

GENERAL PRE-HEALTH PODCASTS

Disclaimer: The UW pre-health advising office is not endorsing information in these specific podcasts. Instead, this list is meant to give you an idea for some podcasts available to you if you enjoy receiving information through this medium.

Docs With Disabilities Podcast

Doctors with disabilities exist in small, but impactful numbers... How did they navigate their journey? What were the challenges? What are the benefits to medicine broadly? to patient care? What are the opportunities for peer education? ...and what are the potential benefits for reducing health care disparities for patients with disabilities?

The Pipeline Podcast

Made by Virginia Commonwealth University Division for Health Sciences Diversity. The Pipeline Podcast creates a forum for listeners around the world. Episodes are hosted by the Division for Health Sciences Diversity with VCU Pipeline alumni joining as co-hosts. Alumni share their experiences post Pipeline programs and give updates on their health-care career endeavors.

Social Determinates of Health

It is well known that various populations have less access to care, yet there are many nontraditional healthcare issues that are affecting access to care. These vary from lack of transportation, proper nutrition, education, safe housing conditions, and child care. Identify and translate those at risk using our extensive data and expert guidance to address this societal issue.
