An interdisciplinary, independent Queer Studies advisory committee advises the program on curriculum, scheduling and coordination. A faculty mentor is assigned to the student on declaration of the minor.

The advisory committee for the minor includes:

Rachel Watson, Director Queer Studies, Chemistry

Ulrich Adelt, American Studies, African American & Diaspora Studies

Ruth Olga Bjorkenwall, Politics, Public Affairs, & International Studies

Christine Boggs, Ellbogen Center for Teaching & Learning

Catherine R. Connolly, Gender & Women's Studies

Danielle Renee Cover, Law

Michelle Jarman, Disability Studies (WIND)

Barbara Ellen Logan, History

Jamie Snyder, Criminal Justice & Sociology

Lilia Soto, American Studies, Latino/a Studies

Jennifer Tabler, Criminal Justice & Sociology

Graduate Study

Students interested in a graduate minor in Gender and Women's Studies or Queer Studies should contact the Director of the Program for enrollment.

Minor in Gender and Women's Studies

A total of 12 hours of course work is required, including nine hours at the 5000-level and including GWST 5710, Feminist Theoretical Perspectives. When practical, students should include a GWST faculty member on their thesis, dissertation or Plan B committees. Students in professional programs without a culminating research project (or those whose graduate work is outside of GWST) can meet this requirement through alternative means.

Minor in Queer Studies

A graduate minor in Queer Studies requires the completion of 12 hours, including GWST/AMST 5430, Queer Theory, a minimum of 6 hours at the 5000+ level, and a capstone experience or independent study. For committee-based degree programs with QS content it is expected that the student will include one committee member from QS.

Latina/o Studies

 Ann Redman

The Latina/o Studies program, through an interdisciplinary and comparative approach examines the history, cultures, language and contemporary experiences of Mexicans, Mexican-Americans and other Latinos/ as in Wyoming, and the United States.

Learning Outcomes

Latina/o Studies courses emphasize perspectives that are historical and contemporary, theoretical and practical, as well as critical and aesthetic. These perspectives help to develop an understanding of oppression and resistance, at the individual, institutional, and ideological levels.

Upon completion of the University of Wyoming Latina/o Studies minor curriculum, students will have an awareness and appreciation for the Latina/o experience. Particularly as the Latina/o experience is expressed in the following concepts and principles of organic insight, relational awareness, historical perspective, power for social change, intersectionality, and aesthetics.

1. *Organic Insight* - The development of a contextual framework for understanding one's own and others' experiences in relation to the Latina/o experience.
2. *Relational Awareness* - The development of a theoretical framework for understanding how institutional social structures impact individuals, families, and communities, and in turn, how individuals, families, and communities impact social structures through resistance, social agency, and change.
3. *Historical Perspective* - The development of a critical historical viewpoint for understanding how struggles around social, economic, and political forces have shaped the traditional and contemporary Latina/o Diaspora.
4. *Power for Social Change* - The development of a critical consciousness, which is necessary for a social praxis that combats oppressive racist ideologies and social structures that perpetuate individual and institutional inequalities.
5. *Intersectionality* - Gaining an awareness of the intersection of race, ethnicity, class, gender, and sexual orientation as it plays out organically, relationally, historically, and politically.

6. *Latina/o Aesthetics* - The development of an appreciation and awareness of the aesthetics evident in Latina/o art, music, theatre, literature, and other artistic expressive forms and styles.

Latina/o Studies Minor

Latina/o Studies offers an undergraduate minor. The minor in Latina/o Studies requires 18 credit hours. Two of those courses (6 hours) must include the required foundation courses, and the remaining courses (12 hours) can be selected from the other areas of studies listed below.

Department of Anthropology

106 Anthropology Building,

PAMELA INNES, B.A. Bryn Mawr College 1986; M.A. University of Oklahoma 1992; Ph.D. 1997; Associate Professor of Anthropology 2007, 2001.

MELISSA S. MURPHY, B.A. Haverford College 1994; Ph.D. University of Pennsylvania 2004; Associate Professor of Anthropology 2014, 2008.

JASON TOOHEY, B.A. University of California Santa Barbara 1995; M.A. California State University Northridge 2000; Ph.D. University of California Santa Barbara 2009; Associate Professor of Anthropology 2017, 2011.

Assistant Professors:

BRIANA DOERING, B.A. Barnard College, Columbia University, 2012; M.A. University of Michigan 2016; Ph.D. 2020, Assistant Professor of Anthropology 2020.

ALEXANDRA KELLY, B.A. University of Chicago 2004; M.A. 2005; Ph.D. Stanford University 2014; Assistant Professor of History and Anthropology 2014.

JESSICA NELSON, B.A. University of Michigan 2006; M.A. University of Arizona 2011; Ph.D. 2018; Assistant Professor of School of Culture, Gender, and Social Justice 2019.

Adjunct Faculty:

Adams, Arksey, Budowle, Clauter, Grund, Janković, Karavanić, Kitchell, Lynch, Malloy, Miller, Nicholson, Olujić, Page, Pelton, Peterson, Pierce, Raguž, Rapson, Rockwell, Walker, Watson, Wilkinson

Academic Professional Research Scientist:

Rick Weathermon

Professors Emeriti:

George W. Gill, Mary Lou Larson, Lin A. Poyer, Charles A. Reher, Audrey C. Shalinsky

The department of Anthropology promotes the understanding of humankind from an integrated, holistic approach which examines past, present and future trends in cultural, biological and linguistic diversity and uniformity. Though the department serves undergraduate and graduate majors who will become professional anthropologists or will pursue other related careers, it also provides information to a large number of non-majors and to the larger community regarding cross-cultural issues. Furthermore, because of its commitment to the four field approach including biological anthropology, archaeology, cultural anthropology and linguistic anthropology, the department fosters among its students an awareness of the interrelatedness of scientific concepts, methods and theories, and the humanistic foundation of scientific inquiry. The Department of Anthropology prepares its students both to understand the cultural resources of Wyoming and to participate as informed citizens in an increasingly complex global community.

Undergraduate Major

The Anthropology B.A. program has the following learning outcomes:

1. students demonstrate knowledge about the four fields of anthropology and their interrelationship,
2. students participate in a research experience and understand its process, and
3. students demonstrate ability to analyze and synthesize in relation to anthropological issues or theories.

In addition to university and college requirements listed in this Catalog, anthropology majors must complete two semesters of foreign language. ANTH 1100 and ANTH 1300 cannot be used to fulfill the USP PN requirement. Specific requirements for a B.A. in anthropology are ANTH 1100, 1200, 1300, and 2000. Students must complete ANTH 3300 or ANTH 3310. ANTH 3300 and ANTH 3310 require an additional 1 hour of ANTH 4975. Also required are an additional 21 credits of upper division anthropology for a total of 25 upper division (3000+) credits within the major, including at least one course from three different subfields (cultural anthropology, linguistic anthropology, biological anthropology, and archaeology). Courses that can be used to fulfill upper division cultural anthropology are ANTH 4023, 4300, 4310, 4320, 4325, 4330, 4340, 4350, 4380, 4020 (with instructor's consent). Courses that can be used to fulfill upper division linguistic anthropology are ANTH 4024, 4740, 4765, 4775, 4785, 4795, 4020 (with instructor's consent). Courses that can be used to fulfill upper division biological anthropology are ANTH 4022, 4210, 4215, 4220, 4230, 4255, 4260, 4020 (with instructor's consent). Courses that can be used to fulfill upper division archaeology are ANTH 3900, 4021, 4110, 4115, 4120, 4125, 4130, 4145, 4150, 4160, 4170, 4175, 4020 (with

instructor's consent), or six credits of archaeological field school (ANTH 4140 or 5180). It is recommended that anthropology majors take ANTH 1101 to fulfill the First-Year Seminar requirement, but it is not required that students take this particular First-Year course. It is also recommended but not required that students complete a course in statistics (STAT 2050 or 2070) and a third semester of foreign language. Courses required by the department for the major and minor must be completed with a grade of C- or better.

At the completion of the Bachelor of Arts degree in Anthropology, students will be able to demonstrate knowledge about the four subfields of anthropology and their interrelationships; they will have participated in a research experience and understand its process; and, they will demonstrate ability to analyze and synthesize in relation to anthropological issues or theories.

Undergraduate Minors

The Anthropology undergraduate minor has the following learning outcomes:

1. students learn sufficient subfield information to complement a variety of disciplines,
2. students learn basic methods of the discipline, and
3. students learn basic theories/ types of subfield explanation.

The minor for non-anthropology majors requires two of the introductory courses: ANTH 1100, 1200, 1300, 2000, and 11- 12 hours of electives from 2000, 3000, or 4000-level anthropology courses with no more than 3 hours at the 2000-level. See the anthropology web site for more details.

Teacher Education

Anthropology courses may be used to complete part of the requirements for teacher certification in social studies.

Graduate Study

The department offers programs of study leading to Master of Arts and Doctor of Philosophy degrees in Anthropology. Check Anthropology department web pages for any updates.

Program Specific Admission Requirements

Master's Program

The Anthropology M.A. program has the following learning outcomes:

1. students will be able to explain the content of the "four fields" of anthropology and their interrelationship in written and oral formats,
2. students will have experience in original research, and
3. students will develop skills which foster professionalism as related to their chosen field.

Deadline for application is February 15 for the following fall. See graduate admission requirements. Submit letter of intent, resume, transcripts, and an optional writing sample as digital documents to the UW online application system. A minimum of three letters of recommendation are required; a standardized recommendation form is provided through the application system.

In the letter of intent, students should describe their research interests, career goals, and how Wyoming's program will help them achieve these goals.

The Department of Anthropology requires that at least two of the recommendation letters be from academic supervisors or instructors.

Students must present evidence of a satisfactory background in anthropology, which should include coursework in all four subfields of Anthropology (socio/cultural, bio/physical, archaeology, and linguistics). Deficiencies in anthropology may require remediation. Students must have three semesters of a single foreign language or equivalent, and one semester of statistics. In those instances in which the undergraduate background of the student is deficient, the department reserves the right to prescribe course work that would correct such deficiencies.

The M.A. program is designed to be completed in two full years of graduate study. Appropriate allowance will be made for parttime students.

Students who graduate with a Master of Arts degree will be able to explain the content of the four fields of Anthropology and their interrelationship in written and oral formats; they will have an experience in original research; and, they will develop skills which foster professionalism in their chosen fields.

Doctoral Program

The Anthropology Ph.D. program has the following learning outcomes:

1. students will have professional and specialized training so they can move into careers in academic or non-academic tracks,
2. students will have a dissertation research experience that results in professional publication(s), thereby contributing to the expansion of knowledge, and
3. students will have practical experience that will promote their movement into professional careers in a reasonable amount of time.

Deadline for application is December 1 for the following fall. *See graduate admission requirements.*

Submit letter of intent, resume, transcripts, and an optional writing sample as digital documents to the UW online application system. A minimum of three letters of recommendation are required; a standardized recommendation form is provided through the application system.

In the letter of intent, students should identify whom they would like as their faculty adviser and describe their research interests, career goals, and how Wyoming's program will help them achieve these goals.

Students with a master's degree may apply directly to the Ph.D. program.

Students with a bachelor's degree may apply to the Ph.D. program. If admitted, students are expected to complete the master's degree requirements following the Plan A or Plan B option before formal admission to the Ph.D. program. At the thesis defense or hearing for the Plan B paper, the student will receive a no pass, pass-terminate at the master's degree, or a pass-admit to the Ph.D. program.

Students admitted to the department's M.A. program are not guaranteed admission to the Ph.D. program.

For admission to the Ph.D. program with the Bachelor's degree, students must have course work in the four subfields of anthropology, three semesters of a single foreign language, and statistical competency at either the B.A. or M.A. level. If these

are not satisfied, the student's faculty adviser in coordination with the student's graduate committee assigns remedial work as appropriate.

Students who graduate with a Ph.D. in Anthropology will have specialized and professional training so they can move into academic or non-academic tracks; they will have a dissertation experience that results in professional publications; and they will have professional experiences that facilitate their move into careers in a reasonable amount of time.

Program Specific Graduate Assistantships

Doctoral students generally receive two years of assistantships. First semester, first year M.A. students are generally not awarded assistantships; however, the department occasionally does make exceptions. M.A. students are eligible to apply for assistantships beginning in the second semester.

Assistantships are awarded through a departmental application process. An application form, cover letter, and resume are required. Information and deadlines may be obtained in the department office.

Failure to complete steps in the M.A. program by established deadline (e.g., advisor selection, proposal presentation, etc.) means the student is not eligible for an assistantship. Failure of the Ph.D. preliminary exam means the student is not eligible for an assistantship.

Program Specific Degree Requirements

Master's Program Plan A (thesis)

See university minimum requirements.

Completion, with a grade of "B" or better of a four core-course sequence. This sequence will consist of ANTH 5010, 20th Century Anthropological Theory; ANTH 5015, Archaeological Theory and Method; ANTH 5020, Biological Anthropology; and ANTH 5030, Linguistic Anthropology.

First semester (fall): Students will submit form to the graduate advisor and department head identifying their thesis advisor BEFORE the graduate assistant allocation meeting (mid-late November).

Second semester (spring): Students will work with their advisor to select their committee, which must be formed and on-file in the department office by the end of the semester. During the core classes' final exam periods, students give a presentation to departmental faculty which outlines the general ideas for their proposed thesis.

Third semester (fall): Working closely with their advisor and committee, students complete a detailed prospectus and gain approval from thesis committee for MA thesis topic.

Fourth semester (spring): Thesis is completed and is approved by thesis committee.

Any M.A. student receiving a grade of C or less in two core classes will be expelled from the program.

Second semester research presentations are assessed by all department faculty in attendance at the presentation and evaluations will be given to the student's advisors. It is expected that students will work closely with their advisors to rectify any problems before they complete their thesis prospectus in the third semester.

If not completed prior to admission; two semesters of a single foreign language and one statistics course must be completed.

Plan B (non-thesis)

See university minimum requirements.

All requirements for a Plan A except thesis, if not completed prior to admission; two semesters of a single foreign language and one statistics course must be completed.

Doctoral Program

See university minimum requirements.

After completion of an M.A. program in anthropology.

A minimum of six content courses (18 hours) chosen by the student in conjunction with the student's committee. These courses are normally completed in the first two years of the Ph.D. program. In addition to anthropology courses, the other 4000/5000-level courses outside of the department may be required by the committee or chosen by the student in consultation with their committee. If not completed prior to admission, two semesters of a single foreign language must be completed.

Two additional courses in their first or second year: ANTH 5880, Professionalism in Anthropology and the two-semester sequence of ANTH 5890, Teaching Anthropology (3 hours total).

Teaching experience, including standalone courses, after completion of the first semester of Teaching and Learning (ANTH 5890), as well as teaching assistance to UW faculty members.

Participation in an approved internship experience (6-24 credit hours). Students pursue internships in state and federal agencies, museums, contract archaeology organizations, and other organizations that offer potential career experience.

Committee meeting and successful completion of a dissertation proposal.

Preliminary exams take place after the completion of 18 hours of content courses. ANTH 5880, and Teaching and Learning in Anthropology (ANTH 5890, or other as designated), normally before the end of the second year. If a student does not receive a passing grade on the preliminary exam, it can be repeated once. Failure to pass the preliminary examination the second time results in termination from the anthropology program.

International experience is highly recommended but not required, e.g. pre-dissertation summer fieldwork.

Student maintains a portfolio which documents teaching, internship, and research experience.

Students are encouraged to present papers at professional conferences and submit articles for publication throughout their tenure as a student. After admission to candidacy, the student is expected to research, write, and defend a dissertation based on original research (up to 48 credit hours). Students may either submit a single dissertation or a series of integrated publishable articles (30-40 pages each). The student's committee must approve this choice and decide on the number, length and content of the articles at the same time, usually at the committee hearing prior to the preliminary exams. For the final submission of the dissertation, the student must also complete an introduction and conclusion to contextualize and synthesize the integrated articles.

Art and Art History

The Art and Art History Program within the Department of Visual and Literary Arts supports the creative, aesthetic and cultural development of students within the university community and serves the cultural and educational needs of the state. The department is dedicated to preparing its graduates to assume leadership positions in their professional lives while maintaining an inner commitment to the aesthetic standards of their chosen discipline.

The program fosters a unique combination of innovation, tradition, aestheticism and practicality, by providing a professional visual arts education built on a strong University Studies Program (USP) foundation.

Department Policy

A class within the Art and Art History Program within the Department of Visual and Literary Arts may require additional meeting times, so that students may fully participate in the Visiting Artist Program and the UWAM lecture series.

As a matter of policy, the Department of Visual and Literary Arts reserves the right to retain any works created by students it deems worthy for the purposes of exhibition until the end of the academic year.

The Department of Visual and Literary Arts studios are the primary instructional classrooms. As a matter of policy, access to the studios and use of the equipment is reserved for students who are formally registered for scheduled courses and are following a prescribed curriculum.

Scholarships

The department has several scholarships for qualified students at all stages in the program. See the Department of Visual and Literary Arts website for a full list of scholarships.

Academic and Career Advisement

Faculty advisers work closely with department students to guide and direct their progress through their declared degree program and course of study. Through the visiting Artist Program, the UW Art Museum and internship placements, the department provides numerous opportunities and role models for a professional life in the visual arts. Through consultation and discussion with faculty advisers, art students consider their interests and abilities in relation to the many and varied careers in the arts and art related fields. Many graduates go directly into industry, on to pursue graduate studies or take the next step in their career plan. On a competitive basis upon graduation, majors may participate in the Post Undergraduate Assistantship Program where they may prepare a portfolio for graduate school and/or gain additional experience in the studio and the classroom setting.

Undergraduate Majors

The University of Wyoming Department of Visual and Literary Arts offers five degrees within the Art and Art History Program:

- Bachelor of Arts in Art History
- Bachelor of Arts in Studio Art
- Bachelor of Arts in Art Education
- Bachelor of Fine Arts in Studio Art
- Bachelor of Fine Arts in Visual Communication Design

Transfer Residency

A minimum of 26 hours of upper-division course work in the major is required to establish residency in the department for all transfer students. This applies to students in all five of the B.F.A., B.A., and Art Education degree programs who transfer in 12 or more hours of art courses for the major. Students in all art programs must meet the university requirement of at least 42 hours of course work at the upper-division level (3000- and above).

Studio Art and Art Education Majors - General Requirements

ART 1005, 1110, 1120 and 1130 are considered an important preparation and prerequisite for drawing, painting, printmaking, ceramics, sculpture and graphic design courses and are required freshman courses for the major. Studio Art and Art Education Majors must complete the Foundation Core Hours before electing upper division courses in any studio area. ART 2010, 2020, and 2305 are required sophomore courses.

Once sophomore Art Studio and Art Education majors complete course prerequisites, they select a minimum of four courses from the studio core hours. Most of the university and college requirements should be completed as early as possible before the senior year. The department will enforce published prerequisites for courses.

Studio Art, Visual Communication Design, and Art Education majors must submit a portfolio for evaluation before proceeding to intermediate and advanced studios beyond the required studio core. Any student whose portfolio is assessed as deficient must address the deficiencies before receiving permission to advance in the major.

Please note: Studio Art and Art Education students who do not pass the portfolio review will be able to resubmit the following semester. However, if students fail more than once, they will be unable to progress in the Department of Visual and Literary Arts and may be asked to transfer to another department or UW college or complete an art minor. Portfolio evaluation will occur once in each of the fall, spring, and summer semesters.

Undergraduate Minors

Minors are offered in the following areas:

- Art History
- Ceramics
- Digital Media
- Drawing
- Metalsmithing
- Museum Studies

- Painting
- Photography
- Printmaking
- Sculpture

Further information may be found on the department's website.

Please note: B.A. in Studio Art, B.F.A. in Studio Art, B.F.A. in Visual Communication Design and B.A. in Art Education degree students cannot have a minor in a specific studio discipline. B.A. in Art History students may have a minor in studio disciplines, and B.A. in Studio Art, B.F.A. in Studio Art, B.F.A. in Visual Communication Design, and B.A. in Art Education degree students may have a minor in Art History and/or Museum Studies.

PAUL BERGSTRAESSER, B.A. Oberlin College 1989; M.A. Northern Michigan University 2000; Ph.D. University of Illinois, Chicago 2007; Senior Lecturer in English and Creative Writing 2018, 2007.

Creative Writing

We are writers. Our principles follow from what claims us as writers as we guide our students in the creation of their own work. We offer a commitment to art and to the development of community through art. We offer an immersion in making, a chance to discover, to create serious work without pretense, to collaborate, to shake off assumptions and anxieties.

To be first and foremost concerned with making does not mean we take refuge from the world. It means we begin by supporting the deepest, most intelligent engagement with what matters to us as writers. A critical distance from the literary and academic marketplaces allows us to engage with them in a more thoughtful manner once we have found our authentic calling—that which we are truly compelled to explore. Our values will never map perfectly onto the concerns of institutions, and that is good. We strive to create the finest conditions for the making of art when we remain in an eccentric orbit of our own, one that overlaps with the other orbits, yet remains, as much as possible, guided by our own principles which include:

Making: we require the serious, committed, ongoing process of writing and revision.

Range: we cultivate a diversity of taste, form, genre, experience, and background, as well as an open understanding of what might constitute professional accomplishment.

Flexibility: we invite our writers to pursue their own creative and intellectual goals, to tailor the program in individual ways.

Curiosity: we urge creative and intellectual roaming: cross-genre work, interdisciplinary study, the movement across what are usually understood as boundaries; we encourage students to imagine possibilities beyond what is already imagined for them by the program and the university.

Community: we foster an environment that sustains listening, investment in the work of others, collaboration, rigorous expectation, generosity and, at the same time, respect for solitude.

Integrity: we challenge students to engage in deep investigation, to find their intent as a writer and to commit to it fully.

Graduate Study

The Creative Writing Master of Fine Arts offers two areas of concentration: fiction and creative non-fiction.

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this Catalog, the Creative Writing M.F.A. Program requires that students demonstrate by means of an official transcript that they have a solid undergraduate record. The M.F.A. program welcomes degrees in any discipline from four-year colleges or universities. Candidates submit three letters of recommendation, a writing sample consisting of no more than 25 pages of prose, a 500-word statement of purpose and a vita. Students should consult the M.F.A. web site or contact the department for specific admission information and deadlines.

Program Specific Graduate Assistantships

We are a fully-funded program, meaning that we accept only as many students as we can support with graduate assistantships. Full assistantships carry an annual stipend and remission of tuition and fees, and require the teaching of one section per semester, or equivalent work assignment. M.F.A. students are expected to teach freshman English.

Each fall, the English department conducts a week-long orientation for new teaching assistants and a subsequent series of colloquia. Each graduate assistant is assigned to an experienced teacher in the English department as a mentor, to be available throughout the semester for consultation on teaching and grading techniques.

Department of Botany

Botany

114 Aven Nelson Building, (307) 766-2380

FAX: (307) 766-2851

Web site: www.uwyo.edu/botany

Department Head: Naomi Ward

Professors:

GREGORY K. BROWN, B.S. Colorado State University 1973; M.S. Arizona State University 1978; Ph.D. 1980; Professor of Botany 1997, 1985.

ALEX BUERKLE, B.A. (Hons.) University of Missouri 1990; Ph.D. Indiana University 1997; Professor of Botany 2016, 2004.

BRENT E. EWERS, B.S. Colorado State University 1995; M.S. Duke University 1997; Ph.D. 1999; Professor of Botany 2014, 2002.

STEVEN L. MILLER, B.S. University of Wyoming 1979; M.S. Virginia Polytechnic Institute and State University 1982; Ph.D. 1985; Professor of Botany 2002, 1990.

CAMELLIA OKPODU, B.S. North Carolina State University 1987; Ph.D. North Carolina State University 1994; Professor of Botany 2021.

DAVID TANK, B.S. (Hons.) Michigan State University 1998; M.S. Michigan State University 2000; Ph.D. University of Washington 2006; Professor of Botany 2021.

NAOMI WARD, B.Sc. (Hons.) University of Queensland 1993; Ph.D. University of Warwick 1997; Professor of Molecular Biology and Botany 2019, 2007.

CYNTHIA WEINIG, B.A. (Hons.) Brown University 1991; Ph.D. Indiana University 1999; Professor of Botany and Molecular Biology 2013, 2007.

DAVID WILLIAMS, B.A. The University of Texas, Austin 1985; M.S. Texas A&M University 1988; Ph.D. Washington State University 1992; Professor of Botany 2009, 2003.

Associate Professors:

ELLEN D. CURRANO, B.Sc. (Hons.) University of Chicago 2003; Ph.D. Pennsylvania State University 2008; Associate Professor of Botany 2017, 2014.

DANIEL LAUGHLIN, B.S. Calvin College 1999; M.S. Pennsylvania State University 2002; Ph.D. Northern Arizona University 2009; Associate Professor of Botany 2017.

Assistant Professors:

LAUREN SHOEMAKER, B.A. (Hons.) Colorado College 2011; Ph.D. University of Colorado Boulder 2017; Assistant Professor of Botany 2019.

CATHERINE E. WAGNER, B.A. (Hons.) Whitman College 2004; Ph.D. Cornell University 2011; Assistant Professor of Botany 2015.

CHRISTOPHER WEISS-LEHMAN, B.A. Earlham College 2010; Ph.D. University of Colorado Boulder 2017; Assistant Professor of Botany 2019.

Senior Lecturer:

MARK E. LYFORD, B.A. St. Olaf College 1993; M.S. University of Wyoming 1995; Ph.D. 2001; Senior Lecturer in Botany 2014, 2005;

Associate Lecturer:

CHRISTOPHER NORTH, B.S. Virginia Polytechnic Institute and State University 2002; M.S. Eastern Illinois University 2005; Ph.D. University of Wyoming 2017; Associate Lecturer in Botany 2020, 2014.

Assistant Lecturers:

JAMIE CRAIT, B.Sc. Oregon State University 1999; M.S. University of Wyoming 2005; Ph.D. 2013; Assistant Lecturer in Botany 2018.

Senior Research Scientist:

BURRELL E. NELSON, B.A. Andrews University 1971; M.A. University of Wyoming 1974; Senior Research Scientist.

Research Scientist:

BEN LEGLER, B.S. University of Washington 2001; M.S. University of Wyoming 2010; Research Scientist 2021.

Professors Emeriti:

Dennis H. Knight, Stephen T. Jackson, William A. Reiners

Associate Professors Emeriti:

Daniel B. Tinker

Botany

Botany is the study of plants and their relationship to human affairs. The science is fundamental to food, fiber and pharmaceutical production; to the management of landscapes for beauty, recreation, forest products and forage; and to the protection of landscapes against pollution and other abuses. The botanist is concerned with the diversity and classification of plants and fungi, their structure at both the macroscopic and microscopic levels, and their physiology, ecology and genetics and evolutionary relationships.

Courses in botany have been developed to meet the needs of the following groups of students: those who desire a general knowledge of the subject for its cultural value; those specializing in areas which require a background in plant biology; and those selecting botany or biology as a major.

Undergraduate Degrees:

Students can choose from two undergraduate degree majors: the Botany B.S. and Biology B.S. programs. The Biology B.S. program includes an optional Concentration in Ecology and Evolution. The Biology B.S. degree program also maintains a concurrent major offered through the College of Education whereby students fulfil all the major requirements for Biology on top of their requirements for the B.S. degree in Secondary Science Education with a major in Biological Sciences Education.

Undergraduate minors:

Minors in Biology and Botany are offered.

Graduate Study:

The Department of Botany offers graduate programs leading to the master of science and the doctor of philosophy degrees in botany and the master of science degree in botany/water resources.

Program Specific Admission Requirements (Graduate Study)

A minimum GPA of 3.000 on previous coursework is required.

Program Specific Degree Requirements (Graduate Study)

Regardless of field of specialization, all candidates will be held responsible for basic information in the following areas: genetics, physiology, morphology, and evolutionary and environmental botany. A knowledge of chemistry (including organic and elementary biochemistry), physics, calculus, and statistics may be required.

A minimum GPA of 3.000 must be maintained. Any course in which a C (or below) or U is obtained cannot be counted toward the degree requirement.

Participation in seminars will be required of all candidates during their residence at the University of Wyoming.

Department of Chemistry

204 Physical Sciences Building,
(307) 766-4363
FAX: (307) 766-2807

Web site: www.uwyo.edu/chemistry

Department Head: Debashis Dutta

Professors:

DAVID T. ANDERSON, B.S. George Washington University 1987; Ph.D. Dartmouth College 1993; Professor of Chemistry 2012, 2000.

FRANCO BASILE, B.S. University of Wisconsin-Eau Claire 1986; Ph.D. Purdue University 1992; Associate Professor of Chemistry 2009, 2003.

EDWARD L. CLENNAN, B.S. University of Wisconsin-River Falls 1973; Ph.D. University of Wisconsin-Madison 1977; Professor of Chemistry 1989, 1979.

DEBASHIS DUTTA, B. Tech Indian Institute of Technology 1998; Ph.D. University of Notre Dame 2003; Professor of Chemistry 2017, 2006.

BRUCE A. PARKINSON, B.S. Iowa State University 1972; Ph.D. California Institute of Technology 1977; Professor of Chemistry 2008.

Associate Professors:

JOHN O. HOBERG, B.A. Jamestown College 1984; Ph.D. Montana State University 1990; Associate Professor of Chemistry 2004.

ELLIOTT HULLEY, B.S. Ursinus College 2005; Ph.D. Cornell University 2011; Assistant Professor of Chemistry 2014.

TERESA LEHMANN DELLA VOLPE, B.S. Universidad Central de Venezuela 1987; Ph.D. University of Minnesota 1997; Associate Professor of Chemistry 2014, 2008.

BRIAN M. LEONARD, B.S. University of Nebraska at Kearney 2003; Ph.D. Texas A&M 2008; Associate Professor of Chemistry 2016, 2010.

JING ZHOU, B.S. Xiamen University 1997; Ph.D. University of South Carolina 2004; Associate Professor of Chemistry 2013, 2007.

Assistant Professors:

CALEB M. HILL, B.S. Jacksonville State University 2009; Ph.D. University of Alabama 2014; Assistant Professor of Chemistry 2016.

LAURA RITA DE SOUSA OLIVEIRA, B.S. New Mexico Institute of Mining and Technology 2010; Ph.D. University of California, Riverside 2017; Assistant Professor of Chemistry 2020.

MICHAEL T. TAYLOR, B.S. Salisbury University 2006; Ph.D. University of Delaware 2013; Assistant Professor of Chemistry 2017.

Research Faculty:

NAVAMONEY ARULSAMY, B.Sc. Madurai-Kamaraj University, India 1982; M.Sc. 1986; Ph.D. University of Hyderabad, India 1991; Senior Research Scientist 2013, 2005.

ALEXANDER GORONCY, B.S. University of Bremen; Ph.D. University of South Carolina; Research Scientist 2015.

Adjunct Professors:

YURI DAHNOVSKY, Ph.D. Institute of Chemical Physics, Moscow 1983; Adjunct Professor of Chemistry 2001.

MAOHONG FAN, Ph.D. Osaka University 2003; Professor in SER and CEAS; Adjunct Professor in Chemistry 2009.

Senior Lecturer:

CARLA DEE BECKETT, B.S. University of Wyoming 1991; M.S. 2007; Senior Lecturer of Chemistry 2012, 2011.

RACHEL WATSON, Senior Lecturer in Chemistry

Assistant Lecturers:

KUI CHEN, B.Sc. Xiamen University 1997; Ph.D. University of South Carolina 2004; Assistant Lecturer of Chemistry 2019.

GINKA S. KUBELKA, M.S. University of Wuerzburg, Germany 2010; Ph.D. University of Wyoming 2015. Assistant Lecturer of Chemistry 2016.

Professors Emeritus:

Vernon Archer, Daniel A. Buttry, Keith T. Carron, Robert Corcoran, Clyde Edmiston, Anthony Guzzo, Suzanne Harris, Robert Hurtubise, David Jaeger, John Maurer, E.G. Meyer, David A. Nelson, Dean M. Roddick

Senior Lecturer Emeritus:

Patricia A. Goodson

Chemistry is one of the fundamental physical sciences dealing with the structure and properties of matter, along with changes that matter undergoes. Chemistry's scope encompasses all substances, living and non-living. Its study and practice include (1) the theoretical and experimental aspects of chemical bonding and structure using computational, spectroscopic, and diffraction techniques; (2) the laboratory synthesis from simple starting materials of desirable compounds in the inorganic, organic and biological classes; and (3) the total analysis of complex mixtures using modern spectroscopic and electrochemical methods. Since we live in a material world, applications of chemical knowledge influence most areas of human endeavor: scientific, economic, political and social. Many of the advances in the areas of new materials, medicines, biotechnology, food production, new energy sources and semiconductor technology associated with the "computer revolution" are based on chemistry and chemical principles. Some understanding of these chemical principles should be part of every educated person's knowledge.

Because of the broad scope of this discipline, the Department of Chemistry offers a variety of courses and programs. These programs meet the needs of students planning professional careers in chemistry and those wishing to major in chemistry for other objectives. In particular, chemistry is a traditional preprofessional major for students interested in medicine and dentistry. Specific courses are offered to serve other major areas and as part of University Studies and A&S core requirements.

Students who have taken an AP examination and have received a score of 4 or 5 may receive credit for CHEM 1020 and CHEM 1030.

Undergraduate Minor

A minor is offered in the Department of Chemistry. Further information may be found at the web site www.uwyo.edu/chemistry.

Graduate Study

The Department of Chemistry offers programs leading to the degrees of master of science and doctor of philosophy chemistry. The master's degree is offered mainly under Plan A with Plan B reserved for special circumstances.

The department also participates in the preparation of students for the degrees of master of science in natural science and master of science in teaching (M.S.T.), which are designed to improve the competence of those engaged in science teaching.

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of Chemistry requires that a student have taken the following undergraduate courses: one year of general chemistry; one semester/quarter of quantitative analysis; one year of organic chemistry plus laboratory; one year of physical chemistry plus laboratory; one year of physics; and mathematics through multivariable calculus. As appropriate, one or more of these course requirements may be waived at the discretion of the department.

Department of Communication and Journalism

223 Ross Hall, (307) 766-3122

FAX: (307) 766-5293

Web site: www.uwyo.edu/COJO

Department Chair: Cindy Price Schultz

Professor:

TRACEY OWENS PATTON, B.A. Colorado State University 1993; M.A. 1996; Ph.D. University of Utah 2000; Professor of Communication and Journalism 2012, 2003.

Associate Professors:

CHIA FANG (SANDY) HSU, B.A. Chinese Culture University 1995; M.A. Washington State University 1997; Ph.D. Washington State University 2002; Associate Professor of Communication and Journalism 2009, 2003.

KRISTEN D. LANDREVILLE, B.S. University of Florida 2004; M.A. 2006; Ph.D. Ohio State University 2010; Associate Professor of Communication and Journalism 2017, 2010.

LI LI, B.A. Hebei Normal University 2001; M.A. China University of Mining and Technology 2004; M.A. Ohio University 2009; Ph.D. 2012; Associate Professor of Communication and Journalism 2019, 2012.

CINDY J. PRICE SCHULTZ, B.A. University of Sioux Falls 1989; M.S. South Dakota State University 1992; Ph.D. Southern Illinois University 2000; Associate Professor of Communication and Journalism 2005, 1999.

Assistant Professor:

KATHRYN (KAATIE) COOPER, B.S. Trinity University 2008; M.A. Ohio State University 2013; Ph.D. 2018; Assistant Professor of Communication and Journalism 2019.

Senior Lecturers:

BEAU BINGHAM, B.S. Idaho State University 2000; M.A. New Mexico State University 2002; Senior Lecturer of Communication and Journalism 2007, 2003.

JUSTIN STEWART, B.A. University of Wyoming 2003; M.A. 2005; Senior Lecturer of Communication and Journalism 2017, 2005.

Assistant Lecturers:

MATTHEW LIU, B.A. University of Mary Washington 2009; M.A. Wake Forest University 2014; Assistant Lecturer of Communication and Journalism 2019.

MITZI STEWART, B.A. University of Wyoming 2007; M.A. 2015; Assistant Lecturer of Communication and Journalism 2019.

Emeriti:

Michael R. Brown, B. Wayne Callaway, William C. Donaghy, George A. Gladney, John W. Ravage, Kenneth L. Smith

The Department of Communication and Journalism provides a broad range of professional and research courses, offering a sound interdisciplinary academic program for students who plan careers in communication or media. Courses are comprised of writing, speaking and analyzing messages; forms of interpersonal communication; media effects and audiences' interpretations of media messages and images. Degrees are granted in communication and journalism with academic specialties in each of the degree areas. Students are given academic preparation in communication skills (media writing and public speaking), coupled with opportunities for professional experience in their majors. The department also offers minors in public relations, communication, journalism, and marketing communication.

Facilities and Research Activities

The department encourages majors to work actively in professional opportunities. The department offers unique experience for students with the student newspaper, *The Branding Iron*.

Oral Communication Center, Ross Hall 442. A resource for the entire university community. The lab is open for anyone required to present material orally. Lab instructors offer assistance at any stage in the process—from topic selection, purpose statements and gathering materials—to organizing, outlining and rehearsal. They can help alleviate speech anxiety that may prevent or inhibit some individuals from achieving their overall academic or career goals. Clients can have their presentations recorded for critical input and evaluation as well as for portfolio or interview applications.

Debate. The department conducts a nationally recognized program of Cross Examination Debate Association (CEDA) and has a British Parliament team. Teams and individuals representing the university attend national intercollegiate tournaments each year. Participation in the forensics program is open to all University of Wyoming students on a credit (COJO 2099) or non-credit basis.

Laboratories. The department has computer laboratories that support the professional, academic and research programs. These include a computer lab and digital production equipment.

Research. The department encourages undergraduate and graduate research. Faculty and students participate in research projects in social, cultural and political aspects related to media, interpersonal and organizational processes.

Internships. Journalism majors are required to complete internships in their field. Communication majors are encouraged to complete internships in their field. In addition to working with the *Branding Iron*, students can complete internships with newspapers; advertising and public relations agencies; non-profit organizations; businesses, professional and university sports organizations; governmental agencies; and many others. *Note:* a maximum of 6 hours in COJO 3480 and COJO 4990 count as fulfillment of the requirements for a major. Up to 12 hours will count toward graduation as upper-division hours.

Student Organizations

Professional Organizations. The department has a chapter of Lambda Pi Eta, communication honorary.

Student Activity. Within the department, student representatives participate on faculty committees where they assist in forming policies of the department.

The Branding Iron. The daily campus newspaper is independently managed by students at UW. It provides professional experiences for reporting, editorial, photojournalism, publication design and advertising.

The Owen Wister Review. The literary and arts magazine is independently managed and produced by university students, it features poetry, short stories, essays, photography and artwork.

Frontiers Magazine. The magazine is independently managed by UW students. Containing general interest content, the publication offers students opportunities to improve their professional skills in feature writing, in-depth reporting, photography, layout, design, advertising and marketing. Like the *Branding Iron* and *Owen Wister Review*, *Frontiers* is published under the auspices of UW Student Publications.

Scholarships and Awards

The department has several scholarships available to qualified students. Most are managed by Student Financial Aid.

Undergraduate Programs

The department offers courses leading to baccalaureate degrees in communication and journalism.

Students majoring in the department must earn a grade of C or better in departmental required courses. Students may not take a course for S/U credit to satisfy requirements of the major.

Minors

The department offers minors in communication, journalism, marketing communication, and public relations. All minors must have a 2.000 minimum in minor classes. If a student is a communication or journalism major, only six credits can double count for the major and the minor.

Graduate Study

The Department of Communication and Journalism offers graduate work leading to the master of arts degree in communication (either thesis or non-thesis) with emphasis on human communication or media communication.

The program offers coursework and study in rhetorical, critical/cultural, and social scientific perspectives and methodologies. The program is designed to be flexible such that students can examine questions that relate to their specific interests in human communication and/or mediated communication. Areas of interest include but are not limited to 1) communication processes in media (e.g., journalism, social media, advertising, public relations) about various issues such as politics, race and ethnicity, science, health, law and ethics, and international relations; 2) communication processes in human relationships (e.g., in interpersonal, small group, and organizational settings) about various issues such as culture, diversity, education, technology, science, and politics; and 3) communication as an agent of stability and change in diverse social systems.

Program Specific Admission Requirements

A cumulative minimum grade point average of 3.000 (A=4.000) on previous coursework is required for full admission.

The GRE is not required for admission to the graduate program. However, anyone who wants to be considered for a graduate assistantship in the department must take the GRE.

For international graduate students, the minimum acceptable TOEFL score is 540 (76 iBT). The minimum acceptable IELTS score is 6.5. International students must also provide proof of financial support (see UW Admissions for more details).

All graduate student applications, both domestic and international, must provide a writing sample of their work, whether that is a research paper, media publication, or another example of scholarly work. Please contact the director of graduate studies with any questions about the writing sample.

Department of Criminal Justice and Sociology

Criminal Justice

**208 Arts and Sciences Building,
(307) 766-2988**

Web site: www.uwyo.edu/cj

Department Head: Eric Wodahl

Professor:

ADRIENNE FRENG, B.A. Black Hills State University 1995; M.A. University of Nebraska 1997; Ph.D. 2001; Professor of Criminal Justice 2007, 2001.

ERIC J. WODAHL, A.A. Eastern Wyoming College 1992; B.A. Chadron State College 1994; M.P.A. University of Wyoming 2003; Ph.D. University of Nebraska at Omaha 2007; Professor of Criminal Justice 2021, 2007.

Associate Professor:

LAUREN McLANE, B.S. Radford University 2002; J.D. Seattle University School of Law 2008; Associate Professor of Law 2021, 2018.

JAMIE SNYDER, B.S. Northern Kentucky University 2005; M.S. University of Cincinnati 2007; Ph.D. 2011; Associate Professor of Criminal Justice 2021, 2018.

Assistant Professor:

KATELYN GOLLADAY, B.B.A. Pacific Lutheran University 2012; M.S. Arizona State University 2014; Ph.D. 2018; Assistant Professor of Criminal Justice 2018.

KIMBERLY SCHWEITZER, B.S. University of North Dakota 2010; M.S. University of Wyoming 2013; Ph.D. 2016; Assistant Professor of Criminal Justice 2016.

CLAIR WHITE, B.A. Colorado State University 2009; Ph.D. Arizona State University 2015; Assistant Professor of Criminal Justice 2018.

Assistant Lecturer:

DANIEL FETSCO, B.A. University of Wyoming 1995; J.D. University of Denver 1998; M.A. Arizona State University 2013; Assistant Lecturer of Criminal Justice 2017.

Adjunct Professor:

(See Catalog section following name for academic credentials.)

Robert A. Schuhmann, political science

Students majoring in criminal justice will be involved in a critical examination of the sources of criminal behavior and the social and political institutions and processes designed to control criminal behavior. Criminal Justice majors are offered at the University of Wyoming campus in Laramie, as well as through on-line delivery.

We expect that our graduating students will have (1) acquired an accurate knowledge base relating to crime in modern society to include the elements of major crime, the extent of crime, and its distribution in society; (2) will possess a broad historical and contemporary understanding of the institutions that make up our criminal justice system, the interconnectedness of these institutions, and the related issues of diversity and discrimination; (3) will have developed an understanding of the major legal principles that serve as the foundation for criminal law and the processing of individuals through the justice system, as well as the difficult situations and ethical dilemmas they will face in the criminal justice field; (4) will understand and apply basic concepts and theoretical perspectives in criminology and criminal justice; (5) will possess the ability to access, comprehend, and critically examine research and policy relevant to the field of criminal justice and criminology, including understanding basic research methodology.

Undergraduate Major

Students pursuing a B.A. in criminal justice must fulfill university studies and college requirements as listed in this Catalog, satisfy required prerequisites to courses in the major program, and complete a minimum of 40 credit hours in the major. Only courses in which a grade of C or better has been earned may be used to satisfy major requirements.

Foundation Courses:	Hrs.
CRMJ 1001	3
CRMJ 2210	3

CRMJ/SOC 2400	3
CRMJ 2685	4
CRMJ 3110	3
CRMJ 3350	3
CRMJ 3490	3
CRMJ 4200	3

Crime and Deviance **Hrs.**
(2 courses, total 6 hours)

CRMJ/SOC 3250.....	3
CRMJ/SOC 3400.....	3
CRMJ 3500.....	3
CRMJ 4151.....	3
CRMJ 4260.....	3
CRMJ/INST/POLS/SOC 4705.....	3

Criminal Justice Institutions & Processes **Hrs.**
(2 courses, total 6 hours)

CRMJ 4130	3
CRMJ 4140	3
CRMJ 4150.....	3
CRMJ 4280	3
*CRMJ 4750.....	3
CRMJ 4860.....	3

* only three credit hours of CRMJ 4750 can be used to fulfill this category

Supporting Courses
(three credit hour course; or 1 additional course
from Crime & Deviance or Criminal Justice
Institutions & Processes categories): **Hrs.**

CRMJ/POLS 4110	3
CRMJ/ANTH 4230	3
CRMJ/SOC 4350.....	3
CRMJ/PSYC 4370.....	3
CRMJ/GWST 4540.....	3

CMRJ/POLS 4600	3
CRMJ/PSYC 4730	3
CRMJ 4750.....	1-12
CRMJ/PSYC 4760	3
CRMJ 4965	1-6
CRMJ 4975	1-3
CRMJ 4990	1-3

In addition to the above required courses, it is required that students take POLS 1000, STAT 2050 or 2070, one lab science, and two semesters of the same foreign language. A grade of C or better must be earned to satisfy these additional requirements. Upper division course work that was completed more than ten years prior to graduation will not meet major requirements.

Pre-Law Concentration

The Department of Criminal Justice offers a Pre-Law Concentration for Criminal Justice majors that consists of courses selected from several departments across the university. These courses were chosen to help prepare students for the challenges of law school and the practice of law. Students electing the Pre-Law Concentration are urged to seek advising early. Along with the 40 hours of criminal justice degree requirements, an additional 27 credit hours (18 of which must be 3000-level courses or above) must be earned for the PreLaw Concentration. All coursework must be completed with a grade of C or better to be counted toward the concentration.

Verbal Comprehension and Expression (min. of 3 hours)

COJO 2095 Persuasive Argumentation

COJO 3010 Business and Professional Communication

COJO 3160 Theory of Language and Society AGEC 4450 Negotiation

HIST 4515 American Legal History

Written Comprehension and Expression (min. of 6 hours)

Any two (2) courses with a USP designation of WC or COM3 may be counted in this area.

Critical Understanding of Human Institutions and Values (min. of 3 hours)

ECON 1020 Principles of Microeconomics

Undergraduate Minors

Criminal Justice Minor

A minor in criminal justice requires 18 semester hours in criminal justice. All courses must be completed with a grade of C or better. The required courses are: CRMJ 1001, CRMJ 2210, CRMJ/SOC 2400, CRMJ 3110, CRMJ 3350, and CRMJ 3490.

Interdisciplinary Pre-Law Minor

The minor requires 18 hours to be completed from among the following courses. Of these 18 hours, 12 must be upper division (3000 or 4000 level). In addition, 12 of the 18 hours must be outside the student's primary major, and none of these courses may be credited toward both the minor and the USP requirement. Complete one course from each of the following categories. All coursework must be completed with a grade of C or better to be counted toward the minor.

Language Comprehension & Expression (3 hours)

COJO 1030 Interpersonal Communication

COJO 2095 Persuasive Argumentation

COJO 3010 Business & Professional Communication

COJO 3160 Theory of Language & Society

COJO/ENGL 4061 Rhetorical Theory & Criticism

AGEC 4450 Negotiation

ANTH 4795 Language Change

Written Comprehension & Expression (3 hours)

Any course with a USP designation of C3 may be counted in this area. However, no C3 course may be counted twice toward fulfilling this category and the USP C3 requirement or another category within the prelaw minor.

Critical Understanding of Human Institutions & Values (3 hours)

POLS 2460 Intro to Political Philosophy

MGT 3110 Business Ethics

PHIL 3300 Ethical Theory

PHIL 3350 History of Moral Philosophy

PHIL 3500 History of Science

POLS/AMST/ENR/GEOG/REWM 4051 Environmental Politics

POLS 4090 Anglo-American Jurisprudence

FCSC 4113 Consumer Issues

AAST/COJO 4260 Rhetoric and Social Justice

PHIL 4300 Topics in Ethics

PHIL 4340 Issues in Environmental Ethics

Creative & Analytical Thinking (3 hours)

CW 2050 Intro to Fiction

CW 2060 Intro to Nonfiction

CW 2080 Intro to Poetry

PHIL 2420 Critical Thinking

PHIL 3140 Philosophy of Science

PHIL 3220 Existentialism and Phenomenology

PHIL 3420 Symbolic Logic

PHIL 3440 Philosophy of Mind

PHIL 3510 Intro to Epistemology

POLS 4840 Seminar in Public Law

Graduate Study

A criminal justice concentration within the master of public administration program is offered by the Criminal Justice program.

Program Specific Admission Requirements

Master of Public Administration Plan B (non-thesis)

Students wishing to enroll in the M.P.A. with criminal justice concentration must first be admitted into the M.P.A. program. See M.P.A. program admission requirements for specific details.

Program Specific Degree Requirements

Master of Public Administration Plan B (non-thesis)

The M.P.A. with criminal justice concentration curriculum consists of 39 credits including: core (7), option-core (2) and criminal justice (4) courses. Students may complete the degree within two years fulltime or approximately three-four years parttime. Courses are offered through distance education, which allows students to complete their degree in their community while working full-time.

Required Core Courses

POLS 5000 Survey of Public Administration

POLS 5400 Public Personnel Management

POLS 5410 Administrative Behavior & Theory of Organizations

POLS 5440 Principles & Processes of Government Budgeting

POLS 5510 Public Policy and Program Management

POLS 5684 Empirical Analysis for Public Administration

POLS 5690 Capstone in Public Management

Option-Core Courses

All MPA students are required to choose two courses designated as option core credit, defined as courses relating to more specific focuses on public administration and taught by MPA faculty members.

*Criminal Justice Concentration**Courses Required Criminal Justice Concentration Courses*

CRMJ 5000 Survey of Criminal Justice

CRMJ 5100 Public Policy and Crime

Elective Criminal Justice Concentration Courses

(students must select two of the following courses)

CRMJ 5151 Crime Causation CRMJ 5280 Comparative Criminal Justice

CRMJ 5500 Internship in Criminal Justice*

CRMJ 5860 Social Inequality, Crime, and Criminal Justice

*Students with little or no administration and/or criminal justice professional experience must enroll in CRMJ 5500 as one of their electives.

Additional Requirements

In addition to graduate coursework, M.P.A. students must complete a series of papers constituting the Plan B project. It is the purpose of POLS 5690, Capstone in Public Management, to be a framework within which students initiate and substantially complete their Plan B projects.

Following the completion of all other requirements, the M.P.A. student is required to pass a comprehensive oral examination covering the information contained within his/her program of study as well as a defense of the Plan B projects. The oral examination is also conducted within the framework of the POLS 5690 Capstone course.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/ electronic class discussion.

Students must maintain a graduate GPA of 3.000.

Students must complete the CAPP program in lieu of a program of study.

Sociology

208 Arts & Sciences, (307) 766-2988

Web site: www.uwo.edu/Sociology

Department Head: Eric Wodahl

Professors:

MALCOLM D. HOLMES, B.A. University of Texas at El Paso 1974; M.A. 1976; Ph.D. University of Texas at Austin 1982; Professor of Sociology 1999, 1991.

Assistant Professor:

DANIEL AUERBACH, B.S. St. Lawrence University 2008; M.S. North Carolina State University 2012; Ph.D. University of Utah 2020; Assistant Professor of Sociology 2020.

JENNIFER TABLER, B.A. University of California Los Angeles 2010; M.S. University of Utah 2013; Ph.D. 2016; Assistant Professor of Sociology 2018.

Assistant Professional Lecturer:

KAITLYN ROOT, B.A. Western Washington University 2012; M.A. University of Akron 2017; Ph.D. 2020; Assistant Professional Lecturer 2020.

Professors Emeriti:

David Ashley, Audie Blevins, Gary Hampe, Quee-Young Kim, Richard Machalek

Sociology is the scientific study of group life and the investigation of the social causes and consequences of human behavior. This discipline occupies a central position in the social sciences and covers the full scope of social behaviors from intimate interactions between individuals to relationships among entire societies. Most importantly, sociology invites students to analyze

those features of social existence that we are most likely to take for granted. As such, sociological training imparts critical and analytical skills of great value in virtually all aspects of modern life.

Much of the applied knowledge employed in diverse fields such as communications, social work, business management, family life, health care, urban planning, government, education, religion and the administration of justice derives from basic sociological research. Consequently, sociological training provides an excellent background for occupations connected with these fields. In addition, an undergraduate degree in sociology prepares many students for advanced study in law, education, business, public administration, social work, pastoral work, health care and other professions.

The department provides a comprehensive sociology education both for students who elect to terminate their formal education with the B.A. and for those who plan to pursue advanced degrees in sociology or a related social science. Fundamentally, however, the department aspires to prepare students for informed participation in an increasingly complex world.

Undergraduate Major

In addition to University and College requirements, the following are minimum requirements for the undergraduate major in sociology leading to the Bachelor of Arts degree.

Thirty-four credit hours are required to earn a major in sociology. These courses are listed below. This includes 13 hours of required Foundation Courses, 12 hours of Core Courses, and 9 hours of sociology elective courses. Grades of "C" or better must be earned in all 34 hours of coursework in order to be counted toward the major.

Foundation Courses

SOC 1000	3
SOC/STAT 2070 or STAT 2050	4
SOC 3180	3
SOC 4715	3

Total Foundation Hrs 13

Core Courses:

Complete four courses from the following list:

SOC 2350	3
SOC 3110	3
SOC 3140	3
SOC 3200	3
SOC/CRMJ 3400	3
SOC 3500	3
SOC 3550	3
SOC 3605	3

SOC 3640	3
SOC 3880	3
SOC/INST 3910	3
SOC/INST 4370	3

Total Core Hrs. 12**Elective courses:**

Complete 9 additional hours of sociology courses. Electives may be used either to develop additional expertise in an area of interest or to broaden the student's sociological training.

Undergraduate Minor

The sociology minor requires a total of 18 sociology credits including SOC 1000. At least 9 of these 18 hours must be upper-division sociology credits. Only grades of C or better can be counted toward the minor. Also, students seeking a minor must have 12 credit hours exclusive to the minor and not counted toward their major.

Honors in Sociology

Sociology majors with a 3.200 overall GPA, a 3.500 GPA in sociology courses and one 5000-level sociology course graduate with honors in sociology. The department also nominates students for membership in Alpha Kappa Delta, the international honorary society for sociology. Selection is based on academic excellence.

Department of English

201 Hoyt Hall, (307) 766-6452

Department Chair: Kelly Kinney

Professors:

SUSAN ARONSTEIN, B.A. Seattle Pacific University 1980; M.Sc. Edinburgh University 1984; Ph.D. Stanford University 1987; Professor of English 2006, 1987.

SUSAN C. FRYE, B.S. Smith College 1974; M.A. University of New Mexico 1981; Ph.D. Stanford University 1986; Professor of English 2001, 1986.

CAROLINE McCracken-Fletcher, M.A. University of Edinburgh 1980; M.A. Brown University 1986; Ph.D. 1989; Professor of English 2004, 1989.

Associate Professors:

CAROLYN ANDERSON, B.A. Auckland University 1981; M.A. 1984; Ph.D. Stanford University 1992; Associate Professor of English 2001, 1993.

KENT G. DRUMMOND, B.A. Stanford University 1980; M.B.A. Northwestern University 1982; Ph.D. University of Texas, Austin 1990; Associate Professor of English 2019, 1990.

MICHAEL EDSON, B.A. Virginia Tech University 2003; M.A. University of Delaware 2005; Ph.D. 2011; Associate Professor of English 2020, 2014.

SCOTT HENKEL, B.A. Western Michigan University 1997; M.A. Ohio University 2000; Ph.D. Michigan State University 2007; Associate Professor of English 2018, 2015.

KELLY KINNEY, B.A. Purdue University 1992; M.A. University of Nebraska-Omaha 1996; Ph.D. Ohio University 2005; Associate Professor of English 2015.

MICHAEL KNIEVEL, B.A. Creighton University 1995; M.A. 1997; Ph.D. Texas Tech University 2002; Associate Professor of English 2009, 2002.

CLIFFORD J. MARKS, A.B. University of Michigan 1983; M.A. State University of New York, Buffalo 1988; Ph.D. 1992; Associate Professor of English 2000, 1993.

JULIA OBERT, B.A. University of Western Ontario 2004; M.A. University of British Columbia 2006; Ph.D. University of California, Irvine 2011; Associate Professor of English 2016, 2011.

PETER PAROLIN, B.A. University of British Columbia 1988; M.A. University of Pennsylvania 1991; Ph.D. 1997; Associate Professor of English 2003, 1997.

CHRISTOPHER CASKEY RUSSELL, B.A. Western Washington University 1993; M.A. 1996; Ph.D. University of Oregon 2001; Associate Professor of English 2009, 2004.

JASON THOMPSON, B.A. Pacific Lutheran University 1996; MFA University of Arizona 2000; Ph.D. 2008; Associate Professor of English 2015, 2008.

ARIELLE ZIBRAK, B.A. University of Rochester 2003; M.A. Boston University 2007; Ph.D. 2013; Assistant Professor of English 2020, 2014.

Assistant Professors:

NANCY SMALL, B.A. Texas A&M University 1992; M.A. 1994; Ph.D. Texas Tech University 2014; Assistant Professor of English and Director of Writing Programs 2017.

JAMES CREEL, B.A. University of Wyoming 2007; M.A. 2011; Ph.D. Texas Christian University 2018; Assistant Lecturer Professor of English 2021.

Senior Lecturers:

PAUL BERGSTRAESSER, B.A. Oberlin College 1989; M.A. Northern Michigan University 2000; Ph.D. University of Illinois, Chicago 2007; Senior Lecturer in English and Creative Writing 2018, 2007.

APRIL HEANEY, B.A. University of Wyoming 1998; M.A. 2000. Senior Lecturer in English and Creative Writing 2015, 2005.

VAL PEXTON, B.A. Humboldt State University 1986; B.A. University of Wyoming 1998; M.A. 2001; M.F.A. 2008; Senior Lecturer in English and Creative Writing 2018, 2009.

JOYCE STEWART, B.A. Felician College 1994; M.A. Creighton University 1998; Senior Lecturer in English 2018, 2008.

Associate Lecturer:

RICK FISHER, B.A. University of Wyoming 2002; M.A. 2006; Ph.D. 2018; Senior Lecturer in English 2020, 2015, 2011.

Assistant Lecturers:

ASHLEY M. BURCHETT, B.A. The College at Southeastern 2016; M.A. North Carolina State University 2018; Assistant Lecturer in English 2019.

RACHELLE R. GREER, B.S. University of Wyoming 1989; M.P.A. 1992; Ph.D. Iowa State University 2011; Assistant Lecturer in English 2019.

Study in the English department today emphasizes composition, literature, and rhetoric, creative and expository writing, and the nature and workings of language. Students in the department's programs can learn to read with pleasure and understanding, to write with grace, clarity and force, and to think with greater depth and breadth. With these accomplishments, students are prepared for lives and work in which their power to understand, read, write and communicate will serve themselves and others, some specifically in careers in writing or teaching, some in professions of law, medicine, administration or almost any other field.

Composition, Literature, and Rhetoric are traditions that reach back through the centuries, but these intellectual traditions are continually growing and changing. New theories of language help us reshape understandings of ancient traditions and enhance our lives as critical readers and writers and creative human beings.

Assessment of English Undergraduate Learning

Through an active and ongoing assessment of our program, we have identified the following outcomes that are expected of each student graduating with a Bachelor of Arts in English. We will continue to assess our curriculum to ensure these outcomes are being met:

UW students graduating with a Bachelor of Arts in English will have demonstrated an ability to:

1. Read, interpret, and write about a diverse range of texts in English, for example literature, film, digital media, and popular culture;
2. Understand those texts analytically and critically;
3. Understand those texts on the basis of careful close reading;
4. Understand those texts through past and current literary and rhetorical theory;
5. Understand that those texts are culturally constructed in time, place, and tradition;
6. Understand how those texts inform culture;
7. Participate in the critical and cultural discourses of English;
8. Participate clearly and appropriately through multiple spoken and written forms.

English Honors Program

Requires a 3.500 GPA and a senior honors paper and defense. See the English department web site for information.

Teacher Certification

Students seeking the B.A. in English may also be certified for public school teaching by completing additional requirements set forth by the College of Education, via a concurrent major in English and English Education.

Graduate Study

The M.A. graduate program in English offers three concentrations leading to the master of arts degree: Literary Studies, Composition and Rhetoric, and Public Humanities.

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of English requires that students demonstrate by means of an official transcript that they have a solid undergraduate record with course work in English. That said, the department welcomes degrees in English or other disciplines from four-year colleges or universities.

Depending on their undergraduate preparation, some successful applicants may be required to take additional or specific courses toward the English master's degree.

Candidates must submit GRE general test scores, a writing sample, a 500-word statement of purpose, a CV/resume, and three letters of recommendation.

English offers both a campus-based M.A. degree and a low-residency/online M.A. degree. Students should consult the M.A. web site or contact the department for specific admission information and deadlines for both M.A. programs.

Program Specific Graduate Assistantships

Teaching assistantships are available to qualified applicants in the campus-based M.A. degree. Full assistantships carry an annual stipend and a remission of full-time tuition and fees, and require the teaching of one course per term.

Each fall the department conducts a week-long orientation for new teaching assistants and a subsequent series of colloquia for all graduate assistants. Each assistant is assigned an experienced teacher in the department as a mentor, to be available throughout the semester for consultation on teaching and grading techniques.

ZOE PEARSON, B.A. University of California Los Angeles 2005; M.A. Ohio State University 2010; Ph.D. 2016; Associate Professor of Geography and International Studies 2021, 2016.

The Geography Program is comprised of faculty from across the University of Wyoming campus with interests and expertise in geography and resource management. The program is transdisciplinary with a focus upon the following:

1. The origin and nature of the physical and cultural environment, how the physical environment and its natural resources form, and how the environment and natural resources affect the quality of life.
2. The ways in which people and institutions affect natural resources and the environment.
3. The ways in which human institutions (e.g. political, economic, social) interact to produce diverse human landscapes.

Learning

The Geography Program has identified four fundamental goals of geography to emphasize in its undergraduate curriculum. These four goals are at the intersection of topically important areas in the discipline of geography. We continue to evaluate student learning in our program to insure our curriculum addresses these fundamental goals as effectively as possible.

Goal 1 - Human-Environment Interaction

Students will be able to identify and explain how humans modify the environment and affect Earth's biophysical systems through their human activities.

Goal 2 - Biophysical Systems

Students will be able to identify and explain an array of patterns, processes, and interactions in Earth's biophysical systems occurring at different spatial scales.

Goal 3 - Human-Cultural Systems

Students will be able to identify and explain an array of patterns, processes, and interactions across Earth's human landscapes at different spatial scales.

Goal 4 - Geographic Thought, Methods and Analysis

Students will understand basic geographic concepts and ideas, and will be capable of using them to inform their work. Students will also demonstrate the ability to select and use appropriate tools and techniques for addressing geographic problems and conducting geographic analysis. They will also be able to use multiple methods to examine, represent, and visualize Earth and its geographic characteristics.

Undergraduate Major

In addition to course work required by the university and the college, majors must complete 40 hours of program requirements, all of which must be completed with a grade of C or above, of which at least 15 credits will be 3000-4000 level courses within the selected competencies. All Geography degree students will complete a topical language requirement. Students completing a B.S. degree will need to complete two semesters of a computational or science language (computer programming language, mathematical language or science courses are acceptable) and one additional mathematical, statistical, or science class above the USP Q or PN requirement. Required courses (11 credit hours) include GEOG 1000 or 1020, 1010 or GEOL 1070, and GIST 1100 or GIST 2150. In addition, students are required to complete at least two courses each in Societal and Scientific Competencies and one additional Spatial Competency course. Beyond these requirements students are able to select from any Societal, Scientific, Spatial or Transdisciplinary course listed to complete a total of 40 hours for the B.S. Degree. Courses used to meet program requirements should be discussed with a faculty advisor.

* USP Human Culture: A single language must be taken for two semesters to fulfill the eight hour foreign language requirement for the program. Students taking American Sign Language to fulfill the language requirement of the major will have to take other courses to fulfill the USP H requirements. Can substitute computer programming but it does not fulfill the USP H requirement; consult with an academic advisor.

Undergraduate Minor

The program offers a minor in geography. Credit requirements range from 18-20 hours of required and elective courses, all of which must be completed with a grade of C or above. Information on the minor program is available on the Geography Program website.

Environment and Natural Resources

The program offers a concentration in the university's interdisciplinary program, Environment and Natural Resources. A description of the concentration requirements is available online at the ENR website.

Assistant Professors:

JAMES CHAPMAN, B.S. College of William and Mary, 2003; M.S. University of Texas at El Paso, 2008; Ph.D. University of Arizona, 2018; Assistant Professor of Geology and Geophysics 2018.

SIMONE RUNYON, B.S. Illinois State University 2007; M.S. University of Arizona 2013; Ph.D. 2017; Assistant Professor of Geology and Geophysics 2018.

Research Scientists:

BRADLEY CARR, B.S. University of Wisconsin-Madison 1987; Ph.D. University of Wyoming 1995; Associate Research Scientist Senior 2017, 2013.

KEVIN R. CHAMBERLAIN, B.A. Colgate University 1979; Ph.D. Washington University 1990; Research Professor 2004, 1990.

JANET C. DEWEY, B.S. Mississippi State University 1990; M.S. Auburn University 1993; Associate Research Scientist 2017, 2011.

LAURA VIETTI, B.S. University of Wyoming 2006; Ph.D. University of Minnesota 2014; Assistant Research Scientist 2015.

Adjunct Professors:

Sarah Aciego, Vladimir Alvarado, Erin Campbell, Barbara Carrapa, Carrick Eggleston, Eric Erslev, Peter H. Hennings, W. Steven Holbrook, Ranie Lynds

Professors Emeriti:

James I. Drever, William E. Frerichs, B. Ronald Frost, Carol D. Frost, Robert R. Howell, Jason A. Lillegraven, Ronald W. Marrs, Randi Martinsen, James E. McClurg, Scott B. Smithson, Arthur W. Snoke, Ronald C. Surdam, Susan M. Swapp

Geology is the study of the origin, history and structure of the earth. Our undergraduate offerings encompass virtually every aspect of the science, with emphasis on current theory, methods, and applications. The philosophy of the department is to provide sound training in both theory and field observation, and to couple this background with a thorough education in modern laboratory, quantitative, and field techniques required for an understanding of geologic processes.

The setting of the university in the Rocky Mountains is ideal because some of North America's most outstanding geologic features are within a short drive of campus. The semiarid climate in Wyoming has resulted in excellent exposures of diverse rock types ranging in age from Precambrian to Recent. Deformation of the rocks in the region has been extensive, affording the student a field laboratory that exhibits a wide diversity of styles of faulting and folding. Mineral deposits, petroleum resources, and coal abound in the region.

Undergraduate Majors

The Bachelor of Science in geology is designed for those students who intend to become professional geologists and/or those who plan to attend graduate school in geosciences. The program includes courses normally expected of graduate school applicants, including a summer field camp and courses in related sciences and mathematics. This degree program prepares students for the examination for the professional geologist license.

The Bachelor of Arts in geology and Earth sciences is specifically designed for undergraduates who wish to study Earth sciences as a foundation for careers in a variety of areas, such as environmental law, natural resource business, land use planning, Earth science education, science journalism, and many governmental positions. The B.A. program includes a broad spectrum of courses, and focuses both on information about the Earth and on how society makes decisions that affect the Earth system.

The Bachelor of Science in Environmental Geology and Geohydrology is designed for those students who intend to become professionals in environmental fields such as consulting, site assessment, hazard assessment, and remediation. The degree will prepare students for graduate school in environmental disciplines and for entry-level jobs.

Majors in any of the degree programs above may also choose to declare an affiliated degree with the School of Environment and Natural Resources by completing degree requirements for both degrees. Students should consult the section on the School of Environment and Natural Resources.

The Department of Geology and Geophysics also participates in the Earth System Science interdisciplinary program by offering a concentration in geology for the B.S. degree in ESS. Students interested in this major should consult the section on Earth System Science for curriculum requirements.

Geology Program Objectives: Bachelor of Science

The primary mission of our B.S. geology program is to provide a quality educational experience that prepares men and women to enter careers in geology and related fields. We expect that our graduates should:

- Have the basic knowledge and skills demanded for entry-level competence in typical careers in earth science.
- Be able to apply basic scientific and technical knowledge to specific tasks and problems.
- Cultivate the specific scientific and technical skills that will allow them effectively to serve their employers and to enhance their own career development.
- Develop increased capacity in the skills of independent learning, critical thinking, problem definition, and problem solving.
- Develop enhanced numerical skills and computer literacy as part of an undergraduate program designed to deliver a current and relevant knowledge of their discipline.
- Communicate effectively and professionally through oral, written, and graphical means and to participate effectively in their workplace and in individual and team-related activities.
- Have the broad general education needed to appreciate the role of Earth Sciences in the societal context and appreciate the importance of ethics in the practice of the profession.

Geology Program Goals: Bachelor of Science

The department of Geology and Geophysics has the following specific goals for its B.S. program:

- Students in the B.S. program will receive a quality preparatory education in the discipline that is current, relevant, practical, and personal.
- B.S. students who graduate with appropriate grades will be able to compete successfully for positions at graduate schools nationwide.
- B.S. students who graduate with appropriate grades will be well prepared for entry-level positions as professionals within their and other related disciplines.

Geology Program Objectives: Bachelor of Arts

The primary mission of our B.A. geology program is to provide a broad educational experience that prepares men and women for careers in earth science-related fields. We expect that our graduate should:

- Have the basic knowledge and skills demanded for entry-level competence in typical careers in earth science related fields.
- Be able to apply their knowledge to specific situations or problems.
- Cultivate the skills and ethics that will allow them effectively to serve their employers and to enhance their own career development.
- Develop increased capacity for independent learning, critical thinking, and problem solving.
- Develop basic numerical skills and computer literacy as part of an undergraduate program designed to deliver a current and relevant knowledge of their discipline.
- Communicate effectively and professionally through oral, written, and graphical means and to participate effectively in the work environment, both in individual and team-related activities.

- Have the broad general education needed to appreciate the role of Earth Sciences in the societal context and appreciate the importance of ethics in the practice of the profession.

Geology Program Goals: Bachelor of Arts

The department of Geology and Geophysics has the following specific goals for its B.A. program:

- Students in the B.A. program will receive a broad preparatory education in earth science and related fields that is current, relevant, practical, and personal.
- B.A. students who graduate with appropriate grades will be able to compete successfully for positions at graduate schools nationwide.
- B.A. students who graduate with appropriate grades will be well prepared for entry-level positions in the geosciences and other related disciplines.

Required Academic Performance

In order to graduate with a Bachelor of Science or Bachelor of Arts degree in geology, the student must earn a letter grade of C (S where appropriate) or better in each course listed herein as part of the required course programs. This grade requirement applies to course work taken outside the department, as well as to transfer courses credited in lieu of resident requirements.

Undergraduate Minor

A minor in geology requires 18 hours of coursework in the Department of Geology and Geophysics. Students are required to take one GEOL 1000-level course; one GEOL 2000-level course; and fulfill remaining hours with GEOL 2000-level or higher courses in consultation with their adviser. A grade of C or better is required in each of these courses.

Graduate Study

The department offers instruction and research programs leading to master of science and doctor of philosophy degrees in both geology and geophysics and to the master of science in geology/water resources.

Program Specific Admission Requirements

All applicants must complete an online departmental application form with statement of intent. Forms are available from the Department of Geology and Geophysics Web site at www.uwyo.edu/geolgeophys.

Application deadline is January 15 of each year.

All applicants should have completed undergraduate coursework including mathematics through calculus, one year of chemistry, basic training in geology, and for most areas, one year of calculus-based physics.

Applicants to the geophysics graduate program should have an undergraduate degree in geophysics, geology, mathematics, physics, or engineering.

Applicants to the Ph.D. program, without a M.S. degree, must have attained an exceptional undergraduate record.

Formal approval of application by the departmental admissions committee.

Formal acceptance by an adviser.

Formal notice of admission by the university.

Program Specific Graduate Assistantships

All applicants to the geology and geophysics graduate program are considered for assistantships. Applicants are NOT required to complete the graduate assistant application form.

Program Specific Degree Requirements

Master of Science in Geology

Plan A (thesis) (26 hours of coursework and 4 hours of thesis)

Preliminary and initial advising shall take place upon acceptance to the graduate program to identify background deficiencies and develop a list of required deficiency coursework to be taken. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

GEOL 5020 Fundamentals of Research is required of ALL graduate students during the first semester of residence.

All graduate students in geology must complete two semesters of GEOL 5200 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All M.S. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure of this exam may result in dismissal from the graduate program.

The candidate's committee shall evaluate the thesis and conduct the final examination. The final exam is an oral presentation of the thesis, oral defense of thesis, and oral responses to questions relating to ancillary topics. Failure of this exam can result in dismissal. Retaking of the exam is subject to the discretion of the candidate's graduate committee.

Master of Science in Geophysics

Plan A (thesis) (26 hours of coursework and 4 hours of thesis)

Preliminary and initial advising shall take place upon acceptance to the graduate program to identify background deficiencies and develop a list of required deficiency coursework to be taken. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

GEOL 5020 Fundamentals of Research is required of ALL graduate students during the first semester of residence.

All graduate students in geophysics must complete two semesters of GEOL 5210 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All M.S. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure of this exam may result in dismissal from the graduate program.

The candidate's committee shall evaluate the thesis and conduct the final examination. The final exam is an oral presentation of the thesis, oral defense of thesis, and oral responses to questions relating to ancillary topics. Failure of this exam can result in dismissal. Retaking of the exam is subject to the discretion of the candidate's graduate committee.

M.S. candidates in geophysics must complete 6 hours of mathematics and three hours of physics or engineering courses at the graduate level.

M.S. candidates must take at least 12 hours of 4000- and 5000-level courses in geophysics. Recommended graduate level mathematics courses include differential equations, numerical analysis, and real and complex variables; in physics and

engineering they include classical mechanics, continuum mechanics, elasticity, electricity and magnetism. Substitutions for graduate-level geophysics courses may be made with the permission of the candidate's adviser. Remaining graduate-level course requirements may be made up from courses in physics, engineering, mathematics, and geology.

Doctor of Philosophy in Geology (42 hours of coursework and 30 hours of dissertation research)

Preliminary and initial advising will identify background deficiencies and develop a list of required deficiency coursework. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

Completion of GEOL 5020 Fundamentals of Research is required during the first semester of residence.

All graduate students in Geology must complete two semesters of GEOL 5200 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All Ph.D. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure to complete the exam by the end of the second semester in residence without an approved extension will result in suspension of the student's financial support, irrespective of the source of funding. Ph.D. students who fail the exam will be asked to withdraw from the graduate program or to enroll in the M.S. program.

The preliminary examination is administered following completion of 30 hours of 4000-level or higher coursework, not including independent study or research credits. Failure of this exam may, at the discretion of the thesis committee, lead to a re-examination during the following semester in residence, remedial work, or expulsion from the program.

The Ph.D. dissertation and its defense are described in the regulations section of this Catalog. Specific department examination requirements are available from the department office. The candidate's committee is responsible for monitoring progress of the research, refereeing the written work, and administering the final examination.

Doctor of Philosophy in Geophysics (42 hours of coursework and 30 hours of dissertation research)

Preliminary and initial advising will identify background deficiencies and develop a list of required deficiency coursework. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

All graduate students in geophysics must complete two semesters of GEOL 5210 Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

Completion of GEOL 5020 Fundamentals of Research is required during the first semester of residence.

Ph.D. candidates in geophysics must complete at least 6 additional hours of graduate level coursework: 3 in mathematics and 3 in physics or engineering. Recommended graduate-level mathematics courses include differential equations, numerical analysis, and real and complex variables; in physics and engineering, they include classical mechanics, continuum mechanics, elasticity, electricity and magnetism. Ph.D. candidates are required to take at least 12 hours of 5000-level geophysics courses exclusive of GEOL 5854. Substitutions for graduate-level geophysics courses may be made with the permission of the candidate's adviser. Remaining graduate-level course requirements may be made up from courses in physics, engineering, mathematics, and geology.

All Ph.D. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure to complete the exam by the end of the second semester in residence without an approved extension will result in suspension of the student's financial support, irrespective of the source of funding. Ph.D. students who fail the exam will be asked to withdraw from the graduate program or to enroll in the M.S. program.

The preliminary examination is administered following completion of 30 hours of 4000-level or higher coursework, not including independent study or research credits. Failure of this exam may, at the discretion of the thesis committee, lead to a re-examination during the following semester in residence, remedial work, or expulsion from the program.

The Ph.D. dissertation and its defense are described in the regulations section of this Catalog. Specific department examination requirements are available from the department office. The candidate's committee is responsible for monitoring progress of the research, refereeing the written work, and administering the final examination.

Master of Science in Geology/Water Resources and Master of Science in Geophysics/Water Resources

Please refer to the Water Resources section of the *Catalog* for degree requirements.

Eric D. Kohler, William H. Moore, Phil Roberts

History Program

History is a foundational discipline that blends the methodologies and perspective of the humanities and social sciences in order to engage with the history of human culture on a global scale. UW's History degree program emphasizes interdisciplinary teaching and research and provides course work, research experiences, and internships on both American and international topics. The History program offers a Bachelor of Arts degree major, minor, Public History Concentration, and a Master of Arts degree.

The study of History at the University of Wyoming provides students with the tools to comprehend the present in order to prepare for the future. Challenging courses are designed to facilitate critical thinking and the development of analytical skills. Each of our courses features the discussion of complex issues, the development of writing and reading skills, and is generally oriented toward promoting individual enrichment. The professional skills that the History program instills transcend our field and allow students to work toward a variety of career choices such as business, law, government service, public history, archives and museum work, education, management, writing, and graduate studies. The ability to develop perspective, render informed judgments, and function as productive citizens of the global community stand as hallmarks of our program.

Learning Outcomes

It is the goal of the History department that our graduates have the following skills and knowledge:

- Students shall be able to demonstrate thinking skills by analyzing, synthesizing, and evaluating historical information from multiple sources.
- Students will develop the ability to distinguish between fact and fiction while understanding that there is no one historical truth.
- Students will produce well-researched written work that engages with both primary sources and the secondary literature.
- Students will develop an informed familiarity with multiple cultures.
- Students will employ a full range of techniques and methods used to gain historical knowledge.
- Students will develop an ability to convey verbally their historical knowledge.
- Students will demonstrate their understanding of cause and effect along with their knowledge of the general chronology of human experience.

American Studies Program

American Studies explores American cultural experience past and present, through a wide range of approaches to American lives, places, arts, knowledges, communities, institutions, histories, and ideas. American Studies is an integrative field that comes from and adds to the context of our cultural lives in the U.S. and the U.S. in the world. American Studies frames present concerns with engagement with the past; expects us to engage people's experiences in the context of a diversity of experiences; and invites us to understand our own commitments and interests as valuable contributors to American cultural understanding. American Studies as a field depends on and adds to insights of scholars, artists, and scientists from virtually any field of expertise.

The American Studies program offers undergraduate B.A. and graduate M.A. degrees in American Studies, as well as courses of general interest to students in any degree.

Our program places special emphasis on studying American cultures through field experiences and internships: students apply academic knowledge and develop professional skills in community and non-profit organizations, historic preservation efforts and organizations, historic sites, museums and collections, among many possibilities. Every internship is developed in close consultation between the students and our Internship Coordinator, and frequently stems from a student's general idea about where or with whom they'd like to work, in Laramie or Wyoming, in other parts of the U.S., or sometimes abroad. Our program also highlights international perspectives, as well as the transnational context of American impacts and experiences, in course work and exchanges available to American Studies students.

American Studies puts people and their plans together building career goals in K-12 education, law, or business, work in community organizations and public institutions, or further graduate-level study.

BÉNÉDICTE SOHIER, B.A. Stephen F. Austin State University 2006; M.A. Indiana University Bloomington 2008; Associate Academic Professional Lecturer in French 2015, 2009.

YAN ZHANG, B.A. Harbin Institute of Technology 2000; M.A. Heilongjiang Provincial Academy of Social Sciences 2002; Senior Academic Professional Lecturer in Chinese 2016, 2006.

Associate Academic Professionals Temporary Lecturers:

Noah Miles, Adriana Noya-Salgueiro

Professors Emeriti:

M. Ian Adams, Lewis Bagby, Lowell A. Bangerter, Klaus D. Hanson, Francis S. Heck, Philip G. Holt, Joseph Krafczik, Hannelore Mundt, Jean-Louis G. Picherit, Duane Rhoades, Pavel Sigalov

The Modern and Classical Languages department offers work leading to the B.A. degree with majors and minors in French, German, and Spanish. A minor is offered in Classical Civilizations, Chinese, Latin and Japanese. The M.A. is available in Spanish. Courses are also offered in literature, linguistics and translation.

Foreign Language Requirements

All candidates for the B.A. and B.S. degree in the College of Arts and Sciences who matriculated before Fall 2015 are required to complete the equivalent of 8 semester hours of work in a single modern or classical language. Students with prior exposure to the language may be granted college credit after taking an online examination administered by the department; students must take this examination before completing registration for a language course (for regulations governing credit by examination, refer to Credit Available to Undergraduate Students in this *Catalog*). An advanced placement, AP, examination in the language with a score of 4 or higher satisfies the language requirement in most languages, as do CLEP and IB scores (see section on Credit by Examination on the department website).

Students who have had a foreign language in high school should take the online examination to determine the course in which they should enroll and to avail themselves of the opportunity to receive credit by examination. Students who have completed their language requirement can enroll for additional language courses of their choice, something strongly advised for those who wish to reach adequate levels of proficiency in the language or wish to study abroad. Check the Catalog or website for special sections targeted for students with varied experiences in the language.

Undergraduate Major

A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Students completing an undergraduate major in our department will meet the following learning goals:

1. attain proficiency in another language in all four of the basic skills (speaking, listening, reading, and writing);
2. gain understanding of other cultures; and
3. develop skills in research critical thinking, analysis, and writing on subjects appropriate to the field of study.

Students will meet the following learning outcomes to:

1. demonstrate proficiency in conversation;
2. demonstrate reading comprehension of texts written in the language;
3. produce grammatical, idiomatic compositions in the target language;
4. gain essential knowledge about the history, traditions, customs, and ways of thinking of at least one other culture;
5. demonstrate understanding of works of literature read in the original language; and
6. produce well-reasoned and clearly articulate research papers on subjects appropriate to their field.

Minor

In general, students desiring to complete a minor in a foreign language will be required to complete a program of 18 semester hours above 2030.

Teaching Certification

For those wishing to pursue teaching certification, contact the Department of Secondary Education.

Native Language Credit

Students are not allowed university credit for language courses in their native language below the 4000 level, but may receive credit for literature courses below that level.

Study Abroad

There are many opportunities for students to study abroad and students are encouraged to do so.

Graduate Study

The Department of Modern and Classical Languages offers programs leading to the master of arts degree in Spanish. Contact the department for further details or check the department website.

Program Specific Admission Requirements

Admission to the graduate program in a specific language is open to students who have completed an undergraduate major, or the equivalent, in the same subject and who meet the minimum requirements set forth in this *Catalog*.

Students entering the graduate program from other institutions may be required to make up deficiencies in areas covered by required courses in this department's undergraduate programs.

Life Sciences Program

Life Sciences Program

107 Aven Nelson Building, 766-4158 Web site: www.uwyo.edu/lifescience

Program Director: Jonathan Prather

The Life Sciences Program consists of all LIFE prefix courses. These courses support a wide range of life science majors and several non-life science majors across campus. The number of LIFE courses taken by students in each major is determined by the departments that offer the majors. The curriculum intends to provide science majors with both breadth and depth in the basic life sciences, and nonscience majors with exposure to key concepts in biology and an understanding of the connections between science and society. The program courses also expose students to the fields of cell and molecular biology, genetics, ecology, and evolution, and they familiarize students with the diversity of life on the planet. Courses within the curriculum address four fundamental goals at a level appropriate for each course: 1. Acquisition, Application and Synthesis of Knowledge 2. Communication Skills 3. Critical Thinking and Problem Solving 4. Research Skills The Life Sciences courses listed below were previously offered under the BIOL prefix. All courses listed below are now offered through the LIFE prefix.

Professor:

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Professor of Zoology and Physiology 2021, 2009.

VICTOR GINTING, B.S. Institut Teknologi Bandung Indonesia 1995; M.S. Texas A&M University 1998; Ph.D. 2004; Professor of Mathematics 2017, 2007.

STEFAN HEINZ, B.S. Humboldt University 1985; M.S. 1986; Ph.D. Heinrich-Hertz Institute 1990; Professor of Mathematics 2013, 2004.

LONG LEE, B.S. National Taiwan University, Taipei 1988; M.A. University of Maryland 1998; Ph.D. University of Washington 2002; Professor of Mathematics 2018, 2005.

RONGSONG LIU, B.A. Henan Normal University 1999; M.A. Fudan University 2002; Ph.D. York University 2006; Associate Professor of Mathematics and Program in Ecology 2015, 2009.

G. ERIC MOORHOUSE, B.S. University of Toronto 1980; M.S. 1984; Ph.D. 1987; Professor of Mathematics 2011, 1989.

BRYAN L. SHADER, B.S. University of Wyoming 1984; M.S. University of WisconsinMadison 1987; Ph.D. 1990; Professor of Mathematics 2000, 1990.

JASON WILLIFORD, B.A. University of Pennsylvania 1998; Ph.D. University of Delaware 2004; Associate Professor Mathematics 2014, 2009.

Associate Professors:

MICHELLE T. CHAMBERLIN, B.S. Colorado State University 1997; M.S. 1999; Ph.D. Purdue University 2002; Associate Professor of Mathematics 2012, 2007.

FREDERICO da CUNHA FURTADO, B.S. Federal University of Minas Gerais 1979; M.S. Federal University of Rio de Janeiro 1984; Ph.D. Courant Institute 1989; Associate Professor of Mathematics 2002, 1997.

ZHUANG NIU, B.S. Wuhan University 1998; M.S. 2001; Ph.D. University of Toronto 2005; Associate Professor of Mathematics 2015, 2012.

TYRRELL McALLISTER, B.S. University of California, Davis 2001; Ph.D. 2006; Associate Professor of Mathematics 2015, 2009.

DAN STANESCU, B.Eng. Polytechnic Institute, Romania 1986; M.Eng. McGill University, 1994; Ph.D. Concordia University 1999; Associate Professor of Mathematics 2008, 2003.

MAN-CHUNG YEUNG, B.S. Jinan University, China 1986; M.Ph. University of Hong Kong 1990; Ph.D. University of California-Los Angeles 1997; Associate Professor of Mathematics 2005, 2001.

Assistant Professor:

PING ZHONG, B.S. Huanzhong University 2005; M.S. Peking University 2008; Ph.D. Indiana University 2014; Assistant Professor of Mathematics 2018.

Senior Lecturers:

DAVID ANTON, B.S. North Dakota State University 2001; M.S. University of Wyoming 2007; Senior Lecturer in Mathematics 2017, 2005.

WILLIAM WEBER, B.S. Colorado State University 1979; B.S. University of Wyoming 1988; M.S. 1992; Senior Lecturer in Mathematics 2012, 2001.

Associate Lecturer:

NATHAN CLEMENTS, B.S. Brigham Young University-Idaho 2007; M.S. Idaho State University 2009; D.A. 2012; Associate Lecturer in Mathematics 2019, 2012.

Assistant Lecturer:

ERIC QUADE, B.S. University of Wyoming 2005; Ph.D. 2012; Assistant Lecturer in Mathematics 2016.

Adjunct Professors:

Saman Aryana, Li Deng Douglas, Benedetta Ferrario, Maria Garrido-Atienda, John Hitchcock, Robert Kansky, David Meyer, Bjorn Schmalfuss, Gerald Schuster, Dongwoo Sheen, Marie-Agnés Tellier

Professors Emeriti:

Charles Angevine, Leonard Asimow, Robert Buschman, Benito M. Chen-Carpentier, George C. Gastl, John H. George, Sylvia A. Hobart, Syed Husain, Peter Polyakov, A. Duane Porter, Ben G. Roth, John Rowland, Chanyoung Lee Shader, Raymond Smithson, John Spittler, Myron B. Allen III, Farhad Jarari.

"For the things of this world cannot be made known without a knowledge of mathematics."--Roger Bacon

Virtually every student at UW will take one or more math courses to fulfill graduation requirements. The intent is to illustrate the esthetics inherent in mathematics, and to provide students with the quantitative skills needed for today's careers.

Mathematics majors receive a broad and deep view of the mathematical sciences. They develop their mathematical thinking and communications skills in algebra, analysis, and applied math. They learn a variety of technological tools necessary for jobs in education, business, government, and industry. In addition to our math classes, the department offers a variety of opportunities to enrich the undergraduate experience. Students can participate in weekly seminars, summer research projects, Putnam Team competitions, and the math club.

Mathematics Placement

All UW math courses have prerequisites which are detailed in the course listings below. These are to assure that each student has the best possible opportunity for success in the course. In accordance with this, *all students registering for a math course will have their records checked in order to determine whether the prerequisite is satisfied.*

A computerized prerequisite check is run prior to the start of every semester. *Students who preregistered for a math course but have not satisfied the prerequisites at the time of the check will be automatically dropped from the course.*

Prerequisites for courses numbered 2200 or lower (except MATH 1105 and MATH 2120), and MATH2350 - Business Calculus, may be satisfied in one of four ways:

1. Obtain a grade of C or better in a prerequisite course. Note that noncredit courses from out-of-state colleges are not accepted as prerequisites.
2. Pass the Mathematics Placement Exam (MPE) at the stated level within one year of the start of the course.
3. Obtain a sufficiently high score on one of the following standardized exams within three years of the start of the course: ACT math score or SAT quantitative score.
4. Obtain a sufficiently high score on one of the following standardized exams: AP Calculus, CLEP, or IB.

More information on mathematics placement may be obtained from 766-4221, or at www.uwyo.edu/mathstats/math-placement.

Duplication of Courses (MATH 1400, MATH 1405, MATH 1450)

To avoid loss of credit because of duplication of course content, please note the following: (a) students with credit for both MATH 1400 and MATH 1405 will not receive new credit by taking MATH 1450; (b) students with credit for one of MATH 1400 or MATH 1405 will receive only 2 additional credits by taking MATH 1450; (c) students with credit for MATH 1450 will receive only 1 additional credit by taking both MATH 1400 and MATH 1405. Note that the GPA calculation for these situations is unusual, and students should ask the Registrar's Office for details.

Note that MATH 1450 counts as one attempt at each of MATH 1400 and MATH 1405 for the purposes of repeating classes.

Graduate Study

The Mathematics Program offers programs leading to the degrees of master of arts, master of science, master of arts in teaching, master of science in teaching, and the doctor of philosophy.

The requirements for these degrees reflect our belief that mathematicians should have a broad foundation in the core areas of algebra, analysis, and applied mathematics as well as the experience of a more intensive investigation of a specialized area. We provide this within a flexible structure that recognizes the individual interests and varied backgrounds of our students.

Program Specific Admission Requirements

To be competitive for admission, applicants must have strong backgrounds in mathematics. Generally, this means a bachelor's degree in mathematics or a closely related discipline. All applicants should have substantial coursework beyond the calculus sequence; courses in differential equations, linear algebra, and, in particular, courses in abstract algebra and analysis are highly recommended. A solid performance on the GRE Subject Test in Mathematics can demonstrate the applicant's mastery of these subjects. The GRE Subject Test in Mathematics is therefore recommended but is not required.

The GRE General Test is required, with a minimum Quantitative Reasoning score of 157 and Verbal score of 143. International applicants need a composite TOEFL score of 76 or an IELTS score of 6.5.

ETS only reports TOEFL scores taken within two years of the date of request.

Graduate Assistantships

The mathematics program employs approximately 22 graduate assistants each year. Assistantships include a full tuition and fee waiver, a monthly living stipend, and health insurance. Ph.D. students normally receive a higher stipend than master's students.

Teaching assistants teach or assist with the teaching of an undergraduate course each semester.

Students may also compete for research assistantships, provided that their interests align with an externally funded research project.

Summer support is not guaranteed but is usually available through teaching and research opportunities.

Renewal of funding and continuation in the mathematics graduate program is dependent upon the student's adequate progress towards graduation and satisfactory completion of assistantship duties.

Statistics

223 Ross Hall, (307) 766-4221

FAX: (307) 766-6838

Web site: www.uwyo.edu/mathstats

Program Director: Ken Gerow

Professors:

KENNETH G. GEROW, B.S. University of Guelph, Canada 1981; M.Sc. 1984; Ph.D. Cornell University 1992; Professor of Statistics 2007, 1993.

TIMOTHY J. ROBINSON, B.S. James Madison University 1989; M.S. Virginia Polytechnic Institute and State University 1994; Ph.D. 1997; Professor of Statistics 2012

SHAUN S. WULFF, B.S. Montana State University 1991; M.S. 1994; Ph.D. Oregon State University 1999; Professor of Statistics 2019, 1999.

Assistant Professors:

ANNALISA PICCORELLI, B.A. Miami University of Ohio 2003; M.S. Case Western Reserve University 2007; Ph.D. 2010.
Assistant Professor of Statistics 2015.

Assistant Lecturer:

MICHELE BIRD, B.A. University of Nevada, Las Vegas 1996; M.A. 2000; Assistant Lecturer of Statistics 2019.

Adjunct Professors:

T. McDonald, Nychka, Sain

Emeriti Faculty:

Stephen L. Bieber, Burke Grandjean, Richard Anderson-Sprecher.

The curriculum in statistics includes a firm foundation in mathematics and computer science, in addition to course work in statistical theory and methodology. Statistics majors are also required to obtain a minor in an area of application. The nature of statistical work is to design and analyze research projects through the application of the principles of mathematics, computer science, and statistics.

The student who wishes to make valid inferences from empirical data will find the field of statistics fascinating and rewarding. The study of statistics as a separate professional field is comparatively recent. The wide demand for graduates with special training in research and development techniques has fostered development of statistical curricula in colleges and universities. A pioneer in this field, the University of Wyoming is one of the few schools in the nation where a coordinated undergraduate training program in statistics is available.

We expect that students graduating with a statistics degree will be able to: 1) recognize the importance of variation and uncertainty in the world, 2) understand how statistics improves decisions when faced with uncertainty, 3) become proficient with a broad range of statistical tools, 4) develop critical thinking skills that enable application of statistics in new and unusual settings, and 5) communicate effectively. With these skills, graduates will be able to work effectively as statistical professionals and, if desired, successfully pursue further training at the master's and doctorate levels.

Graduates with statistical training are employed in a broad spectrum of areas which include the business world, the sciences (social, biological, physical and health), as well as engineering and education. For this reason, an area of application is required of each student.

The statistics program also offers graduate programs leading to a minor in statistics, and to a Master of Science (Plan A, Plan B), and Doctor of Philosophy in statistics.

Graduate Study

The Statistics Program offers graduate programs leading to a minor in statistics, to a master of science in applied statistics (Plan B Option 1), and to a doctor of philosophy in statistics. Students wishing to pursue a master of science in statistics with a thesis option (Plan A), should contact the department directly. The minor is designed to enhance the M.S. or Ph.D. program of any student enrolled in one of the graduate programs at the University of Wyoming. All of these programs emphasize the understanding and application of a broad variety of statistical methods on real projects. Students will be provided with numerous opportunities to perform analyses and communicate findings. The M.S. and Ph.D. programs in statistics are grounded in statistical theory.

Program Specific Admission Requirements

The prerequisite for admission to graduate study is an undergraduate degree from an accredited institution, including work in mathematics through calculus III, Linear Algebra and at least one second-level class in statistical methods. Prospective students are encouraged to have had Math Analysis and upper level introduction to probability and mathematical statistics. A score of at least 150 on the verbal reasoning section and a score of at least 141 on the quantitative reasoning section is required for the Master's Degree and the TOEFL exam is required for international students. The minimum score for the TOEFL is 540 (76 Internet-based Test) or for IELTS minimum score is 6.5. Students who do not have prerequisites in mathematics and statistics may make up this deficiency at the beginning of their graduate program; however, such work does not count toward graduation requirements.

Department of Music

Music 2049 Buchanan Center for the Performing Arts, (307) 766-5242

FAX: (307) 766-5326

Web site: www.uwyo.edu/music

Department Head: J. Scott Turpen

Professors:

ROBERT BELSER, B.M.E. Central Missouri State University 1977; M.S. M.E University of Illinois 1982; D.M.A. University of Iowa 1994; Professor of Music 2008, 1995. Director of Bands, Conducting, Music Education.

THERESA L. BOGARD, B.M. University of Colorado 1983; M.M. Eastman School of Music 1985; D.M.A. University of Colorado 1990; Professor of Music 2004, 1992. Keyboard, Keyboard Area Coordinator, Piano.

JOHN FADIAL, B.M. North Carolina School of the Arts 1987; M.M. Eastman School of Music 1989; D.M.A. University of Maryland 1995; Professor of Music 2015, 2008. Violin.

ANNE GUZZO, B.M. University of New Mexico 1992; M.A. University of California, Santa Cruz 1996; Ph.D. University of California, Davis 2002; Associate Professor of Music 2011, 2006. Composition, Theory.

MICHAEL GRIFFITH, B.M.E. Michigan State University 1973; M.M. 1975; D.M.A. University of Colorado 1994; Professor of Music 2001, 1989. Conducting, Woodwinds.

JAMES PRZYGOCKI, B.M. Western Michigan University 1979; M.M. Indiana University 1984; Professor of Music 2005, 1993. Viola, String Methods, Music Education.

J. SCOTT TURPEN, B.M.E. Boise State University 1994; M.M. University of Georgia 1996; D.M.A. 1999; Professor of Music 2012, 2001. Saxophone.

KATRINA ZOOK, B.M. Oberlin College 1986; M.M. University of California-Santa Barbara 1992; D.M.A. Eastman School of Music 2000; Professor of Music 2011, 1999. Voice, Vocal Pedagogy, Music History, Associate Chair.

Associate Professors:

HOLLY DALRYMPLE, BM, Texas State University; MM, University of Texas-Austin; DMA, University of North Texas; Associate Professor of Music 2019, 2013. Director of Choral Activities.

BLAKE MCGEE, B.M. University of Minnesota 2001; M.M. 2004; D.M.A. University of Oregon 2008; Associate Professor of Music 2016, 2010. Clarinet, Musicology.

CRYSTAL SIEGER, B.M. Ohio State University 1992; M.M. University of Arizona 1994; Ph.D. 2012; Assistant Professor of Music 2014. Music Education.

BETH VANDERBORGH, B.M. Manhattan School of Music 1988; M.M. Eastman School of Music 1990; D.M.A. University of Maryland 1995; Associate Professor of Music 2014, 2008. Cello, Graduate Coordinator.

CHI-CHEN WU, B.F.A. National Taiwan Normal University 1998; M.M. 2202; D.M.A. New England Conservatory 2006; Assistant Professor of Music 2012. Piano and Collaborative Piano.

Assistant Professors:

JOSEPH CARVER, B.M.E. 2007 Ohio University; M.M. 2014 Ohio University; Ph.D. 2019 The Ohio State University. Associate Director of Bands.

BEN MARKLEY, B.M. Fort Hays State University 2005; M.A. New York University 2007; D.M.A. University of Colorado-Boulder 2010; Assistant Professor of Music 2016. Jazz Studies.

BRIAN MURRAY, B.M. University of North Texas 2010; MME, Florida State University 2015; DMA, University of North Texas 2020. Assistant Professor of Music 2020. Choral Music Education.

TIGER ROBISON, B.M.E. University of Hartford 2005; M.S. Central Connecticut State University 2012; Ph.D. University of Hartford 2016; Assistant Professor of Music 2017. Music Education.

DAVID WHARTON, B.M. Oberlin Conservatory 2009, M.M. Yale School of Music 2011, D.M.A. University of Connecticut 2019. Assistant Professor of Music 2020. Trumpet.

ANDREW WHEELOCK, B.M.E. Central Michigan University 2013; M.M. University of Illinois 2015; D.M.A. 2018; Assistant Professor of Music 2018. Percussion.

Academic Professional Lecturers:

SHERRY SINIFT, B.M. Western Michigan University 1979; M.M. Indiana University 1981; Academic Professional Lecturer 2010. Violin, UW String Project.

JENNIFER TURPEN, B.M.E. SUNY-Potsdam 1996; M.M. University of Georgia 2000; D.M.A. 2000; Academic Professional Lecturer, Senior 2017, 2003. Theory, Saxophone.

Lecturers:

Kato, Riner

Part-time Lecturers:

Erlandson, Flagg, Fourt, Harvey, Hoffman, Latchininsky, Smith, Strampe, Stucki, Teppa, Uno-Jack, Watt

Professors Emeriti:

Steve Barnhart, David Brinkman, Gordon Childs, Julia Combs, Rodney Garnett, Frederick Gersten, Brian Hanly, Larry Hensel, Edgar Lewis, Kathleen McKeage, William Stacy, Carlyle Weiss

The Department of Music offers undergraduate and graduate degree programs which combine scholarship with performance, theory with practice and the academic with the creative. It also provides an opportunity for the study and performance of music by university students who are not majors in music. By giving concerts, workshops and lectures throughout the state of Wyoming through the Fine Arts Outreach Program, the music department serves as a musical resource for the entire state. The music department is fully accredited by the National Association of Schools of Music.

Procedures and requirements are listed in the music department *Student Handbook* which is available online at www.uwyo.edu/music/forms/index.html. The music department *Student Handbook* and the *University Catalog* are binding documents for the degree programs listed below. Students must receive a "C" or better in all courses designated MUSC to satisfy department requirements. The foreign language requirement for the Bachelor of Music in Performance Vocal Emphasis degree may be satisfied with a "C" or better in all courses. A student's transfer courses must meet all of these requirements to be accepted for credit.

An audition is required to become a Music major or minor. The 3 Steps to Becoming a Music Major are:

1. Apply for admission to the University of Wyoming (www.uwyo.edu/admissions/).
2. Audition for admittance as a Music major and for Music scholarships. Audition and scholarship information may be found at www.uwyo.edu/music. All Music majors and minors MUST audition to be admitted to the Music program.
3. Perform at an acceptable level, and you are in!

Degrees

Bachelor of Arts (with major in music): A program designed for the student who desires a broadly-based liberal arts program.

Bachelor of Music Performance: A fouryear course of study designed for students who wish to prepare for a professional career as performer and applied teacher.

Bachelor of Music Education: A fouryear course of study for the student who wishes to prepare for a career as a teacher of music in elementary or secondary schools in the instrumental, vocal, and general music fields.

Certificates

Music Entrepreneurship Certificate: The certificate provides a basic understanding of music marketing principles and practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of arts promotion and management. A certificate may be pursued on its own or in conjunction with any university degree program.
https://www.uwyo.edu/music/certificates/music_entrep_index.html

Audio Technology Certificate: The certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music workforce with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. Certificate may be pursued on its own or in conjunction with any university degree program.

Performer's (post-baccalaureate) Certificate

A non-degree course of study for the student seeking to improve professional performance skills. The program consists of a total of 30 credit hours from applied lessons, ensembles and electives to be selected in consultation with the major adviser. Prerequisites are demonstrated evidence of advanced performance proficiency through a live or recorded audition, undergraduate degree in music, and admission to the university.

Music for Other Students

Music as an elective subject. Students from other departments of the university may, with consent of their adviser and applied instructor, elect private or class lessons in applied music (with or without previous training) and may enroll in any theory, music literature or activity course for which they are qualified. See the music department Student Handbook for requirements for a minor in music.

Organizations. Performance organizations include the Happy Jacks, Marching Band, Symphonic Band, Wind Ensemble, Collegiate Chorale, Symphony Orchestra, Chamber Orchestra, Singing Statesmen, Bel Canto, Women's Choir, and Opera Theatre. Other groups are brass, woodwind, string, percussion and piano ensembles, Vocal Jazz, Civic Chorus and Jazz Ensemble. Membership is open to qualified students in all colleges and departments of the university. Each year, in addition to frequent appearances on the campus, several of these organizations and groups tour the region.

Music Fees

For Individual Instruction:

One 1/2-hour lesson weekly, per semester \$150.00

One 1-hour lesson weekly, per semester \$300.00

For Music 4510, 4520, 4530, 4540, 4550 and 4560 (courses taken in the form of private lessons) a fee of \$85.00 is assessed each semester.

Practice Rooms:

per semester \$35.00

Music instrumental fee, per semester \$25.00

Music locker fee, per student per semester \$15.00

Public School Methods fee, per class \$5.00

Undergraduate Study

Learning Outcomes

Bachelor of Arts in Music

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Arts degree in Music, students will be able to: (1) demonstrate a level of competence as solo and ensemble performers appropriate for a musician educated in the liberal arts, (2) demonstrate specific knowledge in music theory, music history, and general studies appropriate for their professional goals, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

*Upper Division MUSC Electives: See complete list in Undergraduate Music Handbook.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this *Catalog*. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Bachelor of Music in Performance

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirements students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All string and vocal emphases must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for those with little piano background. All wind and percussion emphases must pass Class Piano 1-2 with a B or better or may substitute the Piano Literacy exam in their place. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music degree in Performance, students will be able to: (1) demonstrate excellence as solo and ensemble performers to provide a basis for a professional career as a musician, (2) demonstrate specific knowledge in music theory, music history, and instrumental pedagogy to provide a basis for a professional career as a performing musician, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Upper Division Music Electives

Upper division music electives vary per emphasis. Please see the Undergraduate Music Handbook for a full listing.

Degree Total 120**Bachelor of Music Education**

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All music majors must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for majors with little piano background. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music Education degree, students will be able to: (1) demonstrate skill as solo and ensemble performers who can work as professional educators, (2) demonstrate specific knowledge in music theory, music history, and instrumental and vocal pedagogy to provide a basis for a professional career as a music educator, (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music, and (4) demonstrate the pedagogical background and teaching experience to function as effective K-12 music educators.

University and College Requirements

In addition to the major requirements listed below, students must complete all university requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Graduate Study

The Department of Music offers programs leading to the Master of Music in Performance and to the Master of Music Education.

The following prerequisites and credit hours will pertain to individual lessons for all the instruments and voice listed below. All students enrolled in MUSC 5080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in Individual Lessons.)

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this *Catalog*, the Department of Music requires that applicants for graduate programs submit supplementary documentation of their preparation for advanced study in music.

Those interested in graduate study in music are encouraged to contact the Graduate Studies Coordinator for the Department of Music, Dr. Beth Vanderborgh (bvander@uwyo.edu), or the Area Coordinator for each instrument or voice cited on the Department of Music website (www.uwyo.edu/music/).

In order to apply, please submit the following via the University of Wyoming's online application system (www.uwyo.edu/admissions/apply.html):

- three letters of recommendation
- the Graduate Teaching Assistantship application
- academic transcripts

A minimum undergraduate cumulative GPA of 3.000 is required. The GRE is not required for admission consideration.

All accepted graduate students in the Mast of Music (MM) or Master of Music Education (MME) programs will take the Graduate Entrance Examinations in music history and music theory prior to matriculation. If a student does not pass one or more sections, they must take an online refresher course prior to undertaking advanced coursework.

International applicants who are not native English speakers must submit TOEFL or IELTS scores (TOEFL minimum = 76, IELTS minimum = 6.5). If an international applicant wishes to be considered for a Graduate Teaching Assistantship, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center if you have questions regarding the OPI (www.uwyo.edu/elc/international-teaching-assistants/graduate_admissions/index.html).

Applicants for the MM program should also request an audition and apply for music scholarship consideration via the Audition and Scholarships link found on the Graduate page of the Department of Music website (www.uwyo.edu/music/graduate_students/index.html). Applicants for the MME program should send their supporting documents (video of teaching/rehearsing, statement of music education philosophy, writing sample) directly to Dr. Crystal Sieger, Music Education Coordinator (csieger@uwyo.edu).

Master of Music Education

An earned, documented Bachelor of Music Education degree from an accredited institution of higher learning.

One year of teaching experience plus: An active background in music education, A DVD of classroom teaching and/or rehearsing,

A one- to three-page statement of music education philosophy,

Three letters of recommendation, one from an immediate supervisor, of teaching effectiveness.

A writing sample from an extensive undergraduate research paper.

Learning Outcomes

1. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing skills necessary to enhance their teaching abilities in a P-16 vocal and/or instrumental teaching position.
2. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing/and communication skills necessary to solve contemporary music problems.

Master of Music in Performance

An earned, documented bachelor of music performance or bachelor of arts from an accredited institution of higher learning.

Live audition (preferred), live remote video audition, or links to an online video demonstrating:

A strong sense of musicality, Technical proficiency, Stylistically correct performance practices in at least three historical periods, where applicable,

A working knowledge of the standard repertoire,

Also, a portfolio of work showing concentrated activity on the major instrument or voice area.

Learning Outcomes

1. Graduate students will be excellent performers on voice or instrument.
2. Graduate students will demonstrate the advanced musical and pedagogical knowledge and research writing skills necessary to begin their professional performing career and/or demonstrate their readiness to teach at the college and/or university level and/or pursue

doctoral degrees.

Program Specific Graduate Assistantships

Graduate assistantships are awarded on a competitive basis to defray some of the costs of graduate study and to provide practical experience working under the guidance of faculty members.

Criteria that are taken into account in awarding assistantships include: academic preparation, performing ability, and special skills that would prove valuable in carrying out the duties of the assistantship, as well as, needs of the department.

To be considered for a graduate assistantship, the candidate must be fully admitted through the university. The application for an assistantship is accessed via the UW Graduate Admissions application. After considering the merits of the application, the department then nominates candidates to the university. Applications for assistantships are due by February 15.

Program Specific Degree Requirements

Master's Programs

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

Basic music core (11 hours)

MUSC 5310. Bibliographical Research, 2 hours

Upper-division music history, 3 to 6 hours

Upper-division music theory, 3 to 6 hours

Major area courses (12-16 hours)

Thesis requirement (Plan A, four hours); (Plan B, zero hours)

The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student's graduate committee chair.

Electives (0 to 7 hours)

Master of Music Education Plan A or Plan B

To earn a Master of Music Education, students must complete the following requirements:

Basic music core, (11 hours)

Major area courses (12 - 15 hours)

EDRE 5530. Introduction to Research, 3 hours

MUSC 5760. Music Education Seminar, 2 hours

MUSC 5720. Music Supervision, 2 hours

Music education electives, 5-8 hours

Thesis requirement (0 to 4 hours) Plan A:

MUSC 5960. Thesis Research, four hours (the thesis must be on a music education topic), or

Plan B: Plan B paper, plus extra courses, 0 hours Electives (4 to 7 hours)

Master of Music in Performance Plan B

To earn a Master of Music in Performance, students must complete the following requirements:

2020

Basic music core (11 hours minimum)

Major area courses (16 hours minimum)

MUSC 5480-5670. Private Lessons in major instrument or voice. A minimum of 8 hours.

MUSC 5770-5890. Ensembles, 2 hours

MUSC 5680. Graduate Recital, 2 hours.

A faculty jury must approve a recital given for credit one month prior to the performance. The faculty jury will determine the grade after the performance.

MUSC 5390. Performance Practice and Interpretation, 2 hours

MUSC 5320. Advanced Seminar, 3 hours MUSC 4***. Pedagogy (instrument specific), 2 hours

Requirement in lieu of thesis:

Plan B paper, or 1-hour lecture-recital

Foreign language requirement (voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.

Electives (0 to 3 hours)

Both degrees require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Music (MUSC)

Individual Lessons: All students enrolled in MUSC 2080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in individual lessons.)

Students must receive a "C" or better in all courses designated MUSC to satisfy department degree requirements. A student's transfer courses in music must also reflect a "C" or better to be accepted for credit.

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB♦Q]).

Professors:

HARVEY HIX, B.A. Belmont College 1982; M.A. University of Texas, Austin 1985; Ph.D. 1987; Professor of Philosophy and Creative Writing 2013.

JEFFREY A. LOCKWOOD, B.S. New Mexico Institute of Mining and Technology 1982; Ph.D. Louisiana State University 1985; Professor of Philosophy and Creative Writing 2006.

Associate Professors:

SUSANNA L. GOODIN, B.A. Texas Technical University 1981; M.A. Rice University 1985; Ph.D. 1990; Associate Professor of Philosophy 1998, 1992.

FRANZ-PETER GRIESMAIER, University of Vienna 1986; M.A. University of Colorado 1988; Ph.D. University of Arizona 1997; Associate Professor of Philosophy 2006, 2000.

EDWARD D. SHERLINE, B.A. Princeton University 1982; M.A. University of Chicago 1983; Ph.D. University of Illinois-Chicago 1990; Associate Professor of Philosophy 1996, 1989.

Assistant Professor:

BRADLEY RETTLER, B.S. Crown College 2004; M.A. Biola University 2008; Ph.D. University of Notre Dame 2014; Assistant Professor of Philosophy 2018.

Academic Professional Lecturer:

ROBERT S. COLTER, B.A. The University of Puget Sound 1992; M.A. University of Colorado 1995; Ph.D. Northwestern University 2001; Academic Professional Lecturer 2013, 2007.

Professors Emeriti:

James Forrester, Richard L. Howey, James A. Martin

Philosophy starts with those hard questions we all ask at some time or another. Some important questions of meaning and justification can't be answered by making observations or doing experiments. Philosophy is the effort to deal with these problems through sustained, hard, and critical thinking. Philosophy is good preparation for careers that call for you to use your mind, without prejudice but with rigor.

The Philosophy Department offers an undergraduate major, three undergraduate minors, and a graduate MA.

For details on each of these programs, see the department's web site.

Graduate Study

The Department of Philosophy offers the master of arts degree under the Plan A or Plan B.

Program Specific Admission Requirements

A writing sample of no more than 3,000 words on any subject in philosophy.

A statement describing specific philosophical interests.

2022

Program Specific Graduate Assistantships

The department offers two to three graduate assistantships yearly on a competitive basis. These assistantships carry a tuition and fee waiver, plus a stipend. For more information, please contact the department.

Religious Studies

Professor Emerita

KRISTINE T. UTTERBACK

Throughout history, religion has played an important role in shaping cultures and societies. Religious beliefs have inspired armies in their wars and leaders in their decisions. Religions have provided the foundation for ethical behavior and in many societies have been the primary source of education. In today's world, religions remain important, influencing our responses to 9/11, the Arab Spring, the Philosophy and Religious Studies, Middle East crisis, and other events in regions around the world. Even in our own secular United States, religions and their beliefs play a major role in our debates over public policy.

The Religious Studies department offers a range of courses in the academic study of religions. These courses seek to acquaint students with religious beliefs and behavior, helping them to understand the ability of religions to define the world in which their adherents live and the power religions have to influence the behavior of their followers. Religious Studies courses cover a broad range of religions, both modern and historical. Some courses focus on understanding a single religion in a limited time period, while others compare aspects of different religions. Yet further courses focus on religious expression, studying how religious beliefs are depicted in literature, film, art and music. Many of these courses are offered by the Religious Studies department, while others can be found in various departments, including anthropology, art, English, history and sociology.

Graduate Study

At present, no program for a graduate degree in religious studies is offered; however, some courses may be counted at the graduate level.

Department of Physics and Astronomy

204 Physical Sciences Building,

(307) 766-6150

FAX: (307) 766-2652

Web site: www.uwyo.edu/physics

Department Head: Jinke Tang

Professors:

MICHAEL S. BROTHERTON, B.S. Rice University 1990; M.A. University of Texas at Austin 1992; Ph.D. 1996; Professor of Physics and Astronomy 2014, 2002.

YURI DAHNOVSKY, Ph.D. Institute of Chemical Physics, Moscow 1983; Professor of Physics 2007, 2000.

DANIEL A. DALE, B.S. University of Minnesota 1993; M.S. Cornell University 1996; Ph.D. 1998; Professor of Physics and Astronomy 2009, 2001.

HENRY A. KOBULNICKY, B.S. University of Iowa 1991; M.S. University of Minnesota 1993; Ph.D. 1997; Professor of Physics and Astronomy 2014, 2002.

H. EDWARD SEIDEL, B.S. College of William and Mary 1981; M.S. University of Pennsylvania 1983; Ph.D. Yale University 1988; Professor of Physics and Astronomy 2020.

EDMUND SYNAKOWSKI, B.S. Johns Hopkins University 1982; Ph.D. University of Texas at Austin 1988; Professor of Physics 2017.

JINKE TANG, B.S. Jilin University 1982; M.S. Iowa State University 1990; Ph.D. 1989; Professor of Physics 2007.

Associate Professors:

2024

TEYU CHIEN, B.S. National Taiwan Normal University 2001; Ph.D. University of Tennessee-Knoxville 2009; Associate Professor of Physics 2019, 2013.

HANNAH JANG-CONDELL, S.B. Massachusetts Institute of Technology 1999; A.M. Harvard University 1999; Ph.D. 2004; Associate Professor of Physics and Astronomy 2017, 2011.

ADAM D. MYERS, M.S. Durham University, United Kingdom 2000; Ph.D. 2004; Associate Professor of Physics and Astronomy 2017, 2011.

MICHAEL J. PIERCE, B.S. University of Oklahoma 1980; M.A. University of Hawaii 1983; Ph.D. 1988; Associate Professor of Physics and Astronomy 2005, 2001.

WENYONG WANG, B.S. Nankai University 1993; M.S. Yale University 1999; Ph.D. 2004; Associate Professor of Physics 2014, 2008.

Assistant Professors:

JIFA TIAN, B.S. Beijing Normal University 2003; Ph.D. University of Chinese Academy of Sciences/Institute of Physics, CAS 2009; Assistant Professor of Physics 2018.

Academic Professional Lecturers:

RÜDIGER MICHALAK, Dipl. Phys FZ Julich 1989; Ph.D. 1993; Academic Professional Lecturer in Physics and Astronomy 2007, 2004.

DAVID R. THAYER, B.S. University of Miami 1977; Ph.D. Massachusetts Institute of Technology 1983; Academic Professional Lecturer in Physics 2002.

Assistant Lecturer:

AYSEUR BICER, B.S. Ege University 2006; M.S. 2009; Ph.D. Texas A&M University 2018; Assistant Lecturer in Physics 2019.

JESSE FEDDERSEN, B.S. Indiana University 2013; M.S. Yale University 2015; Ph.D. Yale University 2019; Assistant Lecturer in Physics and Astronomy 2020.

Adjunct Professors:

Gabrielle Allen, Pu Du, Paul Marquard, William Rice, Zhaohui Shang, Tim Slater

Professors Emeriti:

Ronald W. Canterna, Paul E. Johnson, A. Raymond Kunselman, Terry P. Roark, James M. Rosen, Jimmie Verley

Physics originated in antiquity as the study of natural philosophy. As such, it attempts to describe the universe within the context of both physical laws and the fundamental particles of nature. The broad scope of physics runs from the microscopic nuclear structure and that of the elementary particles themselves to the macroscopic, the galaxy and evolution of the universe as a whole. Today the subject is generally divided into broad areas such as condensed matter, nuclear, elementary particles, astrophysics, etc.

The department maintains competence in most major branches of physics and offers instruction in these areas at both the undergraduate and graduate levels. In addition, it has a strong interest and involvement in science education.

Learning Outcomes

The B.S. and B.A. in Physics, the B.S. in Astronomy, and the B.A. in Physics and Physics Education all have the broad objectives enumerated below. These objectives are designed to promote the success of our majors in their chosen career path, whether that takes them into academia, secondary teaching, industry or further education:

1. Provide students with problem-solving and data-manipulation skills appropriate to the growing range of scientific and technological careers in academia or industry.
2. Develop students' oral, written, interpersonal and communication skills.
3. Provide students with skills in experimental design, data collection, and data analysis through research experiences in a laboratory/computational/telescope setting.
4. Educate students in the application of mathematical tools that will be useful for them to achieve success in a postcollege career.
5. Provide a conceptual and analytical understanding of the core areas of physics and their specialty area.
6. Provide students with an understanding of scientific reasoning, i.e., the roles of theory, hypothesis, and experiment in the scientific method.

The B.S. in Physics and the B.S. in Astronomy are primarily designed for students who wish to pursue post-graduate education or to have a more in-depth physics background. The Physics B.A. is primarily designed for students interested in pursuing a double major, or a professional career. The B.A. in Physics and Physics Education is structured for those interested in pursuing a secondary science teaching career.

Undergraduate Curriculum

The four-year physics programs are the Bachelor of Arts in physics and the Bachelor of Science in physics. The Bachelor of Science programs are intended for students who will pursue a career or a graduate degree in the field, whereas the Bachelor of Arts program is primarily geared toward those who are interested in pursuing physics as a second major. The department also offers a Bachelor of Science degree in Astronomy and Astrophysics.

Graduate Study

The Department of Physics and Astronomy offers the degrees of master of science in physics, master of science in teaching, and doctor of philosophy. Advanced degrees in physics may be based on experimental or theoretical research in physics or astrophysics.

Please refer to the departmental homepage at <http://www.uwyo.edu/physics/> for the programmatic updates, or contact the department directly.

Program Specific Admission Requirements

We will begin to review applications in late January. Our department does not have minimal acceptable scores for standardized tests (e.g. general GRE) and will review all applications on their total merits. Students of all backgrounds, ethnicities, genders and countries of origin are encouraged to apply at <http://www.uwyo.edu/admissions/apply-online.html>

Applications should include:

-Resume or CV

-Undergraduate transcript

-A Personal Statement that says why you want to pursue a PhD, why Wyoming is a good fit for you, and what experiences you've previously had completing long-term projects

-Three letters of recommendation (this will be done through the application website)

-GRE scores (the general exam is required and the physics subject exam is recommended)

-TOEFL for non-native English speakers

-Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

The Physics and Astronomy Department commits to providing first- and second-year students with teaching assistantships for the nine-month academic year. More advanced students are generally supported on federal grants or fellowships. Both teaching and research assistantships carry a full tuition waiver and insurance. Summer assistantships are often available to students making satisfactory progress. Refer to <http://www.uwyo.edu/physics/> for current amounts.

School of Politics, Public Affairs, and International Studies

207-208 Arts and Sciences Building,

(307) 766-6484

School Head: Stephanie Anderson

SPPAIS Faculty:

Professors:

STEPHANIE B. ANDERSON, B.S.F.S. Georgetown University 1989; M.Sc. The London School of Economics and Political Science 1990; Ph.D. University of Cambridge 1996; Professor of Political Science 2017, 2005.

R. MCGREGGOR CAWLEY, B.A. Kearney State College 1971; M.A. Colorado State University 1974; Ph.D. 1981; Professor of Political Science 1997, 1987.

TEENA J. GABRIELSON, B.A. Macalester College 1992; M.A. University of California - Davis 1997; Ph.D. 2002; Professor of Political Science 2019, 2006.

ANDREW D. GARNER, B.S. Kennesaw State University 2002; Ph.D. University of Mississippi 2007; Professor of Political Science 2014, 2008.

JEAN A. GARRISON, B.A. University of Wyoming 1990; M.A. University of South Carolina 1992; Ph.D. 1996; Professor of Political Science, International Studies 2010, 2001.

JAMES D. KING, B.A. Michigan State University 1974; M.A. Western Michigan University 1977; Ph.D. University of Missouri-Columbia 1983; Professor of Political Science 1999, 1992.

BRENT L. PICKETT, B.A. Wichita State University 1989; M.A. University of Colorado at Boulder 1991; Ph.D. 1995; Professor of Political Science - Casper 2010, 2005.

ROBERT A. SCHUHMAN, B.S. Appalachian State University 1987; M.P.A. 1989; Ph.D. Virginia Polytechnic Institute and State University 1995; Professor of Political Science 2013, 1995.

Associate Professors:

NEVIN AIKEN, B.A. University of Western Ontario 2003; M.A. 2004; Ph.D. University of British Columbia 2010; Associate Professor of Political Science and International Studies 2016, 2010.

YI-LING CHEN, B.S. National Taiwan University 1989; M.S. 1992; Ph.D. Rutgers University 2000; Associate Professor of International Studies and Geography 2015, 2010.

NICHOLAS CRANE, B.A. The Ohio State University 2006; M.A. 2008; Ph.D. 2014; Assistant Professor of Geography and International Studies 2016.

ZOE PEARSON, B.A. University of California Los Angeles 2005; M.A. Ohio State University 2010; Ph.D. 2016; Assistant Professor of Geography and International Studies 2016.

JUSTIN T. PICCORELLI, B.A. Loyola Marymount University 2004; M.P.A. Cleveland State University 2009; Ph.D. 2014; Assistant Professor of Public Administration 2015.

THOMAS R. SEITZ, B.S. University of the State of New York 1988; M.A. University of Kent at Canterbury 1989; Ph.D. University of Cambridge 1997; Associate Professor of International Studies 2015, 2009.

Assistant Professors:

JASON B. MCCONNELL, B.S. University of Wyoming 1998, MA 2003, J.D. 2005; Ph.D. Washington State University 2017; Assistant Professor of Political Science 2018.

GABEL C. TAGGART, B.S. Brigham Young University 2010; M.P.P. 2013; Ph.D. Arizona State University 2017; Assistant Professor of Public Administration 2018.

Senior Academic Lecturer:

ANNE ALEXANDER, B.B.A. New Mexico State University, 1991; M.S. 1993; Ph.D. University of Wyoming, 2001; Senior Academic Lecturer, 2019, 2013; Interim Provost and Vice President for Academic Affairs 2020.

Associate Lecturer:

RUTH BJÖRKENWALL, B.A. University of California at Berkeley, 1989; M.A. 2004; Associate Lecturer 2018, 2013.

Professors Emeriti:

Winberg Chai, Larry Hubbell, Garth Massey, Margaret M. Murdock, Stephen C. Ropp, Oliver Walter

Associate Professor Emeritus:

Alan E. Schenker

Adjunct Faculty:

(see department section following name for academic credentials)

Tanja Börzel, political science, Freie Universitaet Berlin
Roger Coupal, agriculture and applied economics
Michael Harkin, anthropology
Mark Peterson, management and marketing
Thomas Risse, political science, Freie Universitaet Berlin
Amy Roberts, elementary and early childhood education
Chris Rothfuss, international studies
Mona Schatz, social work
Ed Sherline, philosophy
J.J. Shinker, geography
Lilia Soto, American studies and latina/o studies
Jim Thurman, international studies, political science - Central Wyoming College

International Studies

Undergraduate Learning Outcomes

Goal 1. Students graduating with a BA in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Goal 2. Students graduating with a BA in international studies will have the capability to critically read, write about, discuss, and engage in scholarly inquiry related to international processes and issues.

Goal 3. Students graduating with a BA in international studies will have a minimal level of fluency in a second language and are expected to experience a foreign locale in which to use the second language skills.

Goal 4. Students will be made aware of career and post-graduate opportunities suitable for an international studies major.

Graduate Learning Outcomes

All students who graduate with a Master's degree in international studies will be able to:

- Engage in independent empirical inquiry that makes an original contribution to the field of study;
- Think critically and reason logically about a problem and the ways it can be answered;
- Employ the best recognized methods appropriate to their research;
- Effectively develop alternative explanations, use theories and concepts to guide the research project, and conduct the work in such a way that disproof is possible; and
- Present their work intelligently, with both written and oral capability at a level of professional expectations.

They will have a broad understanding of:

- International affairs;
- The diversity of national cultures and social structures;
- Political and economic systems;
- Major global trends and problems

International Studies Major

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwo.edu/sppais.

Core Courses

Students take 9 hours of core coursework. INST 2350 (Introduction to Global Studies) and INST 2310 (Introduction to International Relations) provide the theoretical framework for the global and regional tracks. INST 4950 (Capstone) provides the culminating experience for

students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

Area of Focus

Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

Global Tracks - Governance and Conflict Resolution; Economic Systems; Culture and Social Issues; Sustainable Development and the Environment

Regional Tracks - Africa and the Middle East; Asia, Europe and the Former Soviet Union; Latin America

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region, either: INST 2230 (Introduction to Asian Studies),

INST 2240 (Introduction to African Studies), INST 2250 (Introduction to Latin American Studies), or INST 2280 (Introduction to European Studies)/POLS 2200 (Politics of Europe and the EU). These courses fulfill the COM2 requirement for University Studies Program and counts towards the 9 hours required for the Regional Track.

Foreign Language

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.

Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement: ANTH 1200, ECON 1000, INST 1060 or GEOG 1000, INST/POLS 1200,

INST 1330.

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are

encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT 2070, Introductory Statistics for Social Sciences.

International Study Abroad and Internship Opportunities

All International Studies majors are strongly encouraged to consider taking part in a semester long study abroad program or a shorter-term faculty-led international fieldwork or study abroad courses taught by UW faculty (typically offered during the Summer and Winter

breaks) as a way to earn course credit towards their International Studies degree. In addition, International Studies majors are also encouraged to consider participating in paid or unpaid international internship opportunities as a way of earning additional academic credit

towards their International Studies degree. For more information on international study abroad exchanges, faculty-led fieldwork courses and internship opportunities, please visit the UW Abroad Office at: uwoyo.edu/geo/eda/index.

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Sustainable Development and the Environment

Suggested Gateway Courses: ENR 1100, ECON 1010, ECON 1020, GEOG 1000, GEOL 1600, SOC 1000

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

ANTH 4310 - Environmental Anthropology

ECON 4700 - Economic Development

ENR 2000 - Environment and Society

GEOG 3030 - Geography and Development

GEOG 3550 - Natural Hazards and Society

GEOG 4420 - Tourism and Recreation

GEOL 3500 - Global Change: A Geological Perspective

GEOL 3600 - Earth and Mineral Resources

GEOL 3650 - Energy: A Geological Perspective

INST/AGEC 3860 - Econ of World Food/Ag

INST 4060 - NGOs, Development, and Culture

INST/SOC 4110 - Sociology of Development

INST/POLS 4255 - Politics of Developing Nations

INST 4475 - Sustainable Development & Environment

INST 4580 - Gender, Global Change and Development

MKT 4590 - Sustainable Business Practices

POLS 4350 - Sustainable Development and Global Policy

Economic Systems

Suggested Gateway Courses: ECON 1000, ECON 1010, ECON 1020. NOTE: Some courses from this curriculum require ECON 3020.

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

AGEC 4880 - International Agricultural Trade, Markets and Policy

BUSN 4540 - Global Business Issues

ECON 4700 - Economic Development

ECON 4720 - International Trade

ECON 4740 - International Finance

FIN 4460 - Multinational Finance

INST/BUSN 2000 - Intro to International Business

INST/GEOG 3050 - Economic Geography

INST/AGEC 3860 - Economics of World Food and Development

INST/SOC 4370 - Global Political Economy

INST/MKT 4540 - International Marketing

INST/ECON 4710 - Comparative Systems

MKT 4590 - Sustainable Business Practices

Culture and Social Issues

Suggested Gateway Courses: ANTH 1200, SOC 1000

ANTH 4300 - Anthropology of Religion

ANTH 4350 - Medical Anthropology

ANTH 4380 - Visual Anthropology

ART 4650 - International Study in Art

COJO 3190 - Cross-Cultural Communication

GEOG 4570 - Cultural Geography

HIST 4405 - American Encounters to 1850

HIST 4406 - American Encounters from 1850

INST/SOC 3000 - Social Change

INST/ANTH 3420 - Anthropology of Global Issues

INST/HLSC 4100 - Global Public Health

INST/WMST 4155 - Women, War and Health

INST/WMST 4175 - Gender, Women and Health

INST/WMST 4240 - Global Sex Work and Trafficking

INST/ANTH 4350 - Culture Change

INST 4590 - Women of India

INST 4650 - Women, Gender and Migration

INST/SOWK 4881 - Intl Social Welfare/Social Dev.

ANTH/MUSC 3015 - Introduction to Music of the World's People

MUSC 4050 - Advanced Studies in World Music

RELI 2225 - History of Christianity

RELI 2255 - Introduction to Judaism

WMST 3500 - Gender and Society

ZOO 4110 - HIV/AIDS

Governance and Conflict Resolution

Suggested Gateway Courses: GEOG 1000, POLS 1200, SOC 1000

ANTH 4320 - Political Anthropology

CRMJ 4280 - Comparative Criminal Justice

GEOG 4590 - Geography of Conflicts

INST 3200 - Comparative Political Cultures

INST/WMST 4155 - Women, War, and Health

INST/SOC 4300 - The World System

INST/POLS 4330 - American Foreign Relations

INST/POLS 4340 - International Organizations

INST 4360 - International Peace & Conflict

INST 4375 - Transitional Justice

INST/HIST 4380 - History of Human Rights

INST 4455 - Drug War Geopolitics in the Americas

INST/GEOG 4560 - Global Cities

INST/HIST 4582 - 20th Century Foreign Relations

PHIL 3250 - Global Justice

POLS 3300 - Model United Nations

POLS/GEOG 4013 - Political Geography

POLS 4710 - Emerging Democracies

POLS 4870 - Seminar: International Relations

POLS 4875 - Seminar: Comparative Foreign Policy Analysis

POLS 4890 - Seminar: Comparative Government and Politics

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Africa and the Middle East

Gateway Course for this Concentration: INST 2240, Introduction to African Studies

AAST/INST 2240 - Introduction to African Studies

AAST/ANTH/ART 2730 - African Creativity and Ritual

AAST/HIST 3120 - Africa Since 1800

AAST 3130 - Global Impact of African Cultures

AAST 3670 - African Diaspora

ENGL 2190 - African Literature

HIST/RELI 2320 - History of Islam

HIST 3220 - History of the Modern Middle East

HIST/WMST 4335 - Women and Islam

INST 3400 - Politics and Society of Turkey

INST/AAST 4050 - Dev., Africa, and Culture

POLS 3270 - Government and Politics of the Middle East

RELI 2040 - Religions of the Middle East

RELI 2450 - Traditional African Religion

Asia

Note: The Asian Studies minor is different from this concentration.

Gateway Course for this Concentration: INST 2230, Introduction to Asian Studies

HIST 2040 - Imperial China

HIST 2041 - Modern China

HIST 2460 - Traditional Japan

HIST 2461 - Modern Japan

HIST 3400 - Mongol Empire

General Requirements for the International Studies Major

A student must complete 36 hours of course work and 16 hours of foreign language.

Concurrent Major

A concurrent major is a second major pursued alongside the primary major. The majors can be in one or more colleges. One degree is awarded from the college of the primary major. University Studies requirements need only be satisfied once.

Dual Degree

A dual degree is a second degree pursued either in the same college as the first degree or in another college. University Studies requirements need only be satisfied once. Students must meet all the college and major requirements for both majors. Students must complete at least 30 credit hours (minimum 12 upper-division hours) beyond the credit hours required for the degree with the smallest number of credit hours required. An academic advisor for each degree is required.

Second Bachelor's Degree

Students pursuing a second bachelor's degree must earn a minimum of 30 additional credit hours from UW, 12 of which must be upper-division. A student must also fulfill all of the college and major requirements, however, University Studies requirements only need to be met once if the first degree is from UW.

Undergraduate Minors

Students can minor in 3 areas by fulfilling one of the following sets of requirements:

International Studies Minor

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.

Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to

include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example,

countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Asian Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses, either INST 2230 - Introduction to Asian Studies (G/COM2) or POLS 3270 - Government and Politics of the Middle East, depending on their primary area of interest within Asia.

Asian Studies Area Courses (15 Credit Hours)

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the

approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to

review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

Approved Asian Studies Area Courses

SOC 3050 - Japanese Society

Optional Asian Study Abroad Component

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of

the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression

towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and

Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other Asian language

instruction at UW, other relevant in-country summer intensive programs, or languagefocused study abroad programs.

European Studies Minor

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and

culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the

Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

European Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 credit hours)

All European Studies Minor students must complete one of two required Gateway courses, either INST 2280 - Introduction to European Studies (COM2) or POLS 2200 - Politics of Europe and the European Union (COM2).

European Studies Area Courses (15 credit hours)

European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition

to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the

International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

SPAN 3220 - Spanish Culture and Civilization

Optional European Study Abroad Component

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards

fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

Optional European Foreign Language Component

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European

foreign language may be counted towards fulfillment of the European Studies Area Course requirement. 'European' languages at UW include French, German, and Spanish. However, European Studies Minor students need not necessarily be limited to the three languages

currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad

programs. All required courses for the major must be passed with a grade of C or better. A course cannot simultaneously fulfill more than one major requirement.

Graduate Study

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4 hours of thesis.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Program Specific Degree Requirements

Students must meet three requirements: 1) Each student must take INST 5400. 2) Each student must take INST 5200. 3) Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from previous experience or

coursework. Foreign language hours do not count toward the M.A. degree. The program also offers a joint International Studies/Environment and Natural Resources degree. See www.uwyo.edu/sppais for specific degree requirements.

Plan A (thesis)

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser during the second semester of

coursework. No later than the second semester in residence, each student shall select a graduate committee to oversee his or her academic work. The committee will be chaired by the student's major professor and must have at least one member from outside of The

School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus defense with their graduate committee by

the end of their second semester. Students must pass an oral examination at the completion of their program. Normally, examination will center on the thesis, but may also encompass coursework of the candidate.

Required Coursework

Advanced Theory Course

INST 5200 Graduate Proseminar in International Studies

Research Methods Course

INST 5400 International Social Science Research Methods

Graduate Minor in International Studies

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students

acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate

degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking

the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in

international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also

count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

Political Science

Political Science is the study of how societies govern themselves and interact with one another. Courses of instruction in the Political Science major are offered in the following subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration. Areas of focus include analysis of government structures and processes, citizens' influence on government, policy content, philosophical concepts and traditions, political systems of other states, and resolution of conflicts between nations. By developing critical thinking and analytical skills, the major prepares students for effective participation in the political process, successful careers in the public and private sectors, and further study in law, political science, and public administration.

In 1925, the state legislature passed a law requiring the study of the U.S. and Wyoming constitutions by all University of Wyoming students. Political Science 1000 satisfies this requirement, but the requirement can also be satisfied by special examination given periodically by the School of Politics, Public Affairs, and International Studies.

Learning Outcomes

We continuously and actively assess the Political Science undergraduate curriculum to ensure that the following learning outcomes are being met for each of our graduates:

1. Acquisition of a knowledge and understanding of the values, beliefs, and institutions that constitute governing processes;
2. Acquisition of an understanding of the distinctions among the major subfields of the discipline including: American politics and law; international relations; comparative politics; and political theory;
3. Development of a knowledge and understanding of citizens' roles within governing processes;
4. Acquisition of a knowledge of the theories and analytic skills necessary to evaluate conflicting arguments, assemble and present appropriate evidence, and make reasoned conclusions from the evidence available;
5. The ability to communicate effectively, both orally and in written form.

Undergraduate Major

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours. Students are required to complete the following four introductory courses: POLS 1000; POLS 1200 or POLS 1250; POLS 2310; and POLS 2460 or POLS 3600. Students are also required to take at least one seminar in political science (and its prerequisites); 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages; STAT 2050 or STAT 2070; and a minimum of 9 hours of upper division credit in political science. A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies:
www.uwyo.edu/sppais.

5 Year B.A./M.A. Program in Political Science

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year. Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.

Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduatelevel credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduate level coursework as undergraduates, easing their transition into the Master's Program in

Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework. Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and

earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

Undergraduate Minors

The school offers optional undergraduate minors in American politics, international relations and comparative government, public law, and political theory. Eighteen hours are required in each minor, including 9 hours of upper-division courses and one seminar. A maximum of 3 hours of internship credit may be applied towards the 18 hours required for the political science minor. At least 12 credit hours in a minor must be from courses not counted toward the student's major. Information relating to specific courses fulfilling minor requirements may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

American Politics Minor

A minor in American Politics requires POLS 1000 - American and Wyoming Government, either POLS 4850 - Seminar in American Political Institutions or POLS 4840 - Seminar in Public Law, and 12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

Approved American Politics Minor courses:

POLS 2000 - Current Issues in American Government
 POLS 2070 - Politics of State & Local Government
 POLS 2410 - Introduction to Public Administration
 POLS 2430 - Parties, Interest Groups, & Elections
 POLS 2450 - Politics & Media

 POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
 POLS 3100 - Politics and the Judicial Process
 POLS 3520 - Voting & Participation in America
 POLS 3550 - Political Communication
 POLS 3600 - American Political Thought
 POLS 4051 - Environmental Politics
 POLS 4052 - Federal Land Politics
 POLS 4100 - Constitutional Law: Institutional Powers
 POLS 4110 - Constitutional Law: Civil Liberties & Civil Rights
 POLS 4330 - American Foreign Relations
 POLS 4420 - Seminar in Public Administration (Max. 6)
 POLS 4430 - U.S. Presidency
 POLS 4435 - Presidential Elections
 POLS 4520 - Public Opinion
 POLS 4530 - U.S. Congress
 POLS 4550 - Internship in Government (dept. approval required)(1-6)
 POLS 4560 - Washington Semester Program (Max. 6)
 POLS 4710 - Topics in _____ (dept. approval required)(Max. 9)
 POLS 4720 - Workshop in Practical Politics (Max. 6)
 POLS 4840 - Seminar in Public Law (Max. 6)
 POLS 4850 - Seminar in American Politics and Institutions (Max. 6)

International Relations and Comparative Politics Minor

A minor in International Relations and Comparative Politics requires POLS 2310 - Introduction to International Relations, either POLS 1200 - Non-Western Political Cultures or POLS 1250 - Introduction to Comparative Politics, either POLS 4870 - Seminar in International Relations or POLS 4890 - Introduction to Comparative Government and Politics, and 9 hours from an approved list of courses, with a minimum of 6 hours at the 3000-level or above.

Approved International Relations and Comparative Politics Minor courses

POLS 2200 - Politics of Europe and the European Union
 POLS 2290 - Government & Politics of Latin America
 POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
 POLS 3200 - Comparative Political Cultures
 POLS 3220 - Government & Politics of Russia and FSU
 POLS 3270 - Government & Politics of the Middle East
 POLS 3300 - Model United Nations (Max. 6)
 POLS 4013 - Political Geography
 POLS 4215 - European Union
 POLS 4230 - Government & Politics of Asia
 POLS 4255 - Politics of Developing Nations
 POLS 4260 - Democratization & Regime Change
 POLS 4290 - Inter-American Relations
 POLS 4330 - American Foreign Relations
 POLS 4340 - International Organizations
 POLS 4350 - Sustainable Development & Global Policy
 POLS 4360 - International Peace & Conflict
 POLS 4375 - Transitional Justice
 POLS 4445 - Drug War Geopolitics in the Americas
 POLS 4475 - Politics of Natural Resources in Latin America
 POLS 4600 - Political Violence
 POLS 4710 - Topics in _____ (dept. approval required)(Max. 6)
 POLS 4870 - Seminar in International Relations (Max. 6)
 POLS 4890 - Seminar in Comparative Government and Politics (Max. 6)

Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study. Required are POLS 2460 - Introduction to Political Theory, POLS 3600 - American Political Thought, POLS 4810 - Seminar in Political Theory, and 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

Approved Political Theory Minor courses

POLS 2330 - Environmental Ethics
 POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
 POLS 3050 - Athenian Democracy
 POLS 3610 - Classics in Environmental Thought
 POLS 3620 - Environmental Justice
 POLS 4090 - Anglo-American Jurisprudence

POLS 4160 - Legal Philosophy
 POLS 4640 - Political Philosophy: Ancient & Medieval
 POLS 4650 - Political Philosophy: Modern
 POLS 4660 - Political Philosophy: Contemporary
 POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)
 PHIL 2200 - Social & Political Philosophy (Max. 6)
 SOC 3900 - Social Theory

Public Law Minor

A minor in Public Law offers an opportunity for interdisciplinary study. Required are POLS 4100 - Constitutional Law: Institutional Powers, POLS 4110 - Constitutional Law: Civil Liberties & Rights, POLS 4840 - Seminar in Public Law, and 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.

Approved Public Law Minor courses

POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)
 POLS 3100 - Politics and the Judicial Process
 POLS 4090 - Anglo-American Jurisprudence
 POLS 4160 - Legal Philosophy
 POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)
 AGE 3400 - Agricultural Law
 COJO 4500 - Mass Communication Law
 CRMJ 2210 - Criminal Law
 CRMJ 3110 - Criminal Courts & Processes
 CRMJ 4140 - Criminal Legal Procedure
 CRMJ 4350 / SOC 4350 - Sociology of Law
 CRMJ 4540 / WMST 4540 - Women, Crime, and Law
 CRMJ 4730 / PSYC 4730 - Psychology and Law
 HIST 4515 - American Legal History
 MGT 1040 - Legal Environment of Business

Teacher Education

The teacher certification program in Secondary Social Studies Education, with a concurrent major in Political Science is available through the College of Education. A minimum 2.500 UW grade point average and a 2.500 grade point average in Political Science and Social Studies content are required to change majors. Further information may be found under the College of Education section in this Catalog.

Major or Minor in Environment and Natural Resources

The Haub School of Environment and Natural Resources (ENR) offers a second major or minor for students interested in interdisciplinary training in the policy, legal, economic, scientific, ethical, and other perspectives associated with ENR challenges. The Haub School uses problem-based learning and interdisciplinary team teaching. Students of all disciplines are welcome to take classes in ENR or add ENR to their degree program. Contact the Haub School at (307) 766-5080, haub.school@uwyo.edu, or www.uwyo.edu/haub.

Graduate Study

The master of arts and the master of public administration are offered by the School of Politics, Public Affairs, and International Studies. The school's mission is to give graduate students an understanding of the theories and methods necessary for success in (1) research or in post-baccalaureate study in any of the subfields in political science, (2) high school teaching in social science, or (3) careers in policy analysis or public administration in local, state, or federal government, or international governmental, non-profit, or non-governmental organizations. Our graduate students have progressed to senior positions in government, the U.S. Foreign Service, and international organizations; they have pursued rewarding careers in education and the private sector; and they have advanced to Ph.D. programs in political science and related fields.

Program Specific Admission Requirements

Master of Arts in Political Science

Admission is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.0 GPA. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Master of Public Administration (M.P.A.)

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI). Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Program Specific Degree Requirements

Master's Programs

Master of Arts in Political Science, Plan A (thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.

POLS 5680. Research Methods for Political Science.

POLS 5684. Empirical Analysis for Public Administration.

POLS 5810. Seminar in Political Philosophy.

At least 6 additional hours of coursework in political science.

A maximum of 9 hours of coursework in disciplines other than political science.

A minimum of 4 hours thesis research.

A master's thesis demonstrating independent research, written under the supervision of the major professor.

An oral examination conducted by the graduate committee covering all coursework and the thesis.

No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.

Students must maintain a graduate GPA of 3.000.

Master of Arts in Political Science, Plan B (non-thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.

POLS 5680. Research Methods for Political Science.

POLS 5684. Empirical Analysis for Public Administration.

POLS 5810. Seminar in Political Philosophy.

At least 6 additional hours of coursework in political science.

A maximum of 12 hours of coursework in disciplines other than political science.

Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.

An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.

No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.

Students must maintain a graduate GPA of 3.000.

Master of Public Administration Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

21 hours of core credit,

6 hours of option-core credit,

12 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits. Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion. Students must maintain a graduate GPA of 3.000.

Master of Public Administration/Juris Doctor

See the M.P.A. Director and/or the College of Law for information. Students must be accepted to both programs.

Department of Psychology

135 Biological Sciences Building,

(307) 766-6303

FAX: (307) 766-2926

Department Chair: Sean McCrea

Professors:

KAREN BARTSCH ESTES, B.S. Colorado State University 1981; M.A. Oxford University 1983; Ph.D. University of Michigan 1988; Professor of Psychology 2007, 1992.

MATTHEW J. GRAY, B.A. Creighton University 1993; M.S. Drake University 1995; Ph.D. University of Mississippi 2000; Professor of Psychology 2014, 2002.

CYNTHIA M. HARTUNG, B.S. University of Wisconsin-Madison 1990; M.A. University of Kentucky 1993; Ph.D. 1998; Professor of Psychology 2019, 2007.

SEAN M. McCREA, B.A. Bucknell University 1996; Ph.D. Indiana University 2002; Professor of Psychology 2019, 2009.

CHRISTINE L. McKIBBIN, B.S. Michigan State University 1991; M.S. University of North Texas 1994; Ph.D. 1997; Professor of Psychology 2019, 2007.

NARINA NUÑEZ, B.A. State University of New York at Cortland 1980; M.S. 1984; Ph.D. Cornell University 1987; Professor of Psychology 2000, 1987.

CAROLYN M. PEPPER, B.S. Western Michigan University 1989; M.A. State University of New York at Stony Brook 1992; Ph.D. 1995; Professor of Psychology 2011, 2002.

BENJAMIN M. WILKOWSKI, B.A. Ohio University 2002; M.S. North Dakota State University 2005; Ph.D. 2008; Professor of Psychology 2020, 2008.

Associate Professors:

ROBIN A. BARRY, B.A. University of Michigan 1996; M.A. University of Iowa 2005; Ph.D. 2010; Associate Professor of Psychology 2020, 2016.

JOSHUA D. CLAPP, B.A. University of Wyoming 2003; M.A. State University of New York at Buffalo 2008; Ph.D. 2012; Associate Professor of Psychology 2018, 2012.

KYLE P. De YOUNG, B.S. University of Iowa 2004; M.A. State University of New York at Albany 2008; Ph.D. 2011; Associate Professor of Psychology 2020, 2016.

ALISON R. LOOBY, B.A. University of California-San Diego 2002; M.A. State University of New York at Albany 2007; Ph.D. 2011; Associate Professor of Psychology 2020, 2016.

MEREDITH E. MINEAR, B.S. University of Illinois at Urbana-Champaign 1994; Ph.D. University of Michigan 2004; Associate Professor of Psychology 2019, 2013.

Assistant Professor:

KAYLA A. BURD, B.A. Hofstra University 2010; M.A. Cornell University 2016; Ph.D. 2018; Assistant Professor of Psychology 2020.

Academic Professional Lecturer:

CATHERINE P. CARRICO, B.A. Austin College; Ph.D. University of Northern Colorado; Clinical Associate Professor 2020.

TARA K. CLAPP, B.A. State University of New York at Buffalo 2005; M.S. Niagara University 2010; Associate Academic Professional Lecturer in Psychology 2018, 2012.

SCOTT FRENG, B.S. Black Hills State University 1995; M.A. University of South Dakota 1998; Ph.D. University of Nebraska - Lincoln 2001; Senior Lecturer in Psychology 2013, 2003.

MARIA I. KUZNETSOVA, B.A. Syktyvkar State University-Russia 2000; M.S. University of South Carolina-Aiken 2005; Ph.D. Virginia Commonwealth University 2011; Associate Academic Professional Lecturer in Psychology 2017, 2011.

Professor Emeritus

George Blau, David Estes, Charles J. Ksir, Karen B. Nicholas

The Department of Psychology offers coursework at several levels:

1. Introductory courses for students in other programs who wish an elementary knowledge of psychology.
2. Courses supportive of work in other majors.
3. An undergraduate major that is sufficiently flexible to allow students to prepare for graduate programs in psychology, professional schools (e.g. law, medicine) or for employment after graduation.
4. Graduate course work leading to the Ph.D. in clinical psychology, social psychology, cognition/cognitive development, or psychology and law.

Facilities are available for course work and laboratory experiences in areas of psychology such as cognition, personality, social, biological psychology, cognitive development, and psychology and law.

Students who wish to increase chances of employment related to their undergraduate majors should consult an adviser concerning areas of specialization within psychology.

Students planning graduate work in psychology should consult with their faculty adviser concerning career choices and development.

Learning Outcomes

We expect that our Psychology graduating students will have:

1. a basic knowledge of psychology and related fields.
2. the ability to evaluate the assumptions, purposes, methods, and results of psychological research and scholarship.
3. skills in teamwork, leadership, writing, speaking and listening, especially concerning psychology-related topics.

Credit by Examination

Credit by examination will be allowed only for PSYC 1000. The examination accepted is the College Level Examination Program (CLEP); the passing score is 50.

Advanced Placement

The psychology department will accept a score of 4 on the AP exam for credit in PSYC 1000, effective Fall 2015.

Undergraduate Major

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this *Catalog*.

Students must complete the following courses:

PSYC 1000 General Psychology

PSYC 2000 Research Psychological Methods

Four of five cores:

Biological,

PSYC 2210 Drugs and Behavior **or** PSYC 2080 Biological Psychology Developmental,

PSYC 2300 Developmental Psychology Clinical,

PSYC 2340 Abnormal Psychology Social,

PSYC 2380 Social Psychology Cognitive,

PSYC 3120 Cognitive Psychology

Additionally **one** of the following restricted enrollment (seminar or writing intensive) courses is required: PSYC 4040, 4150, 4250, 4320, 4350, 4380, 4390, 4400, 4740, 4860.

Also required are 6 hours of anthropology, communication/journalism, criminal justice, economics, political science, or sociology; LIFE 1003 or 1010; and STAT 2050 or 2070.

One approved 3-4 credit hour STEM course: CHEM 1000, CHEM 1020, COSC 1010, COSC 1100, KIN/ZOO 2040, KIN/ ZOO 2041, LIFE 2002, LIFE 2022, LIFE 2023, LIFE 2050, MATH 1050, MATH 1405, MATH 2200, MICR/MOLB 2021, PHYS 1050, PHYS 1110, STAT 2000, STAT 3050, or ZOO 3600.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.

For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.

Undergraduate Minors

The Department of Psychology offer two undergraduate minors: psychology and aging studies.

Psychology

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000- level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Aging Studies

A minor in aging studies requires 18 credit hours. These must include the following:

Core Courses

NURS 2240, FCSC 2110, HLSC 4985

Elective Courses - 9 credits

6 credits must be outside student major

Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check

Students seeking the minor in Aging Studies will be required to obtain a background check as specified by College of Health Sciences policy. Please contact us for specific information.

Program Plan

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

Graduate Study

The Department of Psychology offers the doctor of philosophy in psychology with programs in clinical (APA accredited) psychology, social psychology, cognition/ cognitive development, and psychology and law.

Program Specific Admission Requirements

The deadline for receipt of all application materials is December 1.

We only admit students one time per year. Our graduate students begin their programs of study in the fall semester.

Although our graduate programs technically consist of separate master's and doctoral degree components, only students who are applying for, and who expect to complete, the doctoral program are considered for admission. That is, we do not offer a terminal master's degree.

Application materials include the application, one to two page personal statement, undergraduate and graduate (if applicable) transcripts, GRE scores (general and Advanced Psychology subject), curriculum vitae, and three letters of recommendation. An application fee of \$50 is required.

Applications are evaluated based on the applicants' academic qualifications (e.g., GRE scores, undergraduate GPA) and interests. Particular attention is paid to the goodness of fit between the applicant's expressed interests and the particular strengths and offerings of our program.

Our program does not employ a set of formal "cut-offs" with regard to any of the quantitative application elements (e.g., GRE scores or undergraduate/graduate GPA). Often a strong record in one area may make up for a weakness in another area. Applicants interested in information on the qualifications of admitted students should consult the student summary data (www.uwyo.edu/psychology).

Program Specific Graduate Assistantships

Applicants are considered for graduate assistantships at the time of admission. Graduate students typically receive some departmental financial support for the first four years.

Program Specific Degree Requirements

Master's Programs Plan A (thesis)

In addition to the general requirements specified in this Catalog, the following are required: (1) successful completion and oral defense of a thesis; (2) PSYC 5060. Statistical Methods in Psychology - 3 hours or STAT 5050. Statistical Methods in Biological Science - 3 hours; PSYC 5300. Applied Multivariate Analysis - 3 hours or STAT 5055. Statistical Methods for Biologists II - 3 hours; PSYC 5520. Research Design in Psychology - 3 hours; (3) at least 9 hours in 5000-level courses exclusive of those listed above and exclusive of research and thesis research credit.

A minimum of 30 semester hours is required (26 coursework hours and 4 thesis hours).

Doctoral Programs**Clinical Psychology**

Students complete a four-year, on-campus sequence of required courses covering core areas of psychology and clinical competency. In addition, the following are required: successful completion of a thesis, a preliminary comprehensive examination, a dissertation, two summer clerkships, and a full year APA accredited internship.

Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Students complete course requirements in topics designated as core areas of psychology, a preliminary comprehensive examination, and a research-based dissertation.

Department of Theatre and Dance

**2099 Buchanan Center for the
Performing Arts, (307) 766-2199**

Web site: uwyo.edu/thd/

Department Head: Margaret Wilson

Professors:

CECILIA ARAGÓN, B.S. McMurry University 1991; M.A. University of New Mexico 1996; Ph.D. Arizona State University 2003; Professor of Theatre and Dance 2017, 2005.

WILLIAM MISSOURI DOWNS, B.S. Northern Michigan University 1977; M.F.A. University of Illinois 1980; M.F.A. University of California-Los Angeles 1988; Professor of Theatre and Dance 2004, 1994.

MARSHA F. KNIGHT, B.F.A. University of Utah 1979; M.F.A. 1983; Professor of Theatre and Dance 1998, 1984.

MARGARET WILSON, B.A. University of Wyoming 1981; M.S. 1987; Ph.D. Texas Woman's University 2007; Professor of Theatre and Dance 2016, 2005.

LOU ANNE WRIGHT, B.A. California State University-Northridge 1990; M.F.A. National Theatre Conservatory 1993; Professor of Theatre and Dance 2007, 1994.

Assistant Professors:

CATHERINE FOLDENAUER, B.S. University of California, Davis 2006; M.F.A. California Institute of the Arts 2021; Assistant Professor of Theatre and Dance 2020.

PATRICK KONESKO, B.A. Saginaw Valley University 2008; M.A. Bowling Green State University 2009; Ph.D. 2013; Assistant Professor of Theatre and Dance 2015.

SCOTT TEDMON-JONES, B.F.A. University of Wyoming 2001; M.F.A. Carnegie Mellon University 2010; Assistant Professor of Theatre and Dance 2018.

Assistant Lecturers:

JASON BANKS, B.F.A. University of Florida 2004; M.F.A. The Ohio State University 2007; Assistant Lecturer FTRC 2020.

ANDREW LIA, B.A. Augustana College 2009; M.F.A. California Institute of the Arts 2013; Assistant Lecturer FTRC 2020.

Adjunct Professor:

Neil F. Humphrey

Emeritus Professors:

Rebecca Hilliker, Patricia Tate, Ron Steger, Larry Hazlett, Leroy Hodgson

Degrees Offered

The Department of Theatre and Dance offers curricula leading to the B.A. degree and the Bachelor of Fine Arts and courses which fulfill a part of University Studies and various colleges' requirements, including the College of Arts and Sciences.

Curricula

Students may not take a course for S/U credit to satisfy course requirements in the major. This does not apply to courses offered for S/U only. Requirements for students majoring in the areas of the department are indicated below.

Theatre

The study of theatre provides students with a broad understanding of the art of theatre appropriate to theatre's position as a fine art in a liberal arts college. The study of theatre is considered to provide a basis for more specialized theatre study in a graduate or professional school. The liberal arts education in theatre together with extensive experience in the production program also provides the foundation for a professional career in theatre, motion pictures, or television drama for those individuals with special desires and abilities. Secondary teaching certification in theatre can be obtained through this program of study.

Dance

The dance concentration within the Department of Theatre and Dance is designed to provide students with a broad foundation in the humanities and specific emphasis in performance and production aspects of dance. Students pursuing this course of study will have opportunities to attain technical competency in ballet and/or modern dance, to perform in yearly dance productions, to obtain practical experience in the fundamentals of teaching dance and to gain experience in technical theatre as an aid to dance production. The program seeks to provide a comprehensive view of dance as an artistically expressive medium, as well as a creative and recreational tool to human expression.

Students completing this program will qualify for more advanced private instruction as well as advanced academic instruction.

All dance students are matriculated into the BA degree. Students wishing to apply for the BFA in Dance Performance or BFA in Dance Science do so the second semester of their freshman year.

Students must receive a C or better in all courses designated THEA to satisfy department degree requirements. A student's transfer courses in Theatre and Dance must also reflect a C or better to be accepted for credit. A grade of C- does not meet the requirement.

Outcomes:

Our goal is to nurture artists and scholars within aesthetic, social, critical, historical and contemporary performance and dance idioms, who appreciate cultural literacy and respect diversity, who think critically, who master discipline-specific performance and production skills, and who foster knowledge and make compelling artistic choice on stage.

The Theatre and Dance Department expects that upon graduation all students will be able to:

- Demonstrate or detail the basic production process and make an informed assessment of quality in all areas of theatre and dance,
- Honor and represent historical, contemporary, and cultural diversity in academic and performance settings,
- Articulate the intersection of their personal, aesthetic, and social/political ideas in relation to a particular play, performance work or production,
- Develop collaborative skills, communicate effectively and function in a variety of contexts with self-knowledge, resilience, and resourcefulness, both in performance and in creation,
- Understand the demands and expectations of the profession,
- Synthesize and utilize knowledge from courses in the breadth of the discipline,
- Recognize and be familiar with postgraduate training opportunities in professional theatre, dance and academia.

Scholarships

A number of scholarships are available to interested majors in theatre or within the dance option. The University Theatre also maintains a summer company. Applications should be sent to the Department of Theatre and Dance, Dept. 3951, 1000 E. University Ave., Laramie, WY 82071.

Departmental Activities/ Organizations

The department sponsors one of the largest all-student activities on campus. Nearly 250 students take part in its productions each season. All students are eligible to participate in its productions through auditions.

Productions are mounted in the Buchanan Center for the Performing Arts which includes a flexible proscenium theatre and an experimental-studio theatre complete with scene and costume support facilities.

Auditions, open to all university students, are publicly announced for each production. Qualified students may receive credit in performance and production areas (THEA 2050).

The Wyoming Summer Theatre presents a season of plays of varying types during the summer session. Theatre majors and minors are urged to spend at least one summer working with this group.

Graduate Study

At present, no program for graduate degrees in theatre and dance is offered; however, courses may be counted at the graduate level.

Department of Zoology and Physiology

114 Aven Nelson

(307) 766-4207

Web site: www.uwyo.edu/Zoology

Department Head: Robert S. Seville

Professors:

MERAV BEN-DAVID, B.S. Tel Aviv University 1984; M.S. 1988; Ph.D. University of Alaska 1996; Professor of Zoology and Physiology 2010, 2000.

CRAIG W. BENKMAN, B.A. University of California at Berkeley 1978; M.S. Northern Arizona State University 1981; Ph.D. State University of New York at Albany 1985; Robert Berry Professor of Ecology, Professor of Zoology and Physiology 2004.

JACOB R. GOHEEN, B.S. Kansas State University 1998; M.S. Purdue University 2002; Ph.D. University of New Mexico 2006; Professor of Zoology and Physiology 2020, 2010.

CARLOS MARTINEZ del RIO, B.Sc. Universidad Nacional de Mexico 1984; Ph.D. University of Florida 1990; Professor of Zoology and Physiology 2004, 2000.

DAVID B. MCDONALD, A.B. Harvard College 1973; Ph.D. University of Arizona 1987; Professor of Zoology and Physiology 2010, 1996.

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Associate Professor of Zoology and Physiology 2021, 2009.

FRANK J. RAHEL, B.A. Kenyon College 1974; M.S. University of Wisconsin 1977; Ph.D. 1982; Professor of Zoology and Physiology 1998, 1985.

ROBERT S. SEVILLE, B.S. San Diego State University 1981; M.S. University of Wyoming 1987; Ph.D. 1992; Professor of Zoology and Physiology 2011, 1995.

QIAN-QUAN SUN, B.Sc. Shandong Normal University 1990; M.S. 1993; Ph.D. St. Andrews University 1998; Professor of Zoology and Physiology 2016, 2004.

Associate Professors:

MATTHEW D. CARLING, B.S. University of Michigan 1997; M.S. University of Idaho 2002; Ph.D. Louisiana State University 2008; Associate Professor of Zoology and Physiology 2017, 2011.

ANNA D. CHALFOUN, B.A. Smith College 1995; M.S. University of Missouri-Columbia 2000; Ph.D. University of Montana-Missoula 2006; Associate Professor of Zoology and Physiology 2016, 2011.

BRIAN D. CHERRINGTON, B.A. Washington University 1996; M.S. Colorado State University 2001; Ph.D. 2005; Associate Professor of Zoology and Physiology 2017, 2011.

MICHAEL E. DILLON, B.S. University of Texas, Austin 1998; Ph.D. University of Washington 2005; Associate Professor of Zoology and Physiology 2015, 2009.

MATTHEW J. KAUFFMAN, B.A. University of Oregon 1992; Ph.D. University of California, Santa Cruz 2003; Associate Professor of Zoology and Physiology 2014, 2006.

AMY C. KRIST, B.A. State University of New York at Potsdam 1991; Ph.D. Indiana University 1998; Associate Professor of Zoology and Physiology 2017, 2004.

AMY M. NAVRATIL, B.S. Colorado State University 1999; Ph.D. 2005; Associate Professor of Zoology and Physiology 2019, 2011.

KARA PRATT, B.A.S. University of Delaware 1989; Ph.D. Brandeis University 2004; Associate Professor of Zoology and Physiology 2017, 2011.

ANNIKA W. WALTERS, B.A. Princeton University 2002; M.S. Yale University 2006; Ph.D. 2009; Associate Professor of Zoology and Physiology 2019, 2011.

Assistant Professors:

NICOLE L. BEDFORD, B.S. University of British Columbia 2010; Ph.D. Harvard University 2019; Assistant Professor of Zoology and Physiology 2021.

RILEY FEHR BERNARD, B.Sc. Linfield College 2007; M.Sc. University of Hawaii Hilo 2011; Ph.D. University of Tennessee 2015; Assistant Professor of Zoology and Physiology, 2020.

SARAH M. COLLINS, B.A. Lewis & Clark College 2007; Ph.D. Cornell University 2015; Assistant Professor of Zoology and Physiology 2018.

FETZER, WILLIAM WARREN, B.S. University of Wisconsin-Madison 2005; M.S. Cornell University 2009; Ph.D. 2013. Assistant Professor of Zoology and Physiology 2020.

YUN LI, B.S. University of Science and Technology of China 1996; M.S. 1998; Ph.D. University of Texas Health Center at San Antonio 2003; Assistant Professor of Zoology and Physiology 2018.

JEROD A. MERKLE, B.S. University of Arizona 2006; M.S. University of Montana 2011; Ph.D. Université Laval 2014; Assistant Professor of Zoology and Physiology 2018.

ADAM C. NELSON, B.S. University of Montana 2001; Ph.D. University of Utah 2011; Assistant Professor of Zoology and Physiology 2021.

COREY E. TARWATER, B.S. University of California, Davis 1999; M.S. University of Illinois, Urbana-Champaign 2006; Ph.D. 2010; Assistant Professor of Zoology and Physiology 2015.

W.D. (TREY) TODD, B.S. Baylor University 2005; M.A. University of Iowa 2009; Ph.D. 2012; Assistant Professor of Zoology and Physiology 2019.

Assistant Professor of Practice:

BETHANN G. MERKLE, B.A. University of Montana 2007; M.F.A. University of Wyoming 2017; Assistant Professor of Practice 2021.

Senior Academic Professional Research Scientist:

ZHAOJIE ZHANG, B.S. Shandong University 1985; M.S. 1988; Ph.D. University of Oklahoma 1999; Director, Microscopy Core Facility, University of Wyoming 2001; Senior Research Scientist in Zoology and Physiology 2012.

Assistant Academic Professional Research Scientist:

JONATHAN PATRICK KELLEY, A.B. Harvard 2001; Ph.D. University of California, Davis 2012; Assistant Research Scientist in Zoology and Physiology 2018.

Professors Emeritus:

Harold L. Bergman, Steven W. Buskirk, Francis W. Flynn, Zoltan M. Fuzessery, Robert P. George, William A. Gern, Robert O. Hall, Henry J. Harlow, Wayne A. Hubert, Robert M. Kitchin, J.A. Lillegraven, Frederick G. Lindzey, James R. Lovvorn, Graham Mitchell, James D. Rose, Joan Smith-Sonneborn

Academic Professional Lecturer Emeritus:

Jane Beiswenger

Wyoming Cooperative Fish and Wildlife Research Unit Unit:

Wyoming Cooperative Fish and Wildlife Research Unit Unit Leader: Matthew W. Kauffman

Assistant Unit Leader for Fisheries: Annika W. Walters

Assistant Unit Leader for Wildlife: Anna D. Chalfoun

Department of Zoology and Physiology

The Department of Zoology and Physiology offers a variety of courses in the biological sciences that encompass many aspects of animal form, function, and biology. Whether you are interested in the intricacies of cell biology or the complexities of ecosystem functioning and whether you want to become a wildlife biologist or a physician, we offer a major that will suit your needs.

Undergraduate Degrees:

Students can choose from three undergraduate degrees: physiology, wildlife and fisheries biology and management, or zoology.

Learning Outcomes for Undergraduates

The learning outcomes that direct the teaching of the department's degrees and which we expect our graduates to have acquired are:

- Competence in basic sciences;
- Competence in the content of the specific courses that constitute the principal knowledge of the degree;
- Ability to comprehend, analyze, and interpret biological data where appropriate; and
- Ability to synthesize information from the biological literature, and communicate it effectively in writing or orally.

Undergraduate Minors:

Minors in human and animal physiology, wildlife fisheries biology management, neuroscience, and zoology are offered.

Graduate Study

The Department of Zoology and Physiology offers programs leading to the master of science and the doctor of philosophy in zoology and physiology. We also participate in graduate programs through the Neuroscience Program and the Program in Ecology.

Program Specific Admission Requirements

Admission is open to all students who meet the minimum requirements set forth in the admissions section of this *Catalog*.

Research and teaching assistantships are available for graduate students working toward the M.S. or Ph.D. degrees. Applicants can apply for this financial assistance at the time they apply for admission to graduate standing. Applications must be completed by February 15 in order to be considered for the following academic year.

Information on how to apply to the graduate program in the Department of Zoology and Physiology is detailed on our web site. Begin by identifying a faculty member in our department whose research interests are similar to yours. We will only consider an application if a faculty member has indicated a willingness to serve as the student's adviser. After finding a potential adviser, e-mail a completed departmental application form, a copy of your curriculum vitae, copies of college transcripts, and recommendation letters to him or her. Our graduate admissions committee will review all applications and make decisions on admission based on the availability of funding and a commitment from a faculty member to serve as the adviser. Students recommended for admission will then be asked to fill out an application to the University of Wyoming and pay a non-refundable application fee.

Consult the website, www.uwyo.edu/zoology, to find out about faculty research.

Learning Outcomes for M.S. Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Collect and analyze data to address a research question.
3. Summarize research findings and communicate them effectively in writing and orally.

Learning Outcomes for Doctoral Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Develop a research project which constitutes a substantial and original contribution to the field of study.
3. Summarize research findings and communicate them effectively in writing and orally.

College of Business

310 Business Building

Website: <http://business.uwyo.edu>

Rob Godby, Interim Dean

Phone: (307)766-4194 **FAX:** (307)766-4028

Peter M. and Paula Green Johnson Student Success Center (307) 766-8249

The College of Business prepares students for careers by providing quality education in business disciplines, creating and disseminating knowledge, and assisting in Wyoming's economic development. The College of Business expects the highest level of integrity from our administration, faculty, staff, students, and alumni.

The College of Business grew from roots established in 1899 when the UW School of Commerce was founded. While the programs offered have changed over the years, the college remains firmly committed to academic excellence and positive student experiences.

The college has three academic departments: accounting and finance; economics; and management and marketing. The college also houses the College of Business Peter M. and Paula Green Johnson Student Success Center which is instrumental in maintaining the college's link with the business world.

These units are committed to preparing all College of Business students to enter our rapidly-changing world. Successful graduates are fully prepared to compete in their chosen professions or in graduate school. More importantly, they are well-educated individuals prepared to live fulfilling lives, and to meet the challenges presented by the complex ethical, moral and cultural contexts of our times.

College of Business Learning Outcomes

The College of Business expects that its graduates:

1. Will be competent in their field of study
2. Will be effective problem solvers
3. Will be ethical
4. Will be professional
5. Will be effective communicators

AACSB Accreditation

The business degree programs offered by the College of Business are accredited by AACSB-International. AACSB standards ensure that College of Business students are provided comprehensive, high-quality, well-rounded degree programs. The "Common Body of Knowledge" and the "Advanced Business Standing" (ABS) as described on the following pages have been developed to meet the AACSB accreditation standards.

Per accreditation guidelines, non-College of Business majors are limited to 30 hours of business courses.

A minimum of 50% of COB courses required for the major must be taken from the degree-awarding institution.

Programs of Study

Undergraduate Degrees

BSB - Bachelors of Science in Business

BSE - Bachelors of Science in Economics

The Majors are as follows:

- Accounting, B.S. (BSB-ACCT)
- Business Economics, B.S. (BSB - CBEC)
- Entrepreneurship, B.S. (BSB - ENTR) ·
- Finance, B.S. (BSB - FIN)
- Management of Human Resources, B.S. (BSB - HR)
- Marketing, B.S. (BSB - MKT)
- Professional Sales, B.S. (BSB - SELL)
- Economics, B.S. (BSE - ECON)
 - The BSE in Economics has two tracts 1) policy and 2) quantitative

The Minors are as follows:

- Banking and Financial Services Minor
- Blockchain Minor
- Data Analytics Minor
- Economics Minor

Graduate Degrees

Master of Science

Accounting, M.S.

Economics, M.S.

Finance, M.S.

Business Administration, M.B.A.

Business Administration, Online, M.B.A.

Doctor of Philosophy

Economics, Ph.D.

Marketing, Ph.D.

Student Services

Academic Advising

All College of Business undergraduate students are advised by professional academic advisers in the College of Business Peter M. and Paula Green Johnson Student Success Center. Advising can be reached by e-mail (success@uwyo.edu) or by phone (307-766-8249).

Career Services

The Career Services unit connects students and employers in ways that lead to meaningful experiences and job opportunities. Business students are encouraged to explore career options and grow their career readiness by completing the Pokes Professionalism Badge and engaging in multiple internships. Students also have the option to apply for local, national, and international internships starting their first year and may be able to receive credit for their work. Networking with employers is highly encouraged and offered through a series of fairs, events, and in-class projects. One-on-one assistance and workshops are also available to students for things such as: internship or job searching; resume creation, review, or targeting; and career coaching or counseling. Individual appointments may be scheduled by email (success@uwyo.edu) or by phone, (307) 766-8249.

Student Responsibilities

College of Business students are responsible for knowing and meeting requirements for graduation. In addition to degree requirements, all College of Business students must complete the advanced business standing requirements prior to enrollment in most upper-division (3000/4000-level) College of Business courses (see Advanced Business Standing (ABS) Prerequisites section).

All students must have already completed any prerequisites listed (in addition to ABS for COB students), including having the appropriate class standing. Class standing means for a 2000-level course, the student has earned a minimum of 30 hours; 3000-/4000- level courses, the student has earned a minimum of 60 hours. Students not meeting the prerequisites are identified and administratively dropped from those courses each semester.

Requirements for the Bachelor of Science Degree

Candidates for the Bachelor of Science degree in the College of Business must meet university, college, and departmental requirements. Degree candidates for the B.S. degree in the College of Business also must have a minimum 2.500 cumulative University of Wyoming (UW) grade point average and a 2.500 grade point average in College of Business courses at the time of graduation. In addition, economics majors also must hold a minimum 2.500 grade point average for all economics courses. College of Business degree candidates must earn a minimum of 120 semester hours depending on major including:

I. University Studies Requirements:

All first year students who enter the University of Wyoming (UW) and students who enter a Wyoming Community College (CC) are required to meet the USP 2015 requirements for graduation. Wyoming CC students transferring to UW with an Associate of Arts or Associate of Science degree will have course work evaluated per the General Education Articulation Agreement between the University of Wyoming and Wyoming Community Colleges. Non-resident transfer students and Wyoming CC transfer students without an associate's degree will have course work evaluated on a course-by-course basis, based on all approved USP courses. Academic advisers will help students select the appropriate courses to satisfy university studies requirements. Some College of Business requirements also meet university studies requirements.

A. Basic skills (USP 2015) Hrs.

1. First-year seminar (FYS) Choose from list of approved courses.....3
2. Writing

- a. USP Communication 1 course3
- b. USP Communication 2 course- Mid-level communication or 2000-4000-level communication intensive course-Choose from list of approved courses.....3
- c. USP Communication 3 course- Upper-level communication or 3000-4000-level communication intensive course3
- 3. Physical and Natural World (PN) (Two courses required-choose from list of approved courses).....6
- 4. Human Culture (H) (Two courses required-choose from list of approved courses).....6
- 5. U.S. and Wyoming Constitutions (V).....3
- 6. Quantitative Reasoning (Q).....3

II. Electives

The number of hours of elective credit and upper-division (3000-/4000-level) credit varies by department. Economics majors will take 48-51 hours of free electives. A maximum of 6 credit hours each at the freshman/sophomore and junior/senior-level military science courses may be applied to degrees in the College of Business.

A. Non-Business electives Hrs

- 1. Non-Business electives. May include MATH 14003-9

B. Free electives Hrs.

- 1. Free electives from any college. May require upper-division (3000/4000-level) courses18-24

Students **may not** take courses for S/U (satisfactory/unsatisfactory) credit to satisfy university studies or college requirements, course requirements in the major, or courses outside the college required by the major department curriculum.

III. Advanced Business Standing: (excludes Economics majors)

College of Business majors must satisfy the following advanced business prerequisites prior to enrolling in most upper-division (3000- /4000- level) College of Business courses:

- 1. Achieve junior standing by completing a minimum of 60 earned semester hours;
- 2. Complete 10 specific courses with a grade of C (not C-) or better in each. These ten courses are: ECON 1010 and 1020, USP Communication 1 and 2 courses, ACCT 2010 and 2020, IMGT 1400, MATH 2200 and 2205 or MATH 2350 and 2355 and STAT 2050 or 2070.
- 3. Achieve a cumulative UW institution grade point average or transfer grade point average of at least 2.500. Note: Transfer grades are not counted in the UW GPA (see UW Catalog http://www.uwyo.edu/registrar/university_catalog/grade.html for additional information). Transfer students who have not attended the University of Wyoming, and therefore do not have an established UW institutional/cumulative GPA, and who have completed the required ten (10) courses with a C or better, have 60 earned credit hours, and have a 2.500 cumulative TRANSFER GPA will be awarded ABS.

IV. Common Body of Knowledge: (excludes Economics majors)

College of Business majors take a common set of courses that expose them to the basic concepts, processes and technical skills necessary to complete a well-rounded high quality business education. The common body of knowledge includes FIN 3250, MGT 1040, DSCI 3210, IMGT 1400, MGT 3210, 4800, MKT 3210, ECON 1010, ECON 1020, ACCT 2010, and ACCT 2020. Grades of C (not C-) or above required.

V. Minimum requirements:

Achieve a cumulative College of Business and UW institution grade point average of at least 2.500. Complete 50% of the business credit hours from UW. Earn grades of C (not C-) or above in common body of knowledge and major specific core courses. Earn a passing score on the Senior Exit Exam required for all College of Business majors.

Requirements for Non-College of Business Majors

Students in non-College of Business majors who wish to enroll in College of Business upper-division courses need not meet the advanced business standing prerequisites. However, they are required to meet individual course prerequisites listed in the University Catalog, including class standing. This means for 2000-level courses, they must have earned a minimum of 30 hours. For 3000-4000-level courses, they must have earned a minimum of 60 hours.

Acceptance of Transfer Credit

The College of Business complies with UW policies regarding transfer credit discussed in the front section of this bulletin. The college has special course transfer arrangements with Wyoming community colleges that allow some courses taken at community colleges at the lower-division (freshman-sophomore) level to transfer for upper-division (junior) credit. Wyoming community college transfer students should contact the GJSSC for details.

Students transferring from other AACSB accredited colleges and universities will have their courses reviewed for transfer on a course-by-course basis.

The College of Business does not accept transfer credits for COB courses with equivalents at UW when the grade earned was less than a C.

Students must have an established 2.500 UW grade point average to transfer into the College of Business from across campus.

Where appropriate, College of Business course equivalency will be granted for transfer courses at the 3000 and 4000 level if such coursework was completed at an AACSB or EQUIS institution only. Any coursework completed at an institution that does not meet that qualification will not be considered for upper division equivalency."

The UW College of Business is AACSB accredited and therefore follows AACSB's current guidelines* to maintain accreditation.

The primary goal of this transfer policy is to ensure coursework accepted from other institutions is comparable to coursework required by our college's degree programs and ensure that the majority of learning is completed at the institution awarding the degree while simultaneously allowing measured flexibility in acceptance of transfer credits as allowed by AACSB accreditation in support of student progress and degree completion.** For example, at the time of this policy's creation, the number of business credit hours for the College of Business's undergraduate majors is 54 credit hours (this includes the business common body of knowledge courses).

Therefore, to align with AACSB standards, a minimum of 27 credit hours of business coursework in the major must be earned in residence at the University of Wyoming. In addition to the transfer policies defined in the University of Wyoming catalog, the College of Business has established the following policies in support of AACSB Standards governing the transfer of credit for equivalent business courses. Courses will be considered for transfer according to the following additional criteria:

- Students may transfer up to eighteen (18) lower division (1000/2000 level) business credits to the Common Body of Knowledge.
 - Lower division courses from regionally accredited institutions will be evaluated for equivalency and approved by the UW Office of the Registrar on an annual basis.
 - Students may transfer up to nine (9) upper division (3000/4000 level) business credits according to the following guidelines:
 - Courses from AACSB/EQUIS accredited institutions will be evaluated for equivalency and approved by the College of Business.
 - Courses from regionally accredited, non-AACSB/EQUIS institutions will be accepted as upper division elective credit in accordance with the transfer policies defined in the University of Wyoming catalog.
 - The College of Business has collaborative provisions (detailed in separate articulation agreements) that allow students from Wyoming's community colleges to transfer up to 9 credit hours of 3000-level coursework that has been evaluated by the College of Business. These 3000-level courses will be evaluated annually for equivalency***.
- * A requirement of the accreditation process (as reflected in Standard 6 of the 2020 Business Standards) is for accredited colleges to have clear policies regarding transfer coursework.
- ** As noted by AACSB: "transfer credit related to business disciplines is normally limited to no more than half of the program requirements" (2020 AACSB Standards, p. 13).
- *** The 3 courses (9 credits) of 3000-level coursework will generally include: FIN 3250, MGT 3210, and/or MKT 3210 in the Common Body of Knowledge. Per college-specific articulation agreements, students may be able to use the following transfer courses: ACCT 3070, ACCT 3230, ACCT 3240, ACCT 3430, or MGT 3110.

Accounting and Management of Human Resources Online Programs

The College of Business offers students an accounting degree and a management of human resources degree accredited by *AACSB International* and delivered through distance education. The program is designed to help students maximize their flexibility in the business world and is delivered entirely online.

The online Accounting and Management of Human Resources degrees are completion programs designed to allow students with a particular set of courses and requirements to complete the remainder of their bachelors degree online at the University of Wyoming. Both online degrees require students to have completed Advanced Business Standing (ABS) prerequisite coursework, which can be taken from an accredited Wyoming community college, other university or on campus at UW, before completing upper division coursework from the University of Wyoming.

Students will be required to apply to UW, have a 2.500 cumulative grade point average, and advanced business standing before being considered for admission into the online accounting program or the online management of human resources program. Students must also attain a 2.500 GPA for graduation for both College of Business and UW courses, complete and submit an anticipated graduation date form, and must pass the Senior Exit Exam (BUSN 4990) to graduate.

To ensure you the availability of required courses in this program, enrollment into courses is managed and approved by the College of Business Peter M. and Paula Green Johnson Student Success Center.

College of Business Minors

Minors are available to on-campus students through the College of Business in the areas of banking and financial services, data analytics, economics, entrepreneurship (not available to College of Business majors), hospitality business management, leadership, international business, professional and technical selling, real estate. Minors requirements may often be met by simply focusing the elective credits available in a student's major.

The minors program consists of course requirements of 15 hours of study. A minimum grade of C (not C-) must be earned in each course. Certification of a successful minor program completion occurs as part of the DegreeWorks progress report, and the Office of the Registrar notes the completion of the minor on student transcripts. Minors must be approved by the Peter M. and Paula Green Johnson Student Success Center.

Students must have a minimum 2.500 cumulative UW GPA. Students must maintain a cumulative 2.500 GPA in the required College of Business courses for the minor to be awarded. Non-College of Business students must meet the individual course prerequisites listed in the catalog, although they need not meet the advanced business standing requirements. A minimum of 50% of COB courses must be taken from the degree-awarding institution.

Cooperative Undergraduate Programs

The Concentration in Environment and Natural Resources

College of Business majors may earn a cross major in Environment and Natural Resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for business. Exposure to ideas, skills and sensibilities in these areas is critical to future business people. Students majoring in economics may elect an environment and natural resources concentration in which an economics approach to problem solving is stressed. For more information call the ENR office at (307) 766-5089.

Graduate Study

The College of Business is comprised of three academic departments: accounting and finance, economics, and management and marketing. The faculty of these departments cooperate in the presentation of graduate work leading to the following degrees:

Master of Business Administration

Master of Science in Accounting

Master of Science in Economics

Master of Science in Finance

Doctor of Philosophy in Economics

Doctor of Philosophy in Marketing

The College of Business faculty is firmly committed to the excellence of its graduate programs. The graduate programs in the College of Business are accredited by AACSB International. The three academic departments coordinate course offerings to support all of the graduate degree programs; the M.B.A. program in particular is a college-wide effort.

Cooperative Graduate Programs

The Concentration in Environment and Natural Resources

College of Business graduate students may earn an interdisciplinary minor in environment and natural resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness

of environmental consequences of decisions have become major issues for all areas of business and economics. The School of Environment and Natural Resources is designed to move beyond the strictly disciplinary design and management of their long-term solutions. The school seeks to attract outstanding graduate students from a variety of disciplines, who are eager to pursue careers that engage other professionals, policymakers, and the public in finding innovative ways to resolve complex environmental and natural resource issues. To pursue a minor in ENR, students must first be admitted to another master's or doctoral degree program offered at the University of Wyoming. For more information call the ENR office at (307) 766-5080.

Accounting Major

The basic objectives of the accounting program are twofold: to provide students who do not intend to major in accounting with the basis for understanding the role accounting plays in business today; and to provide those students who desire to major in accounting with the educational background necessary for lifelong learning and a rewarding career in the accounting profession. The curriculum offered by the department attempts to blend the conceptual with the practical. Exposure to the underlying conceptual framework of accounting provides a basis for dealing with emerging accounting issues, while examination of technical pronouncements enables students to gain insight into practical issues encountered in an accounting environment.

Accounting majors may enter the professional world of accounting from a variety of directions. Choices available in the form of elective courses enable students to chart a course that leads them toward public accounting, private accounting, governmental or not-for-profit accounting, as well as other specialties that rely on a strong accounting background. Those students seeking professional certification, such as the CMA or CIA, are able to satisfy requirements to sit for these professional examinations by completing the undergraduate accounting degree.

All accounting majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All accounting courses for the major require a minimum grade of C (not C-).

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

Students who anticipate taking the CPA examination should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Graduate Study

Accounting is an integral part of the College of Business degree programs. The department offers courses in support of college graduate degree programs, as well as a master of science in accounting (MS in Accounting) degree. The MS in Accounting degree was developed in response to emerging needs of the accounting profession. Those students who wish to become professional accountants, whether that be in a corporate setting, a not-for-profit setting, or public accounting, will find the MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

The MS in Accounting program satisfies the Wyoming requirements for individuals to take the Certified Public Accountant (CPA) exam and it further develops students' professional skills. The MS in Accounting program focuses on the two main areas of development: 1) advanced accounting and business education, and 2) professional skills development-including written, oral, interpersonal communication, computer applications, critical thinking, and adaptability.

The MS in Accounting degree is designed for students who have completed an undergraduate degree in accounting in the United States. However, it is possible to be admitted to the program once deficiency courses are successfully completed. Those holding a bachelor's degree from within the U.S., but not in accounting, and international applicants can still apply for admission once the deficiency courses are successfully completed. We do not provisionally or conditionally admit students to our program.

Program Specific Admission Requirements

Admission to the Master of Science in Accounting program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U. S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions at 1000 E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the department Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.

- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

•Interview.

You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

•Interview.

You will be contacted by our program office to participate in a virtual interview that can be

completed at your convenience. • Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

NOTE: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Accounting program does not personally or conditionally admit students.

*Please refer to the AICPA Site (www.aicpa.org) to check on the requirements you will need to fulfill in your state if you plan to sit for the CPA Exam.

Additional requirements for International Applicants:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or who has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency. Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.

- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students).

- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Additionally, to be admitted to the Master of Science in Accounting program, a student demonstrate competency in the following subject matters/courses:

- ACCT 3230 Intermediate I & ACCT 3430 Intermediate II (External Financial Reporting)
- ACCT 3240 Cost I (Advanced Managerial Accounting)
- ACCT 3070 Tax I (Tax Accounting, must cover US income taxation for individuals)
- ACCT 4060 Audit I (must cover US Generally Accepted Auditing Standards and/or International Standards on Auditing)

*These courses may be completed through any regionally accredited university or college. A minimum grade of B (a 3.0 on a 4.0 scale) is considered evidence of proficiency.

*Evidence of proficiency in these areas can also be demonstrated by relevant professional experience on a case-by-case basis. Please contact the program office for additional information.

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Application Deadlines

Fall Admission

- Block 1 Final Deadline: June 30
- Block 2 Final Deadline: October 1
- Priority Deadline: May 1

Spring Admission

- Block 1 Final Deadline: December 1
- Block 2 Final Deadline: February 1
- Priority Deadline: October 1

Summer Admission

- Final Deadline: April 1
- Priority Deadline: February 1

International applicants: Please be advised that there are additional university requirements that may take additional processing time - you are encouraged to apply prior to the application deadline if possible to ensure that if admitted, all required documentation can be provided prior to the term of entry.

Program Specific Degree Requirements

Master of Science in Accounting

The objectives of the master of science in accounting degree program are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge of the sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and other accounting-related areas.

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business areas. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level non-accounting courses (approximately six hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such classes.

Students must take these 5 core accounting courses (minimum 15 credit hours):

ACCT 5030. Advanced Financial Accounting

ACCT 5040. Seminar in Managerial Accounting

ACCT 5060. Auditing II

ACCT 5070 Tax II Accounting Elective

ACCT 5065 Fraud Examination or ACCT 5066 Seminar on Management Fraud

A maximum of six hours may come from 4000- level courses offered in the College of Business or in other colleges at the University of Wyoming.

NOTE: ACCT 4010, 4020, 4050, 4060, 4100, 4600, 4900, and 5000 are not applicable for M.S. accounting students' programs of study.

The student must complete the required coursework (both graduate and prerequisite) with a minimum GPA of 3.000 (on a 4.000 scale).

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Finance Major

Modern business is characterized by its emphasis upon finance. The application of sound financial management principles often will be the difference between success and failure in business.

Courses prescribed for those who wish to major in finance are designed to provide a background for financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management. Since financial policies of business enterprises are subject to economic principles which make all businesses financially interdependent and sensitive to disturbances in the economic structure, students in this field should study the economic, as well as the technical, administrative aspects of finance and accounting. Prescribed work in this area attempts to emphasize all three phases of the subject.

All finance majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All finance courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC of the College of Business Building.

Graduate Study

The Master of Finance program will allow students to obtain advanced training built on the foundations of principles and practices of modern finance. The MS in Finance is a rigorous, yet practical program that encompasses the fundamentals as well as cutting-edge topics in investment analysis, portfolio management, financial modeling, risk management, and fixed income securities. The MS in Finance program aims to make you well prepared to evaluate and react to change with confidence and to develop effective solutions to meet the needs of markets and industries.

The objectives of the master of science in finance are:

To provide students with an advanced understanding of the field of finance.

To provide students with specific advanced knowledge of the subtopics within finance.

To provide students with professional skills that will enable them to enjoy productive and rewarding careers in finance and other finance-related areas.

Program Specific Admission Requirements

Admission to the Master of Science in Finance program generally requires:

- Completed University of Wyoming Graduate Admissions Application and nonrefundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.000 scale.
- GRE/GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions Office of Admissions Office at 1000 E.University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Finance program does not provisionally or conditionally admit students.

Additional Requirements for International Applicants:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students)
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Prerequisites

No prerequisite courses will be required if you have completed a business or STEM bachelors or masters degree from a regionally accredited college or university with the minimum preferred 3.0 GPA (based on a 4.0 scale).

Applicants without a business or STEM related undergraduate or graduate degree with a minimum 3.0 GPA must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

Application Deadlines

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Fall Admission

- Block 1 Final Deadline: June 30
- Block 2 Final Deadline: October 1
- Priority Deadline: May 1

Spring Admission

- Block 1 Final Deadline: December 1
- Block 2 Final Deadline: February 1
- Priority Deadline: October 1

Summer Admission

- Final Deadline: April 1
- Priority Deadline: February 1

International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are encouraged to apply prior to the application deadline if possible to ensure that if admitted, all required documentation can be provided prior to the term of entry.

Program Specific Degree Requirements

Master of Science in Finance

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in finance and elective business and/or non-business areas. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level non-finance courses (approximately six hours). Non-finance courses should be selected in consultation with the student's graduate advisor. Non-finance courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such class.

General Finance Track

- FIN 5310: Investment Management (3)
- FIN 5400: Financial Modeling (3)
- 15 credit hours Finance electives + 9 credit hours other business electives (maximum 6 credit hours can be 4000 level).

MS in Finance (CFP Track) Core - Required Courses

- FIN 5310: Investment Management (3)
- FIN 5070: Tax Planning for Financial Planners (3)
- FIN 5720: Retirement/ Insurance Planning (3)
- FIN 5750: Fundamentals of Financial Planning (3)
- FIN 5780: Estate Planning (3)
- FIN 5800: CFP Capstone (3)
- FIN 5400: Financial Modeling (3)
- Finance Electives (9ch) (maximum 6 credit hours can be 4000 level).

The student must complete the required coursework with a minimum GPA of 3.000 (on a 4.000 scale).

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Department of Economics

260W Business Building, (307) 766-2175

Web site: www.uwyo.edu/economics

Department Chairman: David Aadland

Wyoming Excellence Chair in Conservation Economics:

H. JO ALBERS, B.S. Duke University 1985; M.E.S. Yale University 1987; Ph.D. University of California at Berkeley 1993; Professor of Economics 2014.

H.A. (Dave) True, Jr. Chair in Petroleum and Natural Gas Economics:

CHARLES F. MASON, A.B. University of California 1977; Ph.D. 1983; Professor of Economics 1994, 1982.

Stroock Chair of Natural Resource and Environmental Economics:

JASON F. SHOGREN, B.A. University of Minnesota-Duluth 1980; Ph.D. University of Wyoming 1986; Professor of Economics 1995.

John S. Bugas Chair in Economics:

TODD CHERRY, B.S.B.A. Appalachian State University 1992; M.A. University of North Carolina Greensboro 1995; Ph.D. University of Wyoming, 1999. Professor of Economics, Graduate Director.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; Professor of Economics 2008.

DAVID C. FINNOFF, B.S. University of Wyoming 1994; Ph.D. 2001; Professor of Economics 2018, 2004.

Associate Professors:

DAVID M. AADLAND, B.A. Augustana College 1991; M.S. University of Oregon 1996; Ph.D. 1997; Department Chairman, 2018; Associate Professor of Economics 2005, 2003.

ROBERT GODBY, B.S. Trent University 1990; M.A. University of Guelph 1992; Ph.D. McMaster University 1997; Center for Energy Economics and Public Policy Director, and Associate Professor of Economics 2003, 1997.

THORSTEN M. JANUS, B.A. University of Copenhagen 2000; M.A. University of California at Santa Cruz 2003; Ph.D. 2006; Associate Professor of Economics 2012.

STEPHEN NEWBOLD, B.S. University of California, Davis 1995; M.S. 2002; Ph.D. 2002; Associate Professor of Economics 2018.

ALEXANDRE SKIBA, Specialist Diploma Rivne State Technical University 1999; M.S. Purdue University 2001; Ph.D. 2003; Associate Professor of Economics 2019, 2012.

LINDA THUNSTROM, M.S. Umea University, Sweden 1999; Ph.D. Umea University Sweden 2008; Associate Professor of Economics 2013.

KLAAS T. VAN 'T VELD, B.Sc. University of London 1992; M.S. University of California Berkeley 1993; Ph.D. 1997; Associate Professor of Economics 2010, 2004.

Assistant Professors:

BENJAMIN COOK, B.S. University of Wyoming 2003; Ph.D. 2011; Visiting Assistant Professor/Enhanced Oil Recovery Institute 2012.

FELIX NASCHOLD, B.S. University of London 1994; M.S. 1995; Ph.D. Cornell University 2008; Assistant Professor of Economics 2014.

Academic Professionals:

TYLER KJORSTAD, B.A. College of St. Scholastica 2009; M.S. University of Minnesota Duluth 2012; M.S. University of Wyoming 2014, Director of Undergraduate Studies in Economics.

Professors Emeriti:

Thomas D. Crocker, Owen R. Phillips, Sherrill Shaffer

Business Economics Major

The science of efficient allocation, economics has much to offer students in the way of general and specialized preparation for positions in business, as well as government and the academic profession.

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

Economics and Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

Economics Undergraduate Major

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

Minimum requirements include:

Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.

2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.

50% of the business credit hours must be from the University of Wyoming.

Grade of C or above required for University Studies Program: FY, CI, C2, and C3.

Grade of C or above required for common body of knowledge and major specific core courses.

A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum guide is available from the Student Success Center in the College of Business.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

Graduate Study

The Department of Economics offers programs leading to a master of science degree in economics and the doctor of philosophy degree in economics.

Program Specific Admission Requirements

Economics Program

Admission to the economics program is granted to students who show high promise of success. Candidates of high promise generally have a cumulative grade point average of 3.000 or better (A=4.000) and score above 300 (for MS) and 310 (for PhD)

combined on the verbal and quantitative sections of the GRE, with particular emphasis on strong quantitative and analytical scores. Such scores and grades do not guarantee admission.

The TOEFL is required for international students in accordance with University rules.

The Department of Economics requires that students have completed courses in intermediate micro and macro theory (ECON 3010, ECON 3020 or equivalent), statistics, and 6 hours of introductory calculus (MATH 2200, MATH 2205 or equivalent) for the MS program. A course in linear algebra (MATH 2050) is required for the PhD program.

Program Specific Degree Requirements

Master of Science in Economics

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), 5390 (math micro), 5530 (computational), 5230 (econometrics), and 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON 5960 Thesis Research for the Plan A option. The student must complete 30 hours of coursework and a shorter paper for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A or Plan B research. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the paper or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

QuickStart Master of Science in Economics

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.

Doctoral Program

Doctor of Philosophy in Economics

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than an A during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved

by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

Department of Management and Marketing

College of Business 354, (307) 766-3124

Professors Emeriti:

Robert E. Allen, John H. Jackson, Anthony F. McGann, J. Brooks Mitchell, Terri L. Rittenburg, Robert G. Roe, Samuel G. Taylor, Philip E. Varca, Larry R. Weatherford

The Department of Management and Marketing offers programs of study leading to the Bachelor of Science in Business degrees in (1) Management of Human Resources, (2) Marketing, (3) Entrepreneurship, and (4) Professional Sales. The departmental requirements for each of these degree programs are listed below.

All majors in the Department of Management and Marketing must meet requirements of the advanced business standing, complete the common body of knowledge, major courses, and MGT 4800 with a minimum grade of C (not C-).

Non-business majors may take business courses, and are not held to advanced business standing.

College of Business 3000- and 4000- level courses are reserved for those with junior or senior level standing whether majors or non-majors unless otherwise noted.

Decision Sciences

The decision sciences curriculum is designed to serve students with a variety of majors.

Entrepreneurship

The Major in Entrepreneurship serves students wishing to learn and apply theories of entrepreneurship. The 21-credit hour major is designed to assist students to start and/or run their own venture or bring innovation to an existing organization by providing them with exposure to the development and testing of business concepts, analyzing the potential success of their concepts using a variety of tools and methodologies, being flexible in developing new ventures and innovative ideas, and formulating and implementing value propositions that will assist in the establishment and growth of a new venture. The major also provides students with skills related to how to enact creative solutions, innovative ideas, and strategic change in existing organization. Thus, students will be prepared to 1) start new ventures, and/or 2) be entrepreneurial within existing businesses.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

International Business

The international business curriculum is designed to serve students with a variety of majors. A cross-disciplinary minor in international business is offered to students who want to augment their majors with learning about global management, finance, economics, accounting and/or a study abroad experience.

Management of Human Resources

The Management of Human Resources major is an experiential program designed to help students learn how to develop and manage the human capital of an organization. More organizations are moving toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation. Students will be prepared to create policies and practices for effective recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. Moreover, this major will help employees understand the core purposes of the area of human resource management, which are: (1) recognize the potential of individuals for and within an organization and (2) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals. Students in this major will be prepared to work in a variety of human resource capacities and in other key positions related to employee management, and will understand principles for facilitating others success.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Marketing

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers and for managing relationships in ways to benefit local and global stakeholders. Marketing majors are employed in a wide variety of industries and governmental agencies where understanding and managing customer relationships are critical. Students find jobs in market research, advertising, public relations, professional selling, non-profit marketing, product management, retailing, digital marketing and brand management.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Professional Sales

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence, ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

Professional Sales Major

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All professional selling courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Graduate Study

The Department of Management and Marketing offers a Ph.D. in Marketing. Some 4000- and 5000-level classes may be counted as graduate classes in other programs.

Doctoral Program

Doctor of Philosophy in Marketing

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester.

All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st. Admission requirements include:

- A Bachelor's Degree
- A Master's Degree from an accredited institution, preferably in business or a core social science discipline, is strongly preferred but not required
- Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system
- Copies of all undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office
- A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW
- Three strong letters of recommendation from research-active academicians. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format. Please use this form
- A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document
- For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission • \$50 application fee paid to University Admissions

Master of Business Administration (MBAM)

Professional Graduate Programs Office
1000 E. University Ave., Dept. 3275

MBA - General
MBAF - Finance

Program Overview

The UW MBA Program delivers professional management education that connects principles, concepts, and intense case analysis with real world experience as tools for making business decisions. Students will develop leadership and managerial skills. UW MBAs will possess the education and training to compete in today's rapidly changing global business world.

Class sizes are small and diverse. Courses are taught by a select group of business faculty members. The total program experience (both inside and outside the classroom) is designed to provide experiential learning along with access to powerful networks.

Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please view the full list of admission requirements below.

Students whose native language is not English must submit TOEFL results (or another approved English proficiency exam). There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Dual Degree Programs

The following dual degree programs are available:

- MS in Engineering / MBA
- Pharm. D. / MBA
- J.D. / MBA
- International MBA (Pforzheim University), double degree

Students will need to meet all MBA admission requirements and respective dual college/department requirements and be admitted to both degree programs in order to be considered for the dual degree program. The MBA core requirements are required of all students. After successful completion of all requirements, students in the dual degree program will graduate with two graduate level degrees.

Admission to the Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GMAT or GRE exam scores are required if you have below a 3.0 cumulative undergraduate GPA or if you have an undergraduate degree from a non-AACSB accredited institution outside of the United States.
 - NOTE: If you have already obtained another graduate degree or if you have taken another graduate level entrance exam, GRE/GMAT waivers may be available on a *case-by-case basis*. If you would like to

determine if you are eligible to apply for an exam waiver, please contact the program office for additional information at cobgradprograms@uwyo.edu or 307-766-2482.

- Professional resume.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MBA program does not provisionally or conditionally admit students.

Prerequisites: No specific prerequisite courses are required. However, evidence of technical proficiency and/or prior business experience from your work history and transcripts are considered in the admissions process. If admitted to the program, all MBA students are required to take our MBA Foundations course, which establishes a baseline level of knowledge in Accounting, Finance, Economics, and Statistics.

Additional International Student Admission Requirements:

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements

- Thirty-six (MBA-MBA) or fifty-seven (MBA-MBAF) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development, Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.
- This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

Pre-Term: All admitted MBA students will complete a Foundations course prior to orientation, the experiential leadership program, and the Jackson Leadership Summit. Students may also receive pre-term assignments and/or pre-term prep course material.

MBA Core Requirements (27 credit hours) - Required of all MBA and MBAF students as well as all Dual Degree MBA students.

- MBAM 5800 MBA Topics: Foundations. 1.
- MBAM 5202 Data and Decision Modeling. 3.
- MBAM 5104 Organizational Behavior and HRM. 3.
- MBAM 5208 Accounting for Managers. 3. OR MBAM 5208 Managerial Accounting. 3.
- MBAM 5204 Financial Management. 3.
- MBAM 5207 Marketing Management. 3.
- MBAM 5102 Operations Management. 3.
- MBAM 5330 Global Business Environment. 3.
- MBAM 5107 Decision Making I. 1.
- MBAM 5209 Decision Making II. 1.
- MBAM 5106 Professional Development I. 0.
- MBAM 5206 Professional Development II. 0.
- MBAM 5305 Strategic Management. 3. (includes international or domestic travel)

MBA Elective Requirements

- MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses (3 credit hours outside the College of Business may be approved on a case-by-case basis).
- MBA-MBAF students must take an additional 30 credit hours of 4000 or 5000 level Business courses with a minimum of 21 of those credits being Finance courses. Three (3) credit hours of graduate level courses outside of the College of Business may be considered on a case-by-case basis.

**Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.*

Application Deadlines

- **Fall Admission Only**
 - Final Deadline: June 30
 - Priority Deadline: November 1

**International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.*

Additional Information

Tuition & Fees

Tuition and fee charges will not include the cost of textbooks. Please refer to University of Wyoming cost of attendance for additional information.

MBA Executive Speaker Series

Students participate in weekly meetings (primarily on Fridays) with business leaders from a wide variety of industries (business, government, and non-profit entities). The program takes place mostly on campus, but does include some travel. This program supplements the class work, provides discussion and learnings of business challenges, opens the students' horizons on career opportunities, and provides long-term networking opportunities.

Experiential Leadership Program

Students focus on improving leadership competence and focus on teamwork outside of the typical business element. This experience has been tailored to represent an experiential case study on effective leaders and effective teams. Substitute experiences can be discussed on a case-by-case basis.

Jackson Leadership Summit

Exclusive leadership development event for MBA students to network with an astute panel of individuals with proven business success. Topics usually focus on the global economy and strategic planning.

Campus to Online MBA Program

Students enrolled in the campus MBA program may, on a case-by-case basis apply credits from the Online MBA program (courses with an MBAX prefix) to their degree, and vice versa. Must be approved by the Program Director.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade of "D" or lower in any one course may have the opportunity to retake the course (MBAX or MBAM).

MBA-MBAX - General

Program Overview

The University of Wyoming offers a flexible Online MBA (EMBA). The Online MBA Program is specifically designed for experienced business professionals interested in an AACSB accredited, 100% online program that fits their busy schedules. This program is typically completed in two years and is tailored for professionals interested in enhancing their understanding of business disciplines and applying them to decision-making. With starts each Fall, Spring, and Summer, the cohort-based program consists of a minimum 30 credit hours of required coursework.

Program Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a

baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please see full list of admission requirements below.

Students whose native language is not English must submit TOEFL results, or results of another approved English proficiency exam. There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Admission to the Online Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Professional resume. A minimum 2 years' professional work experience is preferred.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding. Meeting the minimum requirements listed here does not guarantee admission. The University of Wyoming MBA program does not provisionally or conditionally admit students.

Prerequisites: No prerequisite courses will be required if you have completed a business or STEM related bachelor's or master's degree from a regionally accredited college or university with a minimum 3.0 GPA (based on a 4.0 scale). Applicants without a business or STEM related undergraduate or graduate degree with a minimum 3.0 GPA must provide evidence of proficiency in the following areas:

- Business Math and Statistics
- Managerial Accounting
- Finance
- Fundamentals of Economics

*Evidence of proficiency in these areas is considered on a case-by-case basis but is commonly pursued through supplemental courses and/or relevant professional experience. Please contact the program office for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign

Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.

- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements

- Thirty (30) credit hours of graduate credit as outlined in the Course of Study section.
- This is a cohort based program and while the course sequence is structured, there is a lot of opportunity for flexibility. This program can be completed in one or two years most commonly, but longer completion timelines can be discussed. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F.

Course of Study

MBA Core Requirements (21 credit hours) - Required of all MBAX students.

- MBAX 5204 Financial Management. 3.
- MBAX 5207 Marketing Management. 3. or MBAX 5235 Marketing Analysis & Strategy. 3.
- MBAX 5202 Data and Decision Modeling. 3.
- MBAX 5104 Organizational Behavior & HRM. 3.
- MBAX 5330 The Global Business Environment. 3.
- MBAX 5208 Accounting for Managers. 3. or MBAX 5208 Managerial Accounting. 3.
- MBAX 5305 Strategic Management. 3.

MBA Elective/Concentration Requirements

- MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.
- Energy Concentration students will complete the additional 9 credit hours of coursework as follows:
 - ACCT 5503 Fundamentals of Accounting in the Energy Industry. 3.
 - MGT 5504 Energy Industry Value Chain. 3.
 - FIN 5502 Energy Finance: Project Evaluation. 3.

Application Deadlines

- **Fall Admission**
 - Block 1 Final Deadline: June 30
 - Block 2 Final Deadline: October 1
 - Priority Deadline: May 1
- **Spring Admission**
 - Block 1 Final Deadline: December 1
 - Block 2 Final Deadline: February 1
 - Priority Deadline: October 1
- **Summer Admission**

- Final Deadline: April 1
- Priority Deadline: February 1

**International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.*

CERT-MBAE - Energy Business

CERT-CFP - Certified Financial Planning

Program Overview, Energy Business Certificate

The Certificate in Energy Business is composed of 9-credits of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

- Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.
- Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.

- Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.
- Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

Program Overview, CFP Certificate

The Certificate in Certified Financial Planning is composed of 18-credits of masters-level graduate coursework in the College of Business, with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination. The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

- Wealth Management
- Investment Management
- Tax Planning
- Estate Planning
- Insurance and Retirement Planning

Program Admission Requirements

Admission to the graduate certificate programs generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred (based on a 4.0 scale). If you do not meet the preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.), but is not required.
- Professional resume. A minimum 2 years of professional work experience is preferred.
- Official transcripts of **all** undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience (no need to schedule a meeting).

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming College of Business Graduate Certificate programs do not admit students provisionally or conditionally.

CERT-MBAE Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Managerial Accounting

Finance

CERT-CFP Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

*Evidence of proficiency in these areas is considered on a case-by-case basis but is commonly pursued through supplemental courses and/or relevant professional experience. Please contact the program office for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries *may be* exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia, Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university *may be* exempt from providing proof of English proficiency.

Degree Requirements, Energy Business Certificate

- 9 total credit hours of coursework to include:
 - FIN 5502 - Energy Finance: Project Evaluation. 3.
 - ACCT 5503 - Fundamentals of Accounting in the Energy Industry. 3.
 - MGT 5504 - Energy Industry Value Chain. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Degree Requirements, CFP Certificate

- 18 total credit hours of coursework to include:
 - FIN 5070 Tax Planning for Financial Planners. 3.
 - FIN 5310 Investment Management. 3.
 - FIN 5720 Insurance and Retirement Planning. 3.
 - FIN 5750 Fundamentals of Financial Planning. 3.
 - FIN 5780 Estate Planning. 3.
 - FIN 5800 CFP Capstone. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade lower than a "C" in any course must retake the course, or withdraw from the program.

The College of Education prepares teachers, counselors, administrators and other service personnel for positions in public education in Wyoming, throughout the nation, and the world. The teacher education program incorporates content area courses from the various colleges on campus with experiences in educational methodology. Programs are designed to provide students with a maximum amount of experience in the classroom.

Graduates of the College of Education are prepared to deal with youth growing up in a rapidly changing world. Programs are experiential, collaborative, outcomes based, and technologically supported. Emphasis is placed on professional ethics, a commitment to lifelong learning, and respect for all individuals in our culturally diverse society.

Doctor of Education

Doctor of Counselor Education and Supervision

Accreditation

The College of Education, a member of the American Association of Colleges of Teacher Education, is currently accredited by the National Council for the Accreditation of Educator Preparation (CAEP) and is moving toward the Association for Advancing Quality in Educator Preparation (AAQEP) in 2023-2024. The Wyoming Professional Teaching Standards Board (PTSB) and the North Central Association of Colleges and Schools approve the college as an accredited teacher-preparing institution. The Counseling programs are fully accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Organization of the College

The College of Education includes undergraduate teacher education and graduate studies in education. Schools offering undergraduate and graduate programs in the college include Teacher Education and Counseling, Leadership, Advocacy, and Design.

Undergraduate and graduate education are supported by several units. The Teacher Preparation and Advising Office, McWhinnie Hall room 100, coordinates activities dealing with academic advising, field experiences, and teacher licensure.

The Wellspring Counseling Clinic provides counseling services to students, staff, faculty of the university, as well as the community at-large.

The College of Education, College of Arts and Sciences, Wyoming community colleges, many Wyoming districts, the Wyoming Professional Teaching Standards Board, and the Wyoming Department of Education are part of the Wyoming School-University Partnership, which grounds collaborative efforts across the state related to K-12 preservice and inservice education.

The Laboratory School, an Albany County School District entity, serves the college, the university, the school district, and the state as an educational center for research, development, instructional advancement, and inservice education. The school enrolls students in pre-school through eighth grade.

Computer laboratories in the college feature a wide range of capabilities including Internet access. The laboratory equipment is frequently updated to serve the needs of students, faculty and staff.

The Learning Resource Center is a branch of the university library system. Educational materials are available to serve the needs of K-12 students, university students, university faculty and public school faculty in Wyoming

B.A. and B.S. degrees in the College of Education are housed in the School of Teacher Education and consist of increasingly demanding phases of professional preparation. Competencies based on professional standards, including those mandated by the Wyoming Professional Teaching Standards Board (PTSB), are addressed developmentally. A teacher candidate graduating from this program will have mastered competencies required by the PTSB and the education profession.

Freshman year (Preprofessional): Students concentrate on the University Studies Program requirements. EDST2450 - Foundations of Development and Learning, must be completed prior to moving on.

All incoming students pursuing teacher certification and/or teacher endorsement programs must undergo an initial criminal background check prior to full admission to the teacher education program. A second background check is included as part of the state application process for the Wyoming Substitute Teaching Permit, which is required for continuation in the B.A. and B.S. programs.

Sophomore students are introduced to teaching and learning through EDST3480 - Diversity & the Politics of Schooling . This course includes a field experience in a public school setting.

A junior-level experience extends student competence through EDST3100 - Teacher as Practitioner. The practicum experience is in a public school guided by practicing K-12 faculty.

A two-semester sequence in the final year consists of pedagogy course work and fieldwork in the first semester. The second semester consists of a 16-week, fulltime classroom experience. Field experiences are completed in districts that are members of the Wyoming School-University Partnership.

Graduate certificate teacher licensure program students must have a cumulative GPA of 2.750 or higher from UW or from another accredited college or university, in order to declare a major in Education. A valid Wyoming Substitute Teaching Permit will be required, which will also serve as an approved background check.

Teacher education programs in Music, Art, Physical Education and Health are offered in other colleges at UW.

CYNTHIA BROCK, B.S. Oregon State University 1981; MEd Washington State University 1985; Ph.D. Michigan State University 1997; Wyoming Excellence in Education Literacy Chair 2015.

ANDREA C. BURROWS, B.S. University of Central Florida 1992; M.S. Florida State University 1994; Ed.D. University of Cincinnati 2011; Professor of Secondary Education 2017, 2011. Associate Dean of Undergraduate Programs 2020.

ALAN R. BUSS, B.A. Brigham Young University 1989; M.A. 1993; Ph.D. University of Wyoming 1998; Professor of Elementary and Early Childhood Education 2019, 1997.

SCOTT A. CHAMBERLIN, B.A. Purdue University 1989 and 1993; M.Ed. University of Utah 1998; Ph.D. Purdue University 2002; Professor of Elementary and Early Childhood Education 2015, 2003.

LEIGH HALL, B.S. University of South Florida 1996; M.Ed. Peabody College of Vanderbilt University 1997; Ph.D. Michigan State University 2005; Professor of Secondary Education 2017. Wyoming Excellence in Education Literacy Chair, 2017.

JOHN KAMBUTU, B. A. University of Wyoming 1991; M. A. 1992; Ph.D. 1998; Professor of Educational Studies 2015, 1999.

RICHARD KITCHEN, B.A. University of Colorado-Denver 1984; M.A. University of Montana 1990; Ph.D. University of Wisconsin- Madison 1996; Professor of Secondary Education 2017. Wyoming Excellence in Education Mathematics Education Chair 2017.

PETER WILLIAM MORAN, B.A. University of Wyoming 1987; M.A. Kansas State University 1993; Ph.D. 2000; Professor of Elementary and Early Childhood Education 2017, 2001.

LYDIAH NGANGA, B.S. University of Wyoming 1998; M.S. 2000; Ph.D. 2005; Professor of Elementary and Early Childhood Education 2020, 2005.

LESLIE S. RUSH, B.S. Texas A&M-Commerce 1984; M.Ed. 1996; Ph.D. University of Georgia, 2002; Professor of Secondary Education 2014, 2002.

JENNA M. SHIM, B.A. California State University - Los Angeles 1994; M.M. Manhattan School of Music - New York 1996; M.S. State University of New York - Albany 2006; Ph.D. 2009; Professor of Educational Studies 2016, 2010.

TIMOTHY F. SLATER, B.S. Kansas State University 1989; B.S. Ed. 1989; M.S. Clemson University 1991; Ph.D. University of South Carolina 1993; Professor of Secondary Education 2008. Wyoming Excellence in Education Science Education Chair 2008.

ALLEN TRENT, B.A. Eastern Kentucky University 1986; M.S. University of Dayton 1992; Ph.D. The Ohio State University 2000; Professor of Elementary and Early Childhood Education 2012.

Associate Professors:

TAO HAN, B.A. Sungshin Women's University, Korea 1984; M.A. University of Arizona 1993; M.A. University of Nevada-Reno 2002; Ph.D. 2006; Associate Professor of Elementary and Early Childhood Education 2016, 2010.

ANA HOUSEAL, B.A. University of Iowa 1985; M.A. University of Northern Iowa 1998; Ph.D. University of Illinois 2010; Associate Professor of Elementary and Early Childhood Education 2017, 2011.

LINDA HUTCHISON, B.A. Humboldt State University 1978; M.A. Stanford University 1986; Ph.D. University of Washington 1992; Associate Professor of Secondary Education 2000, 1993.

TRICIA JOHNSON, B.S. Lehigh University 1991; M.Ed. 1993; Ed.S. George Washington University 1997; Ed.D. Columbia University 2004; Associate Professor of Elementary and Early Childhood Education 2012.

PATRICK MANYAK, B.A. Pepperdine University 1988; M.S. 1990; Ph.D. University of Southern California-Los Angeles 2001; Associate Professor of Elementary and Early Childhood Education 2007, 2001.

AMY ROBERTS, B.S. Indiana University 1986; M.A. Portland State University 1991; Ph.D. Indiana University 1996; Associate Professor of Elementary and Early Childhood Education 2004, 1998.

KATHERINE MUIR WELSH, B.A. University of California-Berkeley 1986; Single Subject Teaching Credential (Life Sciences) University of California-Santa Barbara 1990; Ph.D. University of California-Los Angeles 2002; Associate Professor of Elementary and Early Childhood Education 2008, 2002.

Assistant Professors:

ALI BICER, B.S. Celal Bayar University 2006; M.S. Texas A&M University 2012; Ph.D. 2016; Assistant Professor of Elementary and Early Childhood Education 2019.

TODD REYNOLDS, B.A. University of Northern Colorado 1998; M.A. 2004; Ed.S. 2008; Ph.D. University of Wyoming 2015; Assistant Professor of Secondary Education 2019.

ALISON MERCIER, B.S. North Carolina State University 2000; M.S. University of North Carolina 2020; Assistant Professor of Secondary Education 2020.

Senior Lecturers:

NIKKI BALDWIN, B.A. University of Wyoming 1994; M.A. 2005; Senior Lecturer of Elementary and Early Childhood Education 2020, 2009.

KIMBERLY GUSTAFSON, B.A. University of Wyoming 1998; M.A. 2003; Ed.D. 2010; Senior Lecturer of Elementary and Early Childhood Education 2019, 2007.

AMY SPIKER, B.A. University of Wyoming 1989; M.A. 2004; Senior Lecturer of Elementary and Early Childhood Education 2016, 2007.

Associate Lecturers:

JASON KATZMANN, B.S. Texas Women's University 1994; M.A. Colorado College 2000; Ph.D. University of Northern Colorado 2007; Assistant Professor of Educational Studies 2016, 2007.

ROD THOMPSON, B.A. University of Nebraska at Kearney 1991; M.A. University of Northern Iowa 1998; Associate Lecturer of Educational Studies 2019.

Assistant Lecturers:

LINDSEY FREEMAN, B.S. University of Wyoming 2011; M.A. 2018; Assistant Lecturer of Educational Studies 2019.

JENNIFER GERINGER, B.A. University of Texas - San Antonio 1991; M.S. University of Wyoming 1997; Ph.D. 2001; Assistant Lecturer of Elementary and Early Childhood Education 2015.

JANET LEAR, B.S. University of Wisconsin-Madison 1990; M.A. University of California, Berkeley 1998; Ph.D. University of Denver 2017; Assistant Lecturer of Educational Studies 2019.

ROCHELLE MCCOY, B.A. Western Governors University 2006; M.A. 2012; Assistant Lecturer of Elementary and Early Childhood Education 2019.

JOSEPH SCHROER, B.A. University of Cincinnati 2002; B.S. 2005; M.A. 2001; Ph.D. 2007; Assistant Lecturer of Educational Studies 2019.

Professors Emeritus:

Michelle Buchanan, Barbara A. Chatton, Margaret Cooney, Lydia Dambekalns, Judith Z. Ellsworth, Patricia McClurg, R. Timothy Rush

Admission to the B.A. and B.S. Programs in the College of Education

New first-time students who meet the University of Wyoming's standards for admission may declare their major in Elementary Education, Secondary Education in a specific content area, or Education Undecided (EDUD), provided that they have a minimum ACT Composite score of 21 and an ACT Math score of 21 or a minimum new SAT combined score of 1060 with a minimum

SAT Math score of 530. A lower ACT/SAT Math score can be replaced by a Math Placement Examination (MPE) score of 2 or higher. Education Undecided majors should decide on a specific content area no later than the first semester of their sophomore year.

All incoming students pursuing teacher certification and/or teacher endorsement programs must undergo an initial criminal background check prior to full admission to the College of Education. A second background check is included as part of the state application process for the Wyoming Substitute Teaching Permit, which is required for continuation in the B.A. and B.S. programs.

For those students who do not meet the above admissions requirements, it is suggested that they major in exploratory studies (EXPL) so that they will receive more appropriate advising and access to support services through Advising, Career and Exploratory Studies until they have attained a minimum 2.750 UW grade point average (with at least 15 UW credits), and successfully complete an approved background check.

Current UW students who wish to change their major to Education but do not yet have a UW grade point average must wait until they meet the requirement of a minimum 2.750 UW grade point average, with at least 15 UW credits posted to their transcript. It is recommended that they complete a Program Change form and contact the Teacher Preparation and Advising Office in McWhinnie Hall, room 100 to initiate the background check process. Students' progression through the Education curriculum could be delayed until all requirements are fulfilled and their major officially changed to Education.

Transfer students from out of state institutions, as well as from Wyoming community colleges wishing to declare a major in Education must have completed a minimum of 15 transferable credits. Transfer students must have a minimum Transfer GPA of at least 2.750 and successfully complete an approved background check.

For transfer students not meeting these requirements, it is suggested that they major in exploratory studies (EXPL) so that they will receive more appropriate advising and access to support services through Advising, Career and Exploratory Studies until they meet requirement of a minimum 2.750 UW grade point average (with at least 15 UW credits), and successfully complete an approved background check.

Re-admitted students who return to UW after two or more semesters away, and wish to (re-)declare a major in Education, must have a minimum 2.750 UW GPA (with at least 15 UW credits) to do so and successfully complete an approved background check.

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Degree Program Curricula

The following curricula summarize the programs offered by the College of Education. Students complete content courses in their major as well as professional education courses, some of which can also be counted toward their University Studies Program requirements. The University Studies Program requirements include:

- Communication I (COM1) Credits: 3
- Communication II (COM2) Credits: 3
- Communication III (COM3) Credits: 3
- First-Year Seminar (FYS) Credits: 3
- Human Culture (H) Credits: 6
- Physical and Natural World (PN) Credits: 6

- Quantitative Reasoning (Q) Credits: 3
- U.S. & Wyoming Constitutions (V) Credits: 3

The minimum total credit hours required to complete a degree in Education is 120. Of the minimum credit hours required to complete a program, 42 credit hours must be completed at the upper division level (3000-level or higher), with 30 of those credits being completed at UW. Additional College of Education requirements are:

1. 2.750 UW Total Institution grade point average
2. 2.500 grade point average in the content courses required for each specific major
3. A valid Wyoming substitute teaching certificate

Further information on each program is available in:

Teacher Preparation and Advising Office
McWhinnie Hall room 100
Dept. 3374, 1000 E. University Ave.
Laramie, WY 82071
(307) 766-2230

Acceptability of Coursework

Courses taken to satisfy professional education requirements and major content requirements must be taken for a conventional grade (A-F) unless offered for S/U grading only.

Professional education courses taken prior to the last 10 years will not be accepted in a degree and/or teacher certification program. The College of Education does not accept transfer credits for Professional Education or content area courses with equivalents at UW when the grade earned was less than a C. Please note that grades of C- will not satisfy this requirement.

The College of Education does not accept either teaching methodology or student teaching coursework or credits completed at other colleges or universities.

Student Responsibility

College of Education students are responsible for knowing and meeting graduation requirements. Students are expected to maintain a 2.750 UW Total Institution grade point average to continue in the professional education sequence and to graduate. Prior to enrolling in professional education courses, students are expected to have met the specific program and course prerequisites as listed in this publication. Students are expected to make reasonable academic progress toward completion of a degree.

Teaching Endorsements

A teaching endorsement is not a standalone teacher certification program. Endorsements are issued by the Wyoming Professional Teaching Standards Board (PTSB) to state-licensed Elementary (K-6) and Secondary (6-12) teachers qualified to teach in specific subject areas, in addition to their initial certification(s).

Endorsements to Teach Additional Science Subjects

By state statute, the University of Wyoming's College of Education is allowed to provide institutional recommendations for add-on endorsements in Biology, Chemistry, Earth Science, and Physics to those who have completed programs leading to licensure in secondary-level Science content areas.

Graduate Study

The two schools of the College of Education provide support for master's and doctoral degree programs as well as graduate certificates. Faculty and staff work to deliver these programs by providing campus-based courses, courses taught through video conferencing, courses taught on-site at different locations in Wyoming, courses taught online, and courses taught in hybrid formats.

The College of Education is dedicated to offering high quality graduate programs that will provide students with the necessary skills to become educational leaders within their areas of specialization and expertise. All graduate students in the College of Education are expected to become scholars, researchers, and practitioners. They must, therefore, be knowledgeable about the ever-changing literature and research in education, the characteristics and needs of learners, and methods for facilitating learning. They must also understand the process of change and how to facilitate changes in learning settings that reflect what is known about the teaching/learning process. These skills are important to all graduate students, regardless of their areas of specialization or major emphasis.

Degree Programs

College of Education programs fall under one of the following university approved graduate degree titles:

Master of Arts
 Master of Science
 Master of Science in Counseling
 Doctor of Education (Ed.D)
 Ph.D. in Education
 Ph.D. in Counselor Education and Supervision
 Ph.D. in Curriculum and Instruction

Master's Programs

There are three master's programs in the College of Education and two of the three have additional specialization areas. They are designed to provide advanced study for educational professionals. Consult each school (School of Teacher Education and School of Counseling, Leadership, Advocacy, and Design) for program requirements and expectations.

Doctoral Programs

Doctor of Education (Ed.D.)

The College of Education Ed.D. program prepares students for scholarly inquiry and professional leadership in education. The program consists of (1) applied research, (2) courses and professional experiences in education and related fields designed to develop a comprehensive academic basis for leadership roles in education, and (3) applied professional experiences tailored to individual needs and career goals. Each student works closely with an adviser and a supervisory faculty committee to select courses, topics of research, and professional opportunities.

Preparation in the above areas combine to:

Convey deep scholarly knowledge of education and foster its application in practice;
 Promote a broad understanding of various methods of inquiry in education and foster its application in practice settings;
 Advocate practices that demonstrate a commitment to diversity in education;
 Foster ethical and professional research and practice in education;
 Promote excellence in applied professional practice.

The degree of Doctor of Education (Ed.D.) is offered to competent students who wish to pursue a program of study and to participate in appropriate activities in preparation for professional service and leadership in education. The program is designed to meet the needs of those for whom intensive research is not a practical prerequisite to professional goals. Doctoral students are expected to participate not only in organized coursework but also in other activities that will ensure breadth of outlook and technical competence.

Major: EDUCATION

CONCENTRATIONS in the Ed.D. of Education are:

Education, Ed.D., Concentration in Curriculum and Instruction

Education, Ed.D., Concentration in Educational Leadership

Education, Ed.D., Concentration in Higher Education Administration

Education, Ed.D., Concentration in Learning, Design, and Technology

Education, Ed.D., Concentration in Mathematics Education

All Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

The following requirements apply to all projects:

- Research-based (literature review)
- Scholarly, academic writing using APA style
- Primary or secondary data
- Authored by individual or small groups of students
- Uploaded to **ProQuest** for dissertations of practice or other projects in a dissertation format, and uploaded to the **Mountain Scholar Digital Collections** for projects in a non-dissertation format

Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to Mountain Scholar Digital Collections or dissertations of practice or other projects in a dissertation format to ProQuest is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Please note: After submitting the required steps for the Mountain Scholar Digital Collections you will receive a confirmation email. Please forward this email to your chair, Clayleen Rivord in the College of Education Dean's Office, and Robert Ratterree in the Office of the Registrar.

Ph.D. in Education and Ph.D. in Curriculum and Instruction

The College of Education Ph.D. program prepares students for careers of scholarly inquiry and teaching in higher education. The program consists of (1) continuous research or inquiry, (2) courses and professional experiences in education and related fields designed to develop a comprehensive academic basis for future work in research and teaching, and (3) teaching and other related experiences tailored to individual needs and career goals. Each student works closely with an adviser and a supervisory faculty committee to select courses, topics of research and inquiry, and teaching experiences.

All coursework in the Ph.D. in Education program addresses the following goals:

- To convey deep scholarly knowledge of education and related fields
- To promote a broad understanding of various methods of inquiry in education and develop competency in several of those methods
- To advocate practices that demonstrate a commitment to diversity in education
- To foster ethical and professional research and practice in education
- To promote excellence as a college teacher

Effective preparation for the Ph.D. stems from collaborative research and inquiry into topics of mutual interest by students and faculty scholars/researchers. A major portion of the program consists of the individual student and selected faculty members(s) jointly engaged in research and inquiry. Successful Ph.D. applicants tend to have high aptitude for research and inquiry and express interest in general topics which the faculty of the college are actively inquiring and researching.

Major: EDUCATION

CONCENTRATIONS in the Ph.D. in Education are:

Education, Ph.D., Concentration Learning, Design, and Technology

Major: CURRICULUM and INSTRUCTION, Ph.D

CONCENTRATIONS in the Ph.D. in Curriculum and Instruction are:

Curriculum and Instruction, Ph.D., Concentration in Curriculum Studies_

Curriculum and Instruction, Ph.D., Concentration in Literacy Education

Curriculum and Instruction, Ph.D., Concentration in Mathematics Education _

Curriculum and Instruction, Ph.D., Concentration in Science Education

Counselor Education and Supervision, Ph.D.

The PhD program in Counselor Education and Supervision is CACREP accredited and prepares professionals for positions as faculty in Counselor Education departments through personalized, developmentally oriented coursework emphasizing the integration of theory and experiential learning. This doctoral program is ideal for self-initiating persons who thrive in an atmosphere supportive of faculty/student interactions, small class environments, intensive class discussions and opportunities for self-direction and scholarly activity. The doctoral program is built upon the basis of a strong Master's program and upholds the philosophical orientations, coherent principles, and applied knowledge and skills as counselors and supervisors.

The doctoral degree program is 60 credit hours for individuals who have completed a 60-hour CACREP master's program. Students with a 48-hour CACREP master's degree are required to complete an additional 12 semester credits. Students, through coursework, practica and faculty guidance, develop competencies in the areas of counseling, supervision, teaching, leadership, advocacy, research and scholarship.

Learner Outcomes

Doctoral Students in the Counselor Education and Supervision will demonstrate the following learner outcomes.

1. **Academic and Professional Goals:** Students will demonstrate a clear vision of their professional and academic goals and academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
2. **Professional Licensure:** Students will obtain professional licensure as a Licensed Professional Counselor (LPC) in the state of Wyoming and/or develop a plan to obtain licensure for the state in which they intend to relocate upon graduation.
3. **Democratic Perspectives:** Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor, supervisor and educator including the areas of advocacy, leadership, social justice, and promotion of caring communities.
4. **Research and Scholarship:** Students will develop a professional identity as an academic researcher by demonstrating a clear and active research agenda that includes a plan of action for professional presentations and manuscripts.
5. **Professional Development:** Students will develop a clear and diligent plan to becoming a skilled, ethically competent counselor educator.

Program Specific Admission Requirements

Applications for the Doctor of Philosophy (PhD) program in Curriculum and Instruction with a concentration in Curriculum Studies are reviewed for admission in fall and spring semesters. All applications will be completed through the UW Admissions website: <http://www.uwyo.edu/admissions/apply.html>.

Applicants are required to submit the following materials:

- Letter of intent;
- Recent GRE scores, current within the last five years;
- Three letters of recommendation;
- Academic Resume/Curriculum Vitae, including information about teaching experience;
- Transcripts;

- TOEFL scores (for international, nonnative English speaking applicants). *Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Applications for the Doctor of Philosophy (PhD) program in Curriculum and Instruction with a concentration in Literacy Education are reviewed for admission in fall and spring semesters. All applications will be completed through the UW Admissions website: <http://www.uwyo.edu/admissions/apply.html>.

Applicants are required to submit the following materials:

- Current resume or vita;
- A detailed letter that expresses why the applicant wishes to pursue a PhD in Literacy Education, including the applicant's career goals; the applicant's prior experiences in literacy or literacy education (e.g., relevant teaching or other educational experiences); previous university degrees, programs, certificates, or emphases related to literacy; potential areas of focus in a literacy doctoral program; potential research interests; and any other information the applicant considers to be relevant to her or his admission;
- Three Letters of Recommendation from those who can speak to the applicant's intellect, scholarly abilities, teaching ability, or other qualifications for doctoral study. These letters typically would be former professors, supervisors, or administrators;
- An official report of the Graduate Record Examination (GRE) that was taken within the preceding 5 years;
- An academic writing sample is not required, but is preferred.
- Transcripts;
- TOEFL or IELTS score is required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Minimum 3.000 GPA on a 4.000 scale on the applicant's bachelor's from an accredited institution, plus transcripts from all other schools attended.
- Interview with Literacy Education Program faculty, either in person or via telephone
- Master's degree is preferred.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL scores of 540 (paper-based test), 76 (internet-based test), 197 (computer based test) or IELTS scores of 6.5 higher are required for international, non-native English speaking applicants. Minimum scores do not guarantee admission. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Applications for the Doctor of Philosophy (PhD) program in Curriculum and Instruction with a concentration in Mathematics Education are reviewed for admission in fall and spring semesters. All applications will be completed through the UW Admissions website: <http://www.uwyo.edu/admissions/apply.html>.

Applicants are required to submit the following materials:

- Writing sample (an article, master's thesis, or well-done project/course paper);
- An application letter, which discusses yourself, your experience, and your potential research interests;
- A resume or curriculum vita;
- Three letters of reference;
- Transcripts from all universities attended. Unofficial transcripts can be loaded to the online application system, but if admitted to the University, official transcripts will need to be sent prior to beginning the program
- Copy of GRE scores
- International, non-native English speaking students must submit scores for a language proficiency exam, such as TOEFL or IELTS. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Applications for the Doctor of Philosophy (PhD) program in Curriculum and Instruction with a concentration in Science Education are reviewed for admission in fall and spring semesters. All applications will be completed through the UW Admissions website: <http://www.uwyo.edu/admissions/apply.html>.

Applicants are required to submit the following materials:

- Letter of intent. In this letter, describe why you wish to pursue a PhD in Science Education, including your career goals; your prior experiences in science or science education (e.g., relevant teaching or other educational experiences); previous university degrees, programs, certificates, or emphases related to science; potential areas of focus in a science doctoral program; potential research interests; and any other information you consider to be relevant to your admission.
- GRE scores.
- Transcripts.
- TOEFL or IELTS scores (for international, non-native English speaking applicants). Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Applicants need to contact a member of the Science Education PhD Program faculty, either in person or via telephone, to discuss career and research goals. This assists us in assigning a graduate advisor upon admission.
- Recommended: sample of professional writing.

In order to be considered for admission, applicants must meet the following minimum requirements:

- GRE Scores: The admissions committee will consider the Verbal Reasoning and Quantitative Reasoning scores in its determination. Effective July 1, 2016 applicants must have GRE scores of 153 Verbal and 144 Quantitative Reasoning or higher to be considered for admission. Minimum scores do not guarantee admission. Other criteria, as well as faculty capacity, will be considered in the admission process.
- TOEFL scores of 540 (paper-based test), 76 (internet-based test), 197 (computer based test) or IELTS scores of 6.5 higher are required for international, non-native English speaking applicants. Minimum scores do not guarantee admission. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Minimum GPA of 3.000 on bachelor's degree.

Applicants are evaluated on alignment of research interests with those of existing faculty, clarity of application letter and goals, prior teaching or work experience, letters of recommendation, transcripts (including GPA) and previous research experience with an accompanying sample of professional writing if available, according to the Science Education PhD Admissions Rubric.

Following the application review, the program faculty will make a recommendation regarding admission for Graduate Study at UW. Applicants will be notified of the decision by email. Applications will be considered at any time, but students who apply by January 15 will receive full consideration for graduate assistantships for the following academic year.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

Applicants interested in a Graduate Assistantship must submit a graduate assistantship application at the time of admission application process or communicate with their advisor and school director thereafter.

Graduate Certificates

Graduate Certificate programs in Teaching Elementary School (TES) and in Teaching Secondary Content (TSC) with an option to earn a master's degree in Curriculum and Instruction have been established to provide an alternative licensure route through Wyoming's Professional Teaching Standards Board for individuals who have already completed a bachelor's degree. This on-line graduate certificate program does not result in another degree; rather, it is an alternative avenue toward initial Wyoming teacher licensure, with the bonus that it provides up to 12 hours of graduate credit that can be applied to a master's degree in Curriculum and Instruction. Some programs highly recommend a few intensive weekends completed in Laramie, WY.

Graduate Credit Earned in Post-Baccalaureate Program (12 credit hours)

EDCI 5250 - Advanced Topics in Pedagogy (3)

EDCI 5550 - The Art & Science of Teaching (4)

EDCI 5560 - Seminar in Assessment (1)

EDCI 5990 - Internship (4)

Admission to both the Graduate Certificate in Teaching and the master's degree programs require separate applications. The actual licensure courses encompass three full-time semesters: one summer and the following fall and spring semesters, which includes student teaching. Previous coursework or a passed content area Praxis exam is required.

The Teaching Elementary School (TES) Graduate Certificate leads to initial teacher licensure in grades K-6. The Teaching Secondary Content (TSC) Graduate Certificate leads to initial teacher licensure in grades 6-12 in each of the following licensure areas: Agriculture, English, Mathematics, Modern Languages (French, German, Spanish), Science (Biology, Chemistry, Physics, Earth System Science, Geology), and Social Studies (History and Political Science).

School of Teacher Education

113 McWhinnie Hall, (307) 766-3130

FAX: (307) 766-2018

Web site: www.uwyo.edu/st

School Director: Alan Buss

School of Teacher Education offers a wide variety of undergraduate teacher education degrees and minors, graduate degrees in curriculum and instruction, as well as several endorsement and certificate programs to prepare our students to be successful educators. Explore our diverse programs, career opportunities, and research possibilities with our dynamic faculty members.

Admission to the B.A. and B.S. Programs in the College of Education

New first-time students who meet the University of Wyoming's standards for admission may declare their major in Elementary Education, Secondary Education in a specific content area, or Education Undecided (EDUD), provided that they have a minimum ACT Composite score of 21 and an ACT Math score of 21 or a minimum new SAT combined score of 1060 with a minimum SAT Math score of 530. A lower ACT/SAT Math score can be replaced by a Math Placement Examination (MPE) score of 2 or higher. Education Undecided majors should decide on a specific content area no later than the first semester of their sophomore year.

All incoming students pursuing teacher certification and/or teacher endorsement programs must undergo an initial criminal background check prior to full admission to the College of Education. A second background check is included as part of the state application process for the Wyoming Substitute Teaching Permit, which is required for admission to Phase II of the B.A. and B.S. programs.

For those students who do not meet the above admissions requirements, it is suggested that they major in exploratory studies (EXPL) so that they will receive more appropriate advising and access to support services through Advising, Career and Exploratory Studies until they have attained a minimum 2.750 UW grade point average (with at least 15 UW credits), and successfully complete an approved background check.

Current UW students who wish to change their major to Education but do not yet have a UW grade point average must wait until they meet the requirement of a minimum 2.750 UW grade point average, with at least 15 UW credits posted to their transcript. It is recommended that they complete a Program Change form and contact the Teacher Preparation and Advising Office in McWhinnie Hall, room 100 to initiate the background check process. Students' progression through the Education curriculum could be delayed until all requirements are fulfilled and their major officially changed to Education.

Transfer students from out of state institutions, as well as from Wyoming community colleges wishing to declare a major in Education must have completed a minimum of 15 transferable credits, including the USP 2015 "Q" requirement (as determined by the UW Registrar), with a final grade higher than a C- to do so. Transfer students must have a minimum Transfer GPA of at least 2.750 and successfully complete an approved background check.

For transfer students not meeting these requirements, it is suggested that they major in exploratory studies (EXPL) so that they will receive more appropriate advising and access to support services through Advising, Career and Exploratory Studies until they meet requirement of a minimum 2.750 UW grade point average (with at least 15 UW credits), and successfully complete an approved background check.

Re-admitted students who return to UW after two or more semesters away, and wish to (re-)declare a major in Education, must have a minimum 2.750 UW GPA (with at least 15 UW credits) to do so and successfully complete an approved background check.

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Degree Program Curricula

The following curricula summarize the programs offered by the College of Education. Students complete content courses in their major as well as professional education courses, some of which can also be counted toward their University Studies Program requirements. The University Studies Program requirements include:

- Communication I (COM1) Credits: 3
- Communication II (COM2) Credits: 3
- Communication III (COM3) Credits: 3
- First-Year Seminar (FYS) Credits: 3
- Human Culture (H) Credits: 6
- Physical and Natural World (PN) Credits: 6
- Quantitative Reasoning (Q) Credits: 3
- U.S. & Wyoming Constitutions (V) Credits: 3

The minimum total credit hours required to complete a degree in Education is 120. Of the minimum credit hours required to complete a program, 42 credit hours must be completed at the upper division level (3000-level or higher), with 30 of those credits being completed at UW. Additional College of Education requirements are:

1. 2.750 UW Total Institution grade point average
2. 2.500 grade point average in the content courses required for each specific major
3. A valid Wyoming substitute teaching certificate

Further information on each program is available in:

Teacher Preparation and Advising Office
 McWhinnie Hall room 100
 Dept. 3374, 1000 E. University Ave.
 Laramie, WY 82071
 (307) 766-2230

Acceptability of Coursework

Courses taken to satisfy professional education requirements and major content requirements must be taken for a conventional grade (A-F) unless offered for S/U grading only.

Professional education courses taken prior to the last 10 years will not be accepted in a degree and/or teacher certification program. The College of Education does not accept transfer credits for Professional Education or content area courses with equivalents at UW when the grade earned was less than a C. Please note that grades of C- will not satisfy this requirement.

The College of Education does not accept either teaching methodology or student teaching coursework or credits completed at other colleges or universities.

Student Responsibility

College of Education students are responsible for knowing and meeting graduation requirements. Students are expected to maintain a 2.750 UW Total Institution grade point average to enter Phases II and III and continue in the professional education sequence and to graduate. Prior to enrolling in professional education courses, students are expected to have met the specific program and course prerequisites as listed in this publication. Students are expected to make reasonable academic progress toward completion of a degree.

Teaching Endorsements

A teaching endorsement is not a standalone teacher certification program. Endorsements are issued by the Wyoming Professional Teaching Standards Board (PTSB) to state-licensed Elementary (K-6) and Secondary (6-12) teachers qualified to teach in specific subject areas, in addition to their initial certification(s).

Endorsements to Teach Additional Science Subjects

By state statute, the University of Wyoming's College of Education is allowed to provide institutional recommendations for add-on endorsements in Biology, Chemistry, Earth Science, and Physics to those who have completed programs leading to licensure in secondary-level Science content areas.

Graduate Study

The College of Education is dedicated to offering high quality graduate programs that will provide students with the necessary skills to become educational leaders within their areas of specialization and expertise. All graduate students in the College of Education are expected to become scholars, researchers, and practitioners. They must, therefore, be knowledgeable about the ever-changing literature and research in education, the characteristics and needs of learners, and methods for facilitating learning. They must also understand the process of change and how to facilitate changes in learning settings that reflect what is known about the teaching/learning process. These skills are important to all graduate students, regardless of their areas of specialization or major emphasis.

Degree Programs

School of Teacher Education in College of Education programs fall under one of the following university approved graduate degree titles:

Master of Arts in Curriculum and Instruction

Doctor of Education (Ed.D)

Doctor of Philosophy in Curriculum and Instruction (Ph.D.)

Master's Programs

There are three master's programs in the College of Education and two of the three have additional specialization areas. They are designed to provide advanced study for educational professionals. Consult School of Teacher Education for program requirements and expectations.

Doctoral Programs

Doctor of Education (Ed.D.)

The College of Education Ed.D. program prepares students for scholarly inquiry and professional leadership in education. The program consists of (1) applied research, (2) courses and professional experiences in education and related fields designed to develop a comprehensive academic basis for leadership roles in education, and (3) applied professional experiences tailored to individual needs and career goals. Each student works closely with an adviser and a supervisory faculty committee to select courses, topics of research, and professional opportunities.

Preparation in the above areas combine to:

Convey deep scholarly knowledge of education and foster its application in practice;
 Promote a broad understanding of various methods of inquiry in education and foster its application in practice settings;
 Advocate practices that demonstrate a commitment to diversity in education;
 Foster ethical and professional research and practice in education;
 Promote excellence in applied professional practice.

The degree of Doctor of Education (Ed.D.) is offered to competent students who wish to pursue a program of study and to participate in appropriate activities in preparation for professional service and leadership in education. The program is designed to meet the needs of those for whom intensive research is not a practical prerequisite to professional goals. Doctoral students are expected to participate not only in organized coursework but also in other activities that will ensure breadth of outlook and technical competence.

Major: Education

Concentration in the Doctor of Education are:

Education, Ed.D., Concentration in Curriculum and Instruction

Education, Ed.D., Concentration in Mathematics Education

All Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

The following requirements apply to all projects:

- Research-based (literature review)
- Scholarly, academic writing using APA style
- Primary or secondary data
- Authored by individual or small groups of students
- Uploaded to **ProQuest** for dissertations of practice or other projects in a dissertation format, and uploaded to the **Mountain Scholar Digital Collections** for projects in a non-dissertation format

Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to Mountain Scholar Digital Collections or dissertations of practice or other projects in a dissertation format to ProQuest is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Please note: After submitting the required steps for the Mountain Scholar Digital Collections you will receive a confirmation email. Please forward this email to your chair, Clayleen Rivord in the College of Education Dean's Office, and Robert Ratterree in the Office of the Registrar.

Ph.D. in Curriculum and Instruction

The College of Education Ph.D. program prepares students for careers of scholarly inquiry and teaching in higher education. The program consists of (1) continuous research or inquiry, (2) courses and professional experiences in education and related fields designed to develop a comprehensive academic basis for future work in research and teaching, and (3) teaching and other related experiences tailored to individual needs and career goals. Each student works closely with an adviser and a supervisory faculty committee to select courses, topics of research and inquiry, and teaching experiences.

All coursework in the Ph.D. in Curriculum and Instruction program addresses the following goals:

- To convey deep scholarly knowledge of education and related fields
- To promote a broad understanding of various methods of inquiry in education and develop competency in several of those methods
- To advocate practices that demonstrate a commitment to diversity in education
- To foster ethical and professional research and practice in education
- To promote excellence as a college teacher

Effective preparation for the Ph.D. stems from collaborative research and inquiry into topics of mutual interest by students and faculty scholars/researchers. A major portion of the program consists of the individual student and selected faculty members(s) jointly engaged in research and inquiry. Successful Ph.D. applicants tend to have high aptitude for research and inquiry and express interest in general topics which the faculty of the college are actively inquiring and researching.

Major: Curriculum and Instruction, Ph.D.

Concentrations in the Ph.D. in Curriculum and Instruction are:

Curriculum Studies

Literacy Education

Mathematics Education

Science Education

Program Specific Graduate Assistantships

Applicants interested in a Graduate Assistantship must submit a graduate assistantship application at the time of admission application process or communicate with the advisor and school director thereinafternoon.

The two schools of the College of Education provide support for master's and doctoral degree programs.. Faculty and staff work to deliver these programs by providing campus-based courses, courses taught on-site at different locations in Wyoming, courses taught online, and courses taught in hybrid formats.

Faculty in the School of Teacher Education

Professors:

STEVEN M. BIALOSTOK, B.A. University of the Pacific 1975; M.S.W. California State University - Sacramento 1986; Ph.D. University of Arizona 1999; Professor of Elementary and Early Childhood Education 2015, 2000.

CYNTHIA BROCK, B.S. Oregon State University 1981; MGd Washington State University 1985; Ph.D. Michigan State University 1997; Wyoming Excellence in Education Literacy Chair 2015.

ANDREA C. BURROWS, B.S. University of Central Florida 1992; M.S. Florida State University 1994; Ed.D. University of Cincinnati 2011; Professor of Secondary Education 2017, 2011. Associate Dean of Undergraduate Programs 2020.

ALAN R. BUSS, B.A. Brigham Young University 1989; M.A. 1993; Ph.D. University of Wyoming 1998; Professor of Elementary and Early Childhood Education 2020, 1997.

SCOTT A. CHAMBERLIN, B.A. Purdue University 1989 and 1993; M.Ed. University of Utah 1998; Ph.D. Purdue University 2002; Professor of Elementary and Early Childhood Education 2015, 2003.

LEIGH HALL, B.S. University of South Florida 1996; M.Ed. Peabody College of Vanderbilt University 1997; Ph.D. Michigan State University 2005; Professor of Secondary Education 2017.

JOHN KAMBTU, B. A. University of Wyoming 1991; M. A. 1992; Ph.D. 1998; Professor of Educational Studies 2015, 1999. Wyoming Excellence in Education Literacy Chair 2020.

RICHARD KITCHEN, B.A. University of Colorado-Denver 1984; M.A. University of Montana 1990; Ph.D. University of Wisconsin- Madison 1996; Professor of Secondary Education 2017. Wyoming Excellence in Education Mathematics Education Chair 2020.

PETER WILLIAM MORAN, B.A. University of Wyoming 1987; M.A. Kansas State University 1993; Ph.D. 2000; Professor of Elementary and Early Childhood Education 2017, 2001.

LYDIAH NGANGA, B.S. University of Wyoming 1998; M.S. 2000; Ph.D. 2005; Associate Professor of Elementary and Early Childhood Education 2011, 2005.

LESLIE S. RUSH, B.S. Texas A&M-Commerce 1984; M.Ed. 1996; Ph.D. University of Georgia, 2002; Professor of Secondary Education 2014, 2002. Interim Dean 2020.

JENNA M. SHIM, B.A. California State University - Los Angeles 1994; M.M. Manhattan School of Music - New York 1996; M.S. State University of New York - Albany 2006; Ph.D. 2009; Professor of Educational Studies 2016, 2010.

TIMOTHY F. SLATER, B.S. Kansas State University 1989; B.S. Ed. 1989; M.S. Clemson University 1991; Ph.D. University of South Carolina 1993; Professor of Secondary Education 2008. Wyoming Excellence in Education Science Education Chair 2020.

ALLEN TRENT, B.A. Eastern Kentucky University 1986; M.S. University of Dayton 1992; Ph.D. The Ohio State University 2000; Professor of Elementary and Early Childhood Education 2012.

Associate Professors:

TAO HAN, B.A. Sungshin Women's University, Korea 1984; M.A. University of Arizona 1993; M.A. University of Nevada-Reno 2002; Ph.D. 2006; Associate Professor of Elementary and Early Childhood Education 2016, 2010.

ANA HOUSEAL, B.A. University of Iowa 1985; M.A. University of Northern Iowa 1998; Ph.D. University of Illinois 2010; Associate Professor of Elementary and Early Childhood Education 2017, 2011.

LINDA HUTCHISON, B.A. Humboldt State University 1978; M.A. Stanford University 1986; Ph.D. University of Washington 1992; Associate Professor of Secondary Education 2000, 1993.

TRICIA JOHNSON, B.S. Lehigh University 1991; M.Ed. 1993; Ed.S. George Washington University 1997; Ed.D. Columbia University 2004; Associate Professor of Elementary and Early Childhood Education 2012.

PATRICK MANYAK, B.A. Pepperdine University 1988; M.S. 1990; Ph.D. University of Southern California-Los Angeles 2001; Associate Professor of Elementary and Early Childhood Education 2007, 2001.

AMY ROBERTS, B.S. Indiana University 1986; M.A. Portland State University 1991; Ph.D. Indiana University 1996; Associate Professor of Elementary and Early Childhood Education 2004, 1998.

KATHERINE MUIR WELSH, B.A. University of California-Berkeley 1986; Single Subject Teaching Credential (Life Sciences) University of California-Santa Barbara 1990; Ph.D. University of California-Los Angeles 2002; Associate Professor of Elementary and Early Childhood Education 2008, 2002.

Assistant Professors:

ALI BICER, B.S. Celal Bayar University 2006; M.S. Texas A&M University 2012; Ph.D. 2016; Assistant Professor of Elementary and Early Childhood Education 2019.

TODD REYNOLDS, B.A. University of Northern Colorado 1998; M.A. 2004; Ed.S. 2008; Ph.D. University of Wyoming 2015; Assistant Professor of Secondary Education 2019.

ALISON MERCIER, B.S. North Carolina State University 2000; M.S. University of North Carolina 2020; Assistant Professor of Secondary Education 2020.

Senior Lecturers:

NIKKI BALDWIN, B.A. University of Wyoming 1994; M.A. 2005; Senior Lecturer of Elementary and Early Childhood Education 2020, 2009.

KIMBERLY GUSTAFSON, B.A. University of Wyoming 1998; M.A. 2003; Ed.D. 2010; Senior Lecturer of Elementary and Early Childhood Education 2019, 2007.

JASON KATZMANN, B.S. Texas Women's University 1994; M.A. Colorado College 2000; Ph.D. University of Northern Colorado 2007; Assistant Professor of Educational Studies 2016, 2007.

AMY SPIKER, B.A. University of Wyoming 1989; M.A. 2004; Senior Lecturer of Elementary and Early Childhood Education 2016, 2007.

Assistant Lecturers:

LINDSEY FREEMAN, B.S. University of Wyoming 2011; M.A. 2018; Assistant Lecturer of Educational Studies 2019.

JENNIFER GERINGER, B.A. University of Texas - San Antonio 1991; M.S. University of Wyoming 1997; Ph.D. 2001; Assistant Lecturer of Elementary and Early Childhood Education 2015.

JANET LEAR, B.S. University of Wisconsin-Madison 1990; M.A. University of California, Berkeley 1998; Ph.D. University of Denver 2017; Assistant Lecturer of Educational Studies 2019.

ROCHELLE MCCOY, B.A. Western Governors University 2006; M.A. 2012; Assistant Lecturer of Elementary and Early Childhood Education 2019.

JOSEPH SCHROER, B.A. University of Cincinnati 2002; B.S. 2005; M.A. 2001; Ph.D. 2007; Assistant Lecturer of Educational Studies 2019.

Associate Lecturers:

ROD THOMPSON, B.A. University of Nebraska at Kearney 1991; M.A. University of Northern Iowa 1998; Associate Lecturer of Educational Studies 2019.

Professors Emeritus:

Michelle Buchanan, Barbara A. Chatton, Margaret Cooney, Lydia Dambekalns, Judith Z. Ellsworth, Patricia McClurg, R. Timothy Rush

School of Counseling, Leadership, Advocacy, and Design

332 Education Building, (307) 766-2366

and

316 Education Building, (307) 766-5649

Web site: www.uwyo.edu/clad

School Director: Peter Moran

The School of Graduate Studies in Education includes the following program areas: Counseling, Educational Leadership, Higher Education Administration, Learning, Design and Technology, Research, and Special Education.

Program Areas

Counseling

Counselor education curricula experiences concentrate on the integration of helping skills, theory and practice. The programs utilize a personalized, developmentally oriented focus and prepare professional counselors for entry into school and mental health settings.

The undergraduate counseling courses are designed to achieve the following objectives:

- enhance self-awareness
- facilitate effective relationship skills
- increase leadership knowledge and skills
- assist learners in maximizing their potential

Graduate Study

Counselor education offers a two-year (61- 65 semester hours) master's degree program for practice in schools, colleges, universities, and community agencies, as well as private practice. The Council for Accreditation of Counseling and Related Educational Programs (CACREP), the national accrediting body recognized by the Council for Higher Education Accreditation, has conferred accreditation to the following M.S. specializations in counseling: school counseling and mental health counseling. The Ph.D. program in Counselor Education and Supervision is also CACREP accredited. Some courses are offered for undergraduates interested in school counseling, group work, leadership, and student affairs work. Undergraduates interested in preparing for entry into graduate work in counseling are invited to consult with program faculty prior to graduation. Program information is available on the Web site.

Degrees Offered

M.S. in Counseling, Option: Mental Health Counseling

M.S. in Counseling, Option: School Counseling

Counselor Education and Supervision, Ph.D.

Program Specific Admission Requirements

For master's applicants:

- Summary of academic background
- Personal statement
- Three letters of recommendation
- Current professional resume
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For doctoral applicants:

- Transcripts
- GRE scores within the last five years; minimum scores are 151 Verbal and 153 Quantitative Reasoning

- Three letters of recommendation
- Personal self-statement
- Current academic resume
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years)

In order to be considered for admission, applicants must meet the following minimum requirements:

- Master's degree in Counseling
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale.

Program Specific Graduate Assistantships

Assistantships are usually available for doctoral students. Master's students sometimes qualify for assistantships. Please contact the program at (307) 766-2366 for assistantship opportunities, and see school web site.

Program Specific Degree Requirements

Professional Master's Program

Minimum requirements:

same for all options

61 hours of graduate credit to include 40 hours of core courses and 21 hours of graduate coursework specific to chosen option

Culminating internship activity guided by faculty advisor

Students complete the CAPP program in lieu of a program of study

Doctor of Philosophy in Counselor Education and Supervision

Doctoral students are required to have completed a minimum of a 48-hour Master's degree from a program of study equivalent to a CACREP accredited Masters program in Counselor Education. These requirements are based upon the 2015 CACREP Standards.

Educational Leadership

The curriculum in educational leadership is designed to prepare superintendents, principals, supervisors for public schools and leaders for organizations to perform duties of a specialized nature and to function effectively in a leadership capacity. The program provides sufficient breadth to give candidates for advanced degrees ample opportunity to develop essential competencies.

Degrees and Certificates Offered

Students who major in education with an option in educational leadership may choose one of the following certificate or degree programs: Principal Certificate program for eligibility of a K-12 Principal Certificate endorsement, School District Superintendent Certificate, Master of Arts in Education, Doctor of Education and Doctor of Philosophy.

Program Specific Admission Requirements

For certificate applicants:

- Transcripts
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Letter of intent
- Three letters of recommendation
- Current resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience
- Master's degree in an education-related field

For master's applicants:

- Letter of intent
- Current resume
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience

For EdD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

- Two years of K-12 educational administrative experience

For PhD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 educational administrative experience

Educational Research

The educational research faculty offer ten courses on a regular basis in educational research. These courses are open to graduate students throughout the college and the university. In addition, we offer two minors in educational research, one is qualitative research methods and one in quantitative research methods. Students currently enrolled in any UW master's or doctoral program are eligible for these minors. Both minors require students to complete 16 credit hours, a research project, and a co-teaching experience in educational research.

Learner Outcomes

The goals of the educational research courses in the College of Education include developing the necessary skills, concepts, and understanding of research methodology to evaluate, use, and conduct research in a student's specific discipline. This goal requires the ability to do the following:

1. In a research study, critique the following the research problem and hypothesis; general design to insure that correct conclusions are possible from the statistical analysis; statistical analysis procedures to establish their valid use in the study; reliability and validity of instruments used to collect data; and conclusions and interpretations to insure appropriateness of each.
2. Develop a problem appropriate for research. Examine a cross section of the current literature on the topic, placing the research problem within the context of the field.
3. Demonstrate knowledge of the reference sources available in a research library; know how and when to use available resources.
4. Compare and contrast research designs and methods and be able to identify examples, advantages, and disadvantages of each.
5. Be able to use statistics to describe a sample and make inferences.
6. Understand, design, and analyze results of various types of quantitative, qualitative, and mixed method research studies.
7. Understand the principles of measurement as they apply to specific studies.

Doctoral Students in the Counselor Education and Supervision will demonstrate the following learner outcomes.

1. **Academic and Professional Goals:** Students will demonstrate a clear vision of their professional and academic goals and academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

2. **Professional Licensure:** Students will obtain professional licensure as a Licensed Professional Counselor (LPC) in the state of Wyoming and/or develop a plan to obtain licensure for the state in which they intend to relocate upon graduation.
3. **Democratic Perspectives:** Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor, supervisor and educator including the areas of advocacy, leadership, social justice, and promotion of caring communities.
4. **Research and Scholarship:** Students will develop a professional identity as an academic researcher by demonstrating a clear and active research agenda that includes a plan of action for professional presentations and manuscripts.
5. **Professional Development:** Students will develop a clear and diligent plan to becoming a skilled, ethically competent counselor educator.

Master's Degree in Counseling

At the completion of the Master's degree in Counseling students will demonstrate the following learner outcomes:

1. **Professional Competence & Academic Preparation for Licensed Professional Counselor (LPC):** Students will demonstrate academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
2. **Democratic Perspectives:** Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor.
3. **Professional Identity:** Students will develop a professional identity as a professional counselor including the areas of advocacy, leadership, social justice, and promoting caring communities.
4. **Academic & Professional Goals:** Students will demonstrate a clear vision of their professional and academic goals.

Ph.D. in Counselor Education & Supervision

Doctoral students in Counselor Education & Supervision will demonstrate the following learner outcomes.

1. **Academic & Professional Goals:** Students will demonstrate a clear vision of their professional and academic goals and academic preparation by developing and completing an approved program of study that meets the standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
2. **Professional Licensure:** Students will obtain professional licensure as a Licensed Professional Counselor (LPC) in the state of Wyoming and/or develop a plan to obtain licensure for the state in which they intend to relocate upon graduation.
3. **Democratic Perspectives:** Students will demonstrate development as a culturally competent, creative, skilled & ethical counselor, supervisor and educator including the areas of advocacy, leadership, social justice, and promoting caring communities.
4. **Research & Scholarship:** Students will develop a professional identity as an academic researcher by demonstrating a clear and active research agenda that includes a plan of action for professional presentations and manuscripts.
5. **Professional Development:** Students will develop a clear and diligent plan to becoming a skilled, ethically competent counselor educator.

Learning, Design, and Technology

The curriculum in learning, design, and technology is designed to assist professionals in effectively developing, implementing, and evaluating systems, tools, strategies, and environments that enhance learning. Graduates from the program secure employment in PK-12 classrooms; school media and technology centers, and school district administrative offices; public, corporate, and government centers and training agencies; college and university faculty and administrative positions; design and development labs; product support teams; and consulting firms.

Degrees and Certificates Offered

Students who major in education with an option in learning, design, and technology may choose one of the following certificate or degree programs: Master of Science in Education (M.S.), Doctor of Education (Ed.D.) or Doctor of Philosophy (Ph.D.), Online

instruction Certificate program (does not lead to a master's degree). The program Web site (<http://www.uwyo.edu/clad/>) provides additional information.

Program Specific Admission Requirements

For certificate applicants:

- Application letter
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For EdD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For PhD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale.

Special Education

The special education programs are designed to prepare teachers to work with students with varied learning and behavior needs. Students may choose from one of two programs: a master of arts in education with an option in special education or a special education endorsement program leading to eligibility for K-12 special education generalist endorsement through the Wyoming Professional Teaching Standards Board. Additionally a Special Education Director Endorsement Program is available as well. Students who complete the coursework will receive a certificate in Special Education.

Program Specific Admission Requirements

For certificate applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current Wyoming teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

Program Specific Degree Requirements

Students may choose to complete the program on a part-time or full-time basis. All Special Education courses are offered either online or through video-conferencing sites within Wyoming only. See descriptions under Special Education (EDEX).

Program Specific Admission Requirements

For certificate applicants:

- Letter of interest
- Current academic resume
- Three letters of recommendation
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Personal statement
- Current academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For EdD applicants:

- Personal statement
- Current academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For Ph.D. applicants:

- Personal statement
- Current academic resume

- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

Program Specific Graduate Assistantships

Applicants interested in a Graduate Assistantship must submit a graduate assistantship application to the College of Education no later than February 1 for fall term admission (see above).

Learner Outcomes

1. Academic Knowledge: Students will demonstrate a deep understanding of knowledge related to the nature, function and scope of adult and continuing education; historical, philosophical and sociological foundations; adult learning and development; program processes including planning, delivery, and assessment/evaluation.
2. Practical Competence: Students will demonstrate the ability to translate academic knowledge into expert practice related to their professional roles and specialized areas of interest.
3. Reflective Inquiry: Students will demonstrate a reflective stance toward their professional practice and competence with diverse, critical and global perspectives and key tools of inquiry related to this field of study.
4. Democratic Commitment: Students will demonstrate an understanding of the relationship between adult and continuing education and the complex process of democracy and a commitment to pursue this process with a focus on equal learning opportunities.
5. Professional Engagement: Students will demonstrate intellectual engagement with adult and continuing education practices through creative and scholarly pursuits, participation in professional associations, and related activities.

Educational Leadership

The curriculum in educational leadership is designed to prepare superintendents, principals, supervisors for public schools and leaders for organizations to perform duties of a specialized nature and to function effectively in a leadership capacity. The program provides sufficient breadth to give candidates for advanced degrees ample opportunity to develop essential competencies.

Degrees and Certificates Offered

Students who major in education with an option in educational leadership may choose one of the following certificate or degree programs: Principal Certificate program for eligibility of a K-12 Principal Certificate endorsement, School District Superintendent Certificate, Master of Arts in Education, Doctor of Education and Doctor of Philosophy.

Program Specific Admission Requirements

For certificate applicants:

- Transcripts
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Letter of intent
- Three letters of recommendation
- Current resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience
- Master's degree in an education-related field

For master's applicants:

- Letter of intent
- Current resume
- Copy of current teaching certificate
- Principal program application
- Superintendent approval form
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 153 Verbal, 144 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency
- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 teaching experience

For EdD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

- Two years of K-12 educational administrative experience

For PhD applicants:

- Application letter
- Current CV or academic resume
- Three letters of recommendation
- Transcripts
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale
- Two years of K-12 educational administrative experience

Learner Outcomes

2018 NELP District Standards

1. NELP Standard 1: Mission, Vision, and Improvement: Collaboratively lead, design, and implement a district mission, vision, and process for continuous improvement that reflects a core set of values and priorities that include data use, technology, values, equity, diversity, digital citizenship, and community.
2. NELP District Standard 2: Ethics and Professional Norms: Advocate for ethical decisions and cultivate professional norms and culture
3. NELP District Standard 3: Equity, Inclusiveness, and Cultural Responsiveness: Develop and maintain a supportive, equitable, culturally responsive, and inclusive district culture.
4. NELP District Standard 4: Learning and Instruction: Evaluate, design, cultivate, and implement coherent systems of curriculum, instruction, supports, assessment, and instructional leadership.
5. NELP District Standard 5: Community and External Leadership: Understand and engage families, communities, and other constituents in the work of schools and the district and to advocate for district, student, and community needs.
6. NELP District Standard 6: Operations and Management: Develop, monitor, evaluate, and manage district systems for operations, resources, technology, and human capital management.
7. NELP District Standard 7: Policy Governance and Advocacy: Cultivate relationships, lead collaborative decision making and governance, and represent and advocate for district needs in broader policy conversations.
8. NELP District Standard 8: Internship: Successfully complete an internship under the supervision of knowledgeable, expert practitioners that engages candidates in multiple and diverse district settings and provides candidates with coherent, authentic, and sustained opportunities to synthesize and apply the knowledge and skills identified in NELP Standards 1-7 in ways that approximate the full range of responsibilities required of district-level leaders and enable them to promote the current and future success and well-being of each student and adult in their district.

2018 NELP Building Standards

1. NELP Building-Level Standard 1: Mission, Vision, and Improvement: Collaboratively lead, design, and implement a school mission, vision, and process for continuous improvement that reflects a core set of values and priorities that include data, technology, equity, diversity, digital citizenship, and community.
2. NELP Building-Level Standard 2: Ethics and Professional Norms: Understand and demonstrate the capacity to advocate for ethical decisions and cultivate and enact professional norms.
3. NELP Building-Level Standard 3: Equity, Inclusiveness, and Cultural Responsiveness: Develop and maintain a supportive, equitable, culturally responsive, and inclusive school culture.

4. NELP Building-Level Standard 4: Learning and Instruction: Evaluate, develop, and implement coherent systems of curriculum, instruction, data systems, supports, and assessment.
5. NELP Building-Level Standard 5: Community and External Leadership: Engage families, community, and school personnel in order to strengthen student learning, support school improvement, and advocate for the needs of their school and community.
6. NELP Building-Level Standard 6: Operations and Management: Improve management, communication, technology, school-level governance, and operation systems; to develop and improve data-informed and equitable school resource plans; and to apply laws, policies, and regulations.
7. NELP Building-Level Standard 7: Building Professional Capacity: Build the school's professional capacity, engage staff in the development of a collaborative professional culture, and improve systems of staff supervision, evaluation, support, and professional learning.
8. NELP Building-Level Standard 8: Internship: Successfully complete an internship under the supervision of knowledgeable, expert practitioners that engages candidates in multiple and diverse school settings and provides candidates with coherent, authentic, and sustained opportunities to synthesize and apply the knowledge and skills identified in NELP standards 1-7 in ways that approximate the full range of responsibilities required of building-level leaders and enable them to promote the current and future success and well-being of each student and adult in their school.

Educational Research

The educational research faculty offer ten courses on a regular basis in educational research. These courses are open to graduate students throughout the college and the university. In addition, we offer two minors in educational research, one is qualitative research methods and one in quantitative research methods. Students currently enrolled in any UW master's or doctoral program are eligible for these minors. Both minors require students to complete 16 credit hours, a trial research project, and a co-teaching experience in educational research.

Learner Outcomes

The goals of the educational research courses in the College of Education include developing the necessary skills, concepts, and understanding of research methodology to evaluate, use, and conduct research in a student's specific discipline. This goal requires the ability to do the following:

1. In a research study, critique the following the research problem and hypothesis; general design to insure that correct conclusions are possible from the statistical analysis; statistical analysis procedures to establish their valid use in the study; reliability and validity of instruments used to collect data; and conclusions and interpretations to insure appropriateness of each.
2. Develop a problem appropriate for research. Examine a cross section of the current literature on the topic, placing the research problem within the context of the field.
3. Demonstrate knowledge of the reference sources available in a research library; know how and when to use available resources.
4. Compare and contrast research designs and methods and be able to identify examples, advantages, and disadvantages of each.
5. Be able to use statistics to describe a sample and make inferences.
6. Understand, design, and analyze results of various types of quantitative, qualitative, and mixed method research studies.
7. Understand the principles of measurement as they apply to specific studies.

Learning, Design, and Technology

The curriculum in learning, design, and technology is designed to assist professionals in effectively developing, implementing, and evaluating systems, tools, strategies, and environments that enhance learning. Graduates from the program secure employment in PK-12 classrooms; school media and technology centers, and school district administrative offices; public, corporate, and government centers and training agencies; college and university faculty and administrative positions; design and development labs; product support teams; and consulting firms.

Degrees and Certificates Offered

Students who major in education with an option in learning, design, and technology may choose one of the following certificate or degree programs: Master of Science in Education (M.S.), Doctor of Education (Ed.D.) or Doctor of Philosophy (Ph.D.), Online instruction Certificate program (does not lead to a master's degree). The program Web site (<http://www.uwyo.edu/clad/>) provides additional information.

Program Specific Admission Requirements

For certificate applicants:

- Application letter
- Transcripts
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For EdD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until

further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For PhD applicants:

- Transcripts
- Three letters of recommendation
- Personal statement
- Current academic resume
- GRE scores within the last five years (both official and unofficial); minimum scores are 151 Verbal, 153 Quantitative Reasoning, and 4.0 Analytical Writing
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale.

Learner Outcomes

1. **Academic Knowledge:** Students will demonstrate a deep understanding of knowledge related to the nature, function and scope of instructional technology; historical, philosophical and sociological foundations; research; and program processes including planning, development, delivery, and assessment/evaluation.
2. **Design:** Students will demonstrate how to determine organization and learner needs, specify conditions for learning, and conduct task analyses, instructional sequencing, delivery, and project and resource management. Students will also demonstrate how visual elements, information literacy, and delivery media affect message design in traditional and online environments.
3. **Development:** Students will demonstrate how to convert design plans into physical and computer-based resources aligned to professional learning goals, standards, and objectives. They will also demonstrate how to deliver these resources via physical and electronic media.
4. **Evaluation:** Students will demonstrate skills required to conduct both formative and summative assessments of instructional episodes and resources. These include problem analysis, expert review, usability testing, and instrument development and validation.
5. **Practical Competence:** Students will demonstrate the ability to translate academic knowledge into expert practice related to their professional roles and specialized areas of interest.
6. **Professional Engagement:** Students will demonstrate intellectual engagement and a reflective stance with instructional technology practices through creative and scholarly pursuits, advisor research, participation and presentations in professional associations, and related activities.

Special Education

The special education programs are designed to prepare teachers to work with students with varied learning and behavior needs. Students may choose from one of two programs: a master of arts in education with an option in special education or a special education endorsement program leading to eligibility for K-12 special education generalist endorsement through the Wyoming Professional Teaching Standards Board. Additionally a Special Education Director Endorsement Program is available as well. Students who complete the coursework will receive a certificate in Special Education.

Program Specific Admission Requirements

For certificate applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current Wyoming teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

For master's applicants:

- Special Education application form
- Transcripts
- Three letters of recommendation
- Professional Writing Sample
- Current resume
- Copy of current teaching certificate
- Signed Memo of Understanding
- International, non-native English speaking applicants: TOEFL scores of at least 80 for the online exam (with at least 20 on each subset) or 6.5 on the IELTS (minimum of 6 in each subset; scores must be within at least two years. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, all applicants must meet the following minimum requirements:

- Bachelor's degree from a regionally accredited institution with a minimum GPA of 3.000 on 4.000 scale

Special Education Director Endorsement Program

Learner Outcomes

Upon completion of the Master of Arts or the K-12 Certificate program in Special Education, the candidates will demonstrate their knowledge and skills in:

1. **Learner Development/Individual Learning Differences.** Special education professionals understand how disabilities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for students with disabilities.
2. **Learning Environments.** Special education professionals create safe, inclusive, and culturally responsive learning environments so that students with disabilities become active and effective learners and develop emotional wellbeing, positive social interactions, and self-determination.

3. **Curricular Content Knowledge.** Special education professionals use knowledge of general and specialized curricula to individualize learning for students with disabilities.
4. **Assessment.** Special education professionals use multiple methods of assessment and data sources in making educational decisions.
5. **Instructional Planning and Strategies.** Special education professionals select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of students with disabilities.
6. **Professional Learning and Ethical Practice.** Special education professionals use foundational knowledge of the field and their professional ethical principles and practice standards to inform special education practice, to engage in lifelong learning, and to advance the profession.
7. **Collaboration.** Special education professionals collaborate with families, other educators, related service providers, students with disabilities, and personnel from community agencies in culturally responsive ways to address the needs of students with disabilities across a range of learning experiences.

College of Engineering and Applied Science

2085 Engineering Building

Cameron Wright, Acting Dean

Phone: (307)766-4253 FAX: (307)766-4444

Web site: ceas.uwyo.edu

Engineering is a profession that truly makes a difference. Engineers constantly discover how to improve lives by creating new solutions to real world problems and needs. From small villages to large cities, engineers are involved in innovative improvements to all aspects of life from health care, to energy production, to protecting and rehabilitating the environment, to developing the newest technological device. The broad background of communication, mathematical, scientific, and problem solving skills provided at the University of Wyoming will prepare engineering graduates to pursue careers in engineering, construction, environmental policy, even medicine or law. The possibilities are endless! The creativity and innovative thinking developed in engineering enables students to lead rewarding lives, work with inspiring people, and give back to their communities. Computer science is a profession that is closely affiliated with engineering. At the University of Wyoming, degrees in computer science are awarded through the College of Engineering and Applied Science. The technology trends in this industry are also advancing at a tremendous rate. This requires that computer science education be at the forefront of new computing technologies, software languages, and networking.

Mission

The University of Wyoming's College of Engineering and Applied Science will provide excellent education, research, and service in chosen fields of engineering and applied science. The College emphasizes connectivity with society, life-long learning, and the essential problem-solving and collaborative skills needed to address the frontier challenges facing Wyoming, the nation and the world.

Design Experiences

In direct support of the goals of the individual departments within the College of Engineering and Applied Science, the design process is consistently developed and integrated throughout the curriculum from the freshman year through the senior year. Within the engineering science program, design elements such as basic analysis skills, communication skills, experimental skills, computational skills, problem solving skills, and design methodology are taught. At the departmental level, these skills are developed further and the concepts of design methodology are reinforced. The design process culminates in a comprehensive design experience within the student's major.

Accreditation

The following undergraduate programs are accredited by the Engineering Accreditation Commission of ABET: architectural engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, energy systems engineering, mechanical engineering, and petroleum engineering.

Various options within different engineering programs are accredited as part of the primary major. That is, the electrical engineering/ bioengineering option is accredited as an electrical engineering degree, and the chemical engineering/petroleum option is accredited as a chemical engineering degree.

The Bachelor of Science in Computer Science is accredited by the Computer Accreditation Commission of ABET.

Programs of Study

Undergraduate Degrees

- Bachelor of Science in Architectural Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science (Computers and Business Option)
- Bachelor of Science in Computer Science (Big Data Option)
- Bachelor of Science in Construction Management
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Electrical Engineering (Francis M. Long bioengineering option)
- Bachelor of Science in Energy Systems Engineering
- Bachelor of Science in Mechanical Engineering
- Bachelor of Science in Petroleum Engineering

Graduate Degrees

Master of Science

- Architectural engineering
- Atmospheric science
- Chemical engineering
- Civil engineering
- Civil engineering/water resources
- Computer science
- Computer science professional
- Electrical engineering
- Environmental engineering
- Mechanical engineering
- Petroleum engineering

Doctor of Philosophy

- Atmospheric science
- Chemical engineering
- Civil engineering

Computer science
Electrical engineering
Mechanical engineering
Petroleum engineering

Candidates for the various master's degrees in engineering are required to do a full year's work in residence either under Plan A or Plan B.

Students should understand that a strong background in mathematics is necessary to actively pursue an engineering curriculum. Credit toward an engineering degree is not allowed for algebra and trigonometry.

Coursework in all four-year curricula stresses the mastery of subjects fundamental to all fields of engineering. The balance of the program is divided between cultural context and courses applying to the particular field selected. The aim is to provide the student with such groundwork that the general principles acquired may be used successfully in any one of the several specialized fields he or she may follow after graduation.

Depending on the major, a minimum of 120 to 132 semester hours of credit is required for the bachelor's degree from the College of Engineering and Applied Science. All course work must be selected with prior approval. Detailed outlines of curricula are presented later under headings of the various departments of the college. Since most engineering programs are similar during the first year, students may change an engineering major during this time with little or no loss in credit.

The electives in cultural context must be selected such that the student meets all university studies requirements not covered by specific courses in the detailed curriculum outlines.

Degree candidates must meet the academic requirements of the university and must have a grade point average of 2.000 (C) or above in all engineering courses attempted at this university.

Students may not take a course for S/U credit to satisfy any requirement for a degree from the College of Engineering and Applied Science, unless the course is offered for S/U credit only.

The College of Engineering and Applied Science adheres to prerequisite coursework being completed before moving forward to advanced coursework. If a student is found to be enrolled in a course without meeting the prerequisites, the student will be administratively dropped from the course.

All undergraduate engineering programs within the College of Engineering and Applied Science use the Fundamentals of Engineering Exam as one of their methods of outcomes assessment. As a graduation requirement, students must complete the exam, with a good faith effort, within one year prior to their expected graduation.

Preparation for the profession of engineering requires diligent work in the various curricula. The required credit hours can be completed in a four-year program, but because of the rigorous nature of some of the courses involved, some students may require additional time to complete degree requirements.

All engineering curricula are subject to minor program changes. The published curricula are general guides. Prospective students should consult the individual departments for current information.

International Engineering Minor

Students in the College of Engineering and Applied Science may earn a Minor in International Engineering. The Minor requires:

- a) a study abroad experience;
- b) 9 credits of lower-division coursework; and
- c) 9 credits of upper-division coursework.

More detailed requirements are available at: <http://www.uwyo.edu/ceas/academics/intleng.html>

Graduate Study

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following master's degrees: master of science in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, environmental engineering, mechanical engineering, and petroleum engineering. Candidates for the various master's degrees in engineering are required to do a full year's study in residence either under Plan A or Plan B.

Only graduates with satisfactory GPAs in programs accredited by ABET are granted full admission to graduate study. In addition, graduates with satisfactory GPAs in undergraduate disciplines of meteorology, physics, mathematics, or related fields can be granted full admission to graduate studies in atmospheric science. Other engineering graduates can be admitted on a provisional basis.

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following doctoral degrees: doctorate in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, mechanical engineering, and petroleum engineering. Interdisciplinary programs of study and research leading to one of the above disciplinary degrees can be developed.

Engineering Science

FAX: (307) 766-4444

Engineering Science offerings present the fundamental engineering concepts upon which most engineering analysis and design work is based. Faculty are drawn from all of the academic departments in the college. These core courses represent the majority of engineering offerings at the freshman and sophomore level.

Courses in engineering science have their roots in mathematics and physical science, extending knowledge toward creative application. Thus, students must take their courses in calculus, chemistry, physics, and engineering science in a timely manner. Details are given in the published curriculum for each program. **A grade of C or better must be earned in all courses that are prerequisite to any required engineering science course.**

Department Head: Bart Geerts

Professors:

BART GEERTS, Licenciaat Physical Geography Katholieke University, Belgium 1984; Engineer in Irrigation Sciences 1986; Ph.D. University of Washington 1992; Professor of Atmospheric Science 2011, 1999.

JEFFERSON R. SNIDER, B.S. University of Oregon 1979; M.S. University of Arizona 1982; Ph.D. University of Wyoming 1989; Professor of Atmospheric Science 2004, 1990.

Associate Professor:

JEFFREY R. FRENCH, B.S. South Dakota School of Mines 1992; M.S. 1994; Ph.D. University of Wyoming 1998; Associate Professor of Atmospheric Science 2021, 2015.

ZACHARY J. LEBO, B.S. Pennsylvania State University 2007; M.S. 2009; Ph.D. California Institute of Technology 2012; Associate Professor of Atmospheric Science 2021, 2015.

SHANE MURPHY, B.S. University of Colorado 2000; Ph.D. California Institute of Technology 2009; Associate Professor of Atmospheric Science 2019, 2011.

Assistant Professors:

DANA CAULTON, B.S. Indiana University 2010; Ph.D. Purdue University 2014; Assistant Professor of Atmospheric Science 2018.

DANIEL T. MCCOY, B.S., New Mexico Institute of Mining and Technology, 2010; Ph.D., Atmospheric Science, University of Washington, 2016. Assistant Professor of Atmospheric Science 2020.

Adjunct Professors:

Xiaohong Liu
Zhien Wang

Professors Emeritus:

Terry L. Deshler, Robert D. Kelly, John D. Marwitz, Derek C. Montague, Thomas R. Parish, Alfred R. Rodi, Gabor Vali

Atmospheric Science is a rapidly developing discipline in which meteorology, physics, chemistry, biology, engineering, mathematics and computer science are all being applied in an effort to better understand the earth's atmosphere. The entire development of atmospheric science demonstrates how progress can result from the application of knowledge developed in the basic sciences to a complex environmental system. Concurrently, atmospheric scientists develop many observational and analytical techniques unique to the study of the atmosphere. Over the past decades, atmospheric science developed vigorously, stimulated by the availability of the latest satellite, ground-based and aircraft observations, as well as the availability of large computers for numerical simulations of atmospheric processes. At the same time, the importance of the atmosphere as a crucial resource in the welfare and survival of humankind is being recognized, as knowledge about how the atmosphere behaves is obtained.

The Department of Atmospheric Science offers graduate programs leading to the M.S. and Ph.D. degrees.

In these graduate programs, great emphasis is placed on the active research involvement of students both during the academic year and during the summer months. The low student to faculty ratio in the department ensures an atmosphere of vital cooperation among students, faculty and staff. Student theses form integral parts of the department's research productivity and almost always lead to publishable results.

Research interests in the department center around cloud and precipitation physics, cloud and mesoscale atmospheric dynamics, boundary layer processes, tropospheric and stratospheric aerosols and chemistry, ozone depletion, wind energy, global change, instrumentation and air quality. These interests are also reflected in the department's academic program, which has the breadth and depth necessary to give students a background for entering into many different types of employment upon graduation.

A number of unique research tools are available in the department. Prominent among these is the King Air research aircraft which carries extensive instrumentation and computer-directed data acquisition systems. The tropospheric and stratospheric balloon launch facility is used to sample aerosols, volcanic plumes, clouds and ozone in Laramie, and in both the north and south polar regions. Excellent laboratory facilities are available in the department's spacious quarters. These laboratories focus on aerosol and ice nucleation research, on atmospheric optics, remote sensing, and atmospheric chemistry. Well-equipped electronic and mechanical construction and design facilities are conducive for work in instrumentation development. A wide range of computer facilities are available, providing excellent support both in hardware and software for research activities and for learning. The Department of Atmospheric Science is the lead user of the Wyoming allocation of the NCAR Wyoming Supercomputer Center.

A prerequisite for admission to the graduate program is a bachelor's degree in meteorology, engineering, physics, chemistry, mathematics or a similar relevant discipline. Graduate assistantships are available by application to the department and are awarded on the basis of past record and promise for achievement.

For material containing further details on curriculum and research programs, write to the graduate admissions coordinator or visit the web site at www.uwyo.edu/atsc/.

Graduate Study

The Department of Atmospheric Science offers degree programs leading to the master of science and doctor of philosophy degrees. The department has strong research programs in the following areas: cloud physics and dynamics; tropospheric aerosols and clouds; greenhouse gases; air pollution and wildfires; boundary layer processes; remote sensing; and airborne instrumentation. The department's observational facilities are: 1) the King Air research aircraft (UWKA); 2) the Wyoming Balloon Launch Facility; 3) the Air Quality Mobile Lab and the Wyoming Air Quality Monitoring Lab; 4) the Wyoming Cloud Radar (WCR) and Wyoming Cloud Lidar (WCL) for the study of cloud structure and composition; and 5) the Keck Aerosol Laboratory. The UWKA, WCR, and WCL are designated Lower Atmospheric Observing Facilities by the National Science Foundation (NSF). Please refer to the departmental homepage at www.atmos.uwyo.edu for programmatic updates, or contact the department directly.

Program Specific Admission Requirements

Admission based on the university minimum requirements. Admissions are competitive.

Program Specific Graduate Assistantships

Assistantships are offered for both the M.S. and Ph.D. tracks.

Program Specific Degree Requirements

Master's Program

Approval of research plan by the graduate committee Colloquium and oral defense of M.S. thesis Approval of M.S. thesis by the graduate committee Requires a minimum of 26 hours of acceptable graduate coursework and four hours of thesis research and a thesis (final written project). 21 in-residence coursework hours

Doctoral Program

Approval of research plan by the graduate committee At least one colloquium presentation per year Preliminary exam Oral defense of Ph.D. dissertation Approval of Ph.D. dissertation by the graduate committee Ph.D. requires a minimum of 72 graduate hours, with at least 42 hours in formal coursework. This includes appropriate coursework from a master's degree. Additional credits toward the 72 credit hour requirement may include dissertation research hours, internship hours, or additional coursework. 24 in-residence coursework hours

Required Courses

These courses are required for the master's program.

ATSC 5010: Physical Meteorology. 4.

ATSC 5011: Physical Meteorology II. 4.

ATSC 5014: Dynamic Meteorology. 4.

ATSC 5016: Synoptic Meteorology. 4.

ATSC 5018: Ethics & Research Methods. 1.

UW Elective(s) to be determined by committee. 9 minimum

Chang Yul Cha
H. Gordon Harris
Henry W. Haynes

Chemical Engineering is one of the most versatile of the engineering programs. It prepares students for employment in many diverse fields, such as production of pharmaceuticals, polymers and plastics, semiconductors, heavy industrial chemicals, synthetic fuels, petrochemicals and petroleum refining. Chemical engineers also work in biological engineering, environmental engineering, enhanced oil recovery, corrosion control, metallurgy and microelectronics. Undergraduate chemical engineering training has been found to be an excellent background for graduate work not only in engineering, but also in a number of other fields, including medicine, law, business, and the natural sciences.

The chemical engineering curriculum is based on a sound background in chemistry, mathematics, physics, and biology. The essentials of engineering are added to this foundation, including fluid dynamics and thermodynamics. In order to develop the individual's social consciousness and to broaden the student's educational background, an integrated program of study in the humanities and social sciences is included in the curriculum. Chemical engineering courses in multicomponent thermodynamics, transport phenomena, kinetics, process control and process design are concentrated in the junior and senior years. This program provides training for engineers to enter production, research, product and process development, process design, technical sales and engineering management positions. Training in chemical engineering equips the graduate to solve many of the problems facing society today: human health, energy shortages, synthetic fuels production, water and air pollution, toxic chemical control, and food production. Furthermore, our program prepares students interested in a career in medicine or the life sciences and is suitable for pre-medical and pre-dental students.

The department offers an 18-credit-hour block of approved technical electives. Students select an emphasis in Biological Engineering, Environmental Engineering, Materials Science and Engineering, Chemical Process Industry, Petroleum Engineering, Graduate School Preparation, and Pre-Medicine. Students can also pursue a concurrent major in Chemistry, minors in Physics, Chemistry, Math, Computer Science, Molecular Biology and Business. See department for details. Students are required to take a minimum of 3 credits of Chemical Engineering Technical electives. The Chemical Engineering Program requires that the number of credits of upper division courses be satisfied (i.e., 10 credits of Technical electives must be 3000+). The Chemical Engineering program requires 48 hours of 3000 and 4000-level coursework. This is fulfilled by required courses and approved technical electives.

Chemical Engineering degree candidates must meet the academic requirements of the college and, in addition, must have a GPA of 2.000 in Chemical Engineering courses attempted at UW that are applied toward graduation for the B.S. degree from the department.

Students must achieve a C- or better in all chemical engineering courses serving as a prerequisite for another chemical engineering course.

Chemical Engineering Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Chemical Engineering should:

- Successfully practice the profession of Chemical Engineering;
- Demonstrate successful career growth

Chemical Engineering Program Outcomes

During the course of study in Chemical Engineering, the student should demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- an ability to communicate effectively with a range of audiences;
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate Study

The Department of Chemical Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in chemical engineering. The M.S. degree is offered under Plan A and Plan B. In addition, an environmental engineering program, run jointly by the Department of Chemical Engineering, the Department of Petroleum Engineering, and the Department of Civil and Architectural Engineering, offers graduate programs leading to an M.S. in environmental engineering under either Plan A or Plan B.

Program Specific Admission Requirements

Admission Process and Requirements

Standard Admission

Admission is open to students with at least a bachelor's degree who meet the minimum requirements:

1. A GPA of 3.000 (A = 4.000), or equivalent;
2. A GRE score (there is no minimum GRE score requirement)
3. For international applicants who did not attend an English-speaking program in an English-speaking country for all years of their highest degree:

A TOEFL score of 600 (paper-based), 250 (computer-based), or 80 (Internet based) or an IELTS score of 6.5.

Unofficial transcripts of all prior college-level coursework, test scores and recommendations from three references must be uploaded as parts of the application.

If admission is granted, then official transcripts, GRE and TOEFL scores are required.

Applications submitted by February 1 will be given priority consideration for the fall semester.

The application will not be processed until all the necessary documents have been uploaded.

Patricia J.S. Colberg, Charles W. Dolan, Thomas V. Edgar, K. James Fornstrom, Victor R. Hasfurther, Michael Humenick, Anton Munari, Larry O. Pochop, Jay Puckett, Richard J. Schmidt, James L. Smith, John P. Turner, Eugene M. Wilson

Civil Engineering

The mission of the department of Civil and Architectural Engineering and Construction Management at the University of Wyoming is:

- To educate and prepare Civil & Architectural Engineering and Construction Management students to lead as designers, builders, project managers and entrepreneurs as it relates to the sustainable built and natural environments.
- To develop technical solutions through research, innovation, and improved infrastructure to diversify and grow the economies that serve Wyoming and the world.

The Civil Engineering curriculum begins with a basic education in the physical, engineering, mathematical and computer sciences. This foundation supports further development of engineering topics that prepare the engineer to address critical societal needs. To meet these needs, the Civil Engineer designs and builds bridges, buildings, dams and hydraulic structures, pipelines and canals, power plants, transportation facilities, sanitary and environmental engineering facilities, surveying and mapping systems, space and ocean platforms, as well as numerous other engineering systems. The civil engineer must also be aware of the social, humanistic, and political aspects of their projects. Therefore, course work in the humanities and social sciences is required to better understand the social aspects of public works. During the last two years of their program, students may pursue several areas of Civil Engineering or, depending upon their interests, more specialized courses in one or more of the specific technical areas listed below. All students must have a comprehensive design experience.

Structural engineering: Analysis and design of structural systems including buildings, bridges, towers and other structures. Structural engineering also includes the study of solid mechanics and advanced structural materials.

Environmental engineering: Analysis, design and development of engineering systems to provide potable water supplies, treat municipal, industrial and hazardous wastes and protect human health and the environment.

Water resource engineering: Planning, analysis and design of hydraulic and hydrologic systems with respect to watersheds, municipalities, irrigation and drainage, and flood control. Conservation and management of groundwater and surface water are emphasized.

Transportation engineering: Planning, analysis and design of highways, traffic engineering and control, traffic safety, and pavement maintenance, design and rehabilitation.

Geotechnical engineering: Design and analysis of foundations, dams, embankments, slope stability and construction practices in soil and rock.

The Civil Engineering curriculum prepares the graduate to engage in professional practice, and upon completion of post-graduate requirements, to obtain registration as a Professional Engineer. It also provides the graduate with an excellent preparation for graduate studies in engineering, business or law.

Civil Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in courses required for the major. Students must complete a minimum of 42 upper division (junior/senior) or

graduate-level semester credit hours. Students may have a maximum of 6 credits in courses with a grade of D in upper division CE courses that apply towards their degree program.

Computer Requirement

Many courses in Civil Engineering require students to have a laptop or tablet computer to bring to class, and to be able to download various software program (normally free). See www.uwyo.edu/civil/undergrad/laptop.html for more information.

CE Objectives

Three to six years after graduation, graduates of the University of Wyoming Civil Engineering Program will:

CE-OB1. Be able to successfully practice the profession of Civil Engineering.

CE-OB2. Be prepared and motivated to accept challenging assignments and responsibilities.

CE-OB3. Demonstrate successful professional growth through leadership development and career progression.

CE Outcomes

The Civil Engineering department regularly evaluates the following student skills.

Specifically, every University of Wyoming Civil Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Transfer Coursework: The Civil Engineering program accepts transfer course equivalents listed in the Wyoming Transfer Catalog. Other transfer courses will be considered by petition to the Department. The Department has a Policy on Transfer Courses for Continuing Students, which says continuing students should not plan to substitute "core" courses with transfer credits from other institutions, and that transfer credits for continuing students are evaluated on a case-by case basis. For upper-division coursework, no more than two upper division courses may be transferred and applied to the CE degree. CE 4010 and CE 4900 cannot be transferred to UW.

Advanced Civil and Architectural Engineering Standing

All undergraduate students in Civil and Architectural Engineering must fulfill the Gateway Requirement prior to enrolling in any upper-division (3000-5000 level) courses taught in the College of Engineering and Applied Science.

To meet the Civil and Architectural Engineering Gateway Requirement, the student must earn a minimum of 57 Quality Points from any combination of the following seven classes or their equivalent. It is not necessary to complete all seven courses to fulfill the Gateway Requirement.

Gateway Courses

- CHEM1020 - General Chemistry I
- PHYS1210 - Engineering Physics I
OR
- PHYS1220 - Engineering Physics II
- MATH2200 - Calculus I
- MATH2205 - Calculus II
- ES2110 - Statics
- ES2120 - Dynamics
- ES 2410 Mechanics of Material I

See the advising pages on the Civil and Architectural Engineering website for more information.

Graduate Study

Graduate Programs

An advanced degree in civil and architectural engineering is professionally and economically attractive. Advanced degrees are important for professional civil engineers in many specialized areas of civil engineering. Many consulting firms and industrial design groups require advanced knowledge gained from graduate studies. Engineers in such firms often work at the forefront of their profession. UW alumni are involved in design and construction of major projects worldwide.

An advanced degree is also required for careers in university teaching and research. A university career is highly recommended for those motivated students who are interested in becoming leaders in education and in the development of new concepts, processes and inventions.

The Department of Civil and Architectural Engineering offers programs leading to the degrees of master of science and doctor of philosophy. Areas of study in the M.S. and Ph.D. programs include: environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. The department also offers a master of science in architectural engineering and a master of science in environmental engineering in cooperation with the Department of Chemical and Petroleum Engineering. Additional information is available from the department or from the Web page.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree with at least a 3.000 GPA from an accredited engineering curriculum and a GRE combined minimum score of 298.

Ph.D. applicants are reviewed with regard to stated interests, objectives and the ability of the department to provide a quality experience for the applicant.

International students must achieve a TOEFL score of 550 on the paper-based, a minimum of 76 on the internet-based or a minimum of 6.0 on the IELTS.

Architectural Engineering

Architectural Engineering is a rapidly expanding profession that deals with the myriad aspects of buildings and their design, construction and operation. Architectural Engineers are typically specialists, responsible for the design and integration of such building elements as the structural, plumbing, fire protection, heating and air conditioning, or lighting and electrical systems. The curriculum in architectural engineering is designed to acquaint students with the various aspects of building design and construction and exposes them to a variety of courses dealing with different building materials and systems. The curriculum also includes course work in the humanities and social sciences, both to enrich the student's academic experience and assist in dealing

with and contributing to society. The program leads to a Bachelor of Science in Architectural Engineering, preparing graduates to engage in practice as Professional Engineers upon completion of post-graduate registration requirements. Graduate work with emphasis in Architectural Engineering leading to a Master of Science and Doctor of Philosophy degree is offered through the Civil and Mechanical Engineering Programs. Additionally, advanced study can also be pursued in allied areas such as architecture, business or other engineering fields.

Students choose an area of emphasis in either structural or mechanical systems and select courses from approved electives, usually beginning their elective sequence in the second semester of their junior year. Consult with the Civil and Architectural Engineering Department for current elective lists.

Architectural Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in courses required for the major. Students must complete a minimum of 42 upper division (junior/senior) or graduate-level semester credit hours.

Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree program.

Computer Requirement

Many courses in Architectural Engineering require students to have a laptop or tablet computer to bring to class, and to be able to download various software programs (normally free). See www.uwyo.edu/civil/undergrad/laptop.html for more information.

Architectural Engineering Objectives

Three to six years after graduation, graduates of the University of Wyoming Civil Engineering Program will:

ARE-OB1 Be able to successfully practice the profession of Architectural Engineering.

ARE-OB2 Be prepared and motivated to accept challenging assignments and responsibilities.

ARE-OB3 Demonstrate successful professional growth through leadership development and career progression.

ARE Outcomes

The Architectural Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Architectural Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Transfer Coursework: The Architectural Engineering program accepts transfer course equivalents listed in the Wyoming Transfer Catalog. Other transfer courses will be considered by petition to the Department. The Department has a Policy on Transfer Courses for Continuing Students, which says continuing students should not plan to substitute "core" courses with transfer credits from other institutions, and that transfer credits for continuing students are evaluated on a case-by case basis. For upper-division coursework, no more than two upper division courses may be transferred and applied to the ARE degree. ARE 4720 and ARE 4740 cannot be transferred to UW.

Advanced Civil and Architectural Engineering Standing

All undergraduate students in Civil and Architectural Engineering must fulfill the Gateway Requirement prior to enrolling in any upper-division (3000-5000 level) courses taught in the College of Engineering and Applied Science.

To meet the Civil and Architectural Engineering Gateway Requirement, the student must earn a minimum of 57 Quality Points from any combination of the following seven classes or their equivalent. It is not necessary to complete all seven courses to fulfill the Gateway Requirement.

Gateway Courses

- CHEM1020 - General Chemistry I
- PHYS1210 - Engineering Physics I
OR
- PHYS1220 - Engineering Physics II
- MATH2200 - Calculus I
- MATH2205 - Calculus II
- ES2110 - Statics
- ES2120 - Dynamics
- ES 2410 Mechanics of Material I

See the advising pages on the Civil and Architectural Engineering website for more information

Graduate Study

Graduate Programs

An advanced degree in architectural engineering is professionally and economically attractive. Advanced degrees are important for professional civil engineers in many specialized areas of civil engineering. Many consulting firms and industrial design groups require advanced knowledge gained from graduate studies. Engineers in such firms often work at the forefront of their profession. UW alumni are involved in design and construction of major projects worldwide.

An advanced degree is also required for careers in university teaching and research. A university career is highly recommended for those motivated students who are interested in becoming leaders in education and in the development of new concepts, processes and inventions.

The Department of Civil and Architectural Engineering offers programs leading to the degrees of master of science and Areas of study in the M.S. programs include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, and building energy modeling. Additional information is available from the department or from the Web page.

Students choose an area of emphasis in either, building, structural or mechanical systems and select courses from approved electives, usually beginning their elective sequence in the second semester of their junior year. Consult with the Civil and Architectural Engineering Department for current elective lists. Students are required to have a lap top computer.

Architectural engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in civil and architectural engineering courses attempted at this university.

Construction Management

Construction Management is a rapidly-growing discipline, that is focused on the planning and oversight required to deliver construction projects on-time and on-budget. Students learn skills such as project management, decision making, budgeting, scheduling, and site logistics including safety planning, surveying, and building information modeling.

The Construction Management curriculum is designed to prepare students for success in a wide variety of career paths available in the construction sector. The curriculum includes course work in construction, business, humanities and social sciences to enrich the student's academic experience and to assist them in making a positive contribution to society. The program leads to a four-year Bachelor of Science in Construction Management degree.

Construction Management degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 in courses required for the major.

A grade of C or better is required in all required courses with a CM prefix.

Construction Management Learning Objectives

Upon graduation students shall be able to:

1. Create written communications appropriate to the construction discipline.
2. Create oral presentations appropriate to the construction discipline.
3. Create a construction project safety plan.
4. Create construction project cost estimates.
5. Create construction project schedules.
6. Analyze professional decisions based on ethical principles.
7. Analyze construction documents for planning and management of construction processes.
8. Analyze methods, materials, and equipment used to construct projects.
9. Apply electronic-based technology to manage the construction process.
10. Apply basic surveying techniques for construction layout and control.
11. Understand construction management skills as a member of a multi-disciplinary team.
12. Understand different methods for project delivery and the roles and responsibilities of all constituencies involved in the design and construction process.
13. Understand construction risk management.
14. Understand construction accounting and cost control.
15. Understand construction quality assurance and control.
16. Understand construction project control processes.
17. Understand the legal implications of contract, common, and regulatory law to manage a construction project.
18. Understand the basic principles of sustainable construction.
19. Understand the basic principles of structural behavior.
20. Understand the basic principles of mechanical, electrical and piping system.

Department of Computer Science

4083 Engineering Building, (307) 766-5190

FAX: (307) 766-4036

Web site: www.cs.uwyo.edu

Department Head: Ruben Gamboa

Professors:

JAMES L. CALDWELL, B.S. State University of New York at Albany 1984; M.S. 1988; M.S. Cornell University 1995; Ph.D. 1998; Professor of Computer Science 2015, 1998.

RUBEN GAMBOA, B.S. Angelo State University 1984; M.C.S. Texas A&M University 1986; Ph.D. The University of Texas 1999; Professor of Computer Science 2015, 2002.

JOHN M. HITCHCOCK, B.S. Iowa State University 1999; M.S. 2001; Ph.D. 2003; Professor of Computer Science 2015, 2003.

Associate Professor:

AMY BANIC, B.S. Duquesne University 2003; M.S. University of North Carolina 2005; Ph.D. 2008; Assistant Professor of Computer Science 2012, 2010.

Assistant Professors:

MIKE BOROWCZAK, B.S. University of Cincinnati 2007; Ph.D. 2013; Assistant Professor of Computer Science 2018.

DIKSHA SHUKLA, B.S. Kanpur University 2008; M.C.A. Jawaharlal Nehru University 2011; M.S. Louisiana Tech University 2014; Ph.D. Syracuse University 2019; Assistant Professor of Computer Science 2019.

LARS KOTTHOFF, Diplom (M.Sc.) University of Leipzig 2007; Ph.D. University of St. Andrews 2012; Assistant Professor of Computer Science 2017.

PHILIP SCHLUMP, B.S. Computer Science, University of Wyoming 1990; M.S. Computer Science, University of Wyoming 1991; Professor of Practice since 2019, University of Wyoming.

Senior Lecturer:

ALLYSON A. ANDERSON, B.S. University of Wyoming 1991; M.S. 1994; Senior Lecturer of Computer Science 2008, 1994.

JAMES S. WARD, B.S. University of Wyoming 1993; M.S. 1997; Senior Lecturer of Computer Science 2011, 2000.

Associate Lecturer:

KIM BUCKNER, B.S. Chapman University 1993; M.S. University of Tennessee, Knoxville 1998; Ph.D. 2003; Associate Lecturer of Computer Science 2014, 2008.

Professor Emeritus:

Thomas A. Bailey, Jr., Henry R. Bauer III, John R. Cowles, John Rowland

Lecturer Emeritus:

Jeri R. Hanly

A Bachelor of Science degree (B.S.) in Computer Science prepares students for careers in virtually any industry or to continue on with graduate study in Computer Science and many other fields. Computer science students learn to approach problems from a computational (algorithmic) point of view, and this approach to problem solving often leads to better and more general solutions. Software systems, information technology, and large scale data applications are core technologies in every area and the applications continue to grow with software and information systems becoming more and more embedded in the fabric of everyday life. These systems are essential tools in science and engineering, for business and finance, government, communications, medicine, and entertainment. Software systems make the world go round and smart devices, such as phones, tablets, glasses, wearable devices, medical implants are ubiquitous. As a result, computer science has grown from a specialized field to an independent, broadly based area that studies all aspects of the use and understanding of software systems, information, and computational processes. Students studying B.S. in Computer Science at the University of Wyoming have the option to focus their studies by taking a concentration in Business, Big Data, or the Cybersecurity certificate. The Cybersecurity certificate captures core technical cyber security foundations and principles, from databases and networks to advanced threat detection and mitigation. All of the Computer Science concentrations lead to a Bachelor of Science in Computer Science and all programs are ABET accredited.

Program Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Program Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Computer Science Undergraduate Major

This major consists of a core set of required and elective courses as seen below. Students may also pursue one of a number of concentrations, which may further constrain the elective courses: Computers and Business, or Big Data. In addition to these courses, Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours. See the front sections of this catalog for specifics on the USP and university graduation requirements. Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements. All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better. A grade of C- is not acceptable.

Computer Science Core

These courses, along with the USP requirements, provide a basic set of skills that all Computer Science majors should master. The courses in this program concentrate on the creation and understanding of computer software. The curriculum focuses first on programming and then on the central processes that support programming: operating systems, programming languages, and computational theory.

Computer Science Core (required for all concentrations)

Computer Science courses

COSC 1010 Introduction to Computer Science I - 4 credits

COSC 1030 Computer Science I - 4 credits

COSC 2030 Computer Science II - 4 credits

COSC 2150 Computer Organization - 3 credits

COSC 3011 Introduction to Software Design - 3 credits

COSC 3015 Functional Programming - 3 credits

COSC 3020 Algorithms and Data Structures - 4 credits

COSC 3050 Ethics for the Computer Professional - 1 credits

COSC 4950 Senior Design I - 1 credits

COSC 4955 Senior Design II - 2 credits

Operating Systems Course - Choose one of:

COSC 3750 Linux Programming for System Applications - 3 credits (see NOTE below)

or

COSC 4740 Operating Systems Design - 4 credits

NOTE: If COSC 3750 is taken for the Operating Systems Course, student must still meet the minimum total coursework requirement and upper division hour requirement for the degree.

Systems course - Choose one of:

COSC 4760 Computer Networks - 3 credits

or

COSC 4820 Database Systems - 3 credits

Program Language Course - Choose one of:

COSC 4780 Principles of Programming Languages - 3 credits

or

COSC 4785 Compiler Construction - 1 credits

Theory Course - Choose one of:

COSC 4100 Foundations of Computing - 3 credits

or

COSC 4200 Computability and Complexity - 3 credits

Mathematics and Science courses:

MATH 2200 Calculus I - 4 credits

MATH 2205 Calculus II - 4 credits

MATH 2250 Elementary Linear Algebra - 3 credits

COSC 2300 Discrete Structures - 3 credits

Statistics Course: Choose one of:

STAT 2050 Fundamentals of Statistics - 4 credits

or

STAT 2070 Introductory Statistics for the Social Sciences - 4 credits

Science Courses: must take two, 4 hour science courses outside of Computer Science.

NOTE: Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.

Math/Science electives - 4 credits.

Elective or electives needed to meet ABET minimum Math/ Science requirement of 30 credit hours.

Math/Stat electives means any MATH courses above Calculus II or STAT courses 3000 and up. Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 or any variable credit courses toward this requirement.

Graduate Study

The Department of Computer Science offers graduate work leading to the Master of Science degree in computer science and the Doctor of Philosophy in computer science. The Department also offers a graduate minor in computer science.

Program Specific Admission Requirement

Applicants for a graduate degree in computer science are expected to have completed undergraduate courses in Algorithms and Data Structures (COSC 3020 equivalent), Theory of Computing (COSC 4100 or COSC 4200 equivalent), Operating Systems (COSC 4740 equivalent), and Programming languages or Compilers (COSC 4780 or COSC 4785 equivalent). Applicants to the doctoral program must have completed a bachelor's degree in computer science or a closely related discipline at an accredited university or college.

The Graduate Record Examination (GRE) is required of all applicants. GRE scores are required with minimums of 40th percentile for the verbal score and 65th percentile for the quantitative score. Our strongest students tend to have scores substantially above these minimums, with quantitative scores often around the 90th percentile or higher.

Students whose native language is not English must also complete the Test of English as a Foreign Language (TOEFL) with a score of at least 550 on the paper based TOEFL; 213 on the computerized test including a 58 or better in section 1-Reading; 80 for the Internet based TOEFL (iBT) including a score of 23 or better in section 1-Reading or the International English Language Testing System (IELTS) test with a 6.5 score or better.

You must submit to the online application system contact information for three references that can evaluate your potential for graduate study in computer science. If you wish to pursue a Ph.D., the letters should address your ability to pursue quality original research. Letters should also evaluate your oral and written communication skills.

If you meet the minimum criteria and would like to formally apply for admission you will also need to submit the following information during the completion of your application via the application portal:

Copies of transcripts from all colleges and universities (minimum GPA or equivalent 3.000 on a scale of 4.000) for all degrees attained. International applicants must submit copies of individual semester transcripts, consolidated transcripts will not be accepted.

Copy of GRE scores a minimum percentile of 40% on verbal and 65% on quantitative portions of the exam. The majority of admitted students tend to have scores substantially above these minimums.

Contact information for three recommendation letters (applicants should follow-up with recommenders to ensure this requirement is fulfilled; applications will not be processed further until all recommendations have been received).

International students will also need to submit a copy of TOEFL scores, or IELTS scores.

High performing undergraduates in computer science can elect for Quick Start admission to the graduate program, allowing the sharing of up to six credit hours of 5000-level coursework toward the completion of both the B.S. and the graduate degree programs.

Department of Electrical and Computer Engineering

5068 Engineering Building, (307) 766-2279

FAX: (307) 766-2248

Department Head: John McInroy

Professors:

STEVEN F. BARRETT, B.S. University of Nebraska 1979; M.E. University of Idaho 1986; Ph.D. University of Texas 1993; Professor of Electrical Engineering 2011, 1999.

JOHN E. McINROY, B.S. University of Wyoming 1986; M.S. Rensselaer Polytechnic Institute 1988; Ph.D. 1991; Professor of Electrical Engineering 2002, 1991.

SURESH S. MUKNAHALLIPATNA, B.E. University of Bangalore, India 1988; M.E. 1991; Ph.D. University of Wyoming 1995; Professor of Electrical Engineering 2010, 1997.

JOHN W. PIERRE, B.S. Montana State University 1986; M.S. University of Minnesota 1989; Ph.D. 1991; Professor of Electrical Engineering 2002, 1991.

CAMERON H.G. WRIGHT, B.S. Louisiana Tech University 1983; M.S. Purdue University 1988; Ph.D. University of Texas 1996; Professor of Electrical Engineering 2016, 2003.

Associate Professors:

DONGLIANG DUAN, B.E. Huazhong University of Science and Technology 2006; M.S. University of Florida 2009; Ph.D. Colorado State University 2012; Associate Professor of Electrical Engineering 2019, 2012.

EVA S. FERRE-PIKAL, B.S. University of Puerto Rico 1988; M.S. University of Michigan 1989; Ph.D. University of Colorado 1996; Associate Professor of Electrical Engineering 2004, 1998.

JOHN F. O'BRIEN, B.S. California State Polytechnic University, Pomona 1991; M.S. University of Wyoming 1997; Ph.D. Rensselaer Polytechnic Institute 2001; Associate Professor of Electrical Engineering 2009, 2003.

JON M. PIKAL, B.S. Purdue University 1988; M.S. University of Colorado 1993; Ph.D. Colorado State University 1999; Associate Professor of Electrical Engineering 2005, 1999.

Assistant Professors:

CHAO JIANG, B.E. Chongqing University 2009; Ph.D. Stevens Institute of Technology 2019; Assistant Professor of Electrical and Computer Engineering 2019.

NGA NGUYEN, B.S. Hanoi University of Science and Technology 2005; M.S. 2007; Ph.D. Michigan State University 2017; Assistant Professor of Electrical and Computer Engineering 2018.

DOMEN NOVAK, M.SC. University of Ljubljana 2008; Ph.D. 2011; Assistant Professor of Electrical Engineering 2014.

Academic Professional:

JEFFREY R. ANDERSON, B.S.E.E. University of Utah 1989; M.S.E.E 1992; Ph.D. University of Wyoming 2004; Associate Academic Professional Lecturer in Electrical and Computer Engineering 2012.

Adjunct Faculty:

Farhad Jafari, Elena Oggero, Guido Pagnacco

Professors Emeriti:

Mark Balas, Christos T. Constantinides, Jerry J. Cupal, Clifford D. Ferris, Jerry Hamann, Raymond G. Jacquot, Robert F. Kubichek, Stanislaw Legowski, John W. Steadman, A.H.M. Sadrul Ula, David Whitman

Electrical Engineering

The program of study outlined in the curriculum has been planned to provide the depth of understanding necessary to meet challenges of changing technology while being flexible enough to allow students to pursue in-depth study in at least one area of electrical engineering. In order to attain this, students are required to gain an understanding of mathematics and the basic engineering sciences. The fundamental electrical engineering education consists of courses in circuits, networks,

electromagnetics, electronics, digital systems, communications, controls and energy conversion. Selection of elective courses, in consultation with the academic adviser, enables students to specialize in the above mentioned areas, as well as in robotics, microcircuits, microprocessors and high frequency electronics.

Laboratory work associated with electrical engineering courses is an important part of the curricula. This work helps students gain experience in applying the theoretical knowledge they acquire to practical engineering problems. Engineering design is an important component of the curriculum that concludes with a significant design experience in the senior year. Additional programs are described below.

F.M. Long Bioengineering Option. Named in honor of UW Professor Francis M. Long, this area offers excellent opportunities for those interested in applying the techniques of the electronic engineer to problems of environmental science, biology and medicine. Employment opportunities exist in state and federal agencies, industry and medical institutions. Career placement includes such areas as environmental monitoring, design and development of biological and medical instrumentation and clinical engineering. With minor modifications, the curriculum shown may be used as preparation for entrance to medical or dental school.

Computer Engineering

Computer Engineering is a blend of Computer Science and Electrical Engineering. In fact, a Computer Engineering student can change majors to Computer Science within the first three semesters without losing any credits. More careful planning is required to switch from Computer Science to Computer Engineering. Computer Engineering students receive training that allows them to design complex computer systems and embed them in custom applications such as robots, spacecraft, automobiles, etc. A typical system may interface with a sensor to measure the world, then decide how to best use the information to achieve goals and eventually turn on actuators which perform the needed task. They also develop computer vision systems, high performance computers and software, and the internet of things. They take many of the same required courses as Electrical Engineers, but fill in their electives with computer specific courses. Graduates have the ability to design electric circuits, understand network hardware, design computer systems, and write the software inside those systems. Compared to Electrical Engineers, Computer Engineers have less breadth of knowledge in Electrical Engineering but more depth in software and computer hardware. Compared to Computer Scientists, Computer Engineers know much more about hardware and signal/system theory. Computer Engineers sometimes also major in either Electrical Engineering or Computer Science to get two degrees.

Graduate Program

The department offers programs of study leading to the Master of Science and Doctor of Philosophy degrees in electrical engineering. Study programs are individually planned to students' interests in both course work and research.

Grade Policy

Electrical and computer engineering majors must achieve a grade of C (2.000) or better on courses that are prerequisites for courses within the student's course of study. Students must also achieve a grade of C (2.000) or better in all required mathematics courses.

Concurrent Major and Minor

The department offers a concurrent major and minor in both the electrical engineering and computer engineering programs. Consult the department office for a current detailed list of requirements.

Program Educational Objectives for Electrical and Computer Engineering

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

University of Wyoming, Electrical and Computer Engineering Program, Student Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate Study

The department offers programs of study leading to the degrees of Master of Science and Doctor of Philosophy in electrical engineering. The areas of major concentration at the graduate level are:

- Bio-Engineering
- Controls
- Electrical Energy Systems
- Electronic Systems and Devices
- Robotics
- Signal Processing and Computer Networks

The department also offers a combined B.S./M.S. program for exceptional students wishing to obtain both degrees in a shorter period of time.

Program Specific Admission Requirements

Statement of purpose

Official transcripts from all post-secondary institutions attended

GRE verbal percentile minimum of 45 percent. GRE quantitative percentile minimum of 65 percent.
TOEFL total of 79 iBT or IELTS total 6.5.

Program Specific Graduate Assistantships

Additionally, all international students who are state-funded teaching assistantships or any international student with teaching responsibilities are required to complete an Oral Proficiency Interview (OPI). Students will need to follow the recommendations to improve their English skills. Students on state-funding who fail to follow the recommendations or do not meet the minimum proficiency by the end of their first semester will not be able to receive any state-funding until they have demonstrated proficiency.

Environmental Engineering

**3074/4055 Engineering Building,
766-5255/766-2500**

E-mail: ceinfo.uwyo.edu; che-info@uwyo.edu

Web site: www.uwyo.edu/chemical/graduate/prospective/environmental/index.html

A master of science in environmental engineering is available in the College of Engineering through a joint effort of the Department of Civil and Architectural Engineering and the Department of Chemical Engineering and the Department of Petroleum Engineering in cooperation with the School of Environment and Natural Resources. This interdisciplinary degree offers students an engineering perspective for solutions to environmental problems. Emphasis is on minimization, monitoring, control, and processing of waste products as well as treatment and disposal associated with point and non-point pollution sources. Integration of engineering with science, regulatory, and policy aspects of environmental engineering is an important component of this unique program. Further information is available from the environmental engineering graduate studies program office and/or departments involved.

Program Specific Admission Requirements

Admission is open to students with at least a bachelor's degree who meet the minimum requirements:

1. A GPA of 3.000 (A=4.000), or equivalent;
2. A GRE score of 291 (combined verbal and quantitative sections);
3. For international applicants who did not attend an English-speaking program in an English-speaking country for all years of their highest degree: A TOEFL score of 76 (Internet based) or an IELTS score of 6.0.

Complete official transcripts of all prior college-level coursework and recommendations from three references must be submitted as parts of the application.

The deadline to submit application credentials is February 1 (to be considered for fall semester), and October 1 (to be considered for spring semester).

The application will not be processed until all the necessary documents have been submitted.

Department of Mechanical Engineering

2052 Engineering Building, (307) 766-2122

Web site: www.uwyo.edu/mechanical

E-mail: me.info@uwyo.edu

Department Head: Carl P. Frick

Professors:

DENNIS N. COON, B.S. Alfred University New York; M.S. 1984; Ph.D. Pennsylvania State University 1986; Professor of Mechanical Engineering 1999, 1988.

CARL P. FRICK, B.S. University of Colorado at Boulder 1999; M.S. 2003; Ph.D. 2005; Professor of Mechanical Engineering 2019, 2008; Head of Mechanical Engineering 2015.

DIMITRI J. MAVRIPLIS, B.S. McGill University 1982; M.Eng. 1982; Ph.D. Princeton University 1987; Professor of Mechanical Engineering 2003.

JONATHAN W. NAUGHTON, B.S. Cornell University 1986; Ph.D. Pennsylvania State University 1993; Professor of Mechanical Engineering 2012, 1997.

Associate Professors:

DILPUNEET S. AIDHY, B.E. Punjab Engineering College 2004; Ph.D. University of Florida 2009; Assistant Professor of Mechanical Engineering 2015.

ERICA L. BELMONT, B.S. Tufts University 2004; M.S. 2008; Ph.D. University of Texas at Austin 2014; Assistant Professor of Mechanical Engineering 2014.

RAY S. FERTIG III, B.S. University of Wyoming 2001; M.S. 2003; Ph.D. Cornell University 2010; Associate Professor of Mechanical Engineering 2017, 2011.

MICHAEL STOELLINGER, M.S. Technical University Munich 2005; Ph.D. University of Wyoming 2010; Associate Professor of Mechanical Engineering 2018, 2012.

Assistant Professors:

MAYSAM MOUSAVIRAAD, B.S. Sharif University of Technology 2002; M.S. 2004; Ph.D. University of Iowa 2010; Assistant Professor of Mechanical Engineering 2017.

XIANG ZHANG, B.S. Northeastern University (China) 2009; M.S. Beihang University (China) 2012; Ph.D. Vanderbilt University 2017; Assistant Professor of Mechanical Engineering 2019.

Professors Emeriti:

Donald F. Adams, Paul A. Dellenback, Bruce R. Dewey, Andrew Hansen, William R. Lindberg, Kynric M. Pell, Ovid A. Plumb, David E. Walrath, Robert A. Wheasler

Mechanical Engineering

Mechanical Engineering is the broadest area of study in engineering. In contrast to other engineering disciplines, mechanical engineers are employed in significant percentages in almost all industrial and governmental organizations that employ engineers.

The spectrum of activities in which mechanical engineers are engaged continues to expand. The curriculum has in turn become flexible to allow for the education of mechanical engineering students in many diverse and allied areas, or for graduate school preparation.

The educational objectives of the Department of Mechanical Engineering are as follows:

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Mechanical Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

The undergraduate program includes a foundation in mathematics, science, and engineering sciences. The three key elements of the mechanical engineering undergraduate program include core engineering principles, laboratory experience, and development of communication skills.

The mechanical engineering curriculum affords the student the flexibility to pursue specific professional goals within the discipline. Such an opportunity needs to be carefully considered by each student, so that elective courses are chosen with these goals in mind. During the junior and senior years, the student selects 15 credit hours of technical electives.

Mechanical and Energy Systems Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in Mechanical and/or Energy Systems engineering courses completed at this university. A grade of C or better must be earned in all engineering science (ES) and required mathematics courses.

Mechanical Engineering Success Curriculum

All Undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. To successfully complete the Mechanical Engineering Success Curriculum a student must earn a minimum 3.000 GPA in the following 10 courses: MATH 2200, MATH 2205, MATH 2210, ES 1060, ES 2110, ES 2120, ES 2210, ES 2310, ES 2330, ES 2410. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

Policy for Transfer Credit Towards Mechanical Engineering (ME) Core Coursework

In general, transfer of coursework towards a Mechanical Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to a University of Wyoming course (latitude may be given for Mechanical Engineering electives without a direct University of Wyoming equivalent). However, six courses are considered to be the core of the Mechanical Engineering program, and therefore credit cannot be transferred from another institution. These courses are ME 3010, ME 3020, ME 3040, ME 3170, ME 3360, and ME 3450. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ME courses requires explicit written approval from the department.

Graduate Study

The Department of Mechanical Engineering offers graduate study leading to the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Mechanical Engineering. Faculty in Mechanical Engineering conduct research in the areas of aerodynamics, biomaterials, composite materials, computational material science, computational fluid dynamics, combustion, continuum mechanics, heat transfer, materials reliability, mechanical behavior of materials, nanomechanics of surfaces and interfaces, and wind energy.

Department Specific Admission Requirements

Applicants should possess a Bachelor of Science (B.S.) degree or equivalent in Mechanical Engineering with a minimum GPA of 3.000 on a 4.000 grade scale or equivalent. Students that do not hold B.S./M.E. degrees may qualify as M.S. candidates by completing, without credit, certain prerequisite courses as specified by the Department. These prerequisites would depend upon the candidate's background and upon the area in which he/ she plans to specialize.

In order to apply, please submit the following via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>): resume, copy of academic transcript, copy of GRE scores, copies of TOFEL (or IELTS) scores for international non-native English speaking applicants, three letters of reference, and a Statement of Purpose indicating the applicants' technical area of interest, abilities, and objectives in completing a graduate degree in mechanical engineering. If you are applying for the BS/MS program, please chose "QuickStart - Mechanical Engineering BS/MS" as the program (no GRE score and Statement of Purpose are needed for the BS/MS application). Applicants to the joint MBA/MS-ME program should chose the MS degree program for the application. To be considered for Assistantships, applications must be submitted before March 15 for the Fall semester or October 15 for the Spring semester.

A minimum composite score of 294 (MS) or 307 (PhD) on the Verbal and Quantitative sections of the GRE is typically required for full admission to the Mechanical Engineering Department. For international students, a minimum TOEFL score of 577 on the written exam or 90 on the Internet-based test (iBT) TOEFL (or a minimum IELTS score of 6.5).). If an international applicant wishes to be considered for Graduate Teaching Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/study-iep-esl/grad-ta-support/index.html>) if you have questions regarding the English proficiency requirements. Admittance to the graduate program is competitive, and the average applicant that is accepted will likely have well above the minimum qualifications.

Energy Systems Engineering

Energy Systems Engineering is an ABET-accredited undergraduate degree offering by the Department of Mechanical Engineering. The ESE program was designed to train engineers to address one of this country's foremost challenges: to achieve energy independence and yet meet the growing demand for energy, while at the same time addressing critical environmental concerns. The program is intended to help meet these challenges by preparing students to be:

- technology leaders in energy conversion and environmental protection systems
- capable managers in the energy industry
- versatile overseers of energy development by the governmental sector
- technically-trained and environmentally-sensitive liaisons between the energy industry and the public.

ESE students will be trained in alternative and environmentally-friendly energy conversion systems, as well as more traditional technologies that will continue to play an important role for the foreseeable future.

Although the discipline of mechanical engineering has historically been responsible for the design of energy conversion cycles and equipment, issues outside the conventional realms of engineering are increasingly important to address as new and improved energy conversion systems are implemented. The engineer trained in Energy Systems will be better equipped than traditional mechanical engineers to deal with the environmental, legal, political, economic, and permitting aspects of new energy projects.

The ESE degree has many course work requirements in common with the Mechanical Engineering degree, particularly in the thermal, fluids, and energy conversion sciences. However, the ESE program emphasizes energy conversion aspects of Mechanical Engineering and requires course work from UW's School of Environment and Natural Resources (ENR), course

work in environmental law, and two electives picked from a list of classes that focus attention on energy and the environment. The ENR courses expose students to issues related to permitting such as preparation of environmental impact studies, and related regulations such as the Endangered Species Act. In addition, technical electives allow students to choose more detailed study in personal areas of interest including, for example, courses in environmental engineering, wind engineering, solar engineering, nuclear engineering, and petroleum engineering.

Mechanical and Energy Systems Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in Mechanical and/or Energy Systems engineering courses completed at this university. A grade of C or better must be earned in all engineering science (ES) and required mathematics courses.

Dual ME/ESE Degrees

In the event that a student desires to double major in ME and ESE, University policy requires that 30 credit hours past the first degree are required to earn the second degree, and department policy dictates that 24 of these credit hours must be technical coursework approved by the Department while up to 6 hours can be any student-chosen electives.

Department of Petroleum Engineering

4015 Engineering Building, (307) 766-4258

Web site: www.uwyo.edu/petroleum

Department Head: Dennis Coon, Ph.D., Interim

Professors:

HERTANTO ADIDHARMA, B.Sc. Institute of Technology, Surabaya 1987; Ph.D. Louisiana State University 1999; Professor of Chemical Engineering 2019.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering 1984; M.S. Beijing University of Science and Tech. 1992; Ph.D. Chinese Academy of Sciences 1997; Ph.D. Iowa State University 2000; Ph.D. Osaka University 2003; Professor of Chemical Engineering 2014.

KHALED A.M. GASEM, B.Sc. University of California at Berkley 1976; M.Sc. Colorado School of Mines 1979; Ph.D. Oklahoma State University 1986; Professor of Chemical Engineering 2014.

LAMIA GOUAL, B.Sc. Ecole Nationale Polytechnique 1993; M.Sc. Imperial College, London 1998; Ph.D. 2003; Professor of Petroleum Engineering 2021.

MOHAMMAD PIRI, B.Sc. Azad University, Arak 1995; M.Sc. Azad University, Tehran 1998; M.Sc. Imperial College, London 2000; Ph.D. 2004; Professor of Petroleum Engineering 2018.

Associate Professor:

PEJMAN TAHMASEBI, B.S. Sahand University of Technology 2007; M.Sc. Amirkabir University 2009; Ph.D. University of Southern California/Amirkabir University 2012; Associate Professor of Petroleum Engineering 2021.

Assistant Professors:

MORTEZA DEJAM, B.Sc. Petroleum University of Technology 2007; M.Sc. Sharif University of Technology 2009; Ph.D. University of Calgary 2016; Assistant Professor of Petroleum Engineering 2017.

SOHEIL SARAJI, B.S. Petroleum University of Technology 2004; M.Sc. Sharif University of Technology 2007; Ph.D. University of Wyoming 2013; Assistant Professor of Petroleum Engineering 2016.

Academic Professionals:

TAWFIK ELSHEHABI, B.Sc. Suez Canal University 2003; M.Sc. 2007; Ph.D. West Virginia University 2017; Senior Lecturer of Petroleum Engineering 2019.

Instructional Professors:

REZA TAHERI, B.Sc. Amirkabir University 1997; M.S. University of Twente, Netherlands 2001; Ph.D. Curtin University 2008; Assistant Instructional Professor of Petroleum Engineering 2020.

Professors of Practice:

DOUGLAS CUTHBERTSON, B.S. University of Wyoming 1985; Professor of Practice in Petroleum Engineering 2016.

BRIAN TOELLE, B.S. Texas A&M University 1978; M.S. Austin State University 1981; Ph.D. West Virginia University 2013; Professor of Practice in Petroleum Engineering 2015.

Professors Emeriti:

Jack Evers
H. Gordon Harris
Norman R. Morrow
Mrityunjai P. Sharma
Brian Towler

Petroleum Engineering trains students for Wyoming's largest industries, the production of crude oil and gas. With the recognition of the state's and nation's vast reserves of natural gas, the curriculum emphasizes the production and processing of this important resource. Because of American predominance in petroleum technology, career opportunities are available throughout most of the world.

The curriculum in petroleum engineering is based upon sound preparation in fundamental sciences, mathematics, physics, chemistry, and geology. The essentials of engineering are added to this foundation: computer programming, statics, dynamics, materials science, hydraulics, and thermodynamics. To aid in developing individuals' social potential and broaden their educational background, an integrated program in humanities and social sciences is included in the curriculum. Petroleum engineering courses, which are primarily concerned with application of previously acquired knowledge to problems of the oil and gas industry, are concentrated in the junior and senior years.

Petroleum Engineering degree candidates must meet the academic requirements of the college and must have a GPA of 2.000 or greater in Petroleum Engineering (PETE) courses attempted at UW that are applied toward graduation for the B.S. degree from the department. For approved electives, students must have prior approval of their advisor and department head. Elective courses must be chosen from a list provided by the department. Students must complete a minimum of 48 upper division (junior/senior) or graduate-level credit hours for this program.

Program Vision

As a highly respected community of scholars and practitioners, we are committed to providing outstanding petroleum engineering education, conducting internationally recognized research in key focus areas, and improving the well-being of the people of Wyoming and the world through education, technical innovation and economic development.

Program Mission

Provide outstanding, contemporary, ABET-accredited education in petroleum engineering to highly qualified undergraduates who will serve as an economic resource for Wyoming and the world.

Provide excellent, research-based graduate educations at the master's and doctoral levels in petroleum engineering to top students who will drive technical and economic innovation for Wyoming and the world.

Conduct internationally recognized research in key focus areas that leads to new technologies while also enhancing economic development for Wyoming and the world.

Petroleum Engineering Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Petroleum engineering should:

- (PETE-OB1) Successfully practice the profession/field of petroleum engineering or related discipline.
- (PETE-OB2) Demonstrate successful career accomplishment and civic engagement.

Petroleum Engineering Program Outcomes

During the course of study in Petroleum Engineering, the student should develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Undergraduate "Major Only" Courses

Upper division PETE core courses are restricted to petroleum engineering majors only.

Technical Electives Policy

The technical electives in the PETE curriculum can be used to complete a curriculum emphasis option or a minor. The number of credits of upper division courses must be satisfied, therefore, 13 elective credits must be 3000-level courses or higher.

Note: Technical Electives must be selected with your advisor's documented approval.

Transfer Credit Limit

To graduate with a degree in Petroleum Engineering from UW, students must successfully complete at least 20 credit hours of required PETE courses at UW.

1. Once a student has transferred to UW's Department of Petroleum Engineering from another institution, they may transfer no more than 9 additional credits from other institutions.
2. Non-transfer students may transfer up to 18 credits from other institutions.

Repeating a Course

Students who fail a PETE class three times can no longer enroll in that class.

Academic Suspension

Students who have been academically suspended from UW twice are no longer eligible to enroll in PETE courses.

Curriculum Emphases

The Department of Petroleum Engineering has established curriculum emphases that could shape your interest further or acquire useful transferable skills. A curriculum emphasis is not a minor or concentration and will not be stated on your diploma. If you choose to follow a curriculum emphasis option, you should discuss it with your academic advisor so they can assist you in planning your courses.

Petroleum Engineering offers the following curriculum emphasis options:

- Unconventional Reservoirs
- Chemical Engineering
- Mechanical Engineering
- Graduate School Preparation

BS/MS Quick Start Program

The BS/MS Quick Start program in Petroleum Engineering (PETE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Petroleum Engineering. These students may apply for admission to the Quick Start program during the first or second semester of their junior year or *before* starting their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better planned use of time should result in reduction of the time required for obtaining the Master of Science in Petroleum Engineering degree. Students who enter the Quick Start program must accept primary responsibility for actively planning their Programs of Study to assure timely completion of their course work and research programs.

The Quick Start program contains two essential elements:

1. Qualified students may receive provisional admission to the Petroleum Engineering graduate program by submitting a quick start application through the online graduate application system. This provisional admission will permit students

to make their long-term educational plans earlier in their studies and before graduating the B.S. program, thus providing enhanced opportunities for course selection and involvement in research.

2. Students in the program may apply up to 6 credit hours of graduate-level courses toward both the B.S. and M.S. degree programs. By successfully completing up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level course work as undergraduates, easing their transition to the Petroleum Engineering graduate program.

For additional information, visit our website for admissions information <http://www.uwyo.edu/petroleum/undergraduate/current-students/quickstart.html> or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Graduate Study

The Department of Petroleum Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in petroleum engineering. The M.S. degree is offered with Plan A and Plan B options.

In addition, the Department offers an M.B.A./M.S. in Petroleum Engineering Dual Degree Program, in conjunction with the College of Business M.B.A. Program. Students pursuing this option must apply to and be offered admission from both programs.

Admission Process and Requirements

Graduate admission is open to students with at least a B.S. degree in petroleum engineering or closely related field and who meet the minimum requirements as shown below. Please note that test scores must be dated within the previous two years to be considered valid.

- A GPA of 3.000, or equivalent;
- A GRE score;
- A TOEFL score of 600 (paper-based), 250 (computer-based), or 80 (Internet based) **or** an IELTS score of 6.5 in each category for international applicants. We are also accepting the DuoLingo exam with a minimum score of 110 required.

Applications must include the following documents uploaded with the online application:

1. Complete official transcripts of all prior college-level coursework,
2. Current resume or curriculum vitae,
3. Recommendations from at least three academic or professional references,
4. A statement of purpose, and
5. Unofficial test score certificates for both GRE and English proficiency exams.

Applications will not be reviewed or accepted until all required documents have been submitted.

The deadlines to submit applications are February 1 each year (to be considered for Fall semester), and September 15 each year (to be considered for Spring semester).

For additional information, visit our website for admissions information <http://www.uwyo.edu/petroleum/graduate/prospective/index.html> or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Graduate Courses of Study

Incoming graduate students, not preselected by a faculty member, must meet with Petroleum faculty members to obtain information regarding research areas and current availability. The student must formally request a Petroleum faculty member of their choosing to oversee their degree study program.

Masters Program

1. All Petroleum M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following courses:

Required Courses	Hrs.
PETE 5355.....	3
PETE 5890.....	2

At least three Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course

Requirements:

4000-level or above approved electives.....	12
PETE 5960.....	4

Total Credits 30

Plan B Non-Thesis Additional Course

Requirements:

4000-level or above approved electives.....	14
PETE 5970.....	2

Total Credits 30

2. All Petroleum M.S. students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following courses:

Required Courses	Hrs.
PETE 5055	3
PETE 5340	3
PETE 5355	3
PETE 5715	3
PETE 5890	2

At least four Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course

Requirements:

4000-level or above approved electives.....	7
GEOL 5190.....	3
PETE 5960.....	4

Total Credits 40

Plan B Non-Thesis Additional Course

Requirements:

4000-level or above approved electives.....	7
GEOL 5190.....	3

PETE 5970.....	4
Total Credits 40	

Dual Degree Program - M.B.A./M.S. degree in Petroleum Engineering

3. All Dual Degree M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following required courses:

Required Courses	Hrs.
PETE 5355.....	3
PETE 5890.....	2

At least three Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course

Requirements:

4000-level or above approved electives.....	3
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5960.....	4

Total Credits 30

Plan B Non-Thesis Additional Course

Requirements:

4000-level or above approved electives.....	5
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5970.....	2

Total Credits 30

4. All Dual Degree students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following required courses:

Required Courses	Hrs.
PETE 5055	3
PETE 5340	3
PETE 5355	3
PETE 5715	3
PETE 5890	2

At least four Core Courses from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5310.....	3
PETE 5350.....	3

Plan A Thesis Additional Course**Requirements:**

4000-level or above approved electives.....	3
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5960.....	4

Total Credits 42**Plan B Non-Thesis Additional Course****Requirements:**

4000-level or above approved electives.....	5
M.B.A. approved electives:	
MBAM 5XXX, MBAM 5301, MBAM 5305.....	9
PETE 5970.....	2

Total Credits 42

Note: For a student with a B.S. in another discipline, upon acceptance into the M.S. program, the Graduate Program Committee will develop a plan of study with the consent of the advisor.

Doctoral Program

1. All Petroleum Ph.D. students with a B.S. in Petroleum Engineering must take the following required courses:

Required Courses	Hrs.
PETE 5090.....	3
PETE 5355.....	3
PETE 5890.....	6

At least four Core Courses* from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3
PETE 5080.....	3
PETE 5255.....	3
PETE 5310.....	3
PETE 5350.....	3

Electives**

4000-level or above approved electives.....	18
---	----

Research

PETE 5980.....	30
----------------	----

Total Credits 72

2. All Petroleum Ph.D. students with an B.S. in Other Majors must take the following required courses:

Required Courses	Hrs.
PETE 5090.....	3
PETE 5355.....	3
PETE 5890.....	6

At least five Core Courses* from the following:

PETE 5010.....	3
PETE 5020.....	3
PETE 5060.....	3

PETE 5080.....	3
PETE 5255.....	3
PETE 5310.....	3
PETE 5350.....	3
Electives**	
4000-level or above approved electives.....	15
Research	
PETE 5980.....	30
Total Credits 72	

**Transferable from MS degree if applicable.*

***Up to 14 credits of electives transferable from MS degree if applicable.*

Graduate Seminar Requirements

All petroleum engineering graduate students must enroll in PETE 5890, Petroleum Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by any source other than state funds will work with their supervisor or faculty mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

Ph.D. Preliminary Examination

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved.

The goal of the preliminary exam is for the student to present the research proposition that is being investigated and will lead to the final dissertation, and demonstrate progress to-date. The preliminary exam consists of three components:

- a written document provided to each member of the student's graduate committee at least three weeks prior to the oral presentation;
- a public oral presentation; and
- a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. The Report on Preliminary Examination for Admission to Candidacy form sent to the Office of the Registrar reports the results of the examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

The College of Health Sciences is the place for students interested in improving and maintaining the physical, mental, and social health of others. We offer challenging degree programs in the "helping professions" and serve as the gateway to schools of medicine, dentistry, physical and occupational therapy, physician's assistant study, and optometry.

Health sciences students receive not only a superior education from knowledgeable and caring faculty but also precise and personal guidance from conscientious advising personnel. Students benefit, too, from practicums and internships that help them refine and test the skills acquired in lectures and labs as well as opportunities to participate in dynamic, interdisciplinary research projects.

The college is also the home of the Wyoming Institute for Disabilities (WIND); two Family Medicine Residency Centers; and the WWAMI Medical Education Program.

We serve as the state certifying office for the Wyoming, Washington, Alaska, Montana, and Idaho (WWAMI) medical education contract program with the University of Washington School of Medicine; WYDENT, the dental education contract program with the University of Nebraska and Creighton University; and two programs for the Western Interstate Commission of Higher Education (WICHE): the Professional Student Exchange Program (PSEP) and the Western Regional Graduate Program (WRGP). Refer to the sections on WWAMI, WYDENT, and WICHE in the first part of this catalog for program descriptions or go to www.uwyo.edu/certwy.

Any student seeking admission to programs in the College of Health Sciences will be required to obtain a background check as specified by college policy. Please contact your school or division for specific information.

The College of Health Sciences retains the right to deny or revoke admission to any of its programs for academic, disciplinary, ethical, or professional standards reasons.

Programs of Study

Undergraduate Degrees

Bachelor of Science

Kinesiology and Health Promotion
Medical Laboratory Science
Physical Education Teacher Education K-12
Speech, Language and Hearing Sciences

Bachelor of Science in Dental Hygiene

Bachelor of Science in Nursing

Bachelor of Social Work

Graduate Degrees

Master of Science

Health Services Administration
Nursing
Kinesiology and Health
Speech-Language Pathology

Master of Social Work

Professional Degrees

Doctor of Nursing Practice

Doctor of Pharmacy

Minor in the College of Health Sciences

Disability Studies

Disability studies is a diverse interdisciplinary field that investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. Students will gain a broad understanding of disability issues for working with people with disabilities rather than specific disciplinary skills and techniques. The minor complements any major and consists of 18 credit hours. See www.uwyo.edu/hs/divisions-and-programs/minor-indisability-studies.html.

Undergraduate and Pre-professional Health Advising Office

Health Sciences Center, 110

The Undergraduate and Pre-professional Health Advising Office (UPHAO) in the College of Health Sciences (www.uwyo.edu/preprof/) provides pre-professional health advising to all UW students regardless of their academic majors, who are interested in pursuing future study in athletic training, chiropractic, dentistry, medicine, optometry, occupational therapy, physical therapy, physician assistant, or other health care careers such as public health. A bachelor's degree is usually required for admission to a professional school. The University of Wyoming does not offer degrees in pre-professional areas. Students may pursue any UW degree program in which they have an interest and at the same time complete the admission requirements for the professional schools they wish to attend. The UPHAO advises students for their professional program prerequisites as well as other aspects of becoming solid candidates. Each student will also have an advisor in his/her major for advising in the major.

Through this office, pre-health students can access current information about admission requirements, entrance examinations, application process, professional school curriculums, interviewing skills, and test preparation. Current admissions data and addresses for specific schools are also available. Specific schools may have additional requirements; students are urged to check with the schools they wish to attend.

Information and Wyoming state residency applications for the WICHE PSEP program, the WWAMI medical education program, and the WYDENT dental education program, may be found online at <http://www.uwyo.edu/certwy>.

Please view individual division and program pages list for full course and curriculum listings

Division of Communication Disorders

Director: Mark Guiberson

Professors:

MARK GUIBERSON, B.A. University of Colorado 1997; M.A. 1999; Ph.D. Colorado State University 2006; Professor of Speech-Language Pathology 2019, 2011.

MARY HARDIN-JONES, B.A. Texas Tech University 1978; M.S. 1979; Ph.D. University of Iowa 1984; Professor of Speech-Language Pathology 2005, 2001.

DAVID L. JONES, B.S. Westminster College 1980; M.A. University of Iowa 1983; Ph.D. 1987; Professor of Speech-Language Pathology 2005, 2001.

Associate Professors:

ERIN J. BUSH, B.S. University of Wyoming 2000; M.S. University of Nebraska-Kearney 2003; Ph.D. University of Nebraska-Lincoln 2011; Associate Professor of Speech-Language Pathology 2021, 2015.

Assistant Professors:

KATELYN J. KOTLAREK, B.S. University of Wisconsin-Madison 2012; M.S. Florida State University 2014; Ph.D. East Carolina University 2019; Assistant Professor 2019.

BREANNA KRUEGER, B.A. University of Wyoming 2007; M.A. University of Kansas 2011; M.A. 2013; Ph.D. 2017; Assistant Professor 2017.

Lecturers:

SHELLEY BARTON, B.A. University of Wyoming 2005; M.S. 2008; Instructor 2018.

ESTHER HARTSKY, B.A. Adams State University 2000; A.A.S. Pikes Peak Community College 2004; Assistant Lecturer 2017.

KARLEE SMITH, B.S. University of Wyoming 2014; M.S. University of Wyoming 2013; Lecturer 2020.

Clinical Professors:

TERESA J. GARCIA, B.S. University of Wyoming 1989; M.S. 1991; Clinical Professor 2020, 2016, 1995.

Assistant Clinical Professors:

CORRI SANDOVAL, B.S. University of Wyoming 2000; M.S. 2010; Assistant Clinical Professor 2020.

HEIDI CLARK, B.S. University of Virginia 1998; M.A. Kent State University 2000; Assistant Clinical Professor 2020.

Adjunct Clinical Instructor:

Melissa Denker, M.S., CCC-SLP

Professors Emeriti:

Janis A. Jelinek, Douglas W. Laws, Michael A. Primus

The areas of speech-language pathology and audiology are concerned with disorders of communication. Included in these areas are the studies of systems underlying the normal communicative process (phonetics, acoustics, neurology, anatomy and physiology); development of speech, hearing and language functions; deviations from the normal communicative process; and diagnosis and management of speech, language and hearing disorders.

The Division of Communication Disorders offers a bachelor's (B.S.) degree in speech, language and hearing science. The bachelor's degree is considered preprofessional preparation for entrance into a graduate program in either speech-language pathology or audiology. The Bachelor's degree at UW is not designed to meet requirements to become a speech-language pathology assistant (SLP-A), additional practicum and some coursework at another institution would be required to become an SLP-A. To work as a speech-language pathologist (SLP), a graduate degree is required. A graduate degree is needed to work in most employment settings. The division offers a Master of Science degree in speech-language pathology. The combined undergraduate and graduate programs are designed to prepare students to meet the academic and clinical requirements for Wyoming licensure and the Certificate of Clinical Competence awarded by the American Speech Language Hearing Association.

The graduate program in speech-language pathology is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology. See the division web site for additional information.

Any student seeking admission to the graduate program in Speech-Language Pathology within the Division of Communication Disorders will be required to obtain a background check as specified by college policy.

Undergraduate Learning Outcomes

The Bachelors of Science in Speech, Language, and Hearing Science provides students with a broad-based foundation in the sciences and humanities, fundamental knowledge of human communication, communication development, and the nature of communication disorders across the lifespan. This degree prepares students for professional degree programs in speech-language pathology or audiology as well as other allied career fields or degree programs. To see the most recent undergraduate student learning objectives, go to the Division website: <http://www.uwyo.edu/comdis/student-objectives-handbooks-manuals.html>.

Speech and Hearing Clinic

Speech and hearing clinical services are available to University of Wyoming students. For information concerning these services, contact the Speech and Hearing Clinic.

There is a student organization with whom speech-language pathology and audiology majors may choose to affiliate, the National Student Speech-Language and Hearing Association. Objectives are to promote and recognize scholastic achievement and to support clinical, research, and service endeavors.

Graduate Study

Admissions to the M.S. Degree Program in Speech-Language Pathology

Admission to the master's program in speech-language pathology is made on a competitive basis. We accept students to start in the fall of each year. For application, admission, and a description of the program, see the division website. Applicants must have completed a bachelor's degree or equivalent from a regionally accredited institution. All applicants should have at least a 3.000 cumulative GPA (scale of 4.000). Graduate Record Examination (GRE) scores must be reported as part of the application procedures (see below).

Application Procedure

Applications to our master's program must be made through an electronic, centralized application service: the Communication Sciences and Disorders Centralized Application Service for Clinical Education in Audiology and Speech Language Pathology (CSDCAS). Instructions and application procedures are available at <https://portal.csdcas.org>. Check the division web site in September for instructions.

Applicants will be notified of the division's decision on acceptance, alternate, or denial by mid-March. Applicants must respond to the offer by April 15. Alternates will be offered positions that become available after April 15.

For International (including Canadian) students, the university must determine whether financial resources are sufficient for study here.

International Students

International students from non-Englishspeaking countries need a TOEFL score of 600 to show English proficiency. Additional sources of evidence may be requested by the division to make a final decision. English proficiency must be sufficient for success in graduate school and certification as a speech-language pathologist in the United States, even if the applicant intends to return to the native country.

Conditional Status

An applicant may be admitted conditionally if he or she does not meet the GPA requirements for full admission, and the Division determines that there are sufficient areas of strength for success in graduate school in comparison to other applicants. Conditions will be placed on admission such as graduate grade point average, performance criteria, or completion of certain courses.

Requirements Following Offer of Admission

Students who accept an offer of admission to the program must then provide numerous pieces of required documentation for admission to UW and program, and will also need to be responsive to emails from the Division and faculty throughout onboarding.

Criminal Background Check

Admission to the graduate program in speech-language pathology is contingent upon passing a criminal background check. Each student recommended for admission into program will be required to obtain, pay, and pass a criminal background check. These background checks are routinely required by schools, hospitals, and other agencies that participate in the clinical education of our students. The results of the background check may determine admission to our program. Please see the College of Health Sciences web site for the policy and procedures document.

Graduate Student Outcome Data

As of September 2020, 96.3% of MS SLP students completed the program "on-time" over the last three years, 100% obtained employment, and reported Praxis Exam pass rate was 100%.

Program Specific Graduate Assistantships

Financial help for graduate students is available each year through the department with assistantships and other funding. Typically, graduate assistantships include one-half tuition support and a monthly stipend. These assistantships require the student to spend 10 hours per week assisting faculty members in teaching and research. Awards are competitive and based on past academic performance, evidence of professional promise, and letters of recommendation. Graduate assistantships are awarded to applicants with full admission.

Differential Tuition

The graduate program in speech-language pathology has a differential tuition rate. See the Division website and/or fee book for details.

Program Specific Degree Requirements Master's Programs

The Master of Science in Speech-Language Pathology is a professional degree program. The graduate program consists of a minimum of 55 credit hours of academic coursework, on-campus clinical practica, and external clinical practica. Students may pursue either a thesis or non-thesis track during their graduate studies. Both tracks lead to eligibility for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP), granted by the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC), which is a council serving the American Speech-Language Hearing Association. Graduates are also eligible for the Wyoming license in speech-language pathology. A supervised Clinical Fellowship Year (CFY) is required beyond the graduate degree for certification. The Master of Science (M.S.) education program in speech-language pathology at the University of Wyoming is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

Typical Programs of Study

There are two programs of study for the MS SLP program. The Plan A is the thesis option (64-credit hour program), and Plan B is the non-thesis option (61-credit hour program). The Plan B (non-thesis) option requires 35 credits of graduate academic work and 26 credits of graduate clinical practicum; the Plan A (thesis) option requires 3 additional credits of thesis work.

35 hours of graduate academic work usually includes:

SPPA 5020: Phonological Assessment and Intervention

SPPA 5140: Evaluation Procedures in Communication Disorders

SPPA 5280: Early Language Intervention

SPPA 5220: Voice Disorders

SPPA 5130: Adult Neurogenic Disorders

SPPA 5330: School-Age Language Intervention

SPPA 5120: Stuttering

SPPA 5110: Craniofacial Disorders

SPPA 5230: Dysphagia

SPPA 5100: Motor Speech Disorders

SPPA 5210: AAC

SPPA 5380: Professional Practice

26 hours in graduate clinical practicum include:

SPPA 5030: Clinical Practicum

SPPA 5270: Educational Practicum

SPPA 5290: Medical Practicum

Plan B students complete 1 credit of SPPA 5961 Graduate Projects as part of their academic work. Plan A (Thesis) students do not take SPPA 5961, instead thesis students complete 4 credits of SPPA 5960 Thesis Research.

Wyoming Assessment of Knowledge and Skills

The MS SLP program's Wyoming Assessment Of Knowledge And Skills (WAKS) are linked to American Speech-Language Hearing Association (ASHA) Council for Clinical Certification in Audiology and Speech-Language Pathology (CFCC). By meeting the WAKS objectives and successfully completing clinical practicum requirements, MS SLP graduates are eligible to apply for national certification from the American Speech-Language Hearing Association, and are eligible for state licensure in Wyoming. To see the most recent WAKS objectives, go to the Division website: <http://www.uwyo.edu/comdis/student-objectives-handbooks-manuals.html>).

Leveling Coursework

Leveling is completed on a course-by-course basis. Students are encouraged to enroll in a second bachelor's degree program. Any semester in which a student takes a graduate class (numbered 5000 or above), the student must change status to non-degree graduate (NDG). This allows the graduate courses to be applied to the master's program at a later date. Fees and tuition for all the coursework in that semester are charged at the graduate student rate. Refer to the division website for a list of courses.

Continuing Education

Students may take graduate coursework as continuing education without having been admitted to the graduate program, if instructor consent is granted. If students are accepted at a later date into the graduate program, they may apply a maximum of 12 graduate credit hours earned as a non-degree student toward their graduate degrees. Coursework submitted must be approved by the division at the time the official program of study is submitted. Coursework may not be older than 6 years from time of master's graduation.

Course Transfers and Waivers

In accredited programs of speech-language pathology, evaluation involves both course grades and demonstration of specific knowledge and skills. As a result, for any course transferred, waived, or applied from nondegree status, evidence of the knowledge and skills linked to that course will still be required.

Division of Kinesiology and Health

The Division of Kinesiology and Health offers the Kinesiology and Health Promotion (K&HP) major and the Physical Education Teacher Education (PHET) major. These two majors prepare students in kinesiology and health promotion for a variety of clinical and nonclinical settings including teaching physical and health education in schools K-12. Students enrolled in these

programs must meet academic standards as determined by the Division of Kinesiology and Health, College of Health Sciences, and the University of Wyoming.

The K&HP major prepares students well for admission to physical therapy school and occupational therapy school, as well as other health professions (e.g., physician, physician assistant, dentist, chiropractor, optometrist, etc.). Approximately 60% of students majoring in K&HP apply to one of these health professional schools once they have completed their B.S. degree in Kinesiology and Health. Other students majoring in training, fitness, recreation, and leisure, and health promotion with state agencies enter a very diverse job market.

The PHET program prepares students to teach physical and health education (PHET) in K-12 schools. The PHET major is a nationally recognized program for meeting the NASPE/NCATE Initial Physical Education Teacher Education Accreditation Standards. This program offers individuals opportunity to combine certifications/endorsements in health education K-12, adapted physical education K-12, and coaching.

A graduate program leading to a Master of Science degree in Kinesiology and Health is offered by the Division.

Professional Program

Students who meet University of Wyoming entry requirements are admitted to the university in one of the two undergraduate majors that leads to the Bachelor of Science degree. The Division's undergraduate majors are open at the freshman level to all graduates of accredited high schools. Advanced placement for students with previous college credit is based on evaluation of transcripts of previous academic work.

Students in the Kinesiology & Health Promotion (K&HP) program are ready to move forward in the junior year of the program when they complete the pre-requisite requirements to enroll in KIN 3021 and KIN 3022, Physiology of Exercise lecture and laboratory. To be eligible for the K&HP Professional Program (junior/ senior years), students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000. Advancement in the K&HP Professional Program is complete once prerequisite criteria is met.

The entry course for admission to the Physical Education Teacher Education (PHET) program is KIN3012 - Teaching Laboratory I. To be eligible, for the PHET professional program, students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000. Admission to the last two years of the PHET major is a competitive process and applicants meeting minimum requirements are not guaranteed admission to the major. Application to the PHET majors is conducted only for fall. The application deadline is April 15.

Undergraduate Majors

Kinesiology and Health Promotion, B.S.

Physical Education Teacher Education K-12, B.S.

Additional School Endorsments K-12

Adapted Physical Education K-12 Endorsement

School Health Education K-12 Endorsement (For Physical Education Teacher Education Majors)

Affiliated Options

The Division of Kinesiology and Health offers two options for the general undergraduate population. They require course work beyond degree requirements.

Athletic Coaching Endorsement / Permit

School Health Education K-12 Endorsement (For non-Physical Education Teacher Education Majors)

Graduate Study

Program Specific Admission Requirements

Admissions into the M.S. degree program is open to people who have obtained an undergraduate degree with a major program of study in exercise and sport science, health, kinesiology, physical education, or other area in human movement sciences. Students who do not have a bachelor's degree in kinesiology, physical education or health are required to complete four undergraduate courses in kinesiology and/ or health in addition to the courses required for the graduate program of study. Individuals interested in applying are encouraged to contact the Graduate Program Coordinator, Dr. Tucker Readdy (tucker.readdy@uwyo.edu) for more information.

In order to apply, please submit the following via the University of Wyoming's online application system (www.uwyo.edu/admissions/apply.html): K&H supplemental application, copies of GRE scores, transcripts, a sample of professional writing, and three letters of recommendation. Applications must be submitted no later than February 1 to be considered for Fall admission; Spring admissions are also considered on a case by case basis.

GRE scores are required for admission but can be waived in specific situations. A minimum of a 3.000 undergraduate cumulative GPA is also necessary for admission. International students who are not native English speakers must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (www.uwyo.edu/ele/) if you have questions regarding English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Polices in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

Graduate assistantships are available on a competitive basis. Teaching opportunities exist within the laboratory portions of the human anatomy and exercise physiology courses, the teaching laboratory portions of the pedagogy practical courses, and HLED1006 - Personal Health. A graduate assistantship also involves some research opportunities with assigned graduate faculty advisors.

A stipend for a full time graduate assistant is \$12,333.00 per academic year. Tuition and fees are covered according to the percentage of assistantship allocated to the student.

Lecturers

LAURA CAPASSO, B.A. University of Wyoming 2012; M.S. University of Wyoming 2014; Ph.D. University of Northern Colorado, 2019; Assistant Lecturer, Family Medicine, Cheyenne.

PAMELA OILER, B.S.W. University of Wyoming 1999; M.S.W. Colorado State University 2005; Associate Lecturer, Family Medicine, Cheyenne.

To address the need for broadly trained primary care physicians in Wyoming, the Wyoming Legislature established two residency programs in the specialty of family medicine. These two accredited, university-administered, community-hospital based family medicine residency programs are located in Casper and Cheyenne. They enroll up to 42 residents (14 in each of three years). The two family medicine centers maintain a 1:4 faculty to resident ratio. The program at Casper began in 1976 and is affiliated with Wyoming Medical Center. The program utilized the services and facilities provided by the Educational Health Center of Wyoming. The Rural Training Track Program is a partnership with the Casper core program and Hot Springs County Memorial Hospital that provides a unique, hands-on experience for rural practice by training in the rural community of Thermopolis, Wyoming. It enrolls up to 3 residents (1 in each of three years). Casper's Geriatric fellowship is Wyoming's only post-graduate medical education training program. The fellowship provides training specialized in geriatrics to produce Board-certified geriatricians to care for the state's aging population. The Cheyenne program became active in 1980 and is affiliated with Cheyenne Regional Medical Center. The program utilizes the services and facilities provided by the Educational Health Center of Wyoming and has a close working relationship with the Veterans Administration Hospital. Both centers include spacious examining rooms; treatment and casting rooms; x-ray facilities; offices for faculty, residents and staff; complete laboratories; multiphasic research areas; conference rooms; business offices and roomy waiting rooms with play areas in the clinical component. In the educational component, both include large auditoriums; learning resource centers and administrative offices. Particular emphasis in both centers is placed on preparing physicians for rural practice and other facets of medical practice that are unique to Wyoming.

Assistant Professors

ANA CLARA BOBADILLA, B.S. Pierre and Madam Curie University 2006; M.S. Pierre and Madam Curie University 2008; Ph.D. Pierre and Madam Curie University 2014; Assistant Professor, School of Pharmacy, WWAMI.

DANIELLE BRUNS, B.S. Linfield College 2008; M.S. Colorado State University 2010; Ph.D. Colorado State University 2013; Assistant Professor Kinesiology & Health, WWAMI.

JULIE CARLSON, B.S. University of Wyoming 1985; M.D. Creighton University 1989; Clinical Assistant Professor, WWAMI.

ESTHER GILMAN-KEHRER, B.S. University of Wyoming 1986; M.S. University of Wyoming 1998; Post-Master's F.N.P. University of Colorado 2000; Post-Master's Nurse Midwifery 2002; D.N.P. University of Colorado 2012; Clinical Assistant Professor, Fay W. Whitney School of Nursing, WWAMI.

TRACEY HAAS, B.S. Southwest Texas State University 1996; D.O. University of North Texas Health Sciences Center 2001; M.P.H. University of Texas Health Sciences Center 2012; Clinical Assistant Professor, WWAMI.

YVETTE HAEBERLE, B.A. San Jose State University 1990; M.D. University of Nebraska Medical Center 1994; Clinical Assistant Professor, WWAMI.

EMILY SCHMITT, B.S. Elon University 2007; M.S. University of North Carolina-Charlotte 2009; Ph.D. Texas A&M University 2015; Assistant Professor Kinesiology & Health, WWAMI.

JOHN WILLFORD, B.S. University of Wyoming 2005; Ph.D. University of Wyoming 2008; Assistant Clinical Professor, WWAMI.

The University of Wyoming medical contract program enhances medical education opportunities for Wyoming residents. In March 1996, the University of Wyoming became a partner in the WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Program. The WWAMI program is Wyoming's medical school and the program delivers the first two years of the University of Washington School of Medicine (UWSOM) medical school curriculum on the University of Wyoming campus. The remaining two years of the curriculum are spent in clinical rotations throughout the five-state WWAMI region. Twenty Wyoming residents are accepted into the WWAMI program each year and receive their M.D. degree from the UWSOM. For further information, contact the Wyoming WWAMI Office, College of Health Sciences, Laramie, Wyoming 82071, (307) 766-2496.

The Fay W. Whitney School of Nursing (FWWSON) has well established B.S.N, M.S., and D.N.P. programs based upon national nursing education standards.

Mission

The FWWSN educates, conducts research and provides service and practice to improve, protect and promote health.

Accreditation and Membership

The baccalaureate and graduate programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

The baccalaureate program (Basic BSN, BRAND) is approved by the Wyoming State Board of Nursing (WSBN). Graduates of the Basic BSN and BRAND options are qualified to apply for admission to the national licensing examination: NCLEX. Graduates of the DNP Program are eligible to take the national certification exams as a nurse practitioner.

Technical Standards for Admission

All nursing students must be able to perform the essential functions of a nurse, including observation/sensory motor; communication; psychomotor; intellectual-conceptual, integrative and quantitative; and behavioral and social attributes. Please refer to the "Technical Standards for Admission", including information on reasonable accommodations, on the school's website: <http://www.uwyo.edu/nursing/programs/technical-standards-for-admission.html>.

Background Checks Requirement

Students enrolled in clinical training programs within the College of Health Sciences are placed in educational and clinical settings where highly vulnerable clients such as minor children, individuals with disabilities, and/or the elderly, are routinely

served. These clinical/ practice training sites (including schools, hospitals, pharmacies, and other university sites) routinely require criminal background checks for all students who engage in clinical activities. Therefore, background checks shall be required on all applicants to programs in the College of Health Sciences prior to admission into their prospective program.

Students applying for admission into the nursing major component of the BSN Program, the MS Program, and the DNP Program will be notified by the FWWSON at the time of any admission offer the process for completing the required background check. Previous background checks (e.g. CNA Certification, LPN or RN Licensure) are not acceptable to fulfill this expectation. The results of the background check may determine final admittance to the program.

Students may also be required to update the criminal background check. Each clinical training site will be informed that students have passed a background check prior to placement at that site; some sites may require a more current background check. Clinical agencies may bar a student access to their facility for clinical experiences based on the results of the background check. If faculty and staff are not able to place the student in an alternative setting, the student will not be able to complete the program. In addition, students seeking readmission into the program are required to complete a new background check. Students are responsible for the costs associated with the admission background check and any other background checks that may be required.

Drug Screening Requirement

Drug screening may be required by some clinical training sites. Students will be notified by the FWWSON should this be an expectation of them. Students may incur charges for this screening and will be notified of such at that time. Drug and/or alcohol testing for any student can be requested by the FWWSON.

The Fay W. Whitney School of Nursing provides a curriculum based on the solid foundation of a general studies program. University students are individuals who come with learning preferences, different experiences, varied goals, and therefore, have unique learning needs. The primary responsibility of faculty is to empower students to become self-directed learners. Active learning is a teaching/learning partnership.

Health Insurance Requirement

Health insurance coverage is a requirement of the Fay W. Whitney School of Nursing for participation in any clinical rotation. It is the responsibility of the student to obtain and maintain coverage for **ALL** clinical rotations. Students will be notified by the FWWSON should this be an expectation for them as well as timing for completion of the FWWSON Student Verification of Health Insurance Form.

Undergraduate Study

Bachelor of Science in Nursing (BSN) Program

The Fay W. Whitney School of Nursing provides a curriculum based on the solid foundation of a general studies program. University students are individuals who come with learning preferences, different experiences, varied goals, and therefore, have unique learning needs. The primary responsibility of faculty is to empower students to become self-directed learners. Active learning is a teaching/learning partnership.

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Bachelor of Science in Nursing (BSN) Program Options

The Fay W. Whitney School of Nursing offers a baccalaureate program with three options to obtain the BSN degree:

1. Basic BSN - a four-year, on-campus BSN option for the student who wishes to become a registered nurse at the baccalaureate level.
2. BRAND (Bachelors Reach for Accelerated Nursing Degree) - an accelerated BSN outreach option for the student who has already achieved a previous non-nursing baccalaureate degree and who wishes to become a registered nurse at the baccalaureate level.
3. BSN Completion - two online BSN options (ReNEW and RN-BSN):
 - ReNEW (Revolutionizing Nursing Education in Wyoming) - an online BSN option for the student or graduate of a Wyoming community college ReNEW nursing program who wishes to become a baccalaureate-prepared nurse.
 - RN-BSN - an online BSN option for the graduate of a non-ReNEW associate degree or diploma nursing program who wishes to become a baccalaureate-prepared nurse.

Please refer to the appropriate BSN program option section that follows below.

Graduate Study

The Fay W. Whitney School of Nursing offers two graduate programs leading to: 1) a Master of Science (M.S.) degree and 2) a Doctor of Nursing Practice (D.N.P.) degree.

Master of Science (MS) Program

The MS program of study is for nurses who desire to become nurse educators or nurse leaders in any academic or health-related setting. The program mission is to prepare transformational learners and leaders to advance nursing education and practice, thus, addressing the complexities in the 21st century healthcare system. Core curricular concepts woven through the curriculum include transformation, communication, interconnected global perspective, outcomes orientation, and rural population health.

Expected Student Learning Outcomes

MS graduates are prepared to ensure better care, better health, and lower costs through their knowledge, skills, and abilities to:

1. Lead change for quality care outcomes; implement safe, quality care to diverse patients in a variety of settings and roles;
2. Apply teaching/learning principles to the design, implementation, and evaluation of growth in individuals or groups in a variety of settings;
3. Build and lead interprofessional care teams;
4. Design innovative nursing practices;
5. Translate evidence into practice;
6. Promote a healthy work environment for sustainability of the work force.

Master of Science (MS) Program Concentrations

The Fay W. Whitney School of Nursing offers a masters program with two concentrations to obtain the MS degree:

1. Nurse Educator - a two and a half-year, online MS concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) who desire to become nurse educators.
2. Nurse Leader - a two and a half-year, online MS concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) who desire to become nurse leaders.

Please refer to the MS program section that follows below.

Doctor of Nursing Practice (DNP) Program

The Doctor of Nursing Practice (DNP) degree is the new standard for advanced practice nursing education. The DNP program is open to registered nurses with a minimum of a baccalaureate degree in nursing from a program nationally accredited by CCNE or NLNAC.

Expected Student Learning Outcomes

DNP graduates will:

1. engage in evidence-based practice to optimize health outcomes;
2. engage in leadership activities to promote excellence in rural health care.

Doctor of Nursing Practice (DNP) Program Concentrations

The Fay W. Whitney School of Nursing offers a doctoral program with two concentrations to obtain the DNP degree:

1. Family Nurse Practitioner (FMY) - a three-year, DNP concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) that prepares students for careers in rural primary care.

2. Psychiatric Mental Health Nurse Practitioner (PSH) - a three-year, DNP concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) that prepares students for careers in rural psychiatric mental health care.

Please refer to the appropriate DNP program concentration section that follows below.

Associate Dean of Students: Tonja Woods

Professor:

SREEJAYAN NAIR, B.S. College of Pharmaceutical Sciences, Manipal, India 1989; M.S. 1991; Ph.D. 1996; Professor of Pharmacology 2014, 2002.

Associate Professors:

JARED S. BUSHMAN, B.A. University of Utah 2003; M.S. University of Rochester 2006; Ph.D. 2008; Assistant Professor of Pharmaceutical Science 2020.

E. KURT DOLENCE, B.S. University of Wyoming 1983; Ph.D. University of Kentucky 1987; Associate Professor of Medicinal Chemistry 2005, 1999.

GUANGLONG HE, B.S. Anhui Normal University 1986; M.S. Chinese Academy of Sciences 1994; Ph.D. 1997; Associate Professor of Medicinal Chemistry 2019, 2013.

KEM P. KRUEGER, Pharm.D. University of Missouri-Kansas City; Ph.D. University of Arizona 1998; Associate Professor of Social and Administrative Pharmacy 2011, 2005.

TRACY D. MAHVAN, B.S. University of Colorado 1995; Pharm.D. 1998; Associate Professor of Pharmacy Practice 2006, 2000.

RESHMI L. SINGH, B.S. Bombay University 1999; M.S. University of Toledo 2001; Ph.D. University of Minnesota 2005; Associate Professor of Social and Administrative Pharmacy 2019, 2013.

BASKARAN THYAGARAJAN, B.S. Madras Medical College 1994; M.S. Banaras Hindu University 1996; Ph.D. Karl Franzens University 2001; Associate Professor of Pharmaceutics 2017.

Assistant Professors:

MICHELLE BLAKELY, B.A. University of South Alabama 2005; M.Ed. Auburn University 2008; Ph.D. 2011; Assistant Professor of Social and Administrative Pharmacy 2018.

ANNA CLARA BOBADILLA, B.S. Pierre & Marie Curie University 2008; M.S. 2010; Ph.D. 2014; Assistant Professor of Pharmaceutical Sciences 2020.

NERVANA ELKHADRAGY, B.S. Cairo University 2004; Pharm.D. Purdue University 2008; M.S. 2018; Ph.D. 2020. Assistant Professor of Social and Administrative Pharmacy 2020.

KAREN MRUK, B.A. Drew University 2003; Ph.D. University of Massachusetts Medical School 2012; Assistant Professor of Pharmaceutical Science 2018.

Clinical Professor:

MICHELLE L. HILAIRE, Pharm.D. Duquesne University 2002; Clinical Professor of Pharmacy Practice 2016, 2010, 2004.

JAMIE R. HORNECKER, B.S. Texas Tech University 1999; Pharm.D. University of Wyoming 2003; Clinical Professor of Pharmacy Practice 2012, 2005.

Clinical Associate Professors:

LAUREN BIEHLE, Pharm.D. University of Georgia 2010; Clinical Associate Professor 2020.

BECKY S. LINN, B.A. University of Wyoming 1997; Pharm.D. 2002; Clinical Associate Professor 2020.

JANELLE L. KRUEGER, B.S. University of Wyoming 1992; M.S. University of Kansas 1997; Clinical Associate Professor of Pharmacy Practice 2013, 2005.

ALLISON M. MANN, B.S. University of Colorado Boulder 2004; Pharm.D. University of Colorado Denver 2009; Clinical Associate Professor of Pharmacy Practice 2020.

LEENA D. MYRAN, B.S. University of Wyoming 2000; Pharm.D. 2012; Clinical Associate Professor of Pharmacy Practice 2020.

JEREMY VANDIVER, B.A. University of Colorado 2006; Pharm.D. University of Colorado 2010; Clinical Associate Professor 2020.

TONJA M. WOODS, Pharm.D. University of Wyoming 2002; Clinical Associate Professor of Pharmacy Practice 2009, 2003.

Clinical Assistant Professors:

JED DOXTATER, B.S. University of Montana 2006; M.S. University of North Dakota 2013; Clinical Assistant Professor 2015.

ALIVN OUNG, Pharm.D. MCPHS University 2014; Clinical Assistant Professor 2016.

JESSICA PAPKE, PharmD, University of Wyoming 2017; Clinical Assistant Professor 2020.

Assistant Lecturers:

ANTOINETTE K. BROWN, B.S. University of Wyoming 1992; Assistant Lecturer 2013.

DAVID C. BRUCH, B.S. University of Wyoming 1998; Pharm.D. 2010; Assistant Lecturer 2012.

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Drug Information Director:

MELISSA L. HUNTER, B.S. University of Wyoming 2000; Pharm.D. 2004; Associate Research Scientist 2013, 2007.

Professors Emeriti:

Emery Brunett, Ph.D.

Bruce W. Culver, Ph.D.

Linda Gore Martin, Pharm.D.

Robert B. Nelson, Ph.D.

Robert D. Scalley, Pharm.D.

Beverly, Sullivan, Pharm.D.

M. Glauca Teixeira, Ph.D.

Weeranuj Yamreudeewong, Pharm.D.

Deans Emeriti:

John H. Vandel, B.S. Pharmacy

Linda Gore Martin, Pharm.D.

Vision, Mission and Values

Vision

The University of Wyoming School of Pharmacy will be nationally recognized for innovative teaching research, teaching and pharmacy practice that develops scholar-practitioners and substantively enhances the health and well-being of the communities we serve.

Mission

The University of Wyoming School of Pharmacy exists to advance the educational and professional development of our students, generate and translate scientific findings into meaningful innovations in healthcare, and positively impact the health and well-being of the communities we serve. We accomplish this through:

- Innovative, interdisciplinary, and interprofessional programs that integrate teaching research, teaching and pharmacy practice
- The development of scholar practitioners capable of ethically leading and embracing change and substantively enhancing health outcomes
- Individualized, faculty-led student educational experiences

As a result, we will attract, recognize and retain the very best students, faculty and staff to drive the success of the School.

Statement of Values

The UW School of Pharmacy community is committed to supporting and promoting individual and collective excellence in teaching, research, service and pharmacy practice. We value responsibility, compassion, respect, and integrity in all endeavors.

Learning Outcomes

The University of Wyoming adheres to the American Association of Colleges of Pharmacy Center for Advancement of Pharmaceutical Education (CAPE) educational outcomes 2013. This multipage document (and its supplements) can be accessed at www.aacp.org. The school has outlined student/curriculum learning outcomes; these are available on the school website.

Student/Faculty Relations

The faculty and staff at the School of Pharmacy treat students as adults and expect appropriate behavior as beginning professionals. The School of Pharmacy recognizes that the profession of pharmacy demands of its members the utmost degree of professional competence, ethical behavior, and integrity. Upon enrolling at the University of Wyoming SOP and at the start of each academic year, all students will sign a pledge acknowledging that they have received and read the current Honor Code and that they have made a personal commitment to uphold the code and abide by its principles. Similarly, the School of Pharmacy Professionalism Policy for faculty and staff is built on the foundation of respect for others, personal responsibility, the creation and maintenance of trust, and honesty and truthfulness. The administration, faculty, staff, students, and alumni of the School of Pharmacy at the University of Wyoming should strive to set an example of ethical leadership and professional behavior as those traits are essential for good social and business interactions.

Accreditation and Membership

In Wyoming, as in most other states, one requirement for examination and registration as a pharmacist is graduation from an accredited entry-level professional program at a school or college of pharmacy. The Accreditation Council for Pharmacy Education (ACPE), the national accrediting agency for pharmacy, accredits pharmacy degree programs.

The Doctor of Pharmacy program at UW was most recently accredited in 2020 following an on-site evaluation by the ACPE in October 2020. Verification of current accreditation status may be made by: a) contacting the Dean's Office, School of Pharmacy; b) connecting to www.uwyo.edu/pharmacy/; c) contacting the Accreditation Council for Pharmacy Education (190 South LaSalle Street, suite 2850 Chicago IL 60603, (312) 664-3575; cinfo@acpe-accredit.org) or d) by checking the latest Annual Directory of Accredited Professional Programs published by ACPE.

The school is a member of the American Association of Colleges of Pharmacy and adheres to its educational standards.

Preprofessional Program and Requirements

Applicants for the professional program in pharmacy must complete preprofessional requirements before they can be admitted. Usually, two academic years totaling 72 credit hours (which may include summer and J-Term semesters) is required to complete preprofessional requirements.

All preprofessional coursework must be completed by the end of the spring semester prior to matriculation in the professional program.

Graduates of fully accredited high schools may be admitted to the preprofessional program with a math placement score of 3 or an ACT math score of 23.

Preprofessional Program (PPCY)

Required Curriculum

- CHEM1020 - General Chemistry I Credits: 4
- CHEM1030 - General Chemistry II Credits: 4
- LIFE1010 - General Biology Credits: 4
- LIFE2022 - Animal Biology Credits: 4
- MATH2200 - Calculus I Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM2440 - Organic Chemistry II Credits: 4
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- MOLB2021 - General Microbiology Credits: 4
- MOLB3610 - Principles of Biochemistry Credits: 4
- ZOO3115 - Human Systems Physiology Credits: 4
- General Electives (6 credits total)

USP Requirement

Students entering the university in the preprofessional program must fulfill University Studies Program (USP) requirements. The School of Pharmacy is committed to ensuring graduates are educated individuals with a broad general education as well as professional knowledge and skills. This general education component is achieved by completion of the University Studies Program requirement. The USP-C3 requirement is fulfilled in the professional doctoral program. Each student, both professional and preprofessional, is assigned an adviser to assist him or her in making appropriate academic choices.

Professional Doctoral Program

Admission

Admission to the professional program leading to the entry-level Pharm. D. degree is limited to 52 students per year and is highly competitive. Admission is granted by the School of Pharmacy Dean upon the advice of the School of Pharmacy Admissions Committee. Students can apply to the professional program as freshman via the Pharmacy Early Assurance program. All students applying to the UW School of Pharmacy must use the PharmCAS application (www.pharmcas.org) process. All materials (PCAT scores, and Letters of Recommendation) are submitted to UW using this service. The School of Pharmacy requires no supplemental application. Students granted admission to the professional program will have to pay a one-time, non-refundable, seat fee to guarantee their placement into the entering class. In addition students will be required to complete any immunizations necessary for experiential rotations. As part of a College of Health Sciences requirement students are also expected to complete and pass a background check prior to final admission to the professional program.

Students must meet, with or without accommodation, specified requirements. The School of Pharmacy's Technical Standards can be found at http://www.uwyo.edu/pharmacy/_files/documents/admin/uwsop-technical-stds-3-2013.pdf.

The School of Pharmacy provides opportunities to ensure that our students have co-curricular experiences in both our didactic and experiential program. Providing options for students that are co-curricular allows students to choose activities that interest them and will allow them to grow as future health professionals. A portion of co-curricular activities throughout the degree program will be required and assessed.

Students at the University of Wyoming SOP are immersed in interprofessional education opportunities during all years of the professional program. Interprofessional education provides experiences for Pharm.D. students to collaborate and share knowledge with learners in other health sciences disciplines, which fosters readiness for working in team-based care environments in their future careers.

Program of Study

Requirements for Graduation

The degree of Doctor of Pharmacy (Pharm.D.) is granted upon satisfactory completion of 146 hours in the professional curriculum in accordance to the school's academic standards and the fulfillment of the general university requirements. Transfer students who have previous professional pharmacy credits accepted as partial completion of residence work may not earn a degree from this university for less than 30 semester hours of resident credit in the professional program of this School of Pharmacy over a minimum of two resident semesters.

Graduation with Honors

The University of Wyoming School of Pharmacy is authorized to grant honors for academic excellence. A Doctor of Pharmacy with honors designation is awarded by the University of Wyoming to students who graduate with exceptional scholarship in Pharmacy.

Exceptional scholarship in pharmacy is defined as a student who is on track to graduate with their class from the University of Wyoming School of Pharmacy and is in the top 5% of their class based on their pharmacy GPA (as assessed at the end of the fall semester of the P4 year). The Pharmacy GPA is calculated on the basis of required professional pharmacy curriculum coursework and excludes required or selected elective hours. The honors distinction must be approved by a School of Pharmacy faculty vote.

Academic Honesty and Professional Conduct

Students admitted to the professional program are required to participate and sign the University of Wyoming School of Pharmacy Honor Code. Failure to sign the honor code will result in a withdrawal of admission offer or termination from the professional program.

Academic Standards for Progression and Graduation

The course of study in the School of Pharmacy (SOP) is four academic years leading to a Doctor of Pharmacy degree (PharmD). The required professional coursework is organized in a prescribed, non-negotiable, sequential manner. All students have a P-designation identifying their year in the program (P1, P2, P3, P4). Required professional courses (PHCY courses) from any national or international pharmacy programs will not be applied to the UW PharmD degree. The student may petition that coursework to be applied to the program but must replace those credit hours with additional elective courses. Courses taken as S/U, including electives, are usually considered unacceptable in fulfilling program requirements. Auditing courses for the PharmD degree is not allowed.

The academic standards herein described are expected to be followed by all students admitted to the professional program. Any violation will constitute grounds for probation or termination from the professional program and will delay progression towards advanced coursework. Probation is a period of time in which the student is allowed to continue in the program under supervision. Students that do not meet academic standards and are placed on probation will have to submit a petition that includes an individualized plan of study for the next semester. This plan must be developed by the student in agreement with and signed by the academic advisor. The petition will be reviewed by the Student Affairs Committee (SAC), which will send a recommendation to the Dean for approval or denial. A leave of absence may be necessary in cases where poor academic performance is due to a medical or personal hardship. The student may appeal sanctions related to violations of the academic standards and decisions that result in probation and termination in the program. Appeals start at the School level, followed by College and University levels, according to policy.

Academic Standards

1. A grade of D or lower, or course withdrawal, in any required course of the professional program constitutes failure to progress toward the PharmD degree and result in probation.
2. A grade of D or lower, in any elective course of the professional program constitutes failure to progress toward the PharmD degree and result in probation.
3. Students must earn a GPA of 2.000 or better in both University coursework and professional program courses each semester and cumulatively.
4. Students must be considered full time with coursework applicable to the pharmacy degree during each semester while in good standing.
5. Incomplete coursework must be completed prior to progression into the next academic semester and will halt progression in experiential coursework.
6. Students who earn a D or lower in any experiential coursework will have their rotation sequence halted.
7. A course taken in the professional pharmacy program course can be repeated only once.
8. A maximum of three required courses are allowed to be repeated during the degree program.
9. Failure to meet any academic standards for two semesters (not necessarily consecutive) in didactic and/or experiential coursework results in automatic termination from the professional program.
10. Failure of two experiential courses, not necessarily consecutive, results in termination from the professional program.

Elective Credits Policy

The purpose of electives at the School of Pharmacy (SOP) is to complement the pharmacy curriculum, expand knowledge within a specific pharmacy discipline and to ensure completion of the general liberal arts education of the University of Wyoming. Therefore, the following policies have been approved by the faculty for the Doctor of Pharmacy professional program (hereafter, Program).

1. As published in the University Catalog and SOP students are required to complete a minimum number of electives, specific for the student's year of matriculation into the Program. This number may vary and may be modified as adjustments are made to the professional curriculum to comply with accreditation standards. Students will be made aware of this number during initial orientation into the Program and kept informed of any changes during their stay in the academic program.
2. Students must take elective courses to satisfy first the requirements of the University Studies Program (hereafter, USP) and then complete the remaining required elective credits as general elective coursework (Program-approved required number of elective hours).
3. Students are required to complete all USP requirements even if they exceed the minimum number of elective hours initially defined in their Program in order to graduate from UW.
4. Transfer or online courses from other accredited institutions may be honored as elective credits toward the Program. Students are solely responsible to have all transcripts from other schools sent to the University and make sure that the Director of Student Services and advisors are aware of any transfer work in the professional program.

5. All required hours (including electives) must be completed by students before progressing into the P4 rotation year. Students will not be allowed to progress toward the 4th year rotations if university studies requirements were not fulfilled.
6. Students shall not take electives as Satisfactory/ Unsatisfactory (S/U) credit.
7. All courses taken in the preprofessional program or to fulfill requirements in a previous degree cannot be retaken to count as elective hours in the Program. In addition, students cannot use previously taken credit (prior to the professional program) as elective credit in the professional program.
8. Credit by exam through the Foreign Languages Dept. will not be accepted as fulfillment of elective requirements in the Program. However, it is a student's right to earn credit by exam for Wyoming History and Government, while receiving elective credits toward the Program and fulfilling USP requirements.
9. For procedures and handling of all exceptions to these policies, the students should consult the student handbook, the pharmacy student Share Point site, the SOP website, or check with the Director of Pharmacy Student Services or the Associate Dean of Students.

Curriculum

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change

any provisions or requirement deemed necessary at any time within the student's term of residence. Students should note that classes are usually scheduled Monday through Friday, but may include some evening and weekend coursework.

Required coursework including exams, experiential activities, presentations, etc. may take place outside the scheduled class period.

Pharmacy, Pharm.D.

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree.

In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change any provisions or requirement deemed necessary at any time within the student's term of residence. Students should note that classes are usually scheduled Monday through Friday, but may include some evening and weekend coursework. Required coursework including exams, experiential activities, presentations, etc. may take place outside the scheduled class period.

Required Curriculum

- ZOO4125 - Integrative Physiology Credits: 5
- PHCY6100 - Dose Form Design Credits: 4
- PHCY6106 - Pharmaceutical Calculations Credits: 2
- PHCY6110 - Medicinal and Natural Products Chemistry I Credits: 3
- PHCY6140 - Introduction to Social Administrative Pharmacy Credits: 2
- PHCY6160 - Pharmacist Skills I Credits: 1
- PHCY6102 - Biopharmaceutics and Pharmacokinetics Credits: 4

- PHCY6111 - Medicinal and Natural Products Chemistry II Credits: 3
- PHCY6120 - Advanced Pathophysiology Credits: 3
- PHCY6151 - Pharmacy Practice Credits: 2
- PHCY6152 - Therapeutics I Credits: 3
- PHCY6161 - Pharmacist Skills II Credits: 1
- PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1 Credits: 1
- PHCY6480 - Introduction to Community Pharmacy Practice Credits: 4
- PHCY6482 - Introduction to Hospital Pharmacy Practice Credits: 4
- PHCY6215 - Medicinal and Natural Products Chemistry III Credits: 3
- PHCY6230 - Pharmacology I Credits: 4
- PHCY 6230 - Pharmacology I Discussion Credits: 0
- PHCY6240 - Research and Evaluation Methods in Pharmacy Credits: 3
- PHCY6245 - Patient/Professional Interactions Credits: 3
- PHCY6260 - Pharmacist Skills III Credits: 1
- PHCY6231 - Pharmacology II Credits: 4
- PHCY 6231 - Pharmacology II Discussion Credits: 0
- PHCY6246 - Pharmacy Management, Marketing and Finance Credits: 3
- PHCY6251 - Therapeutics II Credits: 3
- PHCY6261 - Pharmacist Skills IV Credits: 2
- PHCY6270 - Intermediate Pharmacy Practice Experience-IPPE2 Credits: 1
- PHCY6312 - Clinical Toxicology Credits: 3
- PHCY6341 - Pharmacy Practice Law Credits: 3
- PHCY6344 - Pharmacy Ethics Credits: 1
- PHCY6350 - Therapeutics III Credits: 4
- PHCY6357 - Clinical Pharmacokinetics Credits: 2
- PHCY6360 - Pharmacist Skills V Credits: 1
- PHCY6300 - Sterile Products Credits: 2
- PHCY6301 - Sterile Products Laboratory Credits: 1
- PHCY6340 - Health Care Policy and Advocacy Credits: 2
- PHCY6351 - Therapeutics IV Credits: 4
- PHCY6353 - Drug Literature Application Credits: 2
- PHCY6361 - Pharmacist Skills VI Credits: 2
- PHCY6370 - Advanced Pharmacy Practice Experience-IPPE3 Credits: 2
- PHCY6485 - Reflective Learning in Pharmacy Credits: 1
- PHCY6470 - Internal Medicine I Credits: 4
- PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4 (Students complete a second semester of either Internal Medicine or Ambulatory Care)
- PHCY6471 - Internal Medicine II Credits: 4
- PHCY6474 - Ambulatory Pharmacy Care II Credits: 4
- PHCY6481 - Advanced Community Pharmacy Credits: 4
- PHCY6483 - Advanced Institutional Pharmacy Credits: 4
- PHCY6465 - Elective Rotation In: Credits: 4
- PHCY 6485 - Reflective Learning in Pharmacy Credits: 3
- Students complete 7 hours of electives during the P1-P3 year.

Total Hours 146

Fourth Year [PH4]:

Consists of nine experiential rotations of four credit hours each and three reflective learning weeks. Rotations are considered full-time. Students may not enroll in any other coursework concurrent with rotations. Consequently, all other coursework (107 credits) must be satisfactorily completed before enrollment in P4 coursework. Note: Students will be required to live in locations other than Laramie when enrolled in experiential rotations. Responsibility for living cost and travel arrangements associated with experiential rotations rests with the student. Students participating in all experiential activities will be required to have a vehicle or an acceptable approved alternative.

Students must complete the following Core or Required Experiential Rotations (subject to change):

- PHCY6470 - Internal Medicine I Credits: 4
- PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4
- PHCY6471 - Internal Medicine II Credits: 4
- PHCY6474 - Ambulatory Pharmacy Care II Credits: 4
- PHCY6481 - Advanced Community Pharmacy Credits: 4
- PHCY6483 - Advanced Institutional Pharmacy Credits: 4
- Plus 4 Elective Rotations (PHCY 6465)

Graduate Study

The School of Pharmacy offers the Master of Science in Health Services Administration and the Master of Business Administration/Doctor of Pharmacy (M.B.A./Pharm.D.) dual degree.

Health Services Administration, M.S.

The School of Pharmacy offers a Master of Science online degree in health services administration. This degree is geared toward new and mid-career practitioners including pharmacists, nurses, physicians, social workers, and other health care professionals who want to become department directors, patient safety coordinators and/or directors, regulatory compliance officers, clinical research associates, health outcomes researchers or take on leadership roles as advanced practice practitioners.

The program also benefits health care workers in fields such as management positions, pharmaceutical sales representatives, medical science liaisons and pharmacy technician educators as well as new clinical faculty at newly established pharmacy colleges.

Available nationwide the master's program is delivered via a mix of online self-study and online project-based coursework.

The program can be completed in two years of part-time study. Students must travel to the UW Laramie campus for two weekend seminars during the two-year program (based on travel restrictions during the pandemic this was held online). Graduates will be expected to complete 30 credit hours of coursework and pass a comprehensive final exam. Coursework will be completed over five consecutive semesters however students can take up to 6 years to complete the program.

A prospective student should have earned at least a bachelor's degree from a regionally accredited institution. To find out more about the application process please see the following website www.uwyo.edu/pharmacy/online-ms-program or contact the Student Services Office.

MS-HSA Curriculum

Required Coursework for all tracks

PHCY 5040 The Evolution of American Health

PHCY 5041 Health Services Administration Research Methods

PHCY 5042 Statistics for Health Services

PHCY 5043 Empirical Analysis for Health Services Administration

PHCY 5045 Health Services Administration Applied Research

PHCY 5046 Health Services Administration Seminar1 (Initial)

PHCY 5046 Health Services Administration Seminar1 (Final)

Recommended courses for Biopharmaceutical Regulation & Compliance Group tracks

PHCY 5241 Introduction to Biopharmaceutical Regulatory Compliance

PHCY 5242 The Food and Drug Administration

PHCY 5243 The Drug Enforcement Administration

PHCY 5244 State Regulations of Health Professions

PHCY 5245 Medicare and Medicaid

Biopharmaceutical Regulation & Compliance students choose specific tracks which have required courses as well as additional credits from other tracks for electives.

- Specialty Tracks through the Biopharmaceutical Regulatory Compliance Group
 - Biopharmaceutical Regulatory Compliance
 - Healthcare Risk Management
 - Forensic Pharmacy
 - Healthcare Policy Analysis
 - Biopharmaceutical Product Representation
 - Clinical Research Administration
 - Patient Safety Systems
 - Healthcare Security Systems
 - Healthcare Ethics & Equity

Recommended courses for Health Institution Leadership Group

PHCY 5441 Introduction to Health Leadership

PHCY 5442 Healthcare Financial Planning

PHCY 5443 Healthcare Human Capital Plan

PHCY 5444 Healthcare Strategic Innovation

Healthcare

Health Institution Leadership students choose specific tracks which have required courses as well as 9 additional credits from other tracks or electives.

- Specialty Tracks through the Health Institution Leadership Group

- Health Institution Leadership
- Health Economics & Outcomes
- Healthcare Quality & Improvement
- Rural Healthcare Coordination
- Geriatric Care Systems
- Healthcare Entrepreneurism
- Healthcare Financing
- Health Information Technology
- Healthcare Writing and Reporting

Optional electives for all programs

(Students can also choose to take a required course from a different track as an elective) Other courses as approved by advisor. Students can choose from other tracks or electives to maximize their interests and knowledge .A total of 30 credits are required for graduation

PHCY 5044 Preventing Fraud/Waste/Abuse

PHCY 5145 PBM Decisions

PHCY 5148 Health Economics and Policy

PHCY 5160 Graduate Problems Course

PHCY 5245 Medicare and Medicaid

PHCY 5246 Prescription Drug Costs

PHCY 5342 Healthcare Risk and Quality

PHCY Healthcare Information Systems

PHCY Biomedical Ethics

PHCY Epidemiology

Medical Laboratory Science

Aley Hall, UW-Casper, (307) 268-2753

FAX: (307) 268-2416

Web site: www.uwyo.edu/pharmacy/mls-program/index.html

Director: Jed M. Doxtater, MS MLS (ASCP)^{CM}

Assistant Clinical Faculty:

JED M. DOXTATER, B.S. University of Montana 2007; M.S. University of North Dakota 2013; Assistant Clinical Faculty of Medical Laboratory Science 2015.

Assistant Lecturer

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Mission and Goals

The mission of the Bachelor of Science in Medical Laboratory Science program at the University of Wyoming-Casper is to educate, train, and produce highly competent, ethical professionals who are committed to lifelong learning. Curriculum is designed to prepare students to meet current and future workplace challenges and technological advancements in the profession.

Program Goals

1. Provide education in accordance with the National Accrediting Agency for clinical Laboratory Sciences (NAACLS) standards for Medical Laboratory Science programs.
2. Provide students with adequate knowledge and background experience to successfully complete the national certification examination appropriate to their level of training.
3. Provide opportunity for students to develop skills in effective communication sufficient to serve the needs of patients, public, and other healthcare professionals.
4. Graduate well qualified Medical Laboratory Scientists who can function at a career entry level, and are prepared to meet the workforce needs of the state of Wyoming and the nation.
5. Provide students with professional role models so that they may develop and practice professional behaviors, attitudes and ethics necessary to work in, and promote the field of Medical Laboratory Science.
6. Periodically undergo program review to meet the diverse educational needs of students, accreditation standards and industry demands for qualified, skilled entry level practitioners.
7. Establish an advisory board of professionals, community partners and stakeholders for program development, evaluation and improvement.
8. Promote membership and active participation in professional societies.

Outcomes

Description of Entry Level Competencies of the Medical Laboratory Scientist

At entry level, the medical laboratory scientist will possess the entry level competencies necessary to perform the full range of clinical laboratory tests in areas such as Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology/Transfusion medicine, Microbiology, Urine and Body Fluid Analysis and Laboratory Operations, and other emerging diagnostics, and will play a role in the development and evaluation of test systems and interpretive algorithms.

The medical laboratory scientist will have diverse responsibilities in areas of analysis and clinical decision making, regulatory compliance with applicable regulations, education, and quality assurance/performance improvement wherever laboratory testing is researched, developed or performed.

At entry level, the medical laboratory scientist will have the following basic knowledge and skills in:

- Application of safety and governmental regulations and standards as applied to clinical laboratory science;
- Principles and practices of professional conduct and the significance of continuing professional development;
- Communications sufficient to serve the needs of patients, the public and members of the health care team;
- Principles and practices of administration and supervision as applied to clinical laboratory science;
- Educational methodologies and terminology sufficient to train/educate users and providers of laboratory services;
- Principles and practices of clinical study design, implementation and dissemination of results;

- Theoretical knowledge and technical skills of concepts relating to all content areas required by NAACLS, including Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunochemistry, Microbiology, Urine and Body Fluid Analysis, Laboratory Operations and biohazard and safety.

Accreditation

The Medical Laboratory Science Program at the University of Wyoming is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Accreditation is a process of external peer review in which an agency grants public recognition to a program of study or an institution that meets established qualification and educational standards. Participation in the accreditation process is voluntary since there is not a legal requirement for specialized programs and institutions to participate. However, when students complete a NAACLS accredited program they become eligible to sit for national certification examinations for the profession.

The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is a nonprofit organization that independently accredits medical technologist (MLS), clinical laboratory technician/medical laboratory technician (CLT/MLT), histotechnologist (HTL), histologic technician (HT), pathologists' assistant (Path Asst), diagnostic molecular scientist (DMS) and cytogenetic technology (CT), Phlebotomist (PBT), and clinical assistant (CA) educational programs.

Contract information:

National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018-5119

<http://www.naacls.org>

Prerequisites for Admission to the MLS Professional Program

Students must meet the following minimum criteria to be considered for Admitted Major status:

- Completion of the Casper College A.S. degree in MLT within 5 years or B.S. degree in a related science.
- Minimum grade point average (GPA) of 2.000 on all course work transferred into the University of Wyoming at Casper from other academic institutions.
- Successful completion of the Medical Laboratory Technician BOC exam is preferred. Students that have not completed the BOC may be admitted with MLS program directors approval.
- Students admitted to the program that do not hold an A.S. in MLT or a B.S. in a related science may be required to complete the University of Wyoming University Studies program in addition to the basic requirements for the Bachelor of Science in Medical Laboratory Science degree. See the current requirements at <http://www.uwyo.edu/unst/>

Applying for Admission to MLS Professional Program

Students may enter the MLS professional program in the fall or spring semester of their junior year. Application for the program must be submitted to the MLS program director before finals week of the first semester the student has declared the MLS major and is enrolled in a MLS course.

Prior to participating in the enrichment experiences, students will be subject to that agency's requirements for a background check, drug testing and/or drug abuse prevention policies. Students are then subject to the random drug testing policy of that agency. These background checks are routinely required by schools, hospitals, and other agencies that participate in on-site training. Background check should be obtained from Viewpoint screening (<https://www.viewpointscreening.com/uwyo>). The Casper College MLT background check is a valid substitute if final semester of MLS program falls within 1 year of check.

After completion and submission of the program application, the student must schedule an interview with the program director for an evaluation for acceptance to the MLS program. Interviews must be completed before the student enrolls in the succeeding

semester of coursework. It is the students' responsibility to complete and submit applications, and to schedule an interview with the MLS program director by the due dates.

Students are required to complete an observational enrichment experience during the final MLS semester. This observational experience is designed to demonstrate advanced concepts and topics presented in the MLS curriculum, in a practical setting.

The MLS program will provide documentation requirements, as each site may have different requirements for participation (e.g. vaccination records, HIPPA training, safety training, background check/drug screen etc.). If a student finds an appropriate observational enrichment experience outside of the opportunities available through the MLS program, the student must communicate the site to the MLS program director for approval. It will be the responsibility of the student to arrange the experience with the appropriate site personnel/HR, and program director to ensure all required documentation is provided.

Liability insurance will be required for students entering their senior year coursework. Liability insurance is provided through the University of Wyoming at a cost of \$13.00/year to the student.

Health Requirements: The student must provide proof of health insurance and Hepatitis B vaccination (or declination) to participate in on-campus student laboratory sessions. Hepatitis B vaccinations are available on the UW-C campus at student health, or at the county health department for a small fee. Other health records may be required to participate in enrichment activities including MMR, Tetanus, drug screen, and background check/drug screen.

Essential Functions

Applicants must meet certain essential functions as defined by NAACLS. If you feel that you do not meet these essential functions, careful consideration should be made and advisement received before entering the MLS Program. Essential functions are the abilities and essential functions that a student must be able to perform to be successful in the learning experiences and completion of the program.

Observational Requirements

The MLS student must be able to:

- Observe laboratory demonstrations in which biologicals are tested for their biochemical, hematological, immunological, microbiological, and histochemical components.
- Characterize the color, odor, clarity, and viscosity of biologicals, reagents or chemical reaction products.
- Employ a clinical grade binocular microscope to discriminate among the structural and color (hue, shading, and intensity) differences of microscopic specimens.
- Read and comprehend text, numbers, and graphs displayed in print and on a video monitor.

Movement Requirements

The MLS student must be able to:

- Move freely and safely about a laboratory.
- Reach laboratory bench-tops and shelves, patients lying in hospital beds or patients seated in specimen collection furniture.
- Travel to numerous clinical laboratory sites for practical experience.
- Perform moderately taxing continuous physical work, often requiring prolonged sitting, over several hours.
- Maneuver phlebotomy and culture acquisition equipment to safely collect valid laboratory specimens from patients.
- Control laboratory equipment (i.e., pipettes, inoculating loops, test tubes) and adjust instruments to perform laboratory procedures.
- Use an electronic keyboard to operate laboratory instruments and to calculate, record, evaluate, and transmit laboratory information.
- Perform fine hand manipulations with dexterity.

Communication Requirements

The MLS student must be able to:

- Read and comprehend technical and professional materials.
- Follow verbal and written instructions in order to correctly and independently perform laboratory test procedures.
- Clearly instruct patients prior to specimen collection.
- Effectively, confidentially and sensitively converse with patients regarding laboratory tests.
- Communicate with faculty members, fellow students, staff, and other health care professionals verbally and in a recorded format.
- Independently prepare papers, prepare laboratory reports, and take paper, computer, and laboratory practical examinations.

Behavioral Requirements

The MLS student must:

- Be able to manage the use of time and be able to systematize actions in order to complete professional and technical tasks within realistic constraints.
- Possess the emotional health necessary to effectively employ intellect and exercise appropriate judgment.
- Be able to provide professional and technical services while experiencing the stresses of task-related uncertainty and a distracting environment.
- Be flexible and creative and adapt to professional and technical change.
- Recognize potentially hazardous materials, equipment, and situation and proceed safely in order to minimize risk of injury to patients, self, and nearby individuals.
- Adapt to working with unpleasant biologicals.
- Support and promote the activities of fellow students and of health care professionals.
- Realize that the promotion of peers helps furnish a team approach to learning, task completion, problem solving and patient care.
- Be honest, compassionate, ethical and responsible.

Request for Accommodation

All students are held to the same academic and technical standards. Applicants/students with disabilities seeking accommodation must discuss their disability and accommodation needs with the University Disability Support Services (udss@uwyo.edu or (307) 766-6189; TTY: (307) 766-3073). If appropriate and upon request and registration of the applicant, a reasonable accommodation will be made consistent with University of Wyoming guidelines.

Medical Laboratory Science, B.S.

The program requires 129 credit hours total, with 60 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Requirements

Lower-Division Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College **and can be taken only through Casper College**. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at: http://www.uwyo.edu/acadaffairs/degree-plans/_files/2p2/cc_uw_medical-laboratory-science_bs.pdf.

- MATH1400 - College Algebra Credits: 3
- LIFE1010 - General Biology Credits: 4 (Casper College equivalent: BIOL 1010)
-
- MICR2021 - General Microbiology Credits: 4
- **OR**
- MOLB2021 - General Microbiology Credits: 4 (Casper College equivalent: MOLB 2210)
-
- CHEM1020 - General Chemistry I Credits: 4 (Casper College equivalent: CHEM 1025 & CHEM 1028)
- CHEM1030 - General Chemistry II Credits: 4
- CHEM2300 - Introductory Organic Chemistry Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- PEAC xxxx: Online Activity Credits: 1
- MLTK 1500 - Hematology Credits: 3
- MLTK 1600 - Clinical Immunohematology Credits: 3
- MLTK 1700 - Microscopy: UA Body Fluids Credits: 2
- MLTK 2600 - Clinical Microbiology I Credits: 2
- MLTK 2500 - Clinical Chemistry Credits: 3
- MLTK 2650 - Clinical Microbiology II Credits: 2
- MLTK 2700 - Immunology Credits: 4
- MLTK 2971 - Clinical Practicum: Hematology Credits: 2
- MLTK 2972 - Clinical Practicum: Chemistry Credits: 2
- MLTK 2973 - Clinical Practicum: Immunohematology Credits: 2
- MLTK 2974 - Clinical Practicum: Microbiology Credits: 2
- MLTK 2976 - Clinical Practicum: Serology Credits: 1
- MLTK 2977 - Clinical Practicum: UA / Body Fluids Credits: 1
- MLTK 2978 - MLT Professionalism Credits: 1
- MLTK 2800 - Clinical Pathophysiology Credits: 4
- MLTK 1800 - Principles of Phlebotomy Credits: 3

One of the Following 3-Credit Options:

- SOC1000 - Sociological Principles Credits: 3
- PSYC1000 - General Psychology Credits: 3
- ANTH1200 - Introduction to Cultural Anthropology Credits: 3 (USP-H)

Upper-Division Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (**All MLSK courses are only available through UW-Casper**):

- LIFE3050 - Genetics Credits: 4
- LIFE3600 - Cell Biology Credits: 4
- MOLB3000 - Introduction to Molecular Biology Credits: 3
- MOLB3610 - Principles of Biochemistry Credits: 4
- Upper-division electives Credits: 7 (consult your academic advisor)
- MLSK4840 - Laboratory Education Methodology Credits: 1
- MLSK4850 - Clinical Research Design Credits: 2
- MLSK4860 - Laboratory Management Credits: 3 (USP-COM3)
- MLSK4870 - Advanced Clinical Chemistry Credits: 4
- MLSK4880 - Advanced Hematology: Erythrocytes Credits: 2
- MLSK4981 - Advanced Clinical Practicum Credits: 3
- MLSK4982 - Advanced Clinical Practicum Credits: 3
- MLSK4983 - Advanced Clinical Practicum Credits: 3
- MLSK4984 - Advanced Clinical Practicum- Microbiology Credits: 3
- MLSK4890 - Professional Career Paths and Review Credits: 2

Upper Division Elective Credit Hours

Seven upper division elective credit hours must be completed in the student's junior or senior year. These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfil this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

Enrichment Rotations and Laboratory Sessions

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the students' responsibility for all travel and housing costs associated with the advanced clinical practicum courses.

Probation

Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Division of Social Work

VALERIE THOMPSON-EBANKS, B.Sc. University of the West Indies 2002; M.S.W. 2007; Ph.D. Colorado State University 2012; Associate Professor of Social Work 2018.

Assistant Professors:

SANDY LEOTTI, B.A. Prescott College 2002; M.S.W. University of Montana 2006; Ph.D. Portland State University 2019; Assistant Professor of Social Work 2019.

SUKYUNG YOON, B.A. Chung-Ang University 2002; M.S.W. Yonsei University 2008; Ph.D. University of Tennessee 2019; Assistant Professor of Social Work 2019.

Assistant Lecturers:

BILLIE CHAPMAN, B.A. University of Wyoming 2005; M.S.W. 2008; Assistant Lecturer of Social Work 2018.

KYM CODALLOS, B.A. California State University, Sacramento 1999; M.S.W. California State University, Stanislaus 2006; M.A. 2011; Assistant Lecturer of Social Work 2018.

GRETA MAXFIELD, B.S. University of Wyoming 1994; M.S.W. Washington University 1999; Assistant Lecturer of Social Work 2019.

Social workers are uniquely qualified to help people in their own environments by looking at different aspects of their lives and cultures. We work to ensure the client's personal well-being, prevent crises, counsel individuals, support families, and strengthen communities. We make sure people get the help they need, with the best resources available.

For more than 100 years, social workers have cared for people in every stage of life. Social workers help others overcome life's most difficult challenges and manage the troubles of everyday living, including the troubles that exist due to poverty, stress, addiction, abuse, unemployment, mental illness, family change, and social violence. Social workers advocate for social justice.

Undergraduate Study

The Division of Social Work prepares students for entry-level generalist social work practice. Two locations offer the social work program: the Laramie campus and the University of Wyoming-Casper campus. Graduates receive a Bachelor of Social Work (BSW) and are prepared to work as generalist social work practitioners with individuals, groups, families, organizations, communities, and institutions to achieve more effective and efficient social functioning.

Our program is accredited by the Council on Social Work Education. The curriculum is designed to help students acquire important knowledge and skills in the areas of values and ethics, diversity, social and economic justice, human behavior and the social environment, social welfare policy and services, social work practice, and research. A competency-based curriculum prepares students to meet an "initial level" of competence in nine core areas (CSWE, 2015). Students also select elective courses in areas such as aging, child and adolescent services, health and mental health, and disability services. The program culminates in a 450-hour supervised field practicum, which allows students to work as social workers in one of Wyoming's many human service agencies.

Social Work Major

Social work is a professional degree program. Prior to admission to the professional degree program, students who are working to complete program prerequisites and most University Studies courses are "Social Work-Pre-Admit" majors. Students must be accepted into the BSW program as an admitted "Social Work" major in order to proceed in the program and enroll in professional degree courses beginning in the fall semester (usually of the junior year). Application for Admitted Major status are due in the middle of the Spring semester or in the middle of the Fall semester. Students should apply during the semester they are completing all social work prerequisite courses. Acceptance to Admitted Major (professional degree program) is competitive and requires an application. Please see application requirements on the Division of Social Work website. Students accepted into the professional degree program are expected to complete their degree in a timely manner. Students who have not completed social work classes for one year or more must reapply for Admitted Major and submit a plan for readiness to continue in the social work degree program. A plan may include, but is not limited to, repeating or auditing a course taken at an earlier point in the student's academic experience, completing an independent study that may provide updated social work content for the student, demonstrating knowledge or practice skills. Readmission is not guaranteed.

Criteria for Admission as an Admitted Major

The admissions process is competitive. Students must meet the following minimum criteria to be considered for Admitted Major status.

1. Students must earn a minimum grade point average (GPA) of 2.500 on all UW course work as well as all course work transferred into the University of Wyoming from other academic institutions.
2. Complete the following prerequisites: a. SOC 1000 b. PSYC 1000 c. POLS 1000 d. SOWK 2000 e. Human Biology (KIN/ZOO 2040 or PSYC 2080) f. STAT 2070 g. ECON 1010
3. Students must earn a grade of C or higher in all SOWK prerequisite classes.
4. Students must adhere to the UW Student Code of Conduct and the NASW Code of Ethics.
5. Students cannot exhibit behavior that will impinge on the student's present or future ability to fulfill professional responsibilities as a social work professional.
6. All students seeking admission to programs in the College of Health Sciences are required to undergo a background check as specified by college policy. Criminal convictions may result in rejection of the candidate for admission to Admitted Major.
7. Students must submit an application and an application fee. (See UW Fee Book)
8. Applicants to the social work program cannot receive credit for life experience.

Requirements for Admitted Majors

Once admitted, social work students must:

1. Achieve a C or better in all social work courses, including six hours of required social work electives.
2. Social work classes are offered and must be completed in sequential order.
3. Maintain a 2.500 or above GPA overall every semester after admittance to Admitted Major.
4. Maintain a 2.500 or above GPA overall in all social work course work every semester after admittance to Admitted Major.
5. Registration is restricted and students must meet with their advisor each semester for enrollment.
6. Complete SOWK 4990 with a satisfactory grade.
7. Students must adhere to the UW Student Code of Conduct and the NASW Code of Ethics.

Individuals failing to meet any of the above requirements will be reviewed by faculty and one of the following actions may be taken: remediation, probation, sanction, and/or dismissal from the program. Because many social work courses have prerequisite requirements, receiving a grade lower than a C in a social work course may prevent the individual from moving forward in the social work program.

BSW Field Practicum

All students complete a 450-hour (10 credit hours) field practicum experience in a community-based social agency or social program. Field practicum sites exist throughout the state of Wyoming and students may be placed outside Laramie. Students apply for this program the semester before their actual placement. Students must complete a Field Placement Application and meet with the Field Coordinator prior to determining a practicum site (please review Field Practicum Manual). Background checks and drug screenings may be required by some agencies even though the College of Health Sciences has received a background check during admission to the major.

For the practicum, a grade of U is interpreted as performing below expectations and will not be considered satisfactory completion of the practicum, hence of the BSW program. Based on input from the student, the field instructor, and the faculty liaison during the field evaluation, the field coordinator will determine what remediation would be required. The plan will clarify course objectives and professional skills upon which the student needs to improve. A student wishing to continue in the program would need to reapply for a field placement. Upon the field committee's approval of the request for placement, the student may then repeat the practicum experience. Consistent with University policy, the most recent grade would be the grade calculated into the GPA. The grade of U is interpreted as not meeting minimal requirements of the course; failure to complete the minimum clock hours in the field placement; failure to complete written assignments in a satisfactory manner; violation of one or more of the tenets of the NASW Code of Ethics (see Appendix B and Termination of Practicum section in the practicum manual); and/or failure to withdraw formally or to terminate the course. A student receiving a U in the practicum will be automatically dismissed from the BSW program with no opportunity to reapply or re-enter. Grades and dismissals may be appealed. (See most current BSW Student Handbook for appeal procedures.)

Requirements for Graduation

The program requires 120 credit hours to graduate. Students must have completed all social work requirements, 42 upper-division hours, maintain a 2.500 GPA overall, a 2.500 GPA in social work coursework, and have achieved a grade of C or better in all social work courses. Courses must be taken for a letter grade unless offered for S/U only. USP H and PN courses must be taken outside the major subject but can be cross listed with the major.

BSW Curriculum

See the 4-year degree plan at: <https://www.uwyo.edu/acadaffairs/degree-plans/uw-4-year-plans/health-sciences/>

Prerequisites for admission into the BSW program includes a C or higher in the following courses:

SOC 1000: Sociological Principles.....	3
PSYC 1000: General Psychology.....	3
POLS 1000: American and Wyoming Government.....	3
SOWK 2000: Introduction to Social Work.....	3
Human Biology	3 (KIN 2040: Human Anatomy or PSYC 2080: Biological Psychology)*
STAT 2070: Introduction to Statistics for the Social Sciences.....	4
ECON 1010: Principles of Macroeconomics.....	3

* This requires a prerequisite general biology course, usually LIFE 1003: Current Issues in Biology 4.

Below are suggested lower-division electives that can be taken before admission into the BSW program. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.

SPAN 1010: First Year Spanish I.....	4 (USP-H)
SPAN 1020: First Year Spanish II.....	4
RELI 1000: Introduction to Religion.....	3
WIND 2100: Introduction to Disability Studies	3
SOC 2350: Race and Ethnic Relations.....	3

Suggested upper-division electives (consult with your advisor):

FCSC 3110: Personal Finance	3
FCSC 4112: Family Decision and Resource Management.....	3

Required courses after admission into the BSW program:

SOWK 3530: Human Behavior and the Social Environment I	3
SOWK 3630: Generalist Social Work Practice I: Individuals and Families.....	3
SOWK 3645: Ethical Social Work Practice.....	3
SOWK 4060: Diversity and Difference in Social Work Practice.....	3
SOWK 3540: Human Behavior and the Social Environment II.....	3
SOWK 3640: Generalist Social Work Practice II: Groups.....	3

SOWK 3650: Generalist Social Work Practice III: Communities and Organizations.....	3
SOWK 4850: Human Rights, Social Justice and Social Policy.....	3
SOWK 4560: Social Work Research	3
SOWK 4990: Social Work Practicum.....	5 (5 credits each semester of final year)
SOWK 4991: BSW Field Seminar I.....	2
SOWK 4570: Research-Informed Practice ..3 (USP-COM3)	
SOWK 4992: BSW Field Seminar II.....	2
Social Work electives	6 selected with advisor consultation

Graduate Study

The Master of Social Work (MSW) prepares professional social workers for advanced level social work practice and leadership positions in frontier and rural human service environments. The Advanced Generalist MSW program is accredited by the Council on Social Work Education. The MSW program graduates advanced integrated practitioners who work within and negotiate complex multi-dimensional problem settings for both clients and practitioners while embracing the profession's values of service, social justice, dignity and worth of the person, importance of human relationships, integrity, competence, human rights, and scientific inquiry. The MSW is a full time, campus-based hybrid program that utilizes different course delivery methods to accommodate its widespread student population.

Certificate Program

School Social Work

See website for details and course requirements.

Graduate Admissions Requirements

The Division of Social Work's Graduate Admissions Committee bases recommendations on review of all application materials (applicant's grades, personal statement, academic essay, professional references, and any related social service experience) as they reflect the applicant's commitment to social work, social and economic justice, values and ethics of the social work profession, and applicant's potential as a graduate student, social work practitioner, colleague and leader in the social work field. The Committee also looks for the intangible qualities that an applicant brings to the classroom and campus environment and to professional social work.

Once the committee recommends admission of an applicant, the Office of Admissions in Academic Affairs makes the final decision of admission.

Requirements for the Standard MSW Program

- A baccalaureate degree from an accredited college or university that reflects a broad liberal arts preparation. This consists of having completed at least 21 credit hours in social and behavioral sciences and 6 credit hours each in natural sciences, humanities, visual and performing arts, and quantitative reasoning;
- A human biology course (beyond introductory biology), receiving a grade of C or better;

- A statistics course, receiving a grade of C or better;
- An undergraduate cumulative grade point average (GPA) of 3.000 or above on a 4-point scale.

Requirements for the Advanced Standing MSW Program

- A bachelor's degree in Social Work from a Council on Social Work Education accredited social work program;
- An undergraduate social work GPA of 3.250 or above;
- An overall undergraduate GPA of 3.000 or above;
- Received a B or better and/or a Satisfactory grade in BSW Field Education Practicum.

*International students have special requirements for admission to UW. All are encouraged to contact the International Students and Scholars Office for details before applying.

All Applicants

All applicants will be evaluated on:

- a. Intellectual and personal qualities essential to successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity and integrity;
- b. Commitment to social justice and equality;
- c. Written and verbal communication skills;
- d. Professional references; and
- e. Compatibility of career goals with the MSW program's advanced generalist perspective.

All applicants meeting minimum criteria will be considered for admission. Admitted applicants will be required to complete a criminal background check through College of Health Sciences.

Program Specific Degree Requirements

All incoming students enter the MSW program in the summer semester of their first year, completing introductory and/or bridge courses as needed for their specific program phase. The MSW program is divided into two levels: generalist and advanced generalist. The generalist year of the MSW program prepares students without a BSW degree for the advanced generalist curriculum in the second year. Students who have already obtained the BSW degree may apply for Advanced Generalist in the MSW program. These students complete only the second-year courses.

Master of Social Work Field Practicum

All students, regardless of status, participate in a field practicum experience, starting in their first fall semester. New students submit an initial application for placement during their first summer of classes.

Foundation students will complete 900 hours in practicum over the course of their two years of study, 400 and 500 hours respectively. Advanced Standing students will complete 500 hours in their one year of study. All students in practicum will take a corresponding field seminar class each semester.

Grading is done as Satisfactory/Unsatisfactory. Receiving a grade of U is considered a failing grade and can result in termination from the practicum. If the practicum is terminated, the student may be offered a remediation plan to retake the required hours. This opportunity is only offered one time. The student may also be referred to the DOSW faculty for review according to the Student Academic and Professional Performance policy.

Specific information and procedures relating to all aspects of the field practicum experience can be found in the Field Practicum Manual located on the Division of Social Work's website.

Master of Social Work Plan A - Thesis

Students complete all SOWK required courses except SOWK 5755.

Plan A students register for SOWK 5960 Thesis Research.

Students registering for the Plan A option are required to carry out original research. Thesis proposal defense, thesis implementation, and final defense are required.

Plan A students may write a monograph fully detailing their research or a publishable peer-refereed journal article, determined in consultation with the student's Research Chair and in accordance with the UW Thesis requirements.

The thesis requires a minimum of 4 credit hours, usually taken as 2 credits in the fall semester and 2 credits in the spring of advanced year.

Plan B - Practice Evaluation

Students complete all SOWK required courses except SOWK 5960. Plan B students register for SOWK 5755. Students registering for the Plan B option complete a professional portfolio their advanced year in consultation with their chair. A final written paper with oral defense is required.

The SOWK 5755 portfolio project requires a minimum of 2 credit hours, usually taken as 1 credit in the fall semester and 1 credit in the spring of the advanced year.

Web site: www.uwyo.edu/wind

Executive Director: Sandra Root-Elledge, M.A.

Senior Lecturer:

SANDRA ROOT-ELLEDDGE, B.S. University of Wyoming 2001; M.A. 2003; Senior Lecturer, 2018, 2009, 2004.

Associate Professor:

MICHELLE JARMAN, B.A. University of California at Berkeley 1989; M.A. Northern Michigan University 2000; Ph.D. University of Illinois at Chicago 2006; Associate Professor of Disability Studies 2014, 2007.

Research Faculty:

ERIC J. MOODY, B.S. Pacific Lutheran University 1998; M.A. University of Denver 2004; Ph.D. 2007; Postdoc University of Colorado School of Medicine 2011; Research Professor, Director of Research and Evaluation 2018.

Associate Lecturers:

CANYON HARDESTY, B.S. University of Wyoming 2004; M.S. 2007; M.S. Creighton University 2011; Associate Lecturer 2018, 2013.

Assistant Lecturers:

ETHAN DAHL, B.A. Minnesota State University Moorhead 2012; M.A. Ball State University 2014; Ph.D. Texas Tech University 2018; Assistant Lecturer 2018.

ALISON QUAGGIN HARKIN, B.A. University of Toronto 1981; M.A. Athabasca University 2010; Assistant Lecturer 2014.

TERRI WOFFORD, B.S. University of Central Florida 1994; M.S. East Tennessee State University 1998; Assistant Lecturer 2017.

The Wyoming Institute for Disabilities (WIND) is part of a national network of University Centers of Excellence in Developmental Disabilities Education, Research and Service (UCEDD). These centers provide a broad array of interdisciplinary academic, clinical, and research experiences of people with disabilities-particularly developmental disabilities. A wide variety of disciplines contribute to the study of disabilities.

WIND offers a Disability Studies Minor which investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. The undergraduate minor in disability studies examines disability issues from multiple lenses, and draws specifically from social sciences, humanities, and health sciences.

Disability studies has an ethical commitment to place the interests and voices of people with disabilities at the center of our curricula and training activities. The minor balances theoretical exploration with practical application, and provides students with a vibrant understanding of disability history, cultural representation, policy concerns, and current debates. Ultimately, students in the minor will work closely with people with disabilities, and gain the skills and perspectives to participate in unique disability research and advocacy.

Medical Laboratory Science

Aley Hall, UW-Casper, (307) 268-2753

FAX: (307) 268-2416

Director: Jed M. Doxtater, MS MLS (ASCP)

Assistant Clinical Faculty:

JED M. DOXTATER, B.S. University of Montana 2007; M.S. University of North Dakota 2013; Assistant Clinical Faculty of Medical Laboratory Science 2015.

Assistant Lecturer:

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Mission and Goals

The mission of the Bachelor of Science in Medical Laboratory Science program at the University of Wyoming-Casper is to educate, train, and produce highly competent, ethical professionals who are committed to lifelong learning. Curriculum is designed to prepare students to meet current and future workplace challenges and technological advancements in the profession.

Program Goals

1. Provide education in accordance with the National Accrediting Agency for clinical Laboratory Sciences (NAACLS) standards for Medical Laboratory Science programs.
2. Provide students with adequate knowledge and background experience to successfully complete the national certification examination appropriate to their level of training.
3. Provide opportunity for students to develop skills in effective communication sufficient to serve the needs of patients, public, and other healthcare professionals.
4. Graduate well qualified Medical Laboratory Scientists who can function at a career entry level, and are prepared to meet the workforce needs of the state of Wyoming and the nation.
5. Provide students with professional role models so that they may develop and practice professional behaviors, attitudes and ethics necessary to work in, and promote the field of Medical Laboratory Science.
6. Periodically undergo program review to meet the diverse educational needs of students, accreditation standards and industry demands for qualified, skilled entry level practitioners.
7. Establish an advisory board of professionals, community partners and stakeholders for program development, evaluation and improvement.
8. Promote membership and active participation in professional societies.

Outcomes

Description of Entry Level Competencies of the Medical Laboratory Scientist

At entry level, the medical laboratory scientist will possess the entry level competencies necessary to perform the full range of clinical laboratory tests in areas such as Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology/Transfusion medicine, Microbiology, Urine and Body Fluid Analysis and Laboratory Operations, and other emerging diagnostics, and will play a role in the development and evaluation of test systems and interpretive algorithms.

The medical laboratory scientist will have diverse responsibilities in areas of analysis and clinical decision making, regulatory compliance with applicable regulations, education, and quality assurance/performance improvement wherever laboratory testing is researched, developed or performed.

At entry level, the medical laboratory scientist will have the following basic knowledge and skills in:

- Application of safety and governmental regulations and standards as applied to clinical laboratory science;

- Principles and practices of professional conduct and the significance of continuing professional development;
- Communications sufficient to serve the needs of patients, the public and members of the health care team;
- Principles and practices of administration and supervision as applied to clinical laboratory science;
- Educational methodologies and terminology sufficient to train/ educate users and providers of laboratory services;
- Principles and practices of clinical study design, implementation and dissemination of results;
- Theoretical knowledge and technical skills of concepts relating to all content areas required by NAACLS, including Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology, Microbiology, Urine and Body Fluid Analysis, Laboratory Operations and biohazard and safety

Accreditation

The Medical Laboratory Science Program at the University of Wyoming is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Accreditation is a process of external peer review in which an agency grants public recognition to a program of study or an institution that meets established qualification and educational standards. Participation in the accreditation process is voluntary since there is not a legal requirement for specialized programs and institutions to participate. However, when students complete a NAACLS accredited program they become eligible to sit for national certification examinations for the profession. The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is a nonprofit organization that independently accredits medical technologist (MLS), clinical laboratory technician/medical laboratory technician (CLT/MLT), histotechnologist (HTL), histologic technician (HT), pathologists' assistant (Path Asst), diagnostic molecular scientist (DMS) and cytogenetic technology (CT), Phlebotomist (PBT), and clinical assistant (CA) educational programs. *Contract information:* National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018-5119 <http://www.naacls.org>

Prerequisites for Admission to the MLS Professional Program

Students must meet the following minimum criteria to be considered for Admitted Major status:

- Completion of the Casper College A.S. degree in MLT within 5 years or B.S. degree in a related science.
- Minimum grade point average (GPA) of 2.000 on all course work transferred into the University of Wyoming at Casper from other academic institutions.
- Successful completion of the Medical Laboratory Technician BOC exam is preferred. Students that have not completed the BOC may be admitted with MLS program directors approval.
- Students admitted to the program that do not hold an A.S. in MLT or a B.S. in a related science may be required to complete the University of Wyoming University Studies program in addition to the basic requirements for the Bachelor of Science in Medical Laboratory

Science degree.

See the current requirements at <http://www.uwyo.edu/unst/>

Applying for Admission to MLS Professional Program

Students may enter the MLS professional program in the fall or spring semester of their junior year. Application for the program must be submitted to the MLS program director before finals week of the first semester the student has declared the MLS major and is enrolled in a MLS course. Prior to participating in the enrichment experiences, students will be subject to that agency's requirements for a background check, drug testing and/or drug abuse prevention policies. Students are then subject to the random drug testing policy of that agency. These background checks are routinely required by schools, hospitals, and other agencies that participate in on-site training. Background check should be obtained from Viewpoint screening (<https://www.viewpointscreening.com/uwyo>). The Casper College MLT background check is a valid substitute if final semester of MLS program falls within 1 year of check.

After completion and submission of the program application, the student must schedule an interview with the program director for an evaluation for acceptance to the MLS program. Interviews must be completed before the student enrolls in the succeeding semester of coursework. It is the students' responsibility to complete and submit applications, and to schedule an interview with the MLS program director by the due dates.

Students are required to complete an observational enrichment experience during the final MLS semester. This observational experience is designed to demonstrate advanced concepts and topics presented in the MLS curriculum, in a practical setting.

The MLS program will provide documentation requirements, as each site may have different requirements for participation (e.g. vaccination records, HIPPA training, safety training, background check/drug screen etc.). If a student finds an appropriate observational enrichment experience outside of the opportunities available through the MLS program, the student must communicate the site to the MLS program director for approval. It will be the responsibility of the student to arrange the experience with the appropriate site personnel/HR, and program director to ensure all required documentation is provided. Liability insurance will be required for students entering their senior year coursework. Liability insurance is provided through the University of Wyoming at a cost of \$13.00/ year to the student. Health Requirements: The student must provide proof of health insurance and Hepatitis B vaccination (or declination) to participate in on-campus student laboratory sessions. Hepatitis B vaccinations are available on the UW-C campus at student health, or at the county health department for a small fee. Other health records may be required to participate in enrichment activities including MMR, Tetanus, drug screen, and background check/drug screen.

Essential Functions

Applicants must meet certain essential functions as defined by NAACLS. If you feel that you do not meet these essential functions, careful consideration should be made and advisement received before entering the MLS Program. Essential functions are the abilities and essential functions that a student must be able to perform to be successful in the learning experiences and completion of the program.

Observational Requirements

The MLS student must be able to:

- Observe laboratory demonstrations in which biologicals are tested for their biochemical, hematological, immunological, microbiological, and histochemical components.
- Characterize the color, odor, clarity, and viscosity of biologicals, reagents or chemical reaction products.
- Employ a clinical grade binocular microscope to discriminate among the structural and color (hue, shading, and intensity) differences of microscopic specimens.
- Read and comprehend text, numbers, and graphs displayed in print and on a video monitor.

Movement Requirements

The MLS student must be able to:

- Move freely and safely about a laboratory.
- Reach laboratory bench-tops and shelves, patients lying in hospital beds or patients seated in specimen collection furniture.
- Travel to numerous clinical laboratory sites for practical experience. • Perform moderately taxing continuous physical work, often requiring prolonged sitting, over several hours.
- Maneuver phlebotomy and culture acquisition equipment to safely collect valid laboratory specimens from patients.
- Control laboratory equipment (i.e., pipettes, inoculating loops, test tubes) and adjust instruments to perform laboratory procedures.
- Use an electronic keyboard to operate laboratory instruments and to calculate, record, evaluate, and transmit laboratory information.
- Perform fine hand manipulations with dexterity.

Communication Requirements

The MLS student must be able to:

- Read and comprehend technical and professional materials.
- Follow verbal and written instructions in order to correctly and independently perform laboratory test procedures.
- Clearly instruct patients prior to specimen collection.
- Effectively, confidentially and sensitively converse with patients regarding laboratory tests.
- Communicate with faculty members, fellow students, staff, and other health care professionals verbally and in a recorded format.
- Independently prepare papers, prepare laboratory reports, and take paper, computer, and laboratory practical examinations.

Behavioral Requirements

The MLS student must:

- Be able to manage the use of time and be able to systematize actions in order to complete professional and technical tasks within realistic constraints.
- Possess the emotional health necessary to effectively employ intellect and exercise appropriate judgment.
- Be able to provide professional and technical services while experiencing the stresses of task-related uncertainty and a distracting environment.
- Be flexible and creative and adapt to professional and technical change.
- Recognize potentially hazardous materials, equipment, and situation and proceed safely in order to minimize risk of injury to patients, self, and nearby individuals.
- Adapt to working with unpleasant biologicals.

- Support and promote the activities of fellow students and of health care professionals.
- Realize that the promotion of peers helps furnish a team approach to learning, task completion, problem solving and patient care.
- Be honest, compassionate, ethical and responsible.

Request for Accommodation

All students are held to the same academic and technical standards. Applicants/students with disabilities seeking accommodation must discuss their disability and accommodation needs with the University Disability Support Services (udss@uwyo.edu or (307) 766-6189; TTY: (307) 766-3073). If appropriate and upon request and registration of the applicant, a reasonable accommodation will be made consistent with University of Wyoming guidelines.

Requirements for the Bachelor of Science in Medical Laboratory Science

The program requires 129 credit hours total, with 60 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Lower-Division Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College and can be taken only through Casper College. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at:
http://www.uwyo.edu/acadaffairs/degreeplans/_files/2p2/cc_uw_medical-laboratoryscience_bs.pdf.

MLTK 2976: Clinical Practicum: Serology..	1
MLTK 2977: Clinical Practicum: UA / Body Fluids	1
MLTK 2978: MLT Professionalism.....	1
MLTK 2800: Clinical Pathophysiology.....	4
MLTK 1800: Principles of Phlebotomy	3

Upper-Division Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (**All MLSK courses are only available through UW-Casper.**):

LIFE 3050: Genetics.....	4
LIFE 3600: Cell Biology	4
MOLB 3000: Introduction to Molecular Biology	3
MOLB 3610: Principles of Biochemistry	4
Upper-division electives.....	7
(consult your academic advisor)	
MLSK 4840: Laboratory Education Methodology	1
MLSK 4850: Clinical Research Design.....	2
MLSK 4860: Laboratory Management.....	3
(USP-COM3)	
MLSK 4870: Advanced Clinical Chemistry	4
MLSK 4880: Advanced Hematology: Erythrocytes.....	2
MLSK 4981: Advanced Clinical Practicum: Hematology	3

MLSK 4982: Advanced Clinical Practicum: Molecular	3
MLSK 4983: Advanced Clinical Practicum: Immunohematology	3
MLSK 4984: Advanced Clinical Practicum: Microbiology	3
MLSK 4890: Professional Career Paths and Review	2

Upper Division Elective Credit Hours

Seven upper division elective credit hours must be completed in the student's junior or senior year. These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfil this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

Enrichment Rotations and Laboratory Sessions

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the students' responsibility for all travel and housing costs associated with the advanced clinical practicum courses.

Probation

Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Interdisciplinary Programs

Biomedical Sciences, Ph.D. Program

Office of Graduate Education
 Old Main 310
 Phone: (307) 766-4128
 Website <http://www.uwyo.edu/biomedphd/>
 Email: bms@uwyo.edu

Program Director: Sreejayan Nair, Ph.D.

Degree Offered

Ph.D. in Biomedical Sciences

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.

Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

Program Specific Admission Requirements

1. Minimum requirements. Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

a. Faculty sponsor. Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

b. Official academic transcripts. Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

c. TOEFL/IELTS/Duolingo: The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/ cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency, until further notice.

d. GRE: A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

e. Three letters of recommendation.

f. Statement of research interests and career objectives. A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

g. Current professional resume

2. Application Process. The BMS admissions committee reviews the completed application.

- a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.
- b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.
- c. To ensure full application review for fall semester admission, applications should be received by **February 15**.
- d. Review by BMS Admissions Committee.
- e. Forward application packet with BMS recommendation to the faculty and host department.
- f. Notification of decision to applicant by **May 1**.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors, and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership, and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators.

Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals.

Program in Ecology, Ph.D. Program

Office of Graduate Education
 Old Main 310
 Phone: (307) 766-4128
 Website: <http://www.uwyo.edu/pie/>
 Email: ecology@uwyo.edu

Program Director: Melanie Murphy, Ph.D.

Degree Offered

Ph.D. in Ecology

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from 11 departments and 3 colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

Program Specific Admission Requirements

The Program in Ecology (PiE) is an interdisciplinary graduate program leading to the Doctor of Philosophy degree in Ecology. Students and faculty from multiple departments and colleges at the University of Wyoming participate in the Program. Graduate students admitted to the Program will have a home department, which will typically be the home department of the respective committee chair or co-chair. Those interested in graduate study in this program, are encouraged to contact individual faculty members in the potential student's area of interest (http://www.uwyo.edu/pie/who_we_are/faculty.html) and the Program in Ecology (307-766-4128; ecology@uwyo.edu) for more information and guidance regarding applying.

In order to apply: 1) **Contact:** Identify a faculty advisor (all PiE students **must** be sponsored by a faculty advisor (http://www.uwyo.edu/pie/who_we_are/faculty.html)). These contacts are generally made in the fall the year before submission, but successful contacts may be made later. 2) **Admission to home department:** Apply to the University of Wyoming via the online application system (<http://www.uwyo.edu/admissions/apply.html>): letter of intent, CV, transcripts, and three letters of recommendation. For department, please select the department of the potential advisor. A minimum of three letters of recommendation are required and up to two additional letters may be submitted. A suggested deadline for application is January 31 to be considered for fall admission, but applications will be continued to be considered. A minimum of a 3.0 undergraduate cumulative GPA is required for admission or MS degree. International applicants, who are not native English-speakers, must submit TOEFL (recommended minimum 525) or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements. 3) **Admission to PiE:** Submit a letter of interest to the Program in Ecology (ecology@uwyo.edu), stating explicitly why you would wish to be considered for PiE and identifying the faculty advisor immediately after completing your online application. Admission to PiE requires admission is predicated on admission to home department. All applications to the Program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the Program who lack a Master's degree must show exceptional promise and commitment (e.g., through undergraduate or post-

graduate research experiences, peer-reviewed publications, and/or success in competing for research fellowships). Such students are encouraged to consult with their prospective advisor on whether to apply directly to PiE or to Master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the Program. Students who wish to transfer into the Program from department-based doctoral programs must submit a formal application and must satisfy all the admission requirements specified above. Such application will consist of copies of all the application materials originally submitted to the program in which the student is currently enrolled, as well as a letter of recommendation from their prospective PiE advisor. In addition, they must submit a letter stating their reasons for seeking this transfer. All applications will be reviewed by the Graduate Affairs Committee. In addition, the following apply to transfer students:

- Students enrolled in departmental programs who have not yet taken their preliminary examinations may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules before they take their preliminary examinations, and (b) fulfill the curricular requirements.
- Students who have been admitted to departmental programs, and who have already taken their preliminary examinations, may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules within one month of admission to the Program, and (b) fulfill the curricular requirements. The student's Advisory Committee has the option of requiring a new preliminary examination.

Program Specific Degree Requirements

Advisory Committee

Before the end of the second semester of study, the student should nominate a (minimum) five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program and/or a faculty member of PiE. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

Program of Study

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

Admission to Candidacy

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

Proposal

Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

Preliminary Exam

Passing the preliminary exam is the official admission to candidacy.

Written Portion of the Preliminary Exam. The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.

The philosophical and historical development of ecology.

The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

Oral Portion of the Preliminary Exam. No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.

To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.

To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/ fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

Public Seminars

Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

Hydrologic Sciences (WRESE), Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/wrese>
E-mail: wrese@uwyo.edu

Program Director: Scott N. Miller, Ph.D.

Degree Offered

Ph.D. in Hydrologic Sciences

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D. level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

The WRESE Program grants a PhD in Hydrological Sciences.

Program Specific Admission Requirements

The WRESE Program only admits students seeking a doctoral degree.

Minimum criteria for admission to the Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student
- Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under exceptional circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's

departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences. Minimum requirements for the PhD include:

- Coursework credits: 42 hours (26 can be from an MS)
- Total credits: 72 hours
- Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

The written exam will consist of a series of questions as decided upon by the committee and should take no more than two weeks to complete.

Each committee member shall grade their portion of the exam as pass/fail. The student shall be viewed as passing the written exam if no more than one person grades their portion of the exam as failing.

The oral examination will be held no sooner than two weeks after the written exams, and only after the student has passed their written examinations. The oral exam should be no less than 90 minutes long and no longer than 3 hours.

Following the exam, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Dissertation

The student will prepare a dissertation and make the document available to the committee at least two weeks in advance of an oral defense of the document. The oral defense must be at least 15 weeks after the student has been advanced to candidacy. Students shall present a public defense to the university community that is expected to be approximately 45 minutes long, with a public question-and-answer period after the presentation. If the committee determines that the student has presented a suitable oral presentation of his/her research findings, a closed session meeting will be held in which the student defends their research to the committee. At the conclusion of the defense, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Other information:

Students in the WRESE Program may participate from any college, with the expectation that their program of study and dissertation will focus on quantitative issues of hydrology and water resources. The Program welcomes academic diversity, and students in WRESE have entered into the Program from a wide range of academic backgrounds and have hailed from numerous home departments, including Ecosystem Science and Management, Civil and Architectural Engineering, Botany, Zoology and Physiology, and Geology and Geophysics.

Molecular and Cellular Life Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/mcls/>
Email: mcls@uwyo.edu

Program Director: Daniel Levy, Ph.D.

Degree Offered**Ph.D. in Molecular and Cellular Life Sciences**

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as:

Biotechnology-bioengineering, biomaterials, pharmacology, cell biology and signaling, genetics and development, genomics, proteomics, computational biology, microbiology and infectious disease, structural biology, and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as:

Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

1. Applicants should apply through the online graduate application link. This process requires uploading a statement of purpose, a CV, academic transcripts, and test scores. The statement of purpose should include a brief narrative that describes the applicant's motivation to pursue graduate studies in the life sciences, relevant experiences, and specific reasons for applying to the MCLS program at the University of Wyoming. The program does not adhere to strict test score minimums, however, for international applicants minimum suggested scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS, respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries will be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency until further notice. More information for international applicants can be found on the University of Wyoming graduate admissions website. The application also requests that three reference letters be submitted in support of the candidate's application. Completed applications are due on January 1.

2. The MCLS admissions committee reviews completed applications starting in early January of each application cycle. Promising applications are selected based on research experience, grades, test scores, and reference letters. The most compelling

statements of purpose convincingly describe why the applicant is interested in pursuing graduate studies in the life sciences, detailing relevant past research experience and how it has prepared the student for PhD studies. Reference letters that include specific details and anecdotes about the applicant are most useful. The committee generally looks for grades of B or better in life science and chemistry courses, although lower grades can be balanced by a sufficiently strong research background. Successful applicants will be notified of admission decisions by May 1 at the latest, although the majority of decisions will be made by March 15.

3. Following the initial reviews, selected applicants are invited for a Zoom interview. Applicants will be provided with a primary research paper that they should read in preparation for the interview.

4. Zoom interviews are conducted with at least two members of the admissions committee. Applicants are asked a variety of questions, including why they are interested in the MCLS program, how their previous research experience has prepared them for PhD studies, their perceived strengths and weaknesses as a scientist, and future career goals. The interviewers also ask questions about the research paper and more general molecular biology questions to determine if the applicants have a sufficiently strong background to succeed in the MCLS program.

5. Shortly after the interview sessions, the MCLS admissions committee discusses the results of the Zoom interviews and ranks applicants for offers of admission, conditional upon approval by the Office of Admissions.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate level elective courses that students may take. Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year. Additionally, students must pass a comprehensive assessment exam at the end of the first year. Near the end of their second year in the program, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students' proposed research. Annual meetings with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year. Students must also attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies. For more information, please see the program's Website at: <http://www.uwyo.edu/MCLS/>.

Neuroscience, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/neuroscience/>
Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D. Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program

emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.

The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

Program Specific Admission Requirements

Steps for applying to the Program in Neuroscience:

Step 1: Contact faculty whose research is of interest.

Although not mandatory, applicants are encouraged to read through the faculty research summaries to identify faculty that they are interested in training with. It is strongly recommended that prospective students contact individual faculty for more information regarding their research programs and openings in their laboratories before submitting an application. This initial step is recommended because, due to the limited availability of Graduate Assistantships (GA's), graduate students are oftentimes recruited directly into a laboratory and supported straight away by the advisor's NIH or NSF funding.

Step 2: Submit the online application packet via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>).

For full consideration for fall and spring admissions, applications should be submitted by January 1 and June 30, respectively. The application packet is comprised of the following items:

- **Application form**
- **Official academic transcripts:** Applicants should have at least a 3.0 cumulative GPA (scale of 4.0), and a bachelor's degree in a discipline that is related to neuroscience such as biology, psychology, physiology, chemistry, physics, or chemical or bioengineering. We encourage motivated applicants from degrees in diverse areas that are interested in transitioning to neuroscience. Students with an MS degree in neuroscience or related fields are also encouraged to apply.
- **GRE scores:** Accepted but not required
- **Three letters of recommendation**
- **TOEFL/IELTS:** For international students whose native language is not English. The minimum acceptable scores are 550 (79 iBT) and 6.5 for TOEFL and IELTS, respectively. (The University of Wyoming's school code for TOEFL = 4855.)
- **Personal statement:** A 1-3 page personal statement describing the student's motivation for pursuing a PhD in the field of neuroscience. Please describe areas of interest and any specific research topics or techniques with which you have experience. If your interests are still broad, indicate your general interests and graduate training goals.
- We are also interested in learning about your long-term career goals. What do you aspire to do after graduation? What are you specifically interested in the University of Wyoming? Finally, if you have established a potential faculty advisor (step 1), this should be clearly stated here in the personal statement.

Step 3: The interview

The graduate advisory committee reviews submitted application packets. Only complete packets are reviewed. Applicants deemed strong by the committee will be invited to participate in either an in-person or virtual (via zoom or phone) interview. The interview allows for the committee to learn more about the applicant, and, likewise, for the applicant to interview the committee.

Step 4: Verification of admittance by UW Admissions Office. Applicants that are chosen for admission to the Program in Neuroscience will then be requested to complete the application process through the University of Wyoming Admissions Department. Eligibility for enrollment will be verified by the UW Admissions Office, including the receipt of official transcripts and documents.

Program Specific Degree Requirements

Doctoral Program

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

Students give two public research presentations 6-12 months before the preliminary and final defense exams. In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.

Science and Mathematics Teaching Center Master's Degrees

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/smtc/>
Email: smtc@uwyo.edu

Program Director: Sylvia Parker

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. The affiliate faculty for the SMTC includes faculty from the Colleges of Agriculture and Natural Resources, Arts and Science, Education, and Engineering and Applied Science, and the Haub School of Environment and Natural Sciences.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

- (1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and
- (2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsement provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.
- (3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program may be used by teachers to take the 18 graduate-level credits often needed to teach Advanced Placement and community college courses.
- (4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.
- (5) Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

SMTC Student Learner Outcomes

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

- Engage in teacher research to transform STEM instruction:
 - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
 - Effectively communicate all aspects of the research project in both oral and written forms.
- Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.
- Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.

- Use emerging technology and science investigations as tools to engage students.

Program Specific Admission Requirements

For the MSC, MMA, MST and MS-Natural Science Master's Degrees:

Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)

Application Fee, unless a UW Graduate

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal and two other colleagues.

The NED Degree - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee, unless a UW Graduate

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

The NED Degree - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (<http://www.uwyo.edu/admissions/apply.html>). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Application Due Dates for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (<https://www.tetonscience.org/programs/graduate-program/admissions/>); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Graduate Assistantships and Scholarships

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

College of Law

102 Law Building

Klint Alexander, Dean

Phone: (307)766-6416 FAX: (307)766-6417

Web site: www.uwyo.edu/law

Professors:

KLINT ALEXANDER, B.A. Yale University 1991; Ph.D./M.Phil. Cambridge University 1997; J.D. University of Virginia 1999; Dean & Professor of Law 2015.

MELISSA ALEXANDER, B.A. Yale University 1996; J.D. University of Virginia 1999; Professor of Law 2019, 2015.

JACQUELYN BRIDGEMAN, B.A. Stanford University 1996; J.D. University of Chicago 1999; Associate Dean for Academic Affairs and Professor of Law 2008, 2002.

KENNETH CHESTEK, B.A. Pennsylvania State University 1975; J.D. University of Pittsburg School of Law 1979; Professor of Law 2018, 2012.

DANIELLE R. COVER, B.A. University of Maryland 1994; J.D. Tulane University School of Law 1997; Professor of Law 2020, 2014; Director of Legal Services Clinic.

JAMES M. DELANEY, B.A. University of Washington 1985; J.D. Gonzaga University School of Law 1992; LL.M. in Taxation, University of Florida 1997; Professor of Law 2013.

MICHAEL DUFF, B.A. West Chester University 1991; J.D. Harvard University 1995; Professor of Law 2012.

STEPHEN M. FELDMAN, B.A. Hamilton College 1977; J.D. University of Oregon 1982; J.S.M. Stanford University 1986; Jerry W. House/ Carl F. Arnold Distinguished Professor of Law 2002.

MARK GLOVER, B.A. Washington University in St. Louis 2002; J.D. Boston University School of Law 2008; LL.M. Harvard Law School 2011; Professor of Law 2019, 2015.

DARRELL D. JACKSON, B.A. College of William and Mary 1987; J.D. George Mason University School of Law 1990; Ph.D. University of Colorado School of Education 2011; Professor of Law 2018, 2013.

SAM KALEN, B.A. Clark University 1980; J.D. Washington University 1984; Professor of Law 2014, 2009.

GEORGE MOCSARY, B.E. The Cooper Union School of Engineering 1995; MBA University of Rochester 1995; J.D. Fordham University School of Law 2009; Professor of Law 2019.

NOAH B. NOVOGRODSKY, B.A. Swarthmore College 1992; J.D. Yale Law School 1997; Professor of Law 2013, 2009.

TARA RIGHETTI, B.A. University of Colorado Boulder 2005; J.D. 2007; Professor of Law 2020, 2014.

JASON ROBISON, B.S. University of Utah 2003; J.D. University of Oregon 2006; LL.M. Harvard Law School 2009; S.J.D. 2013; Professor of Law 2019, 2015.

ALAN ROMERO, B.A. Brigham Young University 1990; J.D. Harvard University 1993; Professor of Law 2007, 2003.

MICHAEL R. SMITH, B.S. Florida State University 1982; J.D. University of Florida 1985; Professor of Law 2006.

Associate Professors:

LAUREN MCLANE, B.S. Radford University 2002; J.D. Seattle University School of Law 2008; Associate Professor of Law 2021, 2018; Director, Defender Aid Clinic.

DONA PLAYTON, B.S. University of Wyoming 1989; J.D. University of Wyoming 1993; Associate Professor of Law 2002, 2018; Director, Family and Child Legal Advocacy Clinic.

Assistant Professors:

JERRY FOWLER, B.A. Princeton University 1983; J.D. Stanford University 1990; Assistant Professor of Law 2019; Director, International Human Rights Clinic.

Academic Professionals:

DEBORA PERSON, B.A. Arizona State University 1981; M.L.S. Rutgers University 1992; Library Associate 1993; Administrative Law Librarian 2005, 1994.

TAWNIA PLUMB, B.A. University of Wyoming 1996; M.L.I.S. University of Texas at Austin 1998; Electronic Services and Assistant Librarian 2004.

Professors Emeritus

Debra L. Donahue, Harvey Gelb, Timothy Kearley, Jerry R. Parkinson, Dee Pridgen, Joel Selig, Elaine A. Welle

The College of Law was founded in 1920. The goal of the college is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility. The emphasis in instruction is on analysis and understanding of legal principles and the development of skills necessary to the practice of the profession. The course of study will prepare a graduate to practice in any jurisdiction which has adopted the Anglo-American system of law.

The curriculum of the College of Law consists of three years of study within the college. Required courses necessary to basic legal knowledge make up the first two semesters of study, while courses in the final four semesters are largely elective. Students become eligible to receive the Juris Doctor (J.D.) degree upon successful completion of 90 semester credit hours of law courses with a grade point average of at least 2.000.

The college acts as a law center for Wyoming. It serves lawyers, judges, and government by a program of continuing legal education for attorneys and others interested in significant legal developments, by research projects aimed at improving state law, and by publishing the Wyoming Law Review.

Accreditation

The college is approved by the American Bar Association and its graduates are eligible for admission to the bar in every state. A student planning to practice in a particular state should check its rules for admission to the bar.

The college is also a member of the Association of American Law Schools. Membership is conditioned upon the maintenance of an adequate teaching staff and library, the offering of a sound educational program and adherence to prescribed standards for the admission and graduation of students.

Prelegal Curriculum

There is no prescribed or required set of courses for prelegal work. A student must usually have a B.A. or B.S. degree before beginning the professional study of law. There are no restrictions on the field in which the degree is earned.

The objective of prelegal study should be to acquire knowledge and skills useful in the study and practice of law. College study should prepare the student for law school by developing language comprehension and use, understanding of political, economic, social and cultural institutions, and the ability to think logically and creatively. Courses promoting these objectives are included in the basic requirements for most undergraduate degrees. The choice of a major should be determined by the student's academic interest and professional objective in law.

Valuable background may be acquired through the study of English, history, philosophy, economics, political science, psychology, sociology, business administration, mathematics and the natural sciences.

For additional information, see the College of Law web site, (www.uwyo.edu/law).

Admission Requirements and Procedures

Admission to the professional curriculum in law is granted by the admissions committee of the College of Law. The College of Law restricts the number of entering students to a class size consistent with its facilities and its educational objectives. In evaluating an application, the committee considers the applicant's undergraduate college scholastic record and score on the Law School Admission Test (LSAT).

Other criteria relevant to the probability of success in the study and practice of law will also be considered.

1. Prior to beginning work in the College of Law, applicants must have a bachelor's degree from an accredited college or university, unless they have requested and been granted following exception:

- a. An applicant who needs not more than 6 semester hours of college credit to qualify for a bachelor's degree may be admitted in exceptional cases to law school if the committee determines that the applicant has sufficient education and preparation for the study of law; has an outstanding undergraduate scholastic record; and has an approved program signed by the appropriate undergraduate official indicating that the remaining requirements for the bachelor's degree may be met by summer school attendance or by other means that will not interfere with the study of law.
2. Every applicant must take the Law School Admission Test. A packet giving information about the test, the dates on which it is given, and centers at which it can be taken, sample questions and an application form, may be obtained from Law School Admission Council, Box 2000, Newtown, PA 18940, by phone at (215) 968-1001, online at www.lsac.org.
3. Every applicant must register with the Law School Admission Council Credential Assembly Service, CAS. Registration may be done through the LSAC website (www.lsac.org). The CAS will prepare a report that is transferred to the college.
4. Every applicant must complete the electronic University of Wyoming College of Law Application through LSAC between September 1 and April 30. Applications received by December 15 will be considered for early admission.
5. If admitted, official transcripts sent directly to the College of Law from each college attended must be on file in the Admissions Office at least 30 days before the student's registration date.

Application Deadline

An initial entering class will be selected from completed applications on file on April 30. Students who submit an application by December 15 will be considered for early admission. An application is complete only when the college has received the LSAT score, the CAS re

Admission With Advanced Standing

Transfer students are admitted only when the College of Law facilities and curriculum permit. A transfer student may transfer up to the number of credits the student could have earned had the student completed his or her first year at the University of Wyoming College of Law. Transfer credit will be given only for courses in which the student earned a grade of C or higher. Applicants admitted must satisfy the requirements for graduation established by the College of Law, including such other requirements as may be imposed as a condition of admission. Students interested in transferring should contact the College of Law for information concerning application procedures.

Academic Regulations

The Juris Doctor (J.D.) degree is awarded by the College of Law faculty to candidates who meet the following requirements:

For students matriculating before the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of 'C' or better for courses taken elsewhere) 89 credit hours (required for graduation) in accordance with the official curriculum as adopted by the College of Law faculty. At least 58 of these credits must be completed at the University of Wyoming College of Law. For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) in accordance with the official curriculum as adopted by the College of Law faculty. Curriculum is subject to change at the College of Law Faculty's discretion, which may cause the annually updated catalog to be out of date. At least 59 of these credits must be completed at the University of Wyoming College of Law. Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses. Courses taken for S/U grades count toward the hours required for the J.D. degree only if the course is offered for the S/U grade only.

The course of study must be completed no earlier than 24 months (2 years) and not later than 84 months (7 years) after a student has commenced law study. No student shall be permitted to enroll at any time in coursework that, if successfully completed, would exceed 20 percent (18 hours) of the total coursework required for graduation.

Second and third year students may take up to six of 90 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students must receive a letter grade of B or better for these non-law courses to count toward graduation requirements. Additionally, these courses will transfer in with a satisfactory grade of 'S' and will not impact their law school gpa. The College of Law automatically approves up to 9 hours of joint degree core courses that meet this grade requirement to transfer in toward their law degree (see Joint Degree section). If additional courses are needed outside of the core courses, these will be approved on a case-by-case basis. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law. To receive law school credit for the non-law course, a student will be required to earn a grade of B or better in the non-law course. The grade will not count, however, toward the student's law school GPA. The course will be counted as a "satisfactory" grade for purposes of the student's law school GPA. Students who wish to enroll in a non-law course on this basis must secure the prior approval of the course professor and the Associate Dean of Academic Affairs at the College of Law. Approval will be based on the student's submission of a brief written statement explaining how the proposed coursework relates to and enhances the student's legal education. Students should be aware that non-law courses completed on this basis will not count toward the 76 hours that students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

To graduate, all students must earn a cumulative grade point average of 2.000 for all courses taken at the College of Law. If a course is repeated, both grades shall be included in computing the average. The student, must have a baccalaureate degree. Candidates who meet these requirements are eligible for graduation at the end of any semester.

port, and the College of Law application form. Applications completed after April 30 will be considered in filling vacancies which occur in the entering class initially selected.

Academic Standing

The following requirements apply to any coursework at the College of Law. Courses that law students may complete outside of the College of Law do not count in calculation of the required College of Law grade point average (GPA).

In the first year, a student who fails to make a 1.800 GPA after the first semester, or fails to make a 1.900 cumulative GPA overall in the first year's work, shall be excluded from the College of Law. A student who at any time fails to make a passing grade in two of the courses for which the student is registered for any semester shall be excluded from the College of Law.

A student who enters the second year with a GPA lower than 2.000 but at 1.900 or above, or who fails to maintain a 2.000 cumulative GPA after the first year, shall be placed on probation. A student on probation who does not attain an overall grade point average of 2.000 within one semester shall be excluded.

A student excluded from the College of Law may petition the faculty for reinstatement. The faculty may, in its discretion, reinstate the student upon receipt of satisfactory evidence of extenuating circumstances or marked improvement in grades and study habits. Reinstatement may be subject to conditions, including, but not limited to, the repeating of any or all courses, as the faculty may decide. If a student's petition for reinstatement is denied, said students must wait 9-months before petitioning again for reinstatement. Also, all students are limited to two petitions for readmission. Students are strongly encouraged to include all information pertinent to the readmission decision in their initial petition. The entire faculty will automatically hear and consider a student's initial petition. In the event of a second petition for readmission, a committee selected by the Dean will hear and consider the petition. The committee will present a report and recommendation to the faculty for adoption. Denial of a second petition is final.

Advanced Writing Requirement

As a condition of graduation, all students must complete an upper-level writing requirement consisting of a research paper of a minimum length of 5,000 words, exclusive of footnotes. All students must follow a designated standard citation form. Students

must submit a detailed outline of the paper to the supervising professor, then must rewrite the paper at least once after the professor reviews the first draft. With the professor's approval, the student can meet the advanced writing requirement in any law school elective course, including a seminar, as long as the above requirements are met. The supervising professor must certify that the writing requirement has been fulfilled.

All student articles written for law review, whether published or unpublished, must have a supervising faculty member and otherwise meet all other provisions of the College of Law Advanced Writing Requirement. A student may also fulfill the requirement through an independent study or by writing a case note or comment for the law review, under the supervision of a professor. It cannot be satisfied through participation in a clinic.

Experiential Learning Requirement

As a condition of graduation, each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses. Experiential learning courses include a simulation course, a law clinic, or an externship field placement. Simulation courses provide substantial experience not involving legal representation of an actual client, that (1) is reasonably similar to the experience of a lawyer advising or representing a client or engaging in other lawyering tasks in a set of facts and circumstances devised or adopted by a faculty member; and (2) includes: direct supervision of the student's performance by the faculty member; opportunities for performance, feedback from a faculty member, and self-evaluation; and a classroom instructional component (ABA Standard 303).

Students may fulfill the experiential learning requirement by successfully completing 6.0 credit hours in any of the following upper- class elective courses:

- Advanced Appellate Advocacy (LAW 6520)
- Advanced Legal Research (LAW 6990)
- Advanced Oil & Gas Law (LAW 6992)
- Advanced Persuasive Writing (LAW 6925)
- Alternative Dispute Resolution (LAW 6915)
- Business Planning (LAW 6560)
- Civil Pretrial Practice (LAW 6565)
- Clinic: Civil Legal Services (LAW 6930 or LAW 6931)
- Clinic: Defender Aid (LAW 6932 or LAW 6930)
- Clinic: Energy, Environ. & Natural Resources (LAW 6933 or LAW 6930)
- Clinic: Family & Child Advocacy (LAW 6930 or LAW 6934)
- Clinic: International Human Rights (LAW 6930)
- Clinic: Prosecution Assistance (LAW 6930 or LAW 6936)
- Contract Drafting (LAW 6935)
- Estate Planning (LAW 6670)
- Estate Planning Practicum (LAW 6937 or LAW 6930 or LAW 6915)
- Externships (LAW 6960)
- Interviewing, Counseling & Negotiation (LAW 6166 or LAW 6915)
- Summer Trial Institute (LAW 6850)
- Trial Practice (LAW 6850)

Note: classes may be removed from and/or added to this list each semester.

Curriculum

Required Courses: First (1L) Year Students (*Additional courses cannot be taken the first year without special permission from a dean*).

Fall Semester

Civil Procedure I (6240) - 3

Contracts I (6110) - 3

Legal Research (6165) - 1

Legal Writing I (6160) - 3

Property I (6120) - 3

Torts I (6130) - 4

Spring Semester

Civil Procedure II (6340) - 2

Constitutional Law I (6250) - 3

Contracts II (6210) - 2

Criminal Law (6140) - 3

Legal Writing II (6260) - 2

Property II (6220) - 2

Required Courses: Second (2L) Year Students (offered once per year)

Evidence (6410) - 3

Professional Responsibility (6420) - 3

Elective Courses: Second (2L) & Third (3L) Year Students (* subject to availability)

See Law Courses section

Graduation with Honors

The degree of Juris Doctor is awarded with honors if the student achieves a grade point average of 3.400 or better on all resident credit in the College of Law.

Honor Roll

Students enrolled in a minimum of 12.0 semester hours of law courses carrying A-F grades, and who have no semester grades of incomplete (I), are eligible for the President's Honor Roll and the Dean's Honor Roll. Students with a semester average of 4.000

will be named to the President's Honor Roll. First-year students with a semester average of 3.250 or better and second-year and third-year students with a semester average of 3.400 or better will be named to the Dean's Honor Roll.

Minimum Hours

The College of Law does not permit students to attend on a part-time basis. Students are required to take the full load of required courses during their first two semesters and to carry at least 9 credit hours in each of the remaining semesters of law study. Notwithstanding, if a student has less than 9 credits remaining in their final semester of study, then said student may register for only the number of remaining credits (e.g. if a student only has 4 credits left to graduate, that student will only be required to register for 4 credits). First year students will be allowed to take less than the full load of required courses only if they present exceptional circumstances, as determined by the Dean or his/her delegate.

Transfer Credits

The College of Law admits transfer students only in the fall of their second year. A student granted transfer admission may transfer credits earned in courses taken at another ABA-accredited law school toward a degree from the UW College of Law up to the number of credits that a traditional UW student would have earned during the student's first year at the University of Wyoming (32 credits as of the 2020-21 academic year). In addition, University of Wyoming law students who visit out for a semester or full year may also transfer credits from other ABA approved law schools, as long as 59 credits are completed at the University of Wyoming. The College of Law will also accept up to 15 hours of transfer credit from another ABA accredited school for an international student previously enrolled in an LL.M. or other post-J.D. program. To receive transfer credit from a course, a grade must be a "C" or better. Transfer credits are recorded on the JD transcript as an "S" (Satisfactory), instead of graded credits. All transfer credits must be approved by the Associate Dean of Academic Affairs in advance.

Joint Degree Programs

JD/MA in ENR Program

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree.

Current core courses: ENR 5000, ENR 5900, ENR 5890.

JD/MBA Program

A joint Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In either their second or third year, students will be enrolled full-time in the MBA Program, taking core Fall and Spring business courses followed by participation in an MBA Summer Project. The MBA Capstone course will be completed during the student's third year for a total of 38 MBA Program credits. Nine (9) credit hours of approved Law coursework will be transferred as elective hours to the MBA Program for a total of 47 credit hours. Additionally, nine (9) credits of approved MBA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Students successfully completing this lock-step program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current core courses: MBAM 5102, MBAM 5103, MBAM 5104, MBAM, 5107, MBAM 5108, MBAM 5202, MBAM 5203, MBAM 5204, MBAM5206, MBAM 5207, MBAM 5208, MBAM 5309

JD/MPA Program

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in specified courses in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.

Current core courses: POLS 5000, POLS 5400, POLS 5410, POLS 5440, POLS 5684, POLS 5510, POLS 5690, POLS 5080, POLS 5060, POLS 5450, POLS 5460, POLS 5480

Nonprofessional Degree Students

Graduate students from other colleges of the University of Wyoming may be permitted to take one or more law courses on an S/U basis for non-law credit when the following conditions are met: the law course taken is acceptable for their degree program and the prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean has been obtained. In order to obtain audit or visitor privileges, students must obtain prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean. For further information and requirements contact the Associate Dean of Academic Affairs, College of Law, Dept. 3035, 1000 E. University Ave., Laramie, WY 82071.

Course descriptions may be obtained online at www.uwyo.edu/law.

Armed Forces Services

LTC George R. Riggin, Commander, Army ROTC
LtCol. Anthony Kusek, Commander, Air Force ROTC

It has been the consistent policy of the university in cooperation with the federal government to make courses in military science and aerospace studies available on a voluntary basis to all qualified students.

Academic credits for Army and Air Force Reserve Officers' Training Corps (ROTC) are applied toward baccalaureate and graduate degrees in varying amounts depending upon the degree plan of the student and as determined by the college concerned.

Department of Military Science

Army ROTC

137 Hill Hall, (307) 766-3390
FAX: (307) 766-3383
Web site: www.uwyo.edu/armyrotc

Professor:

JONATHAN CURTIS, U.S. Military, Military Intelligence West Point B.S.; MSA Central Michigan University 2019; Professor of Military Science 2020.

Lecturer:

JEREMIAH SCHUCHARDT, Master Sergeant, U.S. Army; Senior Military Instructor 2019.

The Department of Military Science - Army ROTC faculty is composed of U.S. Army officers and senior noncommissioned officers. These officers hold bachelors' and masters' degrees in a variety of fields. Noncommissioned officers hold associate degrees in a variety of fields. Officers' military education includes completion of the Officer Basic Course and the Officer Advanced Course. Several faculty are graduates of the Army's Command and General Staff College and have completed military specialty schools such as: Flight School, Ranger School, Airborne School, Air Assault School, Special Forces School, Jumpmaster Course, Special Operations Training and Language School.

General Information

Army ROTC is a program which offers qualified college students the opportunity to graduate as officers and serve tours in the U.S. Army, the Army National Guard or the U.S. Army Reserve. The four-year program is divided into two parts called the basic course and the advanced course. The basic course, consisting of 8 credit hours, is usually taken during the first two years of college. No military obligation is incurred by enrolling in the basic course.

The advanced course, usually taken during the junior and senior years or during graduate school, involves 19 credit hours of study and a five-week Leadership Development and Assessment Course during the summer. Advanced course students incur a military obligation, and they receive up to \$500.00 per month in tax-free subsistence throughout the academic year.

Army ROTC is not itself a major. Participants pursue the degree of their choice and take Army ROTC as an elective program. Those who complete the program may receive federal commissions from the President of the United States.

Army ROTC offers a military science minor. Effective with the Fall 2015 semester, the requirements for a minor in military science are as follows:

ARMY 3010.....	3
ARMY 3020.....	3
ARMY 3025.....	1
ARMY 3026.....	1
ARMY 3030.....	3
ARMY 4010.....	2
ARMY 4020.....	2
ARMY 4015.....	1
ARMY 4016.....	1
ARMY 4025.....	1
ARMY 4026.....	1
HIST 2020 or HP 4900.....	3

Total credit hours 22

The military science minor, encompassing 22 credit hours, will prepare selected students for commissioning and establish a sound basis for their future professional development.

To be eligible for a commission, U. S. citizens must meet prescribed physical, intellectual, and moral standards in addition to completing Army ROTC studies and successful completion of Professional Military Education (PME) courses. These PME courses include written communication skills, military history and computer literacy. A two-year option is available for sophomore and junior students, students with prior military service (see below), and those completing a masters program.

In the Army ROTC classroom the student is exposed to a wide variety of subjects designed to instill confidence, self-discipline, integrity and responsibility. Students gain an appreciation for the role of national defense, and learn what a leader must be, know and do in order to gain the respect and support of their subordinates.

Skills learned in Army ROTC, including resource management, leadership and planning are valuable and complement any university major. Young commissioned officers returning to civilian sectors after military service find an abundance of career opportunities.

Uniforms, Pay and Allowances

All uniforms, books and other instructional materials required in Army ROTC are provided to basic and advance course students at no cost. The cadet uniform is the same as the U.S. Army uniform except for the distinctive ROTC insignia.

Advanced course participants are paid a tax-free subsistence allowance of up to \$500.00 per month during the school year. During the summer training period students receive pay, travel, rations, quarters, clothing, and medical and dental services.

Two Year ROTC Program

The two-year program is designed for community college graduates and university students of sophomore or junior standing who did not take Army ROTC during the first two years of school. The program may also apply to seniors and graduates who have at least two years remaining in post graduate study.

To enter the two-year program, students must first attend a paid 28-day internship during the summer or be a veteran who has graduated from advanced individual training.

Special Scholarship Program

Special Scholarship Program Two-, three-, and four-year scholarships are offered by Army ROTC. These scholarships pay full tuition, laboratory fees and a \$1200 per year book fee. While on scholarship, the student receives up to \$500.00 a month during the school year. In addition to active duty scholarships, Army ROTC offers scholarships to students wishing to join the U.S. Army Reserve or Army National Guard upon commissioning. These reserve scholarships also pay full tuition, laboratory fees, book fees, and up to \$500.00 a month. Graduate students and undergraduate students are eligible to apply for the two- and three-year scholarships. These scholarships are awarded by the Professor of Military Science. Students do not have to be enrolled in ROTC to apply for these scholarships. Certain restrictions apply. High school juniors and seniors seeking a four-year scholarship should contact the Professor of Military Science, Army ROTC, Dept. 3167, 1000 E. University Ave., Laramie, WY 82071. College students desiring a scholarship should contact the Professor of Military Science in 154 Wyoming Hall, (307) 766-3390.

Scholarships are offered to ROTC cadets from several military associations. The Reserve Officers Association (ROA), Association of the U.S. Army (AUSA), Cowboy Battalion Alumni Association (CBAA), the United Services Automobile Association (USAA) and First Command offer annual cash awards to ROTC cadets.

Room and board scholarships are available to students who enroll in Army ROTC. Scholarship awards are based on merit and the student's potential to become a commissioned officer. The number of scholarships and dollar amount vary dependent on funds available. Room and board scholarships may only be used in UW residence halls or university apartments.

Leadership Laboratory

Leadership laboratory provides instruction that complements the classroom. This time provides practical application on subject matter taught in class. Leadership and management dynamics are inherent in this practical application. All students enrolled in a military science course must enroll in the appropriate leadership laboratory unless consent is obtained from the Professor of Military Science. Training includes land navigation, first aid, communications, basic rifle marksmanship, drill and ceremonies, decision making, squad movement and problem solving. This instruction is cadet planned and presented with immediate instructor feedback. The goals of this period are to instill self-confidence, self-discipline and responsibility in each cadet.

Land navigation skills are practiced in a variety of terrain locations near campus. The training instills trust and confidence in the cadet's ability to accurately plot and follow a compass course. Communication, such as radio, telephone and interpersonal skills, are taught and practiced. Marksmanship is taught in the Half-Acre rifle range and on other ranges, weather permitting. Finally, drill and ceremonies teaches methods of organizing and moving groups of individuals in an orderly manner resulting in team building while establishing esprit de corps.

Veterans' Option

Veterans of active military service and members of the National Guard or U.S. Army Reserve may qualify to go directly into the advanced Army ROTC program if they will be an academic junior. In these cases, basic training fulfills the requirement of the first two years of ROTC (Basic Course). Academic freshmen and sophomores are not required to take basic course classes but are highly encouraged to do so. It is common for members of the National Guard to study to become commissioned officers via the ROTC program. The Simultaneous Membership Program (SMP) is a formalized program for advanced course Guard members and Reservists to combine their unit training with ROTC training. In many cases the SMP program will result in increased financial benefit to the individual.

Military Obligation

There is no military obligation for taking the basic course, freshman and sophomore years. When an individual starts the advanced course, he or she incurs an obligation. The nature of that obligation depends upon whether the individual elects to serve in the National Guard, the Army Reserve or the active Army, and whether the individual has an Army scholarship. Those who desire guard or reserve duty may contract specifically for that purpose. The guard and reserve obligation is six years of monthly training meetings and two years of inactive ready reserve (IRR). The active duty obligation is four years Active duty, and four years of inactive ready reserve (IRR).

Extracurricular Activities

Army ROTC offers a variety of activities which are designed to promote an interest in the military and provide relaxing, enjoyable leisure activities for cadets.

The Cowboy Battalion has its own Ranger Challenge team, which is a varsity-level team that competes with other universities in military skills such as orienteering and soldier skills. The battalion also has a cannon crew, mounted color guard, 10-miler team, Bataan Death March team, and participates in intramural sports.

The department periodically sponsors other activities such as rappelling demonstrations, ranger weekends, battlefield tours, leadership exercises and other adventure training, such as mountaineering, land navigation exercises, patrolling and wilderness survival.

Suggested Course Sequence

FRESHMAN YEAR: Fall Hrs.

ARMY 1010	2
Lab (mandatory).....	0
PEAC 1272 (voluntary).....	1/2
ARMY 1011	1

Department of Aerospace Studies

Department of Aerospace Studies
 110 Wyoming Hall, (307) 766-2338
 FAX: (307) 766-2357
 Web site: www.uwyo.edu/airrotc

Professor:

ANTHONY KUSEK, Lt. Colonel, U.S. Air Force; B.S. Parks College 1995; M.A. Webster University 2007; Professor of Aerospace Studies 2019.

RICHARD LANDSVERK, Major, U.S. Air Force; B.S. Thomas Edison State College 2008; M.A. Bellevue University 2012; Professor of Aerospace Studies 2019.

SAMUEL R. SHEARER, Lt. Colonel, U.S. Air Force; B.S. University of Utah 1996; M.S. Troy State University 2003; M.A. Naval Postgraduate School 2004; Ph.D. 2013; Professor of Aerospace Studies 2016.

Air Force Reserve Officers' Training Corps (AFROTC) provides University of Wyoming students a path toward earning a commission as an officer in the United States Air Force. The curriculum provides college students a solid understanding of the leadership and military fundamentals an Air Force officer requires. AFROTC cadets supplement their normal university coursework with studies in Air Force fundamentals, history, leadership, and national security affairs. In addition, cadets have the opportunity to learn about various careers in the Air Force through their studies, guest lectures, base visits, and other military training opportunities. While enrolled in AFROTC, the Air Force provides uniforms, AFROTC textbooks, and the necessary Air Force equipment. Upon successful completion of the program and earning their bachelor's degree, cadets are commissioned as 2nd lieutenants in the U.S. Air Force.

Application and enrollment in the program is voluntary. Students should simply register for the appropriate Air Force (AIR) courses. In addition, prospective cadets will need to complete an application package upon arrival at the detachment in order to ensure minimum qualifications for military service. Contact the AFROTC Department for additional details or with any questions regarding registration. All university students, both male and female, are eligible to apply for admission in the program.

Four-Year Program

The four-year program is divided into two phases. The first two years comprise the General Military Course (GMC) consisting of one class period (1 hour) per week in the classroom and one class period (2 hours) per week in leadership laboratory. The GMC is a prerequisite for continuation in the Professional Officer Course (POC), the last two years in the program. Other prerequisites include passing the Air Force Officer Qualifying Test (AFOQT), maintaining at least a minimum grade point average of 2.0 (GMC) and 2.5 (POC), having the physical qualifications for an Air Force commission, and participating in a four-week field training session. The advanced course consists of one class period (3 hours) per week in the classroom and one class period (2 hours) per week in leadership laboratory.

Three-Year Program

Students may enroll in ROTC on a three or three and one-half year program where the GMC component is shorter. To complete the GMC requirements, the student must simultaneously enroll in AIR 1000 and AIR 2000 courses to complete all four academic terms of the GMC program. After successfully completing the GMC program and Field Training, students may enter the two-year POC program. This program is especially suitable for sophomores and junior college transfers. Students that participated in high school Junior ROTC, or have prior-enlisted service, can apply documented participation toward a portion of the GMC requirement.

Leadership Laboratory

The concept of leadership laboratory is to provide leadership training experiences which will improve a cadet's ability to perform as a USAF officer. Leadership laboratory is largely cadet planned and directed.

Field Training

Field training is a four-week program conducted in residence at an Air Force base during the summer.

While at field training, each cadet is provided subsistence, uniforms/equipment, and receives approximately \$28.00/day plus reimbursement for travel to and from the field training base.

Financial Benefits

Freshmen and Sophomores on AFROTC scholarships receive \$300 and \$350, per month, respectively. Juniors enrolled in the Professional Officers Course receive \$450 per month and seniors \$500 per month tax-free during the school year for subsistence. Uniforms, required texts and all necessary Air Force equipment are furnished by the government. In addition, all POC and scholarship cadets are allowed to travel anywhere in the continental United States on military aircraft (on a space available basis).

Special Scholarship Program

Two-, three- and four-year scholarships are offered by AFROTC on a competitive basis. These scholarships pay for a \$900 book allowance per year, tuition (amount dependent on type of scholarship awarded), fees and other required expenses except room and board. The university and the State of Wyoming offer additional room and board funding to Air Force ROTC cadets (who have or have not been awarded an Air Force ROTC scholarship) and reside in university housing. High School seniors seeking a four-year scholarship should contact their high school counselors or the Recruiting Flight Commander, AFROTC Detachment 940, Dept. 3005, 1000 E. University Avenue, Laramie, WY 82071; telephone (307)766-3710; email at airforce.rotc@uwyo.edu, early in the fall of their senior year. Sophomore or transfer students interested in competing for a scholarship should contact the Recruiting Flight Commander before the fall semester prior to junior standing.

Military Obligation

Students enrolling in the first two years of the AFROTC Program (the General Military Course) are not obligated to military service of any kind, unless on an Air Force scholarship their sophomore year. Cadets accepting an AFROTC scholarship and those entering the Professional Officer Course become members of the inactive reserve of the United States Air Force. Upon being commissioned a Second Lieutenant in the Air Force, graduates in nonflying career fields agree to serve four years on active duty; pilot candidates agree to serve on active duty for 10 years after completion of flight training; RPA, navigator, and air battle manager candidates agree to serve on active duty for six years after completion of their respective training.

Extracurricular Activities

To familiarize students with Air Force life and social customs, the AFROTC Program offers on a voluntary basis a wide range of extracurricular activities. Civil Air Patrol gives cadets an opportunity to experience flying first hand with a trained instructor pilot. The Arnold Air Society, a national professional honorary society, is a service organization active on campus. The color guard supports various university and local activities. Visits to Air Force bases across the nation provide insight into the function of Air Force operational units. Throughout the year, AFROTC teams participate in the university intramural sports program, while cadet-sponsored social events build the spirit of comradeship inherent in military life.

Haub School of Environment and Natural Resources

Helga Otto Haub School of Environment and Natural Resources

John Koprowski, Dean
Bim Kendall House, 804 E. Fremont St.

Phone: (307) 766-5080 FAX: (307) 766-5099

Web site: www.uwyo.edu/haub

Degrees Offered

The Haub School offers undergraduate and graduate degrees, concurrent majors and minors, certificates, and a graduate degree in partnership with the College of Law:

Bachelor of Science in Environmental Systems Science (for baccalaureate students)

Bachelor of Science in Environment & Natural Resources (for baccalaureate students, required concurrent major)

Environment & Natural Resources concurrent major (for baccalaureate or master's students earning a degree from UW)

Bachelor of Science in Outdoor Recreation & Tourism Management (for baccalaureate students)

Environment & Natural Resources minor (for baccalaureate, master's, and doctoral students)

Sustainability minor (for baccalaureate students)

Outdoor Leadership minor (for baccalaureate students)

Master of Science in Environment, Natural Resources & Society (for master's students)

Master of Arts in Environment & Natural Resources (J.D./M.A. for law students only)

Collaborative Practice minor (for master's and doctoral students)

Program Admission

Undergraduate students will apply for admission to the University of Wyoming, and then declare a major or minor within the Haub School at any point during their course of study. To declare a major or minor, students must meet with a Haub School academic advisor.

Graduate students interested in the concurrent major or minor in Environment & Natural Resources (ENR) will apply for admission to a primary degree program at the University of Wyoming. Once accepted to their primary graduate program, students must complete an additional online process to confirm their enrollment in the ENR major or minor. During the Haub School admission process, students will select a Haub School faculty mentor and submit a one-page Statement of Purpose. Current application requirements available online.

Applicants to the M.S. in Environment, Natural Resources & Society must apply directly to the Haub School. Current application requirements are available online.

Applicants to the J.D./M.A. in ENR must apply to both the College of Law and the Haub School. Admission to the joint degree program is contingent on acceptance to the College of Law. Current application requirements are available online.

More information, including complete curricula for each academic offering, is available from the Haub School.

Haub School Requirements

(for undergraduate students earning their primary degree from the Haub School)

Undergraduate students earning a B.S. in Environmental Systems Science, a B.S. in Outdoor Recreation & Tourism Management, and/or a B.S. in Environment & Natural Resources (plus a concurrent major in another field) must fulfill two courses (totaling 6 credit hours) of Haub School Requirements. An undergraduate degree from the Haub School of Environment and Natural Resources indicates that students are liberally educated, with the foundational skills and knowledge to approach local and global contexts from multiple perspectives. The approved courses for the following requirements are searchable within WyoRecords under the Browse Classes feature.

1. U.S. Diversity (ASD). This requirement allows students to explore the complexity of cultural identities in the U.S. and interdependence of the cultures. Students will gain an understanding of the influences of categories such as race, class, ethnicity, gender, disability, sexual orientation, religion, and age on American behaviors, institutions, values, and beliefs.
2. Global Awareness (ASG). Because citizens ever more frequently encounter behaviors and practices based on beliefs, conditions, and assumptions different from their own, they need to understand the nature and function of culture. Our students should have an awareness of the multiple links that affect the living conditions and range of action of peoples of the world, including international systems of commerce, art, science, sustainability, technology, politics, communication, belief, and justice, among others.

Students must earn a C or better in all courses fulfilling program requirements - including Haub School U.S. Diversity and Global Awareness courses, and degree, major, and/or minor courses. Students enrolled in multiple Haub School programs must earn 12 credits unique to each program. Students must also meet University of Wyoming requirements for earning a bachelor's degree, including, but not limited to, completion of University Studies Program and maintaining minimum 2.0 GPA for good academic standing and graduation.

Bachelor of Science in Environmental Systems Science

Environmental Systems Science (ESS) is an interdisciplinary undergraduate degree in environmental science, focusing on the interactions between the various components of Earth and environmental systems, including the biosphere, lithosphere, atmosphere, and anthrosphere.

Students earning a B.S. in Environmental Systems Science will

1. demonstrate a knowledge of interdisciplinary perspective and integrative thinking,
 - a. understand physical and biological components of environmental systems, including the human component;
2. design, conduct, and interpret scientific investigations,
 - a. understand the ethics of scientific investigation,
 - b. demonstrate proficiency in data collection, statistical analysis, and use of information technology tools and modeling;
3. apply systems concepts to problems concerning environmental systems and their components, and construct conceptual and quantitative systems models;
4. examine spatial, temporal, and spatialtemporal patterns in environmental systems, and use information technology tools to depict, project, and communicate such patterns.

Students earning a B.S. degree in ESS complete coursework including:

23+ credit hours of Foundations courses:

1. Intro to Systems Science: ESS 1000

2. Foundation of Biological Sciences (choose one course): AECL 1000, ENR 1200, or LIFE 1010
3. Foundation of Earth Sciences (choose one course): ENR/GEOL 1500, GEOG 1010, or GEOL 1100
4. Foundation of Physical Sciences (complete all courses): CHEM 1020, PHYS 1110, and ESS/GEOL 2000

15+ credit hours of Spheres courses:

1. Anthroposphere (choose one course): ENR/AMST 4030, ENR/ANTH 4310, ENR/GEOG 4040, ENR/HIST 4412, ENR/SOC 3950, GEOG/NAIS 3400, GEOG 3550, or GEOL 3650
2. Atmosphere (choose one course): ATSC 2100, ATSC 2200, ERS 3010, ENR/GEOG 3450, or GEOG 4440
3. Biosphere (choose one course): ENR 4010, 4011, and 4012 (must complete all three courses), ENR/ZOO 2450, GEOG 4460, LIFE 2022, LIFE 2023, LIFE 3400, REWM 2000, REWM 4200, or REWM 4440
4. Lithosphere - Environmental Change (choose one course): ENR/SOIL 3130, ENR/CE 4430, ESS/GEOG 3480, or GEOL 3500
5. Lithosphere - Hydrology & Surface Processes (choose one course): ENR/REWM 4285, GEOG 3010, GEOL 3400, REWM 4700, or REWM 4710

14+ credit hours of Skills & Tools courses:

1. Statistics (choose one course): STAT 2050 or STAT 2070
2. Data Analysis (choose one course): ENR/GEOL 4525, ESS 4001, GEOL 3250, STAT 3050, or ZOO 4400
3. GIS/Remote Sensing (choose one course): GIST 1200, GIST 2140, GIST 2150, GIST 2310, GIST 3111, or GIST/RNEW 4130
4. Applied Experience (1 credit): ESS 4970
5. Capstone: ESS 4950

18+ credit hours in an approved minor* or concurrent major as an area of specialization: Agroecology, Anthropology, Astronomy, Biology, Botany, Chemistry, Environment & Natural Resources, Geography, Geology, Insect Biology, Land Surveying, Paleoenvironmental Studies, Physics, Rangeland Ecology & Watershed Management, Reclamation & Restoration Ecology, Soil Science, Statistics, Sustainability, Wildlife & Fisheries Biology & Management, or Zoology

6+ credit hours of Haub School Requirements courses:

1. U.S. Diversity (choose one)
2. Global Awareness (choose one)

Additional credit hours: Students complete additional credit hours in consultation with advisor if needed to meet minimum 120 credits, including 42 upper division credits, to earn a bachelor's degree from the University of Wyoming.

**other options available; subject to advisor approval*

Bachelor of Science in Environment & Natural Resources or Undergraduate Major in ENR

Environment & Natural Resources (ENR) students will gain depth and breadth across a range of interdisciplinary fields that engage with complex ENR ideas and challenges, with the goal of integrating across fields of study.

Students can choose to pursue:

- a concurrent major in ENR, earned alongside an approved baccalaureate degree in any other discipline, or
- B.S. in ENR, earned alongside an additional major in any other discipline.

The ENR curriculum is designed to prepare students to demonstrate learning in six key areas:

1. Specialization & Integration - Students will complement their disciplinary depth with broad exposure to ENR-related disciplines and approaches.
2. Spatial & Temporal Perspectives - Students will understand the temporal and spatial characteristics of ENR challenges.
3. Policy - Students will recognize the content and implications of past and current ENR policies.
4. Cultures & Values - Students will appreciate the diversity of ENR perspectives and experiences, including the role of personal and collective value systems and structural inequalities in shaping those systems.
5. Complexity, Risk, & Uncertainty - Students will understand that ENR problems inherently involve complexity, risk, and uncertainty.
6. Professional & Academic Skills - Students will acquire specific skills necessary to succeed in a range of ENR professions and/or graduate and professional school, especially proficiency in written and oral communication, applied problem solving, and collaboration.

All undergraduate students in ENR complete their coursework in conjunction with another major in any discipline.

Students must complete 36+ hours of coursework in ENR, including:

15+ credit hours of ENR Core courses:

1. Foundations of Environmental Science (choose one course): ENR 1200, ENR/GEOL 1500
2. Environment & Society: ENR 2000
3. Approaches to Problem Solving: ENR 3000
4. Environmental Assessment: ENR 4900
5. Applied Experience (2 credits): ENR 4970

21+ credit hours of ENR Disciplines courses:

1. Cultures & Values (choose one course): ENR/AMST 3050, ENR/AMST 4030, ENR/ANTH 4310, ENR/HIST 4412, ENR/HIST 4475, ENR/PHIL 2330, ENR/POLS 3620, ENR/SOC 3950, GEOG/NAIS 3400, GEOG 4570, HLED 4020, ORTM 4901, or GWST 4450
2. Economics (choose one course): AGECE 4720, ECON 2400, ENR/AGECE 3750, ENR 4560, ERS 3400, or GEOG 3050
3. Environmental Management (choose one course): ENR/AMST 4800, ENR/CE 4430, ENR/ZOO 2450, ERS 3010, ENR/GEOG 4040, GEOG 4080, GEOL 3400, GEOL 3650, REWM 2000, or REWM 4700
4. Data Analysis (choose one course): ENR/AGECE 4550, ENR/GEOL 4525, ESS 4001, GIST 2140, GIST 2150, GIST 2310, GIST 3111, GIST/RNEW 4130, or STAT 3050

5. Physical & Natural Science (choose one course): ATSC 2100, ATSC 2200, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/REWM 3100, ENR/REWM 4285, ENR/SOIL 3130, GEOG 4460, ENR/GEOG 3450, ESS/GEOG 3480, GEOG 4440, LIFE 3400, or REWM 4440

6. Policy (choose one course): ENR 3300, ENR 4750, ENR/GEOG/POLS 4051, ENR/GEOG/POLS 4052, INST/POLS 4455, or POLS 4475/INST 4990

7. ENR Electives (choose one course; three credits required): ENR 2300, ENR 2800, ENR 3900, ENR 4450, ENR 4600, ENR 4890, or ENR 4960

An approved major in any discipline

Haub School Requirements: Students earning a B.S. in ENR with their degree awarded from the Haub School must additionally complete 6+ credit hours of Haub School Requirements (U.S. Diversity and Global Awareness).

Additional credit hours: Students complete additional credit hours in consultation with advisor(s) if needed to meet minimum credits to earn a B.S. in ENR (minimum 120 credits, including 42 upper division credits) or to meet primary degree requirements.

Bachelor of Science in Outdoor Recreation & Tourism Management

A B.S. in Outdoor Recreation & Tourism Management (ORTM) emphasizes stewardship and conservation of natural resources, tourism and outdoor recreation theories and best practices, entrepreneurial and business management strategies, creating outstanding visitor experiences, and broad understanding of cultural and natural resources. Students choose one of five different concentrations.

Students earning a degree in ORTM will be expected to demonstrate learning in six key areas:

1. Leadership

- a. competency in leading and building diverse, collaborative teams;
- b. application and evaluation of ethical, resourceful leadership principles to challenges and solutions within the ORTM industry.

2. Professional Practice

- a. ability to apply and critically evaluate practical, creative, ethical, and theoretical frameworks in diverse and complex professional circumstances.

3. Communication

- a. ability to manage dynamic relationships and demonstrate best practices in communication.

4. Nimble and Creative Thinking

- a. ability to strategically design, implement, and evaluate sustainable and emergent services, experiences, and opportunities.

5. Trans-disciplinarity

- a. synthesis and application of ecological and human communities, with the capacity to provide wise stewardship and conservation of natural resources;
- b. tourism and outdoor recreation theories and best practices;
- c. entrepreneurial and business management strategies.

6. Place-based and Global Understanding

- a. skills to implement solutions appropriate for local environments that demonstrate fluency in global contexts and diverse cultures.

To fulfill the requirements, students must complete the following, earning 76+ credit hours in specified categories:

18 credit hours of ORTM Core courses:

1. Recreation & Tourism: ORTM 1000
2. Natural & Cultural Resources: ORTM 1050
3. Customer Service & Hospitality: ORTM 2000
4. Program Planning, Design, & Delivery: ORTM 2050
5. Tourism Theory & Practice: ORTM 3000
6. Operations, Management & Env. Stewardship: ORTM 3050

20+ credit hours in ORTM Foundations courses:

1. Statistics: STAT 2050 or STAT 2070
2. Business Fundamentals (complete one course from each area):
 - Economics (choose one course): ECON 1010, ECON 1020, or ECON 1200
 - Accounting: ACCT 2010
 - Marketing: MKT 3210
3. Environment & Natural Resources
 - Environmental Science (choose one course): ENR 1200, ENR/GEOL 1500, GEOG 1010, or GEOL 1100
 - Conservation & Sustainability (choose one course): ENR 2300, ENR 4560, GEOL 1600, GEOG 4040, or RNEW 1000
4. People & Culture
 - Social Science (choose one course): GEOG 1000, GEOG 1020, PSYC 1000, or SOC 1000
 - Culture/Diversity (choose one course): AMST 2010, ENR/POLS 3620, ENR 2000, GEOG/NAIS 3400, HIST/NAIS 2290, NAIS 1001, NAIS 1030, or NAIS 1350

13+ credit hours in Synthesis & Applied Experience:

1. Professional Semester (complete all courses in the same semester): ORTM 4900, ORTM 4901, ORTM 4902, and ORTM 4903
2. Applied Experience (one credit minimum): ORTM 4970*

**students must complete a 400- hour internship experience prior to enrolling in ORTM 4970*

19+ credit-hour Concentration (choose one):

• **Business & Hospitality Management**

1. Legal Environment of Business: MGT 1040
2. Management & Organization: MGT 3210
3. Hospitality Operations Management: HOSP 4800
4. Management (choose one course): MGT 3410, MGT 3420, or MKT 4590
5. Sales & Marketing (choose one course): SELL 3310, MKT 4230, MKT 4240, MKT 4440, or MKT 4520
6. Approved Electives (choose two courses): ECON 3010, ENTR 2700, ENTR 3700, FIN 3250, HOSP 3000, or MGT 3110

• **Management of Recreation Resources**

1. Environmental or Biological Science (choose one course): ENR 1200 or LIFE 1010
2. Resource Management (choose one course): ENR/ZOO 2450, ENR/ GEOG 4040, GEOG 4080, GEOL 3650, REWM 2000, or REWM 4700
3. Human Dimensions (choose one course): ENR 4960, ENR/AGEC 4450, ENR/AMST 3050, ENR/ ANTH 4310, ENR/HIST 4412, ENR/POLS 3620, ENR/SOC 3950, HIST 4475, or MKT 4240
4. Law & Policy (choose one course): ENR/GEOG/ POLS 4051, ENR/GEOG/POLS 4052, or ENR 4750
5. Planning (choose one course): AGEC 4660, AGEC 4720, ECON 2400, ENR/AGEC 3750, ENR 4560, or ERS 3400
6. Geographic Information Systems or Analytics (choose one course): ENR/AGEC 4550, ENR/GEOL 4525, ESS 4001, GIST 2140, GIST 2150, GIST 2310, GIST 3111, GIST/RNEW 4130, or STAT 3050

• **Cultural & International Tourism**

1. Global Tourism: ORTM 4050
2. International Experience: students must complete a faculty-led, semester-, or yearlong study abroad course or experience
3. Cultural Resources (choose one course): ENR/SOC 3950, GEOG/NAIS 3400, GEOG 4570, INST 3000, INST 3200, INST 4060, INST 4350, or POLS 4475
4. The American West (choose one course): GEOG 4500, GEOG 4502, HIST 2389, HIST 4020, HIST/NAIS 2290, HIST/NAIS 3000, HIST/NAIS 4000, or NAIS 3200
5. Language (complete two consecutive language or ASL courses): LANG 1010 and LANG 1020
6. Cultural/International Museum Studies (choose one course): ANTH 2200, ANTH 2600, ANTH 3410, ANTH/AMST 2700, INST 2230, INST 2240, INST 2250, INST 2280, INST 2350, or POLS 2200

• **Outdoor Recreation Leadership**

1. Outdoor Leadership: ENR/ORTM 2800
2. Management & Organization: MGT 3210
3. Wilderness First Responder and CPR certifications*: ENR 3900 Wilderness Medicine or provide proof of certification to advisor

4. Leadership (choose one course): AGRI 3000, AGRI 4700, CNSL 2200, CNSL 3010, ENR 4950, FCSC 4117, or GWST 1900

5. Business (choose one course): ENTR 2700, ENTR 3700, FIN 3250, MGT 1040, MGT 3110, MGT 4500, or MKT 4590

6. Law & Policy (choose one course): ENR/GEOG/POLS 4051, ENR/GEOG/POLS 4052, or ENR 4750

7. Human Dimensions (choose one course): ENR 4560, ENR 4960, ENR/AGEC 4450, ENR/AMST 3050, ENR/ANTH 4310, ENR/HIST 4412, HIST 4475, ENR/POLS 3620, ENR/SOC 3950, or MKT 4240

8. Natural History: BOT 3100, BOT 4280, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/AMST 3050, ENR/GEOG 3450, GEOG 4460, GEOG/NAIS 3400, or GEOG 4000

• **Creative Studies in Recreation & Tourism:**

self-designed program of study requires approval from advisor; 19+ credit hours

6+ credit hours of Haub School Requirements courses:

1. U.S. Diversity (choose one)

2. Global Awareness (choose one)

Additional credit hours: Students complete additional credit hours in consultation with advisor if needed to meet minimum 120 credits, including 42 upper division credits, to earn a bachelor's degree from the University of Wyoming.

**certifications must be current at time of graduation.*

Undergraduate Minor in ENR

An ENR minor may accompany any primary field of study. The ENR core, plus one elective course, fulfills the 18 credit hour requirement for the minor:

15+ credit hours of ENR Core courses:

1. Foundations of Environmental Science (choose one course): ENR 1200, ENR/GEOL 1500

2. Environment & Society: ENR 2000

3. Approaches to Problem Solving: ENR 3000

4. Environmental Assessment: ENR 4900

5. Applied Experience (2 credits): ENR 4970

3+ credit hours of ENR Electives

(choose one; three credits required): ENR 2300, ENR 2800, ENR 3900, ENR 4450, ENR 4600, ENR 4890, or ENR 4960

Undergraduate Minor in Sustainability

The sustainability minor is available to any undergraduate student at the University of Wyoming. The minor prioritizes systems thinking, civic engagement, and personal development rooted in sustainability for everyday challenges.

Students completing the sustainability minor will be expected to:

1. demonstrate a theoretical and historical understanding of sustainability;
2. develop a model of sustainability informed by personal values and integrated into student's worldview;
3. think holistically about consequences of actions and intellectually respond to perspectives of sustainability outside their own, as well as explore and evaluate the implications of sustainability values;
4. develop and implement sustainability solutions in their community and have the ability to apply sustainability principles to a range of disciplines and professional settings.

To fulfill the requirements for the minor, students must earn 18 credits hours:

9 credit hours of Sustainability Core courses:

1. Foundations of Sustainability: ENR 2300
2. Ethics & Justice (choose one): ENR/PHIL 2330, ENR/POLS 3620, HLED 4020, NAIS 1030, PHIL 3250, or GWST 4450
3. Campus Sustainability: ENR 4600

9+ credit hours of Sustainability Electives courses

(choose three courses from any of the following categories):

1. Culture & Society: AMST 3050, AMST 4030, AMST 4800, ENR/ANTH 4310, ENR/SOC 3950, GEOG/NAIS 3400, GEOG 4310, GEOG 3550, or GEOL 3650
2. Economics & Policy: AGEC/ENR 3750, AGEC 4720, ENR 4560, ENR 4750, ENR/GEOG/POLS 4051, ERS 3400, or INST/POLS 4455
3. Energy & Environment: ATSC 2100, ARE 2410, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/CE 4430, ENR/GEOG 3450, ENR/REWM 3100, ERS 3010, ERS 4050, ESS/GEOG 3480, GEOG 4440, GEOL 1600, GEOL 3600, ME 4470, REWM 4200, or SOIL 3130
4. Food Systems: AECL 1000, AGEC 3860, ANTH 4260, BOT 3100, FCSC 3147, HLED 4020, PLNT 4020, or PLNT 4120

Undergraduate Minor in Outdoor Leadership

The outdoor leadership minor is available to any undergraduate student at the University of Wyoming. Students earning the minor will study leadership, ethics, field ecology, outdoor recreation, and wilderness medicine.

Students earning a minor in outdoor leadership will:

1. develop an understanding of leadership theories, including leadership movements, qualities, styles, and models;
2. identify and evaluate the cultural and environmental dimensions of outdoor leadership, including moral and ethical responsibilities, the fundamentals of ecological systems, and the human impact on the natural world;
3. demonstrate and apply outdoor leadership competency in a practical leadership role;
4. plan, implement, supervise, and analyze a high-quality, safe outdoor adventure and/or educational program;

5. earn and maintain a professional certification of Wilderness First Responder.

To fulfill the requirements for the minor, students must complete the following, earning 17+ credits in specified categories:

6+ credit hours of Outdoor Leadership Foundations courses:

1. Intro to Outdoor Leadership: ENR/ORTM 2800
2. Environmental Science (choose one): ENR 1200, ENR/GEOL 1500, ENR/GEOG 4040, AECL 1000, GEOG 1010, GEOL 1100, or LIFE 3400

8+ credit hours of Concepts courses:

1. Field Ecology (choose one): ENR 1200, ENR 4010, 4011, and 4012 (must complete all three courses), or ENR 4960
2. Leadership (choose one): AGRI 3000, AGRI 4700, CNSL 2200, CNSL 3010, ENR 4560, ENR 4950, FCSC 4117, or GWST 1900
3. Ethics & Culture (choose one): ENR/AMST 3050, ENR/ANTH 4310, ENR/PHIL 2330, ENR/POLS 3620, ENR/SOC 3950, GEOG/NAIS 3400, ORTM 1050, or ORTM 4901

3+ credit hours of Applied Experience

(choose from the following; minimum three credits required): ENR 3700, ENR 4960, or ENR 4970

Wilderness First Responder and CPR certifications*: ENR 3900 Wilderness Medicine or provide proof of certification to advisor

**certifications must be current at time of graduation*

Master of Science in Environment, Natural Resources & Society

Students earning the master of science in Environment, Natural Resources & Society (ENRS) will consult a Haub School advisor to design a program of study tailored to meet their educational goals. Students take courses and complete a Plan A research thesis or Plan B research project focusing on issues pertinent to environmental or natural resources management or policy. Graduates of this program will:

- develop an interdisciplinary and collaborative mindset;
- experience critical engagement with community stakeholders and decision-makers;
- excel in team-based collaborative environments;
- gain experience in relevant and emergent research methods and practices;
- demonstrate excellent written, oral, and digital communication across a range of audiences and purposes, including developing expertise in public engagement;
- apply conceptual, critical, and creative thought to relevant environmental and natural resource issues; and,
- analyze and evaluate complex systems that contribute to inclusive, sound, and well-informed decisions.

Students must earn a minimum of 32 credit hours for the Plan A thesis option and 30 credit hours for the Plan B option:

8 credit hours in ENRS core courses:

1. Orientation to ENRS: ENR 5001 (2 credits)
2. Foundations of ENRS: ENR 5100 (3 credits)
3. Collaborative Practicum: ENR 5921 (3 credits; may be completed for 1+ credit hours over multiple semesters)

4 credit hours of Plan A thesis credit:

1. ENRS Thesis: ENR 5960

Or, 2 credit hours of Plan B thesis credit:

1. ENRS Plan B Thesis: ENR 5961

17 credit hours in ENRS Electives:

Students will consult with their Haub School advisor to choose electives that support their plan of study and Plan A or Plan B thesis. Choose from any of the following categories:

1. Social & Cultural Sciences: AGEC 4720, AGEC 5660, AMST 5030, ANTH 5260, ECON 5410, ENR 5560, ENR 5600, ENR 5920, ENR/ANTH 4310, ENR/GEOG 4040, GEOG 4340, GEOG 5310, GEOG 5570, GEOG 5590, GWST 5450, NASC 5650, or REWM 5103
2. Law & Policy: ENR 5750, ENR 5890, ENR/GEOG/POLS 4052, INST/POLS 5455, LAW 6660, LAW 6700, LAW 6800, LAW 6860, LAW 6865, POLS 5051, or POLS 5475
3. Natural & Physical Sciences: BOT 5280, BOT 5700, BOT 5775, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/REWM 5285, ENR/PATB 5240, GEOG 5440, GEOG 5450, PLNT 5120, REWM 5000, REWM 5400, REWM 5580, REWM 5710, REWM 5750, RNEW 5500, or SOIL 5150
4. Communication: ENR 5270, ENR/AGEC 5450, ENR 5870
5. Quantitative & Qualitative Methods: BOT 5550, COJO 5070, ENR/AGEC 5550, ENR/GEOL 5525, GIST 5050, GIST 5100, GIST 5150, GIST/ RNEW 5130, or STAT 5050

Plan A or Plan B Project Research:

1. Both Plan A and Plan B theses lead to original thought, synthesis, or integration of relevant elements of scholarship on issues pertinent to environmental and natural resources management or policy. The Plan A thesis will incorporate original research and data analysis on an applied environmental or natural resource management problem. The Plan B thesis project is somewhat more flexible and may take a variety of forms. Students will consult their major advisor and graduate committee on the form and content of the Plan A and Plan B thesis.

Graduate Major in ENR

The ENR major is completed in tandem with any UW graduate degree. Students earning the ENR graduate major will take classes and conduct research in such fields as cultural studies, ecology, economics, law and politics, and management to:

- be conversant across a range of field of environmental significance, spanning science and technology to human dimensions of natural resources;
- understand and evaluate the relationship of your primary discipline to other relevant ENR fields; and
- produce discourse, scholarship, and practical solutions that address the complexity of ENR challenges.

In addition to degree requirements of the student's home department, students must complete 15 credit hours:

6 credit hours in ENR Core courses:

1. Foundations of ENRS: ENR 5100
2. ENR Policy in Practice: ENR 5900

9+ credit hours in ENR Electives courses (choose three+ courses from any of the following categories):

1. Human Dimensions: AGEC 4720, AGEC 5660, AMST 5030, ANTH 5260, ECON 5410, ENGL 4075, ENR 5450, ENR 5560, ENR 5600, ENR/ ANTH 4310, ENR/GEOG 4040, GEOG 4340, GEOG 5310, GEOG 5570, GEOG 5590, NASC 5650, REWM 5103, or GWST 5450
2. Law & Policy: ENR 5750, ENR/GEOG/ POLS 4052, INST/POLS 5455, LAW 6660, LAW 6700, LAW 6800, LAW 6860, LAW 6865, POLS 5051, or POLS 5475
3. Natural & Physical Sciences: BOT 5280, BOT 5700, BOT 5775, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/REWM 5285, ENR/PATB 5240, GEOG 5440, GEOG 5450, PLNT 5120, REWM 5000, REWM 5580, REWM 5710, REWM 5750, REWM 5400, RNEW 5500, or SOIL 5150
4. Quantitative & Qualitative Methods: BOT 5550, ENR/AGEC 5550, ENR/GEOL 5525, GIST 5050, GIST 5100, GIST 5150, GIST/RNEW 5130, or STAT 5050

Additional Program Requirements:

1. Statement of Purpose: Prior to or concurrent with declaring an Environment and Natural Resources (ENR) graduate major or minor, students must submit a 1-page Statement of Purpose describing how the Haub School's program aligns with their academic and professional goals.
2. Cumulative Learning Analysis: Immediately prior to graduation, students must submit a 1-2 page Cumulative Learning Analysis, analyzing their learning as a whole throughout their graduate work, informed by their coursework, research and co-curricular activities.
3. Program Completion Letter: Upon completion of ENR coursework, students will arrange a meeting with their advisor to ensure all requirements have been met. Once this step is complete, their advisor will submit a signed Program Completion Letter to the registrar, indicating the student should receive the ENR concurrent degree.

Juris Doctor/Master of Arts in ENR

Students working toward the J.D./M.A. in ENR consult a Haub School advisor to design a program of study tailored to meet their educational goals. Students must earn a minimum of 30 credits for the master's degree:

9 credit hours in ENR Core courses:

1. Foundations of ENRS: ENR 5100
2. ENR Policy in Practice: ENR 5900
3. Plan B Writing Seminar (1 credit): ENR 5890 ENR Topics: Thesis

Typically completed in the second semester of the second year.

4. Plan B Thesis: JD/MA (2 credits): ENR 5961

9 credit hours in ENR Electives courses

(choose three+ courses in consultation with Haub School advisor):

1. Humanities: AMST 5030, ANTH 5620, ENGL 4075, ENR 5560, ENR 5600, ENR/GEOG 4040, GEOG 5310, NASC 5650, or GWST 5450

2. Environmental Science: BOT 5280, BOT 5700, BOT 5775, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/ZOO 5240, ENR/REWM 5285, GEOG 5440, GEOG 5450, GEOG 5880, PLNT 5120, REWM 5580, REWM 5710, RNEW 5400, RNEW 5500, or SOIL 5150

3. Social Science: AGEC 4720, AGEC 5660, ECON 5410, ENR 5750, ENR/AGEC 5450, ENR/AGEC 5550, ENR 5050, ENR/GEOG 5525, ENR/POLS 5051, GEOG 5325, GIST 5130, GIST 5211, INST/POLS 5445, INST/POLS 5455, INST/POLS 5475, POLS 5710, REWM 5000, REWM 5103, or STAT 5050

Students must take a minimum of 9 credits outside the College of Law. Courses familiarize students with non-law ENR perspectives and approaches. Students work with a Haub School advisor to select courses from an approved list.

12 credit hours in Environmental and Natural Resources Law Specialization courses:

Students will take 12 credits to gain depth in ENR law, selected from the following options in consultation with Haub School advisor. Special approval may be granted for special topics courses.

LAW 6510, LAW 6660, LAW 6700, LAW 6790, LAW 6800, LAW 6860, LAW 6890, LAW 6910, LAW 6991, LAW 6992, LAW 6915, LAW 6915, or LAW 6500

Plan B Project research:

1. Students must complete a cumulative work of scholarship known as the Plan B project. The Plan B offers more flexibility than a traditional thesis in content and format. Students will be required to choose a Haub School faculty committee chair and at least two additional committee members. Committee composition is subject to approval by the program chair and Dean of the Haub School. A public oral defense of the project is required. All members of the student's committee must be present at the defense. The student's committee has to give final approval of the student's Plan B thesis and defense via a report of final examination.

Graduate Minor in ENR

The ENR graduate minor is designed for doctoral students in any discipline who want to broaden their perspectives, experiences, and critical thinking skills to complex environmental problems. The minor is also available to master's students.

In addition to degree requirements of the student's home department, students must complete 12 credit hours:

6 credit hours in ENR Core courses:

1. Foundations of ENRS: ENR 5100

2. ENR Policy in Practice: ENR 5900

6+ credit hours in ENR Electives courses (choose three+ courses from any of the following categories):

1. Human Dimensions: AGEC 4720, AGEC 5660, AMST 5030, ANTH 5260, ECON 5410, ENGL 4075, ENR 5450, ENR 5560, ENR 5600, ENR/ ANTH 4310, ENR/GEOG 4040, GEOG 4340, GEOG 5310, GEOG 5570, GEOG 5590, NASC 5650, REWM 5103, or GWST 5450

2. Law & Policy: ENR 5750, ENR/GEOG/ POLS 4052, INST/POLS 5455, LAW 6660, LAW 6700, LAW 6800, LAW 6860, LAW 6865, POLS 5051, or POLS 5475

3. Natural & Physical Sciences: BOT 5280, BOT 5700, BOT 5775, ENR 4010, 4011, and 4012 (must complete all three courses), ENR/REWM 5285, ENR/PATB 5240, GEOG 5440, GEOG 5450, PLNT 5120, REWM 5000, REWM 5580, REWM 5710, REWM 5750, REWM 5400, RNEW 5500, or SOIL 5150

4. Quantitative & Qualitative Methods: BOT 5550, ENR/AGEC 5550, ENR/GEOL 5525, GIST 5050, GIST 5100, GIST 5150, GIST/RNEW 5130, or STAT 5050

Additional Program Requirements:

1. Statement of Purpose: Prior to or concurrent with declaring an Environment and Natural Resources (ENR) graduate major or minor, students must submit a 1-page Statement of Purpose describing how the Haub School's program aligns with their academic and professional goals.
2. Cumulative Learning Analysis: Immediately prior to graduation, students must submit a 1-2 page Cumulative Learning Analysis, analyzing their learning as a whole throughout their graduate work, informed by their coursework, research and co-curricular activities.
3. Program Completion Letter: Upon completion of ENR coursework, students will arrange a meeting with their advisor to ensure all requirements have been met. Once this step is complete, their advisor will submit a signed Program Completion Letter to the registrar, indicating the student should receive the ENR concurrent degree.

Graduate Minor in Collaborative Practice

The Collaborative Practice minor is designed to provide students with skills in designing, organizing, facilitating, and evaluating collaborative decision-making processes. Students pursuing the Collaborative Practice minor will:

- build process competencies in collaborative decision making and problem solving, and
- deepen their knowledge in the application of collaborative processes in specific contexts (natural resources, health, education, business, etc.).

Collaborative Practice minor students who are currently working towards an ENR graduate major may not count ENR 5290 or ENR 5291 towards their ENR major. ENR 5450 (Negotiation) and one elective (approved for both the Collaborative Practice minor and the ENR major) may count for both. In addition to degree requirements of the student's home department, students must complete 12 credit hours:

9 credit hours in Collaborative Practice Core courses:

1. Negotiation: ENR 5450 (3 credits)
2. Principles & Methods in Collaborative Practice: ENR 5920 (3 credits)
3. Collaborative Practicum: ENR 5921 (3 credits; may be completed for 1+ credit hours over multiple semesters)

3 credit hours in Collaborative Practice Electives

Students will consult with their Haub School advisor to choose an elective to deepen their process competencies or build knowledge for application of collaborative governance in specific contexts (natural resources, health, education, business, etc.). Context specific electives should focus on policy within that context.

National Outdoor Leadership School

Administered by the Haub School of Environment and Natural Resources
Bim Kendall House

Haub School Advising Center

Phone: (307)766-5080 FAX: (307)766-5099; Web site: www.uwyo.edu/haub

The University of Wyoming (UW) and National Outdoor Leadership School (NOLS) Articulation Agreement provides the opportunity for UW students to receive UW academic credit for NOLS courses.

When NOLS students step into the world's wild places, they bring not only their backpacks, but also more than 40 years of experience in expeditioning. NOLS founder Paul Petzoldt's idea was simple: take people into the wilderness for an extended period of time, teach them the right things, feed them well and when they walk out of the mountains, they will be skilled leaders. The core of his idea was the extended expedition, one of sufficient length that a person could learn and practice the skills over and over again. That is the backbone of every NOLS course and today the school is widely recognized as the world's leader in the extended expedition, from two weeks to twelve.

This articulation agreement covers domestic and international NOLS courses. This agreement also covers some individual shortterm courses (14 days or less; including mountaineering, rock climbing, sailing, kayaking, skiing, snowboarding, and backpacking) and the Wilderness First Responder (WFR) course.

Application/Eligibility

Current UW students, or students who have been fully or conditionally admitted to UW may receive articulated NOLS credit. Students who have already taken a NOLS course cannot receive credit retroactively (i.e. if a student embarked on a NOLS course and requested to get credit after the course was completed).

Credit and Credit Transfer

UW credit hours will be awarded in the approved courses, which require prior approval. Upon completion of the NOLS courses, provided a grade equivalent to a UW grade of C or better was obtained at NOLS. These UW course grades will be included in your UW GPA. Students who withdraw or are expelled from a NOLS course may receive an incomplete or an F for all enrolled UW credit.

Students should be aware that for internship credits to be awarded, additional academic work requirements determined by the internship course will need to be met. Those additional requirements vary between academic programs and amount of credit desired, but may include a satisfactory evaluation from NOLS, a weekly journal, a substantial written report, and an oral presentation. Internship requirements are established prior to your participating in the NOLS course.

Academic Advising

Prior to participating in a NOLS course for UW credit, students must make an appointment with the Haub School by emailing haub.school@uwo.edu or calling (307) 766-5080. If your academic program is outside of the Haub School, students should also meet with their assigned academic advisor to determine if these courses will count towards their major. The Haub School will approve the student's schedule, provide the appropriate course numbers, and liaise with the NOLS Registrar.

Financial Arrangements

Each UW student will pay to NOLS:

- The NOLS tuition and related fees (any changes to be advised in writing by NOLS at least three months in advance of the change coming into effect), related fees would include equipment deposit;
- Complete medical and evacuation health insurance;
- Other fees (e.g. tuition protection program, local transportation, and gear purchases), air transportation and additional living expenses will be paid directly by the student to the provider of the service.

Each UW student will pay to UW:

- The published per credit registration fees to register UW credits earned at NOLS

Financial Aid

Students enrolled in the NOLS program may apply their financial aid to the cost of the program if they are enrolled as a full-time degree seeking student at the University of Wyoming. To do so, please work with the UW Office of Scholarships and Financial Aid.

Rules, Law, and Regulations

UW students studying at NOLS will be bound by all rules, regulations and by-laws in operation at NOLS. In addition, since UW students remain enrolled as degree candidates at UW, they must also adhere to UW standards of conduct, rules and regulations. UW and NOLS both abide by the Federal Right to Privacy Act (FERPA).

Steps to Follow

1. Determine the NOLS course that best fits your needs/interests and/or goals online at: www.nols.edu/courses
2. Make an appointment with an advisor from the Haub School to determine the UW academic credit that best suits your degree program by e-mailing haub.school@uwyo.edu or by calling (307) 766-5080.
3. Meet with your academic advisor (if your academic program is not in the Haub School).
4. Apply and be admitted into NOLS.
5. Prior to leaving for your NOLS course, enroll in the credit offered for the course.
6. Secure your financial aid (if any) with the UW Office of Scholarships and Financial Aid.
7. Attend and successfully complete the course (grade C or better).
8. Grades will be posted the semester of completion of your course.

UW Credit Options for NOLS

UW recognizes the following credit options for taking a NOLS course:

Short Courses (less than 14 days)

Students may be eligible to complete 2 Hours of UW credits in the following course(s).

- ENR4960 - Field Studies in: Credits: 1-6 **

Quarter Length Courses (14-65 days)

Students may be eligible to complete up to 9 hours in the following courses.

- ENR2800 - Introduction to Outdoor Leadership Credits: 3 **
- ENR4960 - Field Studies in: Credits: 1-6 **
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6 **

- ENR4970 - ENR Internship Credits: 1-6 **

Semester & Year-long Courses (more than 65 days)

Students may be eligible to complete up to 12-24 hours in the following courses.

For year-long courses, independent study credits are also available.

- ENR2800 - Introduction to Outdoor Leadership Credits: 3 **
- ENR4960 - Field Studies in: Credits: 1-6 **
- ENR4970 - ENR Internship Credits: 1-6 **
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6 **
- ENR3900 - Seminar in Environment and Natural Resources Credits: 1-3 ***

Note:

**There are additional course requirements for 4000-level NOLS credit. Syllabi and course expectations will be shared upon enrollment.

***For courses with a Wilderness First Responder component only.

Information Literacy

Coe Library 304

Phone: (307)766-2070

The University Libraries offer research assistance and information literacy instruction to students and faculty. Librarians provide customized class orientations to information sources in various disciplines, as well as individual research consultations. Students needing research help may call, email, instant message, or visit any library branch.

The University of Wyoming addresses information competencies utilizing the [Framework for Information Literacy for Higher Education](#) as approved by the Association of College & Research Libraries (ACRL) and endorsed by the American Association for Higher Education. Librarians collaborate with teaching faculty in addressing these information competencies in course assignments or lectures. Information literacy is the ability to recognize and define the need for information, then locate, evaluate, and use that information effectively and ethically.

Information literacy learning outcomes are included in University Studies First Year Seminar (FYS) and communication courses.

The Libraries also offer credit courses to help students improve research skills and to meet the communications 2 requirement of the University Studies Program.

Learning Outcomes

We expect that students completing LBRY courses will become knowledgeable consumers of information through learning how to:

1. Recognize and define the need for information;
2. Efficiently locate information in the library or on the Internet;
3. Evaluate the quality of information;

4. Utilize information effectively, ethically, and legally.

Librarians

TAMSEN EMERSON HERT, B.A. Colorado State University 1979; M.L.S. Emporia State University 1984; M.A. 1988; Librarian, 2014, 1986.

DAVID D. KRUGER, B.S. South Dakota State University 1991; B.S.Ed. Minot State University 1994; M.A. Kansas State University 1996; M.L.S. University of Missouri at Columbia 1998; Librarian 2016, 1998.

LAWRENCE O. SCHMIDT, B.S. Montana State University 1987; M.S. 1995; M.L.S. Emporia State University 2002; Librarian 2020, 2008.

Associate Librarians

KAIJSA J. CALKINS, B.A. University of Washington, Bothell 2001, M.L.I.S. University of Washington, Seattle 2004; Associate Librarian 2012, 2006.

JUDITH E. PASEK, B.S. University of Michigan Ann Arbor 1977; M.S. University of Missouri 1980; Ph.D. University of Nebraska 1987; M.L.I.S. Wayne State University 2013; Associate Librarian 2020, 2013.

Assistant Librarians

KRISTINA A. CLEMENT, B.A. University of Kansas 2007; M.A. University of Notre Dame 2010; M.S.I.S. University of Tennessee 2018; Assistant Librarian 2018.

SAMANTHA PETER, B.A. University of Wyoming 2016; M.S.I.S. University of Texas at Austin 2018; Assistant Librarian 2018.

Geospatial Information Science and Technology

Wyoming Geographic Information Science Center
337 Agriculture C Building

Ramesh Sivanpillai, Program Director
(307)766-2532
Web site: www.uwyo.edu/WyGISC

The Wyoming Geographic Information Science Center (WyGISC) offers undergraduate and graduate courses, degrees, and certificates in Geospatial Information Science and Technology under the GIST prefix. These provide fundamental geospatial science education to undergraduate and graduate students from across disciplines at UW and are appropriate for science and non-science majors. They cover core and advanced geospatial concepts and subdisciplines including Geographic Information Systems (GIS), remote sensing, spatial data analysis, spatial visualization, spatial databases, cartography, programming, and other topics.

Faculty:

SHANNON E. ALBEKE, B.A. University of Colorado, Boulder 1997; Ph.D. University of Georgia 2010. Associate Research Scientist 2019, 2010.

KENNETH L. DRIESE, B.S. University of Virginia 1981; M.S. University of Wyoming 1992; Ph.D. 2004; Senior Lecturer in Geospatial Information Science and Technology 2019, 2002.

JEFFREY D. HAMERLINCK, B.S. University of North Dakota 1988; M.P. University of Wyoming 1992; Ph.D. University of Colorado - Boulder 2011; Senior Research Scientist 2004.

PADDINGTON HODZA, BSC, University of Zimbabwe, 1994; MSC, University of Zimbabwe, 1998; Ph.D. West Virginia University, 2007; Associate Research Scientist 2016, 2013.

AUSTIN MADSON, B.A. University of California, Los Angeles 2012; M.A. 2015; Ph.D. 2020; Assistant Professor of Geospatial Information Science and Technology 2021.

RAMESH SIVANPILLAI, B.Sc. Bharathiar University 1987; M.Sc. Cochin University of Science and Technology 1990; M.Phil. Bharathiar University 1992; M.S. University of Wisconsin, Green Bay 1995; Ph.D. Texas A&M University 2002; Senior Research Scientist 2012.

CHEN XU, B.S. Sichuan University, China 1999; M.S. Sam Houston State University 2005; Ph.D. Texas A&M University 2010; Associate Professor of Geospatial Information Science and Technology 2019.

DI YANG, B.S. Liaoning University of Petroleum and Chemical Technology 2011; M.S. Texas A&M 2013; Ph.D. University of Florida 2019; Assistant Professor of Geospatial Information Science and Technology 2020.

Geographic Information Science and Technology Degrees and Certificates

GIST degrees and certificates include a Bachelor of Science Degree in GIST (to launch Fall 2022 contingent on demonstration of student demand), undergraduate certificates in GIST and Remote Sensing, each of which can contribute to the B.S. degree; a Research Master's Degree (with thesis), an online Professional Master's Degree (no thesis), and three online graduate certificates, in GIST, Remote Sensing, and Unmanned Aerial Systems (UAS, a.k.a. drones).

Drawing on expertise from geography, computer science, mathematics, statistics, psychology, design, and others, geospatial information science refers to the multi-disciplinary research enterprise that addresses the nature of geospatial information and the application of geospatial technologies to scientific questions. Geospatial information technology is a specialized set of information and communication technologies that support the acquisition, management, analysis, and visualization of geo-referenced data. Examples include: geographic information systems; global navigation satellite systems; and satellite, airborne, drone-based, shipboard and ground-based remote sensing and image processing systems.

Successful students in Geospatial Information Science and Technology (GIST) combine proficiency in spatial thinking and geospatial data science analysis with fluency in geographic information systems, remote sensing, data analytics, and visualization. As professionals, graduates apply their knowledge and skills in a wide range of fields, from environmental management and public health, to civil engineering and urban planning, to economic analysis and marketing.

Any courses listed in degree plans that are not described in the GIST course list are under development and will be added in future catalogs as they are approved.

Undergraduate Certificates

Undergraduate certificates in GIS and Remote Sensing provide a means of adding credentials to your degree that reflect expertise in geospatial science.

Graduate Certificates

Graduate certificates provide a means for students and professionals to earn marketable credentials over the course of 1-2 semesters. These certificates require a combination of core and elective courses as outlined below and will be delivered primarily online.

School of Energy Resources

301 Energy Innovation Center

Phone: (307)766-6879 FAX (307)766-6701

Holly Krutka, Executive Director

Website: www.uwyo.edu/ser

The School of Energy Resources facilitates interdisciplinary academic and research programs in engineering and science, economics, and environment and natural resources policy to address critical energy-related issues faced by our society.

Our mission is to leverage and add to the already significant energy-related talent and resources in the University of Wyoming colleges to develop human resources, know-how, and technical solutions to ensure a secure and sustainable energy future for the state, region, and nation.

The University of Wyoming (UW) School of Energy Resources (SER) was created in 2006 by the Wyoming Legislature through State Statute 21-17-117. Our goal is to enhance the university's energy-related education, research, and engagement. SER directs and funds cutting-edge energy research and technology development, which integrates with the formulation and conduct of academic programs at UW and bridges academics and industry through targeted engagement efforts. The bridges formed between academics and industry ensure programs are relevant, current, and deliver impact and high value to stakeholders and the state. Since its inception in 2006, SER has maintained flexibility in its focus and structure to meet the changing needs of Wyoming's energy industries and the state's economy-which is now more critical than ever.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; SER Professor of Energy Economics 2008.

CRAIG C. DOUGLAS, A.B. Chicago University 1977; M.S. Yale University 1978; M.Phil. 1980; Ph.D. 1982; SER Professor of Mathematics 2008.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering, 1984; M.S. Beijing University of Science and Technology, 1992; Ph.D. Chinese Academy of Sciences, 1997; Ph.D. Iowa State University, 2000; Ph.D. Osaka University 2003; SER Professor of Chemical Engineering 2015, 2008.

JOHN P. KASZUBA, B.S. Beloit College, 1982; M.S. Virginia Polytechnic Institute & State University 1986; Ph.D. Colorado School of Mines, 1997; SER Professor Geology & Geophysics, 2019, 2008.

SUBHASHIS MALLICK, B.Sc. Indian Institute of Technology 1976; M.Sc. 1978; Ph.D. University of Hawaii 1987; SER Professor of Geology & Geophysics 2008.

BRUCE A. PARKINSON, B.S. Iowa State University 1972; Ph.D. California Institute of Technology 1977; SER Professor of Chemistry 2008.

TARA RIGHETTI, B.A. University of Colorado Boulder 2005; J.D. 2007; SER Professor of Law 2020, 2017, 2014.

Associate Professors:

PO CHEN, B.S. Beijing University 2000; Ph.D. University of Southern California 2005; SER Associate Professor of Geology and Geophysics 2014, 2008.

DARIO GRANA, B.S. University of Pavia, 2003; M.S. 2005; M.S. University of Milano Bicocca, 2006; Ph.D. Stanford University, 2013; SER Associate Professor of Geology and Geophysics 2019, 2013.

Academic Professional:

KRISTOPHER KOSKI, B.S. Colorado School of Mines, 2005; J.D. University of Wyoming, 2008; Associate Lecturer 2017.

Accreditation

Both PLM and ELW concentrations are accredited by The Higher Learning Commission, a commission of the North Central Association of Colleges and Schools Commission on Institutions of Higher Education. In addition, the Professional Land Management Concentration is one of only twelve programs accredited nationally by the American Association of Professional Landmen.

Graduates in the program have the opportunity to sit for the Registered Landman exam. Individuals with certification can increase their salary by 20% on average. Visit landman.org to learn more.

SER Vision Statement

SER pursues the creation, sharing, and implementation of technology and knowledge for sustainable economic production of Wyoming's natural resources to generate additional employment and revenue opportunities for the state that include supply of clean energy and materials and products.

SER Mission Statement

SER develops and deploys expertise to solve critical energy challenges, add value to the Wyoming energy sector, and position UW as a primary provider for energy innovation at the national level. In pursuit of this mission, SER facilitates internal and external interdisciplinary coalitions and builds institutional capacity in energy education, research, and outreach. SER distinguishes its programs in areas of strategic importance to Wyoming's economy by focusing technology development and academic activities primarily in four strategic areas of concentration:

- Maximizing the economic recovery of fossil energy and mineral resources;
- Protecting existing markets for fossil fuels;
- Creating new markets - traditional and value-added - from Wyoming energy and mineral resources; and
- Educating the workforce and stakeholders to facilitate diversification of the energy sector through the addition of value-added activities.

We seek to develop and deploy new technologies and to educate the workforce and stakeholders in these areas to deliver broad and significant benefits to the state and the energy industry. Chief among these benefits are:

- Growth in energy-based revenue streams for Wyoming
- A hedge against boom and bust economic cycles
- A well-trained, homegrown workforce
- Enhanced competitiveness at UW for student and faculty recruiting, corporate partnerships, and funding
- Mutual gain for UW and industry from cooperative relationships
- Improved performance in monetizing Wyoming's most valuable energy assets

Program Admission

Undergraduate students will apply for admission to the University of Wyoming and then declare a major or minor within SER at any point during their course of study. To declare a major, students must meet with the SER academic advisor. Any student can add the SER minor without meeting with an SER advisor.

Minor

Students looking to create a focus for their coursework can add minors to the ERM&D program. Courses applying towards the minor must be completed with a grade of "C" or better.

Students not already majoring in BS-Energy Resource Management and Development may add the SER minor to their program of study.

School of Energy Resources

Energy Resource Management Minor (for baccalaureate students). More information can be found on our website: <http://www.uwyo.edu/ser/academic-programs/minor-erm.html>

University Honors College

Guthrie House

Peter Parolin, Dean

Phone: (307) 766-4110

Web site: uwyo.edu/honors

The Honors College provides academically ambitious students with a series of curricular and co-curricular opportunities. Through these opportunities, students gain the breadth of knowledge needed by citizens, professionals, and family members to be effective in a lifetime of stimulating and enriching pursuits. Honors students learn to write cogently for a variety of audiences in their academic disciplines and beyond. They learn to locate and use reliable information and trustworthy opinion. Through appropriate coursework, they learn how to become engaged citizens and to understand the ethnic and cultural diversity of America and the world. They learn the purposes and values of the arts, humanities, sciences and social sciences. The Capstone Project is a sustained research or creative activity through which students demonstrate what they have learned: to formulate a project independently, to develop the intellectual and creative means to complete it, and to write and speak effectively about their work. The Capstone Project is frequently used as evidence of critical thinking in graduate and career applications.

Learning Outcomes

Students graduating from the Honors College will be able to: (1) engage in problemsolving, research, and creative pursuits that utilize an interdisciplinary approach (2) articulate the value of international and diversity-focused perspectives (3) develop their own styles of leadership and service and identify meaningful opportunities for engagement in these areas and (4) create intentional pathways through career development, including utilizing internship opportunities.

Admission

The Honors College seeks well-rounded, ambitious, and curious learners and leaders. Students are invited to apply to the college prior to their first year. First year applicants should apply to the Honors College when submitting their general application to UW. The Honors College admissions committee considers academic performance and test scores holistically alongside an application essay and high school transcript.

Students admitted into the Honors College who are College of Engineering majors will automatically be accepted as Honors College Engineering students.

The Honors College reviews applications on a rolling basis. Students are admitted to the Honors College only after they have been accepted to UW.

The Honors College also welcomes application from new transfer students. Transfer students entering the Honors College typically have an overall college GPA of 3.25 or higher. The college also admits transfer students and current UW students with at least three semesters remaining prior to graduation.

To maintain good standing in the college, a student must achieve a 3.0 GPA at the conclusion of the student's first year of study. A 3.25 GPA at the conclusion of the student's second year of study is required, with this standard remaining throughout their academic career. Interested high school seniors and transfer students are encouraged to come by the Honors College or to write to the Dean, The Honors College, Dept. 3413, 1000 University Ave, Laramie, WY 82071. The email address is honors@uwyo.edu.

Scholarships

The Honors College supports UW in financial aid packages for students. In keeping with the vision of Honors to facilitate an international experience, Honors provides scholarships to assist with study abroad. To be scholarship eligible, students must have a minimum cumulative 3.250 GPA. Fellowships for supporting research or creative projects for the senior thesis may also be available.

Program Requirements

To earn a minor in Honors, Honors students must complete a total of five courses in Honors and a Capstone Project, and complete each level of the Honors SOAR badge requirements. They must also graduate with a 3.250 UW GPA. Students who transfer to UW or join Honors as continuing UW students may have some of their required Honors courses and SOAR requirements waived.

The Honors curriculum immerses students in multi-disciplinary inquiry. We begin with the First Year Colloquium, a two-semester course sequence that takes a complex topic - for example, *Dreams and Reality - or- What Does it Mean to be a Human* and explores it with readings based in the humanities, arts, sciences, and social sciences. We enrich the course with visits to the theatre, the Art Museum, and other UW resources, building community while learning about UW. Thereafter, students enroll in three additional courses: an Honors Non-Western Perspectives course and six hours of upper division coursework in Honors that emphasize interdisciplinarity. It is strongly recommended that students take on average one Honors course per year. Throughout their Honors academic track, students will complete each level of the Honors SOAR Badge.

The Honors experience concludes with a Capstone Project, either a paper or project, done under faculty mentorship and presented publicly. This requirement ensures that students gain creative or research experience in an area of their interest. These projects often lead to graduate studies or a special career path.

Honors College Minor Curriculum

Honors College Minor Curriculum

Honors SOAR Badge requirements

Students are required to complete each level of the Honors SOAR Badge program. Details are available from the Honors College.

Capstone Project (Creative or Research-based)

Students are not required to register for a specific course to complete the Capstone Project. There is no specific Capstone Project course; students complete the project independently in coordination with a faculty mentor.

- Honors does offer an optional independent study course if desired. Up to 6 hours of credit in the optional HP4976 - Independent Study are allowed.
- HP 4976 does not meet any specific Honors coursework requirements or USP requirements.
- Students may be pursuing a major that requires a senior or capstone project, and a major specific project may also meet the requirement for the Honors College Capstone Project. Please contact the Capstone Project Coordinator for details.

Honors Additional Requirements

Students must also graduate with a 3.25 cumulative UW GPA.

Successful completion of the program is indicated on transcripts and diplomas, and seniors are recognized at graduation ceremonies.

Priority registration for enrollment in Honors courses is given to Honors College students, although non-Honors students with a 3.25 GPA or with permission of the instructor are eligible and encouraged to enroll once the general registration period begins, if space is available. Requests for enrollment must be approved by the Honors College office.

Advising

The Honors College offers supplemental advising that supports the work that students do with their primary major advisors. Honors Advising instructs students on Honors curriculum requirements and helps students select their Honors courses. Students work with their primary major advisor to plan their courses each semester and to monitor progress towards degree completion. Students cannot register for Fall or Spring classes without meeting with their primary major advisor.

UWYO

UWYO courses are designed to help students acculturate to college life and coursework and learn key academic skills. Course content is combined with training in critical reading, academic writing, research, formal presentation, and many other emphases.

UWYO courses have low student-teacher ratios in an effort to help students experience richer connection with the instructor and students in the course. Most UWYO courses imbed intellectual self-awareness within the course goals. Several UWYO courses are part of UW learning communities and provide additional opportunities for students to engage with and work together in their cohort.

Advising Career Exploratory Studies

222 Knight Hall

STEP

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB><Q]).

STEP courses are housed within the Learning Resource Network (LeaRN) Program and comprise first-year and academic success courses aimed at supporting students in college research, written and professional communication, major and career exploration, and general transition strategies. STEP courses are often embedded in first-year programs including Fall Bridge, First-Year Experience, First-Year Interest Groups (FIGs), and First-Year Seminars.

English Language Center

Cheney International Center 28

Frederica Suess, Director

Phone: (307) 766-3630

Web site: www.uwyo.edu/geo/elc

Our Mission

The English Language Center serves the University of Wyoming and surrounding community by preparing non-native speakers of English linguistically, culturally, and academically to meet the requirements for success in U.S. higher education environments and to fully engage in campus life.

IEP Conditional Admission: Conditional admission is available for undergraduate applicants who are academically eligible but have low language proficiency scores. Students need to do 2 applications; one for IEP and one for a degree program for consideration. *Only one application fee is needed. Contact us directly if you are interested in this option: elc@uwyo.edu.

University of Wyoming at Casper

University of Wyoming at Casper

Brent L. Pickett, Ph.D., Dean

125 College Drive, Casper WY 82601

(307) 268-2713

Web site: <https://www.uwyo.edu/uwcasper/>

Since 1976, the University of Wyoming at Casper (UWC), in partnership with Casper College, has offered on-site courses and a slate of university degree programs in Casper. UW-Casper is also the location in Natrona County for statewide degree programs and classes offered through Distance Credit Programs.

UW-Casper was established to meet the needs of students unable to move to Laramie. Some of these students are nontraditional students who may be older or have families, homes, or jobs in the Casper area. UW-Casper is designed to meet the academic needs of students in a setting that provides small class sizes, dedicated staff, and award-winning faculty. Courses are taught by resident and visiting faculty who are regular or part-time members of UW academic departments. A full-service student success office handles admission, registration, financial aid, and advising.

Classes are taught onsite on the Casper College campus. More than 4,000 students have received their UW degrees through UW at Casper support and programs.

UW-Casper also has the Bachelor's of Applied Science (BAS) program. This fully online program is designed to stack onto an associate's degree to help persons already in the job market further develop their skills and advance their career potential. There are two areas of concentration available in the BAS, one in Health Services Administration and the other in Organizational Leadership.

Undergraduate Majors

Organizational Leadership, B.A.S

Biology, B.S.

Secondary Career & Technical Education, B.A.S.

Communication, B.A.

Elementary Education, B.A.

Elementary Education/Special Education, B.A.

English, B.A.

Health Services Administration, B.A.S.

Medical Laboratory Science, B.S.

Psychology, B.S.

Armed Forces Services

Armed Forces Services

LTC George R. Riggan, Commander, Army ROTC
LtCol. Anthony Kusek, Commander, Air Force ROTC

It has been the consistent policy of the university in cooperation with the federal government to make courses in military science and aerospace studies available on a voluntary basis to all qualified students.

Academic credits for Army and Air Force Reserve Officers' Training Corps (ROTC) are applied toward baccalaureate and graduate degrees in varying amounts depending upon the degree plan of the student and as determined by the college concerned.

Department of Military Science

Army ROTC

FAX: (307) 766-3383
Web site: www.uwyo.edu/armyrotc

Professor:

JONATHAN CURTIS, U.S. Military, Military Intelligence West Point B.S.; MSA Central Michigan University 2019; Professor of Military Science 2020.

Lecturer:

JEREMIAH SCHUCHARDT, Master Sergeant, U.S. Army; Senior Military Instructor 2019.

The Department of Military Science - Army ROTC faculty is composed of U.S. Army officers and senior noncommissioned officers. These officers hold bachelors' and masters' degrees in a variety of fields. Noncommissioned officers hold associate degrees in a variety of fields. Officers' military education includes completion of the Officer Basic Course and the Officer Advanced Course. Several faculty are graduates of the Army's Command and General Staff College and have completed military specialty schools such as: Flight School, Ranger School, Airborne School, Air Assault School, Special Forces School, Jumpmaster Course, Special Operations Training and Language School.

General Information

Army ROTC is a program which offers qualified college students the opportunity to graduate as officers and serve tours in the U.S. Army, the Army National Guard or the U.S. Army Reserve. The four-year program is divided into two parts called the basic course and the advanced course. The basic course, consisting of 8 credit hours, is usually taken during the first two years of college. No military obligation is incurred by enrolling in the basic course.

The advanced course, usually taken during the junior and senior years or during graduate school, involves 19 credit hours of study and a five-week Leadership Development and Assessment Course during the summer. Advanced course students incur a military obligation, and they receive up to \$500.00 per month in tax-free subsistence throughout the academic year.

Army ROTC is not itself a major. Participants pursue the degree of their choice and take Army ROTC as an elective program. Those who complete the program may receive federal commissions from the President of the United States.

Army ROTC offers a military science minor. Effective with the Fall 2015 semester, the requirements for a minor in military science are as follows:

ARMY 3010.....	3
ARMY 3020.....	3
ARMY 3025.....	1
ARMY 3026.....	1
ARMY 3030.....	3
ARMY 4010.....	2
ARMY 4020.....	2
ARMY 4015.....	1
ARMY 4016.....	1
ARMY 4025.....	1
ARMY 4026.....	1
HIST 2020 or HP 4900.....	3

Total credit hours 22

The military science minor, encompassing 22 credit hours, will prepare selected students for commissioning and establish a sound basis for their future professional development.

To be eligible for a commission, U. S. citizens must meet prescribed physical, intellectual, and moral standards in addition to completing Army ROTC studies and successful completion of Professional Military Education (PME) courses. These PME courses include written communication skills, military history and computer literacy. A two-year option is available for sophomore and junior students, students with prior military service (see below), and those completing a masters program.

In the Army ROTC classroom the student is exposed to a wide variety of subjects designed to instill confidence, self-discipline, integrity and responsibility. Students gain an appreciation for the role of national defense, and learn what a leader must be, know and do in order to gain the respect and support of their subordinates.

Skills learned in Army ROTC, including resource management, leadership and planning are valuable and complement any university major. Young commissioned officers returning to civilian sectors after military service find an abundance of career opportunities.

Uniforms, Pay and Allowances

All uniforms, books and other instructional materials required in Army ROTC are provided to basic and advance course students at no cost. The cadet uniform is the same as the U.S. Army uniform except for the distinctive ROTC insignia.

Advanced course participants are paid a tax-free subsistence allowance of up to \$500.00 per month during the school year. During the summer training period students receive pay, travel, rations, quarters, clothing, and medical and dental services.

Two Year ROTC Program

The two-year program is designed for community college graduates and university students of sophomore or junior standing who did not take Army ROTC during the first two years of school. The program may also apply to seniors and graduates who have at least two years remaining in post graduate study.

To enter the two-year program, students must first attend a paid 28-day internship during the summer or be a veteran who has graduated from advanced individual training.

Special Scholarship Program

Special Scholarship Program Two-, three-, and four-year scholarships are offered by Army ROTC. These scholarships pay full tuition, laboratory fees and a \$1200 per year book fee. While on scholarship, the student receives up to \$500.00 a month during the school year. In addition to active duty scholarships, Army ROTC offers scholarships to students wishing to join the U.S. Army Reserve or Army National Guard upon commissioning. These reserve scholarships also pay full tuition, laboratory fees, book fees, and up to \$500.00 a month. Graduate students and undergraduate students are eligible to apply for the two- and three-year scholarships. These scholarships are awarded by the Professor of Military Science. Students do not have to be enrolled in ROTC to apply for these scholarships. Certain restrictions apply. High school juniors and seniors seeking a four-year scholarship should contact the Professor of Military Science, Army ROTC, Dept. 3167, 1000 E. University Ave., Laramie, WY 82071. College students desiring a scholarship should contact the Professor of Military Science in 154 Wyoming Hall, (307) 766-3390.

Scholarships are offered to ROTC cadets from several military associations. The Reserve Officers Association (ROA), Association of the U.S. Army (AUSA), Cowboy Battalion Alumni Association (CBAA), the United Services Automobile Association (USAA) and First Command offer annual cash awards to ROTC cadets.

Room and board scholarships are available to students who enroll in Army ROTC. Scholarship awards are based on merit and the student's potential to become a commissioned officer. The number of scholarships and dollar amount vary dependent on funds available. Room and board scholarships may only be used in UW residence halls or university apartments.

Leadership Laboratory

Leadership laboratory provides instruction that complements the classroom. This time provides practical application on subject matter taught in class. Leadership and management dynamics are inherent in this practical application. All students enrolled in a military science course must enroll in the appropriate leadership laboratory unless consent is obtained from the Professor of Military Science. Training includes land navigation, first aid, communications, basic rifle marksmanship, drill and ceremonies, decision making, squad movement and problem solving. This instruction is cadet planned and presented with immediate instructor feedback. The goals of this period are to instill self-confidence, self-discipline and responsibility in each cadet.

Land navigation skills are practiced in a variety of terrain locations near campus. The training instills trust and confidence in the cadet's ability to accurately plot and follow a compass course. Communication, such as radio, telephone and interpersonal skills, are taught and practiced. Marksmanship is taught in the Half-Acre rifle range and on other ranges, weather permitting. Finally, drill and ceremonies teaches methods of organizing and moving groups of individuals in an orderly manner resulting in team building while establishing esprit de corps.

Veterans' Option

Veterans of active military service and members of the National Guard or U.S. Army Reserve may qualify to go directly into the advanced Army ROTC program if they will be an academic junior. In these cases, basic training fulfills the requirement of the first two years of ROTC (Basic Course). Academic freshmen and sophomores are not required to take basic course classes but are highly encouraged to do so. It is common for members of the National Guard to study to become commissioned officers via the ROTC program. The Simultaneous Membership Program (SMP) is a formalized program for advanced course Guard members and Reservists to combine their unit training with ROTC training. In many cases the SMP program will result in increased financial benefit to the individual.

Military Obligation

There is no military obligation for taking the basic course, freshman and sophomore years. When an individual starts the advanced course, he or she incurs an obligation. The nature of that obligation depends upon whether the individual elects to serve in the National Guard, the Army Reserve or the active Army, and whether the individual has an Army scholarship. Those who desire guard or reserve duty may contract specifically for that purpose. The guard and reserve obligation is six years of monthly training meetings and two years of inactive ready reserve (IRR). The active duty obligation is four years Active duty, and four years of inactive ready reserve (IRR).

Extracurricular Activities

Army ROTC offers a variety of activities which are designed to promote an interest in the military and provide relaxing, enjoyable leisure activities for cadets.

The Cowboy Battalion has its own Ranger Challenge team, which is a varsity-level team that competes with other universities in military skills such as orienteering and soldier skills. The battalion also has a cannon crew, mounted color guard, 10-miler team, Bataan Death March team, and participates in intramural sports.

The department periodically sponsors other activities such as rappelling demonstrations, ranger weekends, battlefield tours, leadership exercises and other adventure training, such as mountaineering, land navigation exercises, patrolling and wilderness survival.

Suggested Course Sequence

FRESHMAN YEAR: Fall Hrs.

ARMY 1010	2

Minor

Army ROTC Military Science Minor

The military science minor, encompassing 22 credit hours, will prepare selected students for commissioning and establish a sound basis for their future professional development.

Army ROTC offers a military science minor. Effective with the Fall 2015 semester, the requirements for a minor in military science are as follows:

Minor Requirements

Army ROTC offers a military science minor. Effective with the Fall 2015 semester, the requirements for a minor in military science are as follows:

ARMY3010 - Leadership and Tactics I

Credits: 3

Studies leadership techniques and tactical operations at the small-unit level. Instruction covers the decision-making process, troop leading procedures, land navigation and operation orders. In-depth analysis of team/squad tactical procedures and techniques. Numerous student oral presentations and practical exercises.

USP Code [O<>(none)]

Prerequisite: ARMY 2010, ARMY 2020, basic camp or consent of department head.

ARMY3020 - Leadership and Tactics II

Credits: 3

Studies platoon-level tactics and leadership techniques. Instruction covers the solving of complex tactical problems. Illustrates techniques for properly managing personnel, resources and time to accomplish organizational goals. Introduces Army staff functions and prepares students for successful completion of ARMY 3030.

Prerequisite: ARMY 3010.

ARMY3025 - Conduct of Training

Credits: 1

Introduces the Army's system of conducting training exercises. Covers prerequisite training, pre-execution checks, officer/NCO responsibilities, training presentation techniques, sustainment training and training assessment.

Prerequisite: consent of instructor.

ARMY3026 - Assessment of Training

Credits: 1

Introduces the Army's system of training assessment. Covers formal and informal after-action reviews (AARs); preparation for, conduct of, and goals of an AAR; and writing of Army after-action reports.

Prerequisite: consent of instructor.

ARMY3030 - Practicum in Leadership

Credits: 3

Encompasses Leadership Development and Assessment Course, a five week test of the cadet's leadership ability. Each cadet is evaluated in ten different positions. Positions include both garrison and tactical situations. Each position requires the cadet to plan, implement and execute a wide variety of tasks. The cadet must control all personnel under this command. The cadet is extensively evaluated by cadre Tactical Officer/Non-commissioned Officer on twelve leadership dimensions. Successful completion of the Leadership Development and Assessment course is required for commissioning.

Prerequisite: successful completion of ARMY 3010 and ARMY 3020.

ARMY4010 - Dynamics of the Military Organization I

Credits: 2

Studies and analyzes organization, resources and functions of military staff. Reviews formal staff problem-solving procedures, including student effective writing and briefing presentations. Introduces ethics and the military profession.

Former Course Number [4030]

Prerequisite: ARMY 3010, ARMY 3020 or consent of department head.

ARMY4020 - Dynamics of the Military Organization II

Credits: 2

Introduces military law; planning and management of personal affairs; Army transportation, logistics and personnel management systems. Studies officer/NCO relations. Includes student writing and briefing presentations on assigned topics.

Former Course Number [4040]

Prerequisite: ARMY 4010 or consent of department head.

ARMY4015 - Staff Officer Practicum I

Credits: 1

Gives students practical experience in serving on an Army staff. Under supervision of an Army ROTC cadre member, students undergo training and conduct practical exercises in one of the following specialties: command and control, operations, personnel or logistics.

Prerequisite: concurrent enrollment in ARMY 4010.

ARMY4016 - Staff Officer Practicum II

Credits: 1

Gives students experience in serving on an Army staff. Under the supervision of an Army ROTC Cadre member, students undergo training and conduct practical exercises in one of the following specialties: command and control, operations, personnel or logistics.

Prerequisite: concurrent enrollment in ARMY 4020.

ARMY4025 - Principles of Training Management

Credits: 1

Introduces students to the Army's system of training management. Covers principles and philosophy of training, training guidance, training cycles, soldiers/leader tasks, techniques for collective and multi-echelon training, as well as procedures for short-term planning.

Prerequisite: consent of instructor.

ARMY4026 - Preparation of Training

Credits: 1

Introduces the Army's system of training preparation. Covers short-range training plans, training meetings, development of timelines, publishing of training schedules, training and evaluation outlines, as well as rehearsals.

Prerequisite: consent of instructor.

HIST2020 - American Military History

Credits: 3

Surveys military experiences of U.S. from colonial period to the present. In addition to specific wars, examines military doctrines and political, social and economic forces that shaped conduct of war in American history.

OR

- HP 4900 Credits: 3

Total Credit Hours: 22

Department of Aerospace Studies

Department of Aerospace Studies
110 Wyoming Hall, (307) 766-2338
FAX: (307) 766-2357
Web site: www.uwyo.edu/airrotc

Professor:

ANTHONY KUSEK, Lt. Colonel, U.S. Air Force; B.S. Parks College 1995; M.A. Webster University 2007; Professor of Aerospace Studies 2019.

RICHARD LANDSVERK, Major, U.S. Air Force; B.S. Thomas Edison State College 2008; M.A. Bellevue University 2012; Professor of Aerospace Studies 2019.

SAMUEL R. SHEARER, Lt. Colonel, U.S. Air Force; B.S. University of Utah 1996; M.S. Troy State University 2003; M.A. Naval Postgraduate School 2004; Ph.D. 2013; Professor of Aerospace Studies 2016.

Air Force Reserve Officers' Training Corps (AFROTC) provides University of Wyoming students a path toward earning a commission as an officer in the United States Air Force. The curriculum provides college students a solid understanding of the leadership and military fundamentals an Air Force officer requires. AFROTC cadets supplement their normal university coursework with studies in Air Force fundamentals, history, leadership, and national security affairs. In addition, cadets have the opportunity to learn about various careers in the Air Force through their studies, guest lectures, base visits, and other military training opportunities. While enrolled in AFROTC, the Air Force provides uniforms, AFROTC textbooks, and the necessary Air Force equipment. Upon successful completion of the program and earning their bachelor's degree, cadets are commissioned as 2nd lieutenants in the U.S. Air Force.

Application and enrollment in the program is voluntary. Students should simply register for the appropriate Air Force (AIR) courses. In addition, prospective cadets will need to complete an application package upon arrival at the detachment in order to ensure minimum qualifications for military service. Contact the AFROTC Department for additional details or with any questions regarding registration. All university students, both male and female, are eligible to apply for admission in the program.

Four-Year Program

The four-year program is divided into two phases. The first two years comprise the General Military Course (GMC) consisting of one class period (1 hour) per week in the classroom and one class period (2 hours) per week in leadership laboratory. The GMC is a prerequisite for continuation in the Professional Officer Course (POC), the last two years in the program. Other prerequisites include passing the Air Force Officer Qualifying Test (AFOQT), maintaining at least a minimum grade point average of 2.0 (GMC) and 2.5 (POC), having the physical qualifications for an Air Force commission, and participating in a four-week field training session. The advanced course consists of one class period (3 hours) per week in the classroom and one class period (2 hours) per week in leadership laboratory.

Three-Year Program

Students may enroll in ROTC on a three or three and one-half year program where the GMC component is shorter. To complete the GMC requirements, the student must simultaneously enroll in AIR 1000 and AIR 2000 courses to complete all four academic terms of the GMC program. After successfully completing the GMC program and Field Training, students may enter the two-

year POC program. This program is especially suitable for sophomores and junior college transfers. Students that participated in high school Junior ROTC, or have prior-enlisted service, can apply documented participation toward a portion of the GMC requirement.

Leadership Laboratory

The concept of leadership laboratory is to provide leadership training experiences which will improve a cadet's ability to perform as a USAF officer. Leadership laboratory is largely cadet planned and directed.

Field Training

Field training is a four-week program conducted in residence at an Air Force base during the summer.

While at field training, each cadet is provided subsistence, uniforms/equipment, and receives approximately \$28.00/day plus reimbursement for travel to and from the field training base.

Financial Benefits

Freshmen and Sophomores on AFROTC scholarships receive \$300 and \$350, per month, respectively. Juniors enrolled in the Professional Officers Course receive \$450 per month and seniors \$500 per month tax-free during the school year for subsistence. Uniforms, required texts and all necessary Air Force equipment are furnished by the government. In addition, all POC and scholarship cadets are allowed to travel anywhere in the continental United States on military aircraft (on a space available basis).

Special Scholarship Program

Two-, three- and four-year scholarships are offered by AFROTC on a competitive basis. These scholarships pay for a \$900 book allowance per year, tuition (amount dependent on type of scholarship awarded), fees and other required expenses except room and board. The university and the State of Wyoming offer additional room and board funding to Air Force ROTC cadets (who have or have not been awarded an Air Force ROTC scholarship) and reside in university housing. High School seniors seeking a four-year scholarship should contact their high school counselors or the Recruiting Flight Commander, AFROTC Detachment 940, Dept. 3005, 1000 E. University Avenue, Laramie, WY 82071; telephone (307)766-3710; email at airforce.rotc@uwyo.edu, early in the fall of their senior year. Sophomore or transfer students interested in competing for a scholarship should contact the Recruiting Flight Commander before the fall semester prior to junior standing.

Military Obligation

Students enrolling in the first two years of the AFROTC Program (the General Military Course) are not obligated to military service of any kind, unless on an Air Force scholarship their sophomore year. Cadets accepting an AFROTC scholarship and those entering the Professional Officer Course become members of the inactive reserve of the United States Air Force. Upon being commissioned a Second Lieutenant in the Air Force, graduates in nonflying career fields agree to serve four years on active duty; pilot candidates agree to serve on active duty for 10 years after completion of flight training; RPA, navigator, and air battle manager candidates agree to serve on active duty for six years after completion of their respective training.

Extracurricular Activities

To familiarize students with Air Force life and social customs, the AFROTC Program offers on a voluntary basis a wide range of extracurricular activities. Civil Air Patrol gives cadets an opportunity to experience flying first hand with a trained instructor pilot. The Arnold Air Society, a national professional honorary society, is a service organization active on campus. The color guard supports various university and local activities. Visits to Air Force bases across the nation provide insight into the function of Air Force operational units. Throughout the year, AFROTC teams participate in the university intramural sports program, while cadet-sponsored social events build the spirit of comradeship inherent in military life.

Minor

Aerospace Studies Minor

Air Force ROTC offers an Aerospace Studies minor.

The 24 credit hours required to accomplish the Aerospace Studies minor will effectively compliment many majors, provide a sound basis for future professional development, and increase the career opportunities of a UW graduate.

Minor Requirements

For the Aerospace Studies minor, the student must complete the core AFROTC program plus:

- 3 credit hours in any Management (MGT) course in the current UW catalog **AND**
- 3 credit hours in one Political Science (POLS) course listed below
OR
- 6 credit hours of Political Science courses listed below.

Political Science

POLS1200 - Non-Western Political Cultures

Credits: 3

Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed INST 1200.

USP Code [CS,G<>(none)]

POLS2200 - Politics of Europe and the European Union

Credits: 3

Examines formal and informal aspects of politics in European countries and the European Union.

USP Code [(none)<>COM2]

Prerequisite: POLS 1200 o r POLS 1250 o r permission of the instructor.

POLS2290 - Governments and Politics of Latin America

Credits: 3

Studies chief cultural and historical factors influencing Latin American political process. Surveys major institutions and political patterns of the region.

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

- POLS 2300

POLS2310 - Introduction to International Relations

Credits: 3

Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

Cross Listed INST 2310.

USP Code [G<>(none)]

POLS3220 - Government and Politics of Russia and FSU

Credits: 3

Examines the political, economic and identity transitions of Russia and other states of the former Soviet Union during the post-communist era. Explores how current challenges relate to past Soviet practices.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3270 - Governments and Politics of the Middle East

Credits: 3

Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post- World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3300 - Model United Nations

Credits: 1-3

Max Credit (Max. 6)

Focuses on the United Nations (UN) system and multilateral diplomacy to prepare students to participate in a Model UN simulation. Students learn to evaluate the UN system, learn strategies to address international problems, and develop skills to effectively represent a country in a role-playing exercise.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

- POLS 4220

POLS4230 - Governments and Politics of Asia

Credits: 3

Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

Dual Listed POLS 5230.

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

POLS4255 - Politics of Developing Nations

Credits: 3

An analysis of the processes of political, economic and social change in the non-Western world.

Cross Listed INST 4255.

Dual Listed POLS 5255.

Prerequisite: 9 hours of political science or international studies, including POLS 1200/INST 1200 or POLS 1250/INST 1250 or POLS 2310/INST 2310, or permission of instructor.

- POLS 4300

POLS4340 - International Organizations

Credits: 3

Encompasses development of world organizations, such as League of Nations, United Nations and its affiliate bodies. Also studies regional organizations and private international bodies.

Cross Listed INST 4340.

Dual Listed POLS 5340.

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4360 - International Peace and Conflict

Credits: 3

Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed INST 4360.

Dual Listed POLS 5360.

Prerequisite: 9 hours of political science or international studies including POLS 2310.

POLS4870 - Seminar in International Relations

Credits: 3

Max Credit (Max. 6)

Encompasses reading and research in international law and politics.

Dual Listed POLS 5870.

2293

USP Code [(none)<>COM3]

Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

English Language Center

English Language Center

Cheney International Center 28

Frederica Suess, Director

Phone: (307) 766-3630

Web site: www.uwyo.edu/geo/elc

Our Mission

The English Language Center serves the University of Wyoming and surrounding community by preparing non-native speakers of English linguistically, culturally, and academically to meet the requirements for success in U.S. higher education environments and to fully engage in campus life.

IEP Conditional Admission: Conditional admission is available for undergraduate applicants who are academically eligible but have low language proficiency scores. Students need to do 2 applications; one for IEP and one for a degree program for consideration. *Only one application fee is needed. Contact us directly if you are interested in this option: elc@uwyo.edu.

Other Programs

Intensive ESL Program

The Intensive ESL Program is a full-time English language study program. Students are in class 20 hours every week for one whole semester of 15 weeks. To study in the Intensive ESL Program, students must have an F-1 Student Visa. All instructors are experienced ESL professionals and qualified with a Masters Degree or higher in TESL or a relevant field of study.

Courses

Students take three classes daily, Monday through Thursday:

- Reading & Vocabulary: College vocabulary skills, reading strategies, and study skills.
- Listening & Speaking: Pronunciation/conversation, lecture listening, note-taking skills, and academic presentations.
- Integrated Skills: Grammar-focused reading, writing, and speaking class using topics from academic content areas.

ESL1110 - Introduction to Academic Writing Skills

Credits: 3

Designed to introduce non-native speakers of English, who do not demonstrate the required competency in writing to enter ESL 1210, to academic writing skills. Includes instruction in grammar and sentence structure, paragraph and essay writing.

Former Course Number [AS 1110]

Prerequisite: TOEFL of 18 or lower; IELTS of 5 or lower.

ESL1210 - English Composition for International Students

Credits: 3

The objective is to equip international students with procedural knowledge

USP Code [WA <>COM1]

Former Course Number [AS 1210; ENGL 1210]

Prerequisite: TOEFL Writing sub-score of 18 or higher, IELTS Writing sub-score of 5 or higher, or instructor's consent.

ESL1310 - Academic Listening for International Students

Credits: 3

This course equips non-native speakers with focused listening strategies and note-taking skills that can be applied across a variety of academic content areas and familiarizes students with discipline specific discourse patterns.

Prerequisite: TOEFL Listening subscore of 18 or lower IELTS subscore 5.0 or lower; or instructor's consent.

ESL1410 - Academic Reading for International Students

Credits: 3

This course equips non-native speakers with focused academic reading strategies across a variety of academic content areas, introduces the Academic Core Vocabulary lists, and familiarizes students with discipline specific discourse patterns.

Prerequisite: TOEFL Reading subscore of 18 or lower, IELTS Reading subscore of 5.0 or lower, or instructor's consent.

ESL2110 - English Oral Skills

Credits: 3

Instruction for Novice to advanced Low speakers in refining English pronunciation, stress and intonation, listening comprehension, oral grammar practice and building vocabulary.

Former Course Number [AS 2110; ENGL 2110]

Prerequisite: consent of instructor.

ESL3050 - Advanced Academic Writing for International Students

Credits: 3

Through ESL learner targeted instruction, practices, and feedback, the course will emphasize and progressively develop transferrable skills for students' academic work and future professions. It will continue to build on writing skills and emphasize foundational oral and digital communication skills.

USP Code [WB<>COM2]

Prerequisite: WA/COM1.

ESL4010 - Technical Writing for International Students

Credits: 3

Prepares students from a culturally diverse background for the communication demands of the 21st century. Students conduct rhetorical analysis of various audiences and purposes in order to design, develop, revise and edit disciplinary and interdisciplinary technical communications, such as reports, proposals, job applications, research related documents and oral presentations.

USP Code [WC<>COM3]

Prerequisite: WA/COM1, WA/COM2, and junior standing.

ESL5910 - International TA Preparation

Credits: 4

Prepares international teaching assistants for the challenges language, culture, and instruction in the American classroom impose on them: training includes pronunciation/intonation, presentation skills, basics of methodology, understanding of cultural differences, and mock-lessons. One Oral Skills Lab hour per week is included.

Prerequisite: graduate standing.

Faculty Index

AADLAND, DAVID M., Economics

ADELT, ULRICH, History and American Studies; School of Culture, Gender, and Social Justice

ADIDHARMA, HERTANTO, Petroleum Engineering

AHERN, JAMES C., Anthropology

AHMED, ABDELATY AHMED, Construction Management

AHMED, MOHAMED, Civil and Architectural Engineering and Construction Management

AIDHY, DILPUNEET S., Mechanical Engineering

AIKEN, NEVIN, School of Politics, Public Affairs, and International Studies

ALBEKE, SHANNON, WyGIS, Geospatial Information Science and Technology

ALBERS, H. JO, Economics

ALEXANDER, ANNE, School of Politics, Public Affairs, and International Studies, Economics

ALEXANDER, BRENDA M., Animal Science

ALEXANDER, KLINT, Law

ALEXANDER, MELISSA, Law

ALEXANDROVA, EKATERINA, Modern and Classical Languages

ALLEN III, MYRON B., Mathematics and Statistics

ALVARADO, VLADIMIR, Chemical Engineering

ANATCHKOVA, BISTRA, WySAC

ANDERSEN, MATTHEW, Agricultural and Applied Economics

ANDERSON, ALLYSON, Computer Science

ANDERSON, CAROLYN, English

ANDERSON, DAVID T., Chemistry

ANDERSON, JEFFREY R., Electrical and Computer Engineering

ANDERSON, STEPHANIE, School of Politics, Public Affairs, and International Studies

ANDERSON-SPRECHER, RICHARD, Mathematics and Statistics

ANDREWS, GERARD P., Veterinary Sciences

ANTON, DAVID, Mathematics and Statistics

ARAGÓN, CECILIA, Theatre and Dance

ARNETTE, ANDREW, Management and Marketing

ARONSTEIN, SUSAN, English

ARULSAMY, NAVAMONEY, Chemistry

ARYANA, SAMAN, Chemical Engineering

ASAY, R. CLIFFORD, Management and Marketing

AUERBACH, DANIEL, Sociology

BAGLEY, DAVID M., Chemical Engineering

BALDWIN, NIKKI, School of Teacher Education

BALDWIN, RONALD, Family Practice

BANGOURA, BERIT, Veterinary Sciences

BANIC, AMY, Computer Science

BARKER, MICHAEL G., Civil and Architectural Engineering and Construction Management

BARRETT, STEVEN F., Electrical and Computer Engineering

BARRY, ROBIN A., Psychology

BARTSCH ESTES, KAREN, Psychology

BARTON, SHELLEY, Communication Disorders

BASILE, FRANCO, Chemistry

BASTIAN, CHRISTOPHER T., Agricultural and Applied Economics

BAUMBACH, DIANE, Art and Art History

BECK, JEFFREY L., Ecosystem Science and Management

BECKETT, CARLA DEE, Chemistry

BEDFORD, NICOLE, Zoology and Physiology

BELL, DAVID A., Chemical Engineering

BELLAMY, WILLIAM, Civil and Architectural Engineering

BELMONT, ERICA L., Mechanical Engineering

BELSER, ROBERT, Music

BEN-DAVID, MERAV, Zoology and Physiology

BENHAM DEAL, TAMI, Kinesiology and Health

BENKMAN, CRAIG, Zoology and Physiology

BENNETT, DREW, Haub School of Environment and Natural Resources

BERGSTRAESSER, PAUL, English, Creative Writing

BERNARD, RILEY FEHR, Zoology and Physiology

BESSAIH, HAKIMA, Mathematics and Statistics

BIALOSTOK, STEVEN, School of Teacher Education

BICER, ALI, School of Teacher Education

BICER, AYSENUR, Physics and Astronomy

BIEBER, STEPHEN L., Mathematics and Statistics

BIEHLE, LAUREN R., Pharmacy

BILLINGTON, COREY, Management and Marketing

BINGHAM, BEAU, Communication and Journalism

BIRD, MICHELE, Mathematics and Statistics

BITTNER, MARK, Family and Consumer Sciences

BISHA, BLENDAR, Animal Science

BJÖRKENWALL, RUTH, School of Politics, Public Affairs, and International Studies

BLACKLER, ADAM A., History and American Studies

BLAKELY, MICHELLE L., Pharmacy

BLOCK, JEREMY, Animal Science

BLOUIN, NICOLAS, Molecular Biology

BOARDMAN, CALEB, Animal Science

BOBADILLA, ANA CLARA, Pharmacy

BODDICKER, MAUREEN, Music

BODILY, K. DAVID, Nursing

BOGARD, THERESA L., Music

BOOTHBY, THOMAS, Molecular Biology

BOROWCZAK, MIKE, Computer Science

BOSS, STEPHEN C., University Libraries

BOWLEY, CHEALSYE, University Libraries

BOWMAN, GRANT, Molecular Biology

BOURQUE, MAGGIE, Haub School of Environment and Natural Resources

BRANT, JONATHAN A., Civil and Architectural Engineering and Construction Management

BRIDGEMAN, JACQUELYN, School of Culture, Gender, and Social Justice and Law

BROCK, CYNTHIA, School of Teacher Education

BROOMFIELD, JAMES F., Family Practice

BROTHERTON, MICHAEL S., Physics and Astronomy

BROWN, AMBER, Economics

BROWN, ANTOINETTE, Pharmacy

BROWN, DAVID, University Libraries

BROWN, GREGORY K., Botany, A&S Dean's Office

BROWN, TYLER, Geology and Geophysics

BRUCH, DAVID C., Pharmacy

BRUNS, DANIELLE, Kinesiology and Health

BUCKNER, KIM, Computer Science

BUDOWLE, RACHAEL, Haub School of Environment and Natural Resources

BUERKLE, ALEX, Botany

BURCHETT, ASHLEY M., English

BURCHETT, MOLLY, Management and Marketing

BURROWS, ANDREA, School of Teacher Education

BUSH, ERIN J., Communication Disorders

BUSHMAN, JARED, Pharmacy

BUSS, ALAN, School of Teacher Education

BUTLER, STEVEN, WySAC

BYRA, MARK, Kinesiology and Health

CAIN, WILLIAM, School of Counseling, Leadership, Advocacy & Design

CALDWELL, JAMES L., Computer Science

CALKINS, KAIJSA, University Libraries

CANEN, ERIC, WySAC

CANEPALYSSA, LeARN Programs

CARLING, MATTHEW, Zoology and Physiology

CARLISLE, ASHLEY HOPE, Art and Art History

CARNES-HOLT, KARA, School of Counseling, Leadership, Advocacy & Design

CARR, BRADLEY, Geology and Geophysics

CARRON, REBECCA, Nursing

CARTER, RICHARD, School of Counseling, Leadership, Advocacy & Design

CAWLEY, ROBERT M., School of Politics, Public Affairs, and International Studies

CAULTON, DANA, Atmospheric Science

CHALFOUN, ANNA D., Zoology and Physiology

CHAMBERLAIN, KEVIN R., Geology and Geophysics

CHAMBERLIN, MICHELLE T., Mathematics and Statistics

CHAMBERLIN, SCOTT A., School of Teacher Education

CHAPMAN, BILLIE J., Social Work

CHAPMAN, JAMES, Geology and Geophysics

CHEADLE, MICHAEL J., Geology and Geophysics

CHECA-GARCÍA, IRENE, Modern and Classical Languages

CHEN, KUI, Chemistry

CHEN, PO, School of Energy Resources/ Geology and Geophysics

CHEN, YI-LING, School of Politics, Public Affairs, and International Studies

CHENG, TA-TUN (STEPHANIE), Accounting and Finance

CHERNYAVSKIY, PAVEL, Mathematics and Statistics

CHERRY, TODD, Economics

CHERRINGTON, BRIAN D., Zoology and Physiology

CHESTEK, KENNETH D., Law

CHHATRE, VIKRAM, Molecular Biology

CHIEN, TEYU, Physics and Astronomy

CHOI, NICOLE, Accounting and Finance

CHRISTIANSON, DAVID, Ecosystem Science and Management

CLAPP, JOSHUA D., Psychology

CLAPP WADDELL, TARA K., Psychology

CLARK, KAYLA, Haub School of Environment and Natural Resources

CLARKE, PAMELA N., Nursing

CLEMENT, KRISTINA, University Libraries

CLEMENTS, NATHAN, Mathematics and Statistics

CLEMENTZ, MARK T., Geology and Geophysics

CLENNAN, EDWARD L., Chemistry

CODALLOS, KYM, Social Work

COLLIE, GILLIAN, English

COLLIER, TIMOTHY R., Ecosystem Science and Management

COLLINS, SARAH M., Zoology and Physiology

COLTER, ROBERT S., Philosophy and Religious Studies

CONNOLLY, CATHERINE, School of Culture, Gender, and Social Justice

CONSIDINE, TIMOTHY J., Economics, School of Energy Resources

COOK, BENJAMIN, Economics

COOK, TIFFANY, WySAC

COON, DENNIS N., Mechanical Engineering

COOPER, KAATIE, Communication and Journalism

CORNISH, TODD E., Veterinary Sciences

COSTELLO, HUMPHREY, WySAC

COUPAL, ROGER, Agricultural and Applied Economics

COVER, DANIELLE R., Law

CRAIT, JAMIE, Botany

CRAMER, NICHOLAS, WySAC

CRANE, NICHOLAS, Geography; School of Politics, Public Affairs, and International Studies

CRAWFORD, SCOTT, Mathematics and Statistics

CREEL, JAMES, English

CRUZ, CHARLIE P., Medical Laboratory Science

CURRANO, ELLEN D., Botany

CUTHBERTSON, DOUGLAS, Petroleum Engineering

CUZZOCREO, MATTHEW R., Wyoming Cooperative Unit

DAHL, ETHAN, Wyoming Institute for Disabilities (WIND)

DAHNOVSKY, YURI, Physics and Astronomy

DAI, BOYI, Kinesiology and Health

DALE, DANIEL, Physics and Astronomy, Interim Dean

DALRYMPLE, HOLLY, Music

de SOUSA, OLIVEIRA, Chemistry

DECKER, BRIDGET, Molecular Biology

DeDIEGO, AMANDA, School of Counseling, Leadership, Advocacy & Design

DEJAM, MORTEZA, Petroleum Engineering

DELANEY, JAMES M., Law

DELLENBACK, PAUL A., Mechanical Engineering

DELOZIER, LAURA, Modern and Classical Languages

DeYOUNG, KYLE P., Psychology

DENNEY, COLLEEN, School of Culture, Gender, and Social Justice

DENZER, ANTHONY S., Civil and Architectural Engineering and Construction Management

DESPAIN, LARAN, WySAC

DEWEY, JANET, Geology and Geophysics

DILLON, MICHAEL, Zoology and Physiology

DIXON, FREDRICK D., School of Culture, Gender, and Social Justice

DOERING, BRIANA, Anthropology

DOLAN, CHARLES W., Civil and Architectural Engineering and Construction Management

DOLENCE, E. KURT, Pharmacy

DOMÈNECH, CONXITA, Modern and Classical Languages

DORSSOM, MICHAEL, WySAC

DOUGLAS, CRAIG C., Mathematics and Statistics, School of Energy Resources

DOWNS, WILLIAM MISSOURI, Theatre and Dance

DOXTATER, JED M., Medical Laboratory Science

DRIESE, KENNETH, WyGIS, Geospatial Information Science and Technology

DRUMMOND, KENT G., English

DUAN, DONGLIANG, Electrical and Computer Engineering

DUEKER, KENNETH G., Geology and Geophysics

DUFF, MICHAEL, Law

DUTTA, DEBASHIS, Chemistry

EASTON, STEPHEN, Law

EBERLE, CARRIE, Plant Sciences

EDGENS, JEFFERSON, Agricultural and Applied Economics

EDSON, MICHAEL, English

EGGLESTON, CARRICK M., Geology and Geophysics

EHMKE, COLE, Agricultural and Applied Economics

EHMKE, MARIAH, Agricultural and Applied Economics

EISENMANN, NANCY "NIKI", Nursing

ELKHADRAGY, NERVANA, Pharmacy

ELLBOGEN, MARTIN JR., Family Practice

ELSHEHABI, TAWFIK, Petroleum Engineering

ERNEST, HOLLY, Veterinary Sciences

ESCALANTE, CHELSEA, Modern and Classical Languages

EWERS, BRENT E., Botany

EWIG, RICHARD G., American Heritage Center

FADIAL, JOHN M., JR., Music

FALL, TYLER S., Philosophy and Religious Studies

FAN, MAOHONG, School of Energy Resources, Petroleum Engineering

FAY, DAVID, Molecular Biology

FEDDERSEN, JESSE, Physics and Astronomy

FELDMAN, LAURA, WySAC

FELDMAN, STEPHEN M., Law

FERRE-PIKAL, EVA S., Electrical and Computer Engineering

FERTIG, RAY, Mechanical Engineering

RANDY WELNIAK, B.S. University of Wyoming 1988; M.B.A. 1989; Senior Associate Athletic Director for Development and Revenue Enhancement 2011.

MATTHEW J. WHISENANT, B.S. East Tennessee State University 1996; M.A. 1999; Deputy Director of Athletics 2002.

PHILLIP WILLE, B.A. Valparaiso University 2002; J.D. 2005; Senior Associate Athletic Director for Internal Operations 2012.

Mission Statement

The University of Wyoming Department of Intercollegiate Athletics is committed to the development of tomorrow's leaders by creating an environment that promotes personal growth, academic and athletic excellence in a progressive, inclusive, and transparent manner. The Department of Intercollegiate Athletics will support the overall University of Wyoming mission, provide an outstanding fan experience, encourage community engagement, and serve as a source of pride for alumni, supporters, and the state of Wyoming.

Guiding Principles

- **Dedication to Student-Athletes:** We will promote the well-being of studentathletes and provide opportunities for academic, athletic, and personal success. We will foster academic excellence, graduate student-athletes, support their development as citizens, and prepare them to be leaders.
- **Integrity:** We will demonstrate integrity in all areas. We are dedicated to financial stability, rules compliance, diversity, and personal accountability.

- Respect: We will celebrate a climate of mutual respect, inclusiveness, loyalty, and sportsmanship by recognizing contributions to our teams, our department, and the university.
- Competitive Success: We will endeavor to be the very best when representing the University of Wyoming and our state. We are committed to providing the resources and personnel for our teams to achieve success.
- Tradition: The legacy of the University of Wyoming athletics is proud and strong. We will honor our outstanding tradition.
- Excellence: We believe in a spirit of comprehensive excellence. We will strive for excellence in all we do.

General Information

The University of Wyoming Department of Intercollegiate Athletics (DIA) consists of 17 teams competing at the NCAA Division I level: men's and women's basketball, men's and women's cross country, football (FBS), men's and women's golf, women's soccer, men's and women's swimming, women's tennis, women's volleyball, men's and women's indoor track, men's and women's outdoor track and wrestling. All sports are fully-funded up to the NCAA maximum for grant-in-aids (i.e., scholarships).

The University of Wyoming competes in the Mountain West Conference (MWC), the Western Athletic Conference (WAC), and the Big 12 Conference. In addition to the University of Wyoming the MWC consists of the U.S. Air Force Academy, Boise State University, Colorado State University, University of Nevada-Las Vegas, University of New Mexico, and San Diego State University.

The DIA is managed by the Director of Intercollegiate Athletics who reports directly to the President of the University. The Director of Intercollegiate Athletics ensures the department operates in a manner consistent with the rules and regulations of the University, the MWC and the NCAA.

*For additional information please visit the University's official athletic website at: www.gowyo.com

National Outdoor Leadership School

The University of Wyoming (UW) and National Outdoor Leadership School (NOLS) Articulation Agreement provides the opportunity for UW students to receive UW academic credit for NOLS courses.

When NOLS students step into the world's wild places, they bring not only their backpacks, but also more than 40 years of experience in expeditioning. NOLS founder Paul Petzoldt's idea was simple: take people into the wilderness for an extended period of time, teach them the right things, feed them well and when they walk out of the mountains, they will be skilled leaders. The core of his idea was the extended expedition, one of sufficient length that a person could learn and practice the skills over and over again. That is the backbone of every NOLS course and today the school is widely recognized as the world's leader in the extended expedition, from two weeks to twelve.

This articulation agreement covers domestic and international NOLS courses. This agreement also covers some individual shortterm courses (14 days or less; including mountaineering, rock climbing, sailing, kayaking, skiing, snowboarding, and backpacking) and the Wilderness First Responder (WFR) course.

Application/Eligibility

Current UW students, or students who have been fully or conditionally admitted to UW may receive articulated NOLS credit. Students who have already taken a NOLS course cannot receive credit retroactively (i.e. if a student embarked on a NOLS course and requested to get credit after the course was completed).

Credit and Credit Transfer

UW credit hours will be awarded in the approved courses, which require prior approval. Upon completion of the NOLS courses, provided a grade equivalent to a UW grade of C or better was obtained at NOLS. These UW course grades will be included in your UW GPA. Students who withdraw or are expelled from a NOLS course may receive an incomplete or an F for all enrolled UW credit.

Students should be aware that for internship credits to be awarded, additional academic work requirements determined by the internship course will need to be met. Those additional requirements vary between academic programs and amount of credit desired, but may include a satisfactory evaluation from NOLS, a weekly journal, a substantial written report, and an oral presentation. Internship requirements are established prior to your participating in the NOLS course.

Academic Advising

Prior to participating in a NOLS course for UW credit, students must make an appointment with the Haub School by emailing haub.school@uwyo.edu or calling (307) 766-5080. If your academic program is outside of the Haub School, students should also meet with their assigned academic advisor to determine if these courses will count towards their major. The Haub School will approve the student's schedule, provide the appropriate course numbers, and liaise with the NOLS Registrar.

Financial Arrangements

Each UW student will pay to NOLS:

- The NOLS tuition and related fees (any changes to be advised in writing by NOLS at least three months in advance of the change coming into effect), related fees would include equipment deposit;
- Complete medical and evacuation health insurance;
- Other fees (e.g. tuition protection program, local transportation, and gear purchases), air transportation and additional living expenses will be paid directly by the student to the provider of the service.

Each UW student will pay to UW:

- The published per credit registration fees to register UW credits earned at NOLS

Financial Aid

Students enrolled in the NOLS program may apply their financial aid to the cost of the program if they are enrolled as a full-time degree seeking student at the University of Wyoming. To do so, please work with the UW Office of Scholarships and Financial Aid.

Rules, Law, and Regulations

UW students studying at NOLS will be bound by all rules, regulations and by-laws in operation at NOLS. In addition, since UW students remain enrolled as degree candidates at UW, they must also adhere to UW standards of conduct, rules and regulations. UW and NOLS both abide by the Federal Right to Privacy Act (FERPA).

Steps to Follow

1. Determine the NOLS course that best fits your needs/interests and/or goals online at: www.nols.edu/courses
2. Make an appointment with an advisor from the Haub School to determine the UW academic credit that best suits your degree program by e-mailing haub.school@uwyo.edu or by calling (307) 766-5080.
3. Meet with your academic advisor (if your academic program is not in the Haub School).
4. Apply and be admitted into NOLS.
5. Prior to leaving for your NOLS course, enroll in the credit offered for the course.
6. Secure your financial aid (if any) with the UW Office of Scholarships and Financial Aid.
7. Attend and successfully complete the course (grade C or better).
8. Grades will be posted the semester of completion of your course.

STEP

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB><Q]).

STEP courses are housed within the Learning Resource Network (LeaRN) Program and comprise first-year and academic success courses aimed at supporting students in college research, written and professional communication, major and career exploration, and general transition strategies. STEP courses are often embedded in first-year programs including Fall Bridge, First-Year Experience, First-Year Interest Groups (FIGs), and First-Year Seminars.

STEP1060 - College Athletics and Society

Credits: 3

This course will examine the unique relationship between intercollegiate athletics and higher education, as well as intersections that occur with gender, politics, and race.

STEP1101 - First-Year Seminar

Credits: 3

USP Code [(none)<>FYS]

STEP1102 - Step Into College

Credits: 1

Helps students interact with UW campus resources, staff, and faculty; learn about resources for academic support and wellness; and explore academic and co-curricular opportunities for students' professional and personal interests.

Restricted Restricted to new full-time, first-year freshmen.

Prerequisite: Freshman or sophomore class standing.

STEP1105 - Academic Success Skills

Credits: 1-2

Designed to provide students the necessary skill set to succeed at the University and beyond. Skills covered include time

management, learning styles, note taking, self-motivation and more.

STEP3000 - Student Leadership in Supplemental Instruction

Credits: 2

Focuses on theoretical perspectives of group tutoring and peer leadership, best practices in supplemental instruction, and student reflection. Will strengthen leadership knowledge and skills and introduce effective methods for group facilitation and SI curriculum.

Prerequisite: closed to general enrollment.

UWYO

UWYO courses are designed to help students acculturate to college life and coursework and learn key academic skills. Course content is combined with training in critical reading, academic writing, research, formal presentation, and many other emphases. UWYO courses have low student-teacher ratios in an effort to help students experience richer connection with the instructor and students in the course. Most UWYO courses imbed intellectual self-awareness within the course goals. Several UWYO courses are part of UW learning communities and provide additional opportunities for students to engage with and work together in their cohort.

Commonly Used Terms

A-F: Letter grades of A, A-, B+, B, B-, C+, C, C-, D+, D, or F.

Academic load: The total semester hours of credit for all courses taken during a specified time-semester or summer session.

Academic probation: Probation is the status of an undergraduate student who is not progressing satisfactorily toward his or her degree. An undergraduate student shall be placed on probation at the end of the semester or term when his or her cumulative grade point average (GPA) falls below a 2.000 (3.000 for graduate students).

Academic reinstatement: Restoration of a student's eligibility to register for courses after being on academic suspension. This process requires a petition that is first reviewed by the dean of the student's college or the Center for Advising and Career Services. Academic reinstatement does not guarantee restoration of financial aid eligibility which is a separate process handled by the financial aid office.

Academic suspension: The status of a person whose enrollment at UW has been terminated because of unsatisfactory academic progress towards either an undergraduate or graduate degree.

Accredited: A term applied to a school or specific program which has been recognized by a national or regional organization as meeting certain academic standards for quality and educational environment. The University of Wyoming, and all UW academic programs, are accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools Commission on Institutions of Higher Education. This is the highest level of accreditation in the United States. Some academic programs have professional standards established by their respective accrediting associations.

Add and drop deadlines: The latest date in an academic term when a course may be added or dropped from a student's class schedule *without* approval of someone other than the student. Adding and dropping of courses is done through WyoRecords.

Admission: The process of being admitted to the university with the opportunity to take classes.

AP exam: An Advanced Placement Examination from the College Entrance Examination Board (CEEB) in a specific subject area available nationally to high school students. Information on taking the examination may be obtained from a high school guidance counselor. Information on university course credit for these examinations is available from the Office of the Registrar.

Audit: Individuals who want to take a course but who do not want either a grade or credit for taking it may register as an audit. The instructor for the course determines the amount of work and/or participation that is required. Marks of either Audit/Satisfactory or Audit/Unsatisfactory are assigned. Audit hours are charged tuition at the normal rate. Audit hours are not used to determine full- or part-time status.

Banner: Banner is a suite of products that are used as the university's student information system.

Class schedule: A publication containing a listing of all courses scheduled to be offered during a specific semester or summer session. *Class Schedules* are available on the Office of the Registrar's website.

CLEP test: Subject area examination administered by the College Entrance Examination Board (CEEB).

Concentration: A collection of courses within a major which focuses on a particular subject area.

Concurrent major: A double major. Only one degree will be awarded based on the student's primary major.

Continuing probation: An undergraduate student on academic probation is considered on continuing probation in subsequent semesters if the student earns a term GPA of 2.000 or above but whose cumulative GPA is still below a 2.000.

Corequisite: A course to be taken or a requirement to be fulfilled at the same time as a particular course is being taken. Departments reserve the right to drop a student from a class if the student does not have the corequisite.

Cross-listed course: A course which is identical in content, title, credit hours, and requirements which is offered by one or more academic departments. The four-digit course number must be the same. This designation must be approved by the University Course Review Committee.

Curriculum: The set of courses in a particular degree program. More generally, the courses (in total) offered in a college or university.

Degree requirements: Degree requirements include all requirements of the university (including University Studies Program), college, academic department, and major. All requirements must be successfully met in order to obtain a specific degree.

Drop: To discontinue enrollment in a course or courses prior to the end of the drop/add period at the beginning of a term. A dropped course does not appear on the student's academic transcript. Dropping from a class does not influence a student's Satisfactory Academic Progress measurement, but may impact the amount of financial aid a student earns for the semester in question.

Dual degree: Two degrees are awarded, and students must complete all of the degree requirements for the colleges of both majors. Dual degree require additional credits above the minimum required for one degree.

Dual-listed course: A course which is offered at both the 4000- and 5000-level that is identical in course prefix, content, title, and credit hours. The last three digits of the four-digit course number must be the same. The 5000-level course must require additional work beyond that required for the 4000-level course. This designation must be approved by the University Course Review Committee.

Financial aid reinstatement: Restoration of one's financial aid eligibility based on being granted an exception to financial aid or scholarship rules. Financial aid restoration is a separate process from and is not guaranteed by academic reinstatement.

Full-time: A student taking 12 or more credit hours at the undergraduate level or 9 or more credit hours at the graduate level is considered a full-time student. During the summer session, students enrolled in 6 or more credit hours are considered full-time.

Grade point average: The semester grade point average (GPA) is the sum of all grade points earned in a semester or term divided by all credit hours attempted for letter grade. Credit hours in courses in which marks of I, W, S, or U were assigned are excluded. The cumulative grade point average is the sum of all grade points earned at UW divided by the sum of all credit hours attempted at UW for a letter grade, for all non-excluded courses.

Lower-division course: Courses normally taken during the freshman and sophomore years. Lower division courses are those numbered between 1000 and 2999, inclusive.

Major: The primary disciplinary interest or academic subject area of a student as represented by one of the curricula offered by the various academic departments. The undergraduate degree may or may not carry the same title as the major. Every student has one or more majors but may or may not have a minor or concentration.

Minor: A secondary subject area interest (to the major) represented by a specified set of hours and/or courses. Differs from a concentration in that a minor is not a subdivision of the major subject area.

Option: A collection of elective courses within a major which emphasize one aspect of the major, chosen by a student according to his or her interests.

Orientation: A program of one to three days on campus designed to acquaint a new student with the facilities, policies, sources of information and assistance, and academic and social environment. Academic advising and registration are also included.

Prerequisite: A requirement to be completed before enrollment in a course or a degree program. Prerequisites for individual courses are listed in their course description in this catalog. The statement "or consent of instructor" is implied for all prerequisites. Students are responsible for being aware of a course's prerequisites prior to enrolling in the course. Departments reserve the right to drop a student from a class if the student does not have the prerequisite.

Registration: The process of officially enrolling into one or more courses at the university.

Satisfactory academic progress: Satisfactory Academic Progress only applies to federal financial aid applicants and recipients. Three measures of a student's advancement toward the earning of his or her stated degree objective are: 1) a grade point average putting the student in good academic standing, 2) a ratio of credit hours earned compared to credit hours attempted in the student's most recent academic year, and 3) a comparison of the number of credit hours attempted in a college career compared to the number of hours required to earn the pursued degree.

Semester: The division of the calendar year used in academic scheduling. A semester is roughly 15 weeks in length.

Semester credit hour: The unit of academic credit for course work.

Transfer credit evaluations: An evaluation of previous college-level course work from another regionally-accredited academic institution, international post-secondary institution, standardized test, or military course work to determine whether courses are transferable to UW as well as to determine any UW equivalents.

University Catalog: The *University Catalog* is the official document of the university which includes information on all undergraduate academic programs and their requirements, courses offered by each academic department, lists of faculty, policies and procedures related to admission, financial aid, all registration activity, and tuition and fees. A student's degree requirements are based on the *University Catalog* in effect the year he or she enters either UW or another catalog year as approved with a petition.

Upper-division course: Courses normally taken during the junior and senior years. These courses are numbered from 3000 - 4999, inclusive. "W" Number: A student's unique identifier in WyoRecords will begin with "W". This "W" number replaces the Social Security Number as a student's unique identifier.

Withdrawal: To discontinue enrollment in a course or courses after the end of the drop/add period. When withdrawing from one or more, but not all, courses, a student should complete the process on WyoRecords. To withdraw from all courses in a semester, a student should begin the process in the Dean of Students Office. A mark of W will be placed on the student's academic transcript for each course. Withdrawal from a course or from the university may impact both a student's current and future receipt of financial aid. Ask a financial aid office professional before withdrawing.

WyoRecords: The University of Wyoming portal used for communication with the campus community, registration activity, grade posting, financial aid, course management, and advising. A specialized version of WyoRecords is available for all enrolled students, faculty, staff, and alumni.

University of Wyoming at Casper

Brent L. Pickett, Ph.D., Dean

125 College Drive, Casper WY 82601

(307) 268-2713

Web site: <https://www.uwyo.edu/uwcasper/>

Since 1976, the University of Wyoming at Casper (UWC), in partnership with Casper College, has offered on-site courses and a slate of university degree programs in Casper. UW-Casper is also the location in Natrona County for statewide degree programs and classes offered through Distance Credit Programs.

UW-Casper was established to meet the needs of students unable to move to Laramie. Some of these students are nontraditional students who may be older or have families, homes, or jobs in the Casper area. UW-Casper is designed to meet the academic needs of students in a setting that provides small class sizes, dedicated staff, and award-winning faculty. Courses are taught by resident and visiting faculty who are regular or part-time members of UW academic departments. A full-service student success office handles admission, registration, financial aid, and advising.

Classes are taught onsite on the Casper College campus. More than 4,000 students have received their UW degrees through UW at Casper support and programs.

UW-Casper also has the Bachelor's of Applied Science (BAS) program. This fully online program is designed to stack onto an associate's degree to help persons already in the job market further develop their skills and advance their career potential. There are two areas of concentration available in the BAS, one in Health Services Administration and the other in Organizational Leadership.

Undergraduate Majors

Organizational Leadership, B.A.S

Biology, B.S.

Secondary Career & Technical Education, B.A.S.

Communication, B.A.

Elementary Education, B.A.

Elementary Education/Special Education, B.A.

English, B.A.

Health Services Administration, B.A.S.

Medical Laboratory Science, B.S.

Psychology, B.S.

Secondary Biological Science Education with Concurrent Major in Biology, B.A.

Social Work, B.S.W.

Graduate Majors

Counseling, M.S., Concentration in Mental Health Counseling or Counseling, M.S., Concentration in School Counseling

Minors and Endorsements

Secondary Biology Endorsement

Biology, Minor

Secondary Chemistry Endorsement

Early Childhood Endorsement

Early Childhood Minor

Psychology Minor

Sociology Minor

Zoology Minor

For more information, contact UW at Casper at 125 College Drive, Casper, WY 82601; (307) 268-2713, (877) 264-9930; or by e-mail at uwcasper@uwyo.edu.

Health Services Administration, B.A.S.

Dr. Josh Valk, Director- Bachelor of Applied Science Program

jvalk@uwyo.edu

This program is available by distance delivery only. Entry into the program requires an application process. Students must apply for admission to UW first. Official transcripts from all institutions attended must be submitted to UW Admissions. Entry into this program requires an existing associate's degree. Transcripts will not be analyzed prior to application.

All students pursuing a bachelor's of applied science degree with a concentration in Health Services Administration are required to complete: a) University Studies Program (USP) requirements, b) 120 approved credits, 42 of which must be upper division (with 30 coming from UW), and c) courses within the program checklist. The program is designed to be completed in two years, but students may move at a pace that works for them.

The University Studies Program (USP) ensures that each student's program includes the elements essential to a lifetime of personal and professional growth: habits of mind, practices of active citizenship, and development of intellectual skills. The USP program requires students to develop skills that include the ability to express oneself in speech and writing; to locate, evaluate and effectively use information; and to examine problems from quantitative, qualitative, and scientific perspectives. The USP requirements will be approximately 30 credit hours of your overall degree program.

All courses within the Bachelor of Applied Science must be completed with a grade of C or better. If you do not pass the course with a grade of C or better after three attempts you will be dismissed from your organizational leadership major.

Each student is assigned an advisor, who can be reached at (bas@uwyo.edu), and will be advised each semester. It is important that you work closely with your advisor to plan your course schedule.

University Requirement - All degrees at the University of Wyoming require 42 upper division credit hours (3000+).

Residency Requirement - All degrees must include a minimum of 30 upper division credit hours from UW.

Major Requirements (9 Credits)

AGRI3000 - Discovering and Utilizing Ideas and Information

Credits: 3

Learning in this area guides students to accessing, evaluating, and utilizing information and ideas; communicating information and ideas effectively and responsibly; civic engagement for individual, organizational and community problem-solving, and applying new skills, knowledge, and perspectives in a contemporary society.

USP Code [I,L<>(none)]

Prerequisite: WA and junior status.

AGRI4600 - Developing Organizational Leadership

Credits: 3

A senior capstone experience for Bachelor of Applied Science students, bringing together reading, research, writing, and communication skills to focus on a major project. Leadership skills and approaches to organizational problem-solving are deepened using the structural, human resource, political, and symbolic frames to change and improve leadership and organizational culture.

USP Code [(none)<>COM3]

Prerequisite: COM1, COM2, AGRI 3000, and senior status.

COJO3010 - Business and Professional Communication

Credits: 3

Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP Code [(none)<>COM3]

Prerequisite: COJO 1010 or COMM 2010 and junior standing.

OR

COJO3190 - Cross-Cultural Communication

Credits: 3

Studies human communication processes within the context of various cultures and subcultures. Opportunity for field study of the effect of culture on communication behavior.

USP Code [D<>COM3]

Prerequisite: COMM 1040 and junior standing.

OR

ENGL4010 - Technical Writing in the Professions

Credits: 3

Enhances professional writing skills applicable to a variety of professions. Includes audience analysis and adaptation, information design and use of visuals, and a range of formats and genres. Emphasizes clarity and precision of language. May feature primary research and problem-based or service-learning projects.

USP Code [WC<>COM3]

Prerequisite: WA and WB/COM1 and COM2; junior or senior standing.

Organizational Leadership Requirement (12 credits)

This area of emphasis guides students through an examination of how managers create value by understanding and developing employee and customer relationships. We **strongly suggest** that students complete AACT1010 and ECON 1010, both which are available from , and articulated with, the community colleges through Wyoming before taking these courses.

All four courses required:

MGT3110 - Business Ethics

Credits: 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational judgments in morally questionable situations. Through analysis students understand what factors give rise to and influence ethical issues and how organization values precipitate ethical behavior among employees.

Prerequisite: sophomore class standing.

MGT3210 - Management and Organization

Credits: 3

An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: sophomore class standing and completion of COM1.

MKT3210 - Introduction to Marketing

Credits: 3

An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

MGT3410 - Human Resources Management

Credits: 3

A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 3210 and advanced business standing.

Health Services Administration Requirement (14 credits)

The following 5000 level courses will be cross-listed at the 4000/5000 levels in Fall of 2022. PHCY 4160 will be the first course new majors will be placed in for this semester.

All five courses required:

PHCY4160 - Problems in Pharmacy

Credits: 1-4

Original investigation on a library or laboratory problem concerned with a definite phase of work in pharmacy.

Prerequisite: consent of instructor.

PHCY5040 - The Evolution of American Health

Credits: 2

This course explores the evolution of the healthcare system in response to various needs and crises over the years. The professionalization of health care; the development of the modern hospital; the implications of computerized health information; and the empowerment of patients will be covered.

Prerequisite: Admission into the Health Services Administration MS program.

PHCY5141 - Introduction to Health Economics and Outcomes

Credits: 3

This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5241 - Introduction to Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5341 - Introduction to Healthcare Quality

Credits: 3

Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

Contemporary Society requirement (2 courses, 6 credits)

Pick **two courses** from the following courses listed:

COJO3160 - Theory of Language and Society

Credits: 3

Considers contributions to communication theory from linguistics, sociolinguistics, sociology, social psychology and anthropology to understanding a spoken language.

USP Code [WC<>(none)]

Prerequisite: COMM 1040 and 6 additional hours in the department.

CRMJ3500 - Drugs and the Criminal Justice System

Credits: 3

Focus on drugs and their impact on society. Particular interest is paid to the extent of drug use/abuse in America, and the effects of this problem on the criminal justice system and society as a whole. Strategies for controlling both supply and demand are discussed.

Prerequisite: CRMJ 1001, CRMJ 2210, and CRMJ 2400/SOC 2400.

CRMJ4860 - Social Inequality, Crime, Criminal Justice and the Law

Credits: 3

Provides an in-depth look at social inequality and its impact on crime, criminal justice, and the law. Particular emphasis will be given to the individual and interactive effects of race, class, and gender inequality. Critical theoretical perspectives that promote social justice will be the primary analytical focus.

Dual Listed CRMJ 5860.

Prerequisite: CRMJ 1001, CRMJ 2210, CRMJ 2400/SOC 2400 and junior standing.

ENR4890 - Topics in Environment and Natural Resources

Credits: 1-6

Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students.

Check class schedule for specific topics offered each year.

Dual Listed ENR 5890.

Former Course Number [4990]

Prerequisite: ENR 3000 or permission of the instructor.

HIST4340 - The Social History of American Women

Credits: 3

Explores everyday life experiences of American women from the 17th century to the present. Focuses on the complex influence of gender, race and class in shaping those experiences; also, analyzes the ways in which women's dissatisfaction with their position in society formed the basis for the development of American feminism and led to the formation of an organized women's movement.

Dual Listed HIST 5340.

USP Code [(none)<>H]

Former Course Number [4840]

Prerequisite: 9 hours of HIST or GWST.

HIST4490 - Modern America, 1960 to Present

Credits: 3

Studies political and diplomatic aspects of the U.S. since 1960. Emphasizes impact of Cold War, social and political tensions at home, civil rights and government policies.

Dual Listed HIST 5490.

Prerequisite: 9 hours of HIST.

HIST4545 - The Multicultural West

Credits: 3

Explores the American West as a meeting ground of diverse peoples and their diverse cultures. Focuses on the sustained cross-cultural interchange between Native Americans, Euro-Americans, African Americans, Latin Americans, and Asian Americans from trans-Appalachia to the Pacific Coast from the eighteenth century to the present.

Prerequisite: 9 hours of HIST.

POLS3100 - Politics and the Judicial Process

Credits: 3

Analyzes courts and their personnel in the American political system, including examination of functions of courts, characteristics of judicial process, approaches to the study of judicial behavior, and role of courts as policy makers.

Former Course Number [2100]

Prerequisite: POLS 1000.

POLS3600 - American Political Thought

Credits: 3

Examines key primary sources and traditions from the founding to present.

USP Code [WB<> COM2]

Prerequisite: POLS 1000 or permission of instructor.

POLS4051 - Environmental Politics

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

Dual Listed POLS 5051.

Former Course Number [4050]

Prerequisite: POLS 1000.

SOC3150 - Collective Behavior and Social Movements

Credits: 3

Analyzes and explains fads, fashions, rumors, riots and mass behavior in light of theoretical frameworks. Studies social movements including blacks, women, labor, religions and students.

Prerequisite: SOC 1000.

SOC4370 - Global Political Economy

Credits: 3

Examines the interaction of politics and the economy at the global level. Evaluates how political and economic decisions of one country or groups of countries affect institutions and life circumstances in others. Assesses the causes of consequences of globalization as rooted in political economy.

Cross Listed INST 4370.

USP Code [G<>(none)]

Prerequisite: SOC 1000 and junior standing or SOC 3000.

Organizational Leadership, B.A.S

Dr. Josh Valk, Director- Bachelor of Applied Science Program

jvalk@uwyo.edu

This program is available by distance delivery only. Entry into the program requires an application process. Students must apply for admission to UW first. Official transcripts from all institutions attended must be submitted to UW Admissions. Entry into this program requires an existing associate's degree. Transcripts will not be analyzed prior to application.

All students pursuing a bachelor's of applied science degree in Organizational Leadership are required to complete: a) University Studies Program (USP) requirements, b) 120 approved credits, 42 of which must be upper division (with 30 coming from UW), and c) courses within the program checklist. The program is designed to be completed in two years, but students may move at a pace that works for them.
