these contributions.

Indirect Administrative Support

Indirect support from the University consists of allocated institutional support and operation and maintenance costs incurred by the University for which the Network receives benefits. The fair value of this support is recognized in the statements of revenues, expenses and changes in net position as indirect administrative support and also as expense in the management and general and fundraising, underwriting and grant solicitation functional expense categories as detailed in Note 8. The University also provides donated facilities consisting of office and studio space which is valued in accordance with the guidelines established by the CPB.

Reclassification

A reclassification was made to the 2022 financial statements to conform to the 2023 presentation. The reclassification had no effect on the change in net position.

Note 2: Cash and Cash Equivalents

Deposits

Wyoming Statute § 9-4-817 authorizes agencies of the state to deposit public funds in financial institutions authorized to do business in the state of Wyoming. These deposits must be fully insured by Federal Deposit Insurance Corporation (FDIC) or secured by a pledge of assets including bonds, debentures, and other securities in which the State Treasurer may by law invest. Alternatively, a depository may pledge conventional real estate mortgages and notes connected with mortgages at a ratio of one and one-half to one (1½:1) of the value of public funds secured by the securities.

Deposits for the Network represents the Network's prorated share of commingled cash and cash equivalents held and invested by the University acting as the Network's fiscal agent or held and invested by the Foundation. The Network's deposits are held as follows:

Wyoming Public Media
Notes to Financial Statements
June 30, 2023 and 2022

	2023	2022
Deposits held by the University	\$ 3,951,869	\$ 3,637,218
Deposits held by Foundation	117,518	109,823
Total deposits	\$ 4,069,387	\$ 3,747,041

Additional information on the University’s and Foundation’s cash and cash equivalents can be found in their separately issued financial statements.

Note 3: Endowment Funds

The University of Wyoming Trustees established a quasi-endowment fund which totals \$1,274,155 and \$1,235,477 as of June 30, 2023 and 2022, respectively. The funds cannot be withdrawn without University of Wyoming’s Board of Trustees approval. The earnings from the account are available to the Network. The quasi-endowment is included in unrestricted net position on the statements of net position.

The Network has also received gifts as endowments from third parties. As of June 30, 2023 and 2022, total gifts and unspent earnings are \$288,962 and \$276,312, respectively, of which \$137,913, respectively is corpus and is not expendable. The corpus is reported in restricted nonexpendable net position on the statements of net position.

The quasi-endowment and other endowments are held in the Foundation’s Endowment Fund which is a pooled investment of individual endowments benefiting the University and its related entities including the Network. The Foundation maintains separate accounts for each participant in the pool.

Investment income, gains and losses and expenses of the pool are allocated to each participant based on their share of ownership in the pool and are reflected as investment income in the accompanying statements of revenues, expenses and changes in net position.

The investments within the Foundation’s Endowment Fund are exposed to risks that have the potential to result in losses. Those risks and their definitions are:

- Credit risk – the risk an insurer or counterparty to an investment will not fulfill its obligation
- Custodial risk – the risk that in the case of default by the counterparty a government will be unable to recover its deposit/investment or collateralizing securities in the possession of an outside party
- Concentration risk – the risk of loss attributable to the size of a government’s investment in a single issuer
- Interest rate risk – the risk that changes in interest rates will adversely affect the fair value of investments
- Foreign currency risk – the risk that changes in exchange rates will adversely affect the fair value of a deposit or investment

Wyoming Public Media

Notes to Financial Statements

June 30, 2023 and 2022

The investment committee of the Foundation, following the Prudent Expert Rule, carries out the Foundation’s investment policy. The Prudent Expert Rule states that a fiduciary shall manage the portfolio “with the care, skill, prudence and diligence, under circumstances then prevailing, and that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and like aims.” External managers have been hired to invest in the following asset classes: equities, fixed income, absolute return, private equity/venture capital, hedged equity, and real estate. A long-term target asset allocation strategy has been implemented to achieve required returns while minimizing risk. All investments selected must be in compliance with the laws of the state of Wyoming, Internal Revenue Code prohibitions on self-dealing or vehicles that would jeopardize the carrying out of the exempt purpose of the Foundation, and restrictions on unrelated business taxable income.

Further information on the investments held by the Foundation can be found in their separately issued financial statements.

The following summarizes the Network’s activity and net asset value per share of the underlying portfolio for the years ended June 30, 2023 and 2022:

Balance, June 30, 2021	\$ 1,658,274

Note 5: Loan Payable

PPP Loan

On June 9, 2021, the Network received a loan in the amount of \$364,708 pursuant to the Paycheck Protection Program (PPP). Under the terms of the program loans are eligible to be forgiven if the proceeds were used for payroll and other non-payroll expenses. The Network used all the proceeds to make eligible payments, and the entire loan was forgiven on January 6, 2022.

Wyoming Public Media
Notes to Financial Statements
June 30, 2023 and 2022

Note 6: Lease Liabilities

The Network has several leases for broadcast towers and equipment which expire in various years through 2033. The following is a summary of lease activity for the years ended June 30, 2023 and 2022:

	Balance July 1, 2022	Additions	Reductions	Balance June 30, 2023	Current Portion
Lease liability	\$ 122,757	\$ 61,263	\$ (31,189)	\$ 152,831	\$ 28,836

	Balance July 1, 2021	Additions	Reductions	Balance June 30, 2022	Current Portion
Lease liability	\$ 156,015	\$ 31,300	\$ (64,558)	\$ 122,757	\$ 27,081

2027	21,426	20,325	1,101
2028	21,656	20,918	738
2029-2033	<u>36,408</u>	<u>35,624</u>	<u>784</u>
	<u>\$ 161,136</u>	<u>152,831</u>	<u>\$ 8,305</u>

Note 7: Corporation for Public Broadcasting Grants

CPB is a private, nonprofit grant-making organization responsible for funding more than 1,000 television and radio stations. CPB distributes annual Community Service Grants (CSG) to qualifying public broadcasting entities. CSGs are used to augment the financial resources of public broadcasting entities and thereby to enhance the quality of programming and expand the scope of public broadcasting services. Each CSG may be expended over one or two federal fiscal years as described in the *Communications Act*, 47 United States Code Annotated, Section 396(k)(7). In any event, each grant must be expended within two years of the initial grant authorization.

According to the *Communications Act*, CSG funds may be used at the discretion of recipients for purposes relating primarily to production and acquisition of programming. Also, the grants may be used to sustain activities begun with CSGs awarded in prior years.

Notes to Financial Statements
June 30, 2023 and 2022

Certain general provisions must be satisfied in connection with application for and use of the grants to maintain eligibility and meet compliance requirements. These general provisions pertain to the use of grant funds recordkeeping, audits, financial reporting, mailing lists and licensee status with the Federal Communications Commission.

Note 8: Functional Allocation of Contributed Support

The indirect administrative support from the University of Wyoming and in-kind contributions from others have been allocated to the functional expense areas in which the support was used or consumed. For the years ended June 30, 2023 and 2022, the allocations were as follows:

	2023	2022
Management and general	\$ 713,564	\$ 640,231
Fundraising, underwriting and grant solicitation	10,590	20,094
Total	\$ 724,154	\$ 660,325

Note 9: Related-party Transactions

The University of Wyoming Foundation (the Foundation) is a not-for-profit corporation formed to promote the welfare, development, growth and well-being of the University. The Foundation operates independently of the University, but supports University activities including those of the Network. The Foundation’s financial records are maintained separately from the University’s financial accounting system. The Foundation is utilized as an investment vehicle of the Network.

During the years ended June 30, 2023 and 2022, the Network received revenue from other University departments of \$21,945 and \$59,615, respectively, and paid expenses to other University departments of \$67,739 and \$65,870, respectively.

Note 10: Risk Management

The Network is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters, teachers’ liability and employee health and accident benefits. The Network is covered through commercial insurance coverage which is purchased by the University for claims arising from such matters other than those related to employee health, long-term disability, and workers’ compensation. Settled claims have not exceeded this commercial coverage in any of the three preceding years. The state of Wyoming self-insures employee health and workers’ compensation benefits for all state employees, including Network employees, who are considered University employees.

Notes to Financial Statements

June 30, 2023 and 2022

Note 11: Investments Risks and Uncertainties

The Network's investments in the Foundation Endowment Fund are comprised of various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of financial position.

Note 12: Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Network expect such amounts, if any, to be immaterial.
