

Degree Evaluation Tutorial

Welcome to the Degree Evaluation Tutorial. The following walkthrough will aid you in preparing for your advising session in our COB Academic Advising Office. The Degree Evaluation allows you to view your progress toward degree completion, including major and minor requirements, classes fulfilled and future classes in which you need to enroll. Though unofficial, the Degree Evaluation is an excellent tool for students to understand and take responsibility for their academic progress.

Degree Evaluation What If Instructions

Instructions

The following steps are required to ensure requirements listed are accurate. The What-If is a resource only and does not replace the audit that is automatically generated through the Worksheets tab.

Under the What-If Heading:

1. Choose an option for Level, Degree, and Student Catalog from the drop-down menu.

Under the Choose Your Different Areas of Study Heading:

*Your choices will appear in the box to the right. You can remove selections from the box by highlighting them and clicking on Remove.

2. Select a Program from the drop-down menu.
3. Choose the Major associated with the Program from the drop-down menu.
Example: Program is BS in Mathematics then major needs to be Mathematics.
4. Select the College that offers the Program you have chosen.

Optional:

5. Add additional majors if desired.
6. If appropriate, choose a concentration associated with the major(s) you have chosen.
7. Choose a minor or minors, if desired, from the drop-down menu.
8. Once all items are selected click on "Process What-If" button above.

- These are the instructions for a What If exploration of the Degree Evaluation. The information that you will enter is both real and hypothetical. Let us say that you are already a Management major with a concentration in Management Consulting but want to add a Professional Writing minor. The What If option allows you to see how many classes and credits you will need to complete your degree.
- You can add or change majors and minors or sample concentrations. If you decide to formally change your degree you will need to complete the appropriate forms with the COB Academic Advising Office and the Office of the Registrar.

- The What If selection tool allows you to see what would happen if you change your major and/or add a minor. As with the rest of the Degree Evaluation the What If option is approximate and a tool to gauge your progress. To use the What If tool:
 1. Use the drop-down menus to enter your What If information.
 2. This includes your Program, Major, Concentration, Minor, and College.
 3. Not all Areas of Study are applicable to every student, and each is unique.
