

“Head to Clearer Thinking” Recognition for Club Work in Educational Programming

At each meeting, we say the 4-H pledge, making a pledge of our heads to clearer thinking. A large part of your 4-H experience is learning and life skill development. One way this can be done is through club educational programming. An education program could be having member do demonstrations, inviting in guest speakers, taking a club tour, or using your club to share new ideas and learning experience in a variety of ways. Your imagination is the only thing limiting how clubs spend time learning.

In support of club work in educational programming, the Wyoming 4-H Foundation is offering \$200 awards for 5 clubs who are learning and growing through educational programs. The grants will be based on quantity of programs, diversity, creativity, innovation, and participation.

How does it work?

1. Clubs will be asked to share educational programs they offer or engage in, as a club. Programs planned by the county would not be considered for this award. If a club chooses to partner with another club or organization to provide club members with a new learning experience, this can be included. The programs should not be for select members of the club (ex. Beef project members only) but rather the entire club membership.
2. Sharing of the information can be done in a variety of ways. Clubs can turn in paper applications for each event completed, upload their information to a closed Facebook group, or complete an online application through Formstack. The State 4-H Office will compile all submissions, no matter what method is used.
3. Awards will be given based on educational programs that run from October 1, 2018 – September 20, 2019.
4. Applications can be turned in at any time throughout the year.
5. Qualifying applications are due to the State 4-H Office by November 1, 2019.

What information are we asking you to share about the community service experience?

1. Club Name and County
2. A photo (if available) of the experience.
3. A title for the educational program.
4. Who presented the information?
5. A brief description of the learning that occurred.

The Wyoming 4-H program values learning through club educational programs. Young people can use club learning experiences to enhance life skill development and gain valuable knowledge for their future.
