Successful completion of the 2+2 plan requires that a student remain continuously enrolled and graduate with the associate's degree from his or her respective community college. • This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the catalogs of their respective institutions and consult with their academic advisor to plan accordingly. • Academic plans and course schedules may need to be altered if ACT or Math Placement scores require a student to take pre-college courses (e.g., MATH 0900, 0921, or 0925) before taking required math or English courses.

Casper College requirements:

In order to graduate, students must successfully complete a minimum of 60 approved credit hours, with 15 of the last 30 semester hours completed as a degree-seeking student at Casper College, and with a grade point average of 2.0 or higher in those courses counted toward graduation. • Students must earn at least 24 of the semester credits applied toward graduation through the completion of Casper College coursework, including at least six (6) hours with the desired major. • Only courses numbered 1000 or above can be used toward the degree.

University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U.

UW College of Education requirements:

• All students must pass an initial criminal background check prior to full admission to the College of Education. Any costs associated with the background check are the responsibility of the student. A second background check is included as part of the state application for the Wyoming Substitute Teaching Permit, which is required for admission to Phase II of UW's teacher education program. Criminal background checks are standard for the profession.

• All professional Education courses must be passed with grades of C or higher. Grades of C- will not satisfy this requirement.

Elementary Education-Early Childhood, BA

Program Notes:

* Laboratory Science & Science Seminar. Take two of these combinations or equivalent at Casper College & the third at UW:
 LIFE 1020, Life Science & EDEL 1430, Life Science in the Elementary School
 GEOL/ASTR 1070, Earth Science for Elementary Education Majors & EDEL 1450, Earth Science in the Elementary School
 PHYS 1090, Fundamentals of the Physical Universe & EDEL 1440, Physical Science in the Elementary School

UW Program Notes:

• The Wyoming Teacher Education Program operates in a series of phases: Phase I, Phase II, Phase IIIa and Phase IIIb. Continuation in the program in any content area is dependent on the successful completion of the prerequisites for each phase. Specific information about these requirements can be found on the program sheets for each content area that are located at <http://www.uwyo.edu/ted/majors-and-program-sheets/>

Speech & Acting Elective: Other courses may be possible. Please check with your advisor.
