

County 4-H Key Leader Training
Shooting Sports Individual Certification Record

This evaluation form must be filled out for each discipline to receive certification. Certification by a county key leader is good for 1 year and leaders must attend a state certification training to continue as a certified shooting sports leader. You must be current in the discipline selected below in order to instruct a 4-H member. Standard county 4-H leader training is required prior to being selected as a Shooting Sports Leader. The County Extension Educator approves selection for all 4-H Leaders. Only Key Leaders or State trainers are authorized to certify other Leaders. This system maintains the continuity of the Shooting Sports Program. Thank you for your support and interest in the Wyoming 4-H Shooting Sports Program.
