

Continuous Registration- PRST 5940-60

Once admitted to your online graduate program -- students must remain active in their program.

Please do register for one class each fall and spring. Summer does not count.

If you need continuous registration, you may want to touch base with your adviser first.

To request an override:

1. Locate the five-digit Course Reference Number (CRN) of **PRST 5940-60** for the correct term on the [Class Schedules](#).
2. Email me your request to get into Continuous registration to tlegal@uwyo.edu
3. **Please include your W# (always) and the CRN # of the class.**
4. I will complete the overrides and email you back so you may register for the course.

This is not a normal class, but a "placeholder" class that will keep you active in the program.

We typically allow online graduate students to enroll in this if they are waiting for their next course to be offered, writing, or if they need the semester off due to work, professional, family or other obligations, and/or due to Covid or illness.

To view the cost of this course, please refer to the [Student Financial Services](#) website for updated tuition information.

Thank you!
