TOTAL ASSOCIATE DEGREE HOURS 62

Successful completion of the 2+2 plan requires that a student remain continuously enrolled and graduate with the associate's degree from his or her respective community college. • This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the catalogs of their respective institutions and consult with their academic advisor to plan accordingly. • Academic plans and course schedules may need to be altered if ACT or Math Placement scores require a student to take pre-college courses (e.g., MATH 0900, 0921, or 0925) before taking required math or English courses.

Eastern Wyoming College requirements:

In order to graduate, students must successfully complete a minimum of 60 credit hours, 15 of which must be applicable towards graduation from Eastern Wyoming College, with a grade point average of 2.0 or better in courses numbered 1000 or higher. • No more than six (6) hours in courses numbered 1490, 1990, 2490, or 2990 will apply toward the degree; in addition, no course offered under the Developmental Studies Department may be applied toward the degree.

EWC Social Science Program notes:

Students must complete all program requirements, including approved electives, with a grade of C or better.

TOTAL BACHELOR'S DEGREE HOURS						<u>120</u>	

University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from UW. • Courses must be taken for a letter grade unless offered only for S/U.

UW College of Health Sciences notes:

Performance expectations for majors in the College of Health Sciences exceed institutional requirements. Please discuss with an academic advisor to understand the difference. • Admission to the clinical portions of Health Sciences majors is competitive and is not guaranteed even with minimum qualifications. Be prepared to exceed expectations. • Background checks are required at some point within all Health Sciences majors. Students should understand the long-term ramifications of all decisions and actions early on so as not to jeopardize future academic and career goals.

UW Social Work requirements:

Students must be accepted into the Social Work program as an 'admitted major' in order to proceed in the program and enroll in professional degree courses beginning in the fall of their junior year. Students should apply to the Social Work program in the spring of their sophomore year or during the semester they are completing all prerequisite courses. In addition to prerequisite courses (noted with an * above), students must have a 2.5 GPA, must have completed a criminal background check as required by the College of Health Sciences, and must have submitted a completed application, along with the accompanying fee and reference form. Admission to the program occurs in the spring semester or during the semester they are completing all prerequisite courses depending on seat availability. Admission to the program is a competitive process. The program begins in the fall of each academic year. Students should apply during the semester they are completing all social work prerequisite courses.

UW Social Work Program notes:

¹ Suggested FCSC 3110 (Personal Finance)

² Suggested FCSC 4112 (Family Decision-Making and Resource Management)

³ Students should work with their academic advisor to determine the best courses to select as electives for a particular career path.

It is possible for students to earn a minor with careful course selection.
