Successful completion of the 2+2 plan requires that a student remain continuously enrolled and graduate with the associate’s degree from his or her respective community college. • This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the catalogs of their respective institutions and consult with their academic advisor to plan accordingly. • Academic plans and course schedules may need to be altered if ACT or Math Placement scores require a student to take pre-college courses (e.g., MATH 0900, 0921, or 0925) before taking required math or English courses.

**Northwest College requirements:**
To complete an AS degree, a minimum of 60 credit hours is required, although individual programs may have additional requirements. • Students must successfully complete core courses (denoted with an *) with a C- or better to meet program requirements.

**University of Wyoming requirements:**
Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U.

**UW College of Health Sciences Notes:**
Performance expectations for majors in the College of Health Sciences exceed institutional requirements. Please discuss with an academic advisor to understand the difference. • Admission to the clinical portion of Health Sciences majors is competitive and is not guaranteed even with minimum qualifications. Be prepared to meet and exceed expectations. • Background checks are required at some point within all Health Science majors and careers. Students should understand the long-term ramifications of all decisions and actions early on so as not to jeopardize future academic and career goals.

**TOTAL UW BS DEGREE HOURS 123**

---

### UW Kinesiology & Health Sciences Program Notes:

- The Department of Kinesiology and Health Sciences requires 48 hours of upper division (3000- or 4000-level) credit for graduation with degrees in Kinesiology and Health Promotion and Physical Education Teaching.

---

#### HLED and Kin Required and Elective Coursework. Recommend taking eight to nine (8-9) hours if concurrently completing KIN 3010 (Fundamentals of Health & Fitness Assessment) and KIN 3021 (Physiology of Exercise); recommend 11-12 hours if not.

**HLED and KIN Required Coursework** (19 hours)

- HLED 3020   Community & Public Health Promotion (3 hrs)
- KIN 3010   Fundamentals of Health & Fitness Assessment (3 hrs)
- KIN 3021   Physiology of Exercise (4 hrs)
- KIN 3034   Lifespan Motor Development (3 hrs)  OR KIN 4020   Motor Behavior (3 hrs) ^1
- KIN 3037   Sport Psychology (3 hrs)  OR KIN 3038   Exercise Psychology (3 hrs) ^1
- KIN 3042   Biomechanics of Human Movement (3 hrs)

**HLED and KIN Elective Coursework** (15 hours minimum)

- HLED 4020   Food, Health and Justice (3 hrs)
- HLED 4025   Teaching Sensitive Issues in Human Sexuality (3 hrs)
- HLED 4130   Management of Coordinated School Health Program (3 hrs)
- KIN 3034   Lifespan Motor Development (3 hrs)
- KIN 3037   Sport Psychology (3 hrs)
- KIN 3038   Exercise Psychology (3 hrs)
- KIN 3040   Teaching Human Anatomy (3 hrs) ^2
- KIN 3050   Prevention and Care of Injuries (3 hrs)
- KIN 3052   Rehabilitation of Injuries (3 hrs)
- KIN 3058   Therapeutic Modalities for the Athletic Trainer (3 hrs)

---

Transfer Recommendations and Program Notes con't on page 3.
University of Wyoming

Kinesiology & Health Promotion, BS

**UW Kinesiology & Health Sciences Program Notes con't:**

- KIN 3060 Understanding Skill Acquisition for Teaching (3 hrs)
- KIN 4020 Motor Behavior (3 hrs)
- KIN 4024 Physical Activity Epidemiology (3 hrs)
- KIN 4029 Methods of Training and Conditioning (3 hrs)
- KIN 4042 Applied Biomechanics (3 hrs)
- KIN 4056 Advanced Exercise Testing and Prescription (3 hrs)
- KIN 4062 Concepts of Human Aging (3 hrs)
- KIN 4090 Foundations of Coaching (3 hrs)
- KIN 4097 Individual Problems: Mentoring in Human Anatomy (3 hrs)
- KIN 4900 Topics In: Concepts in Physical Therapy (2 hrs)
- KIN 4900 Topics In: Functional Movement Analysis (3 hrs)

1. One of two is required; the other course may be taken as an elective.
2. Elective - application and instructor permission required.
3. Prerequisite of KIN 3042 (Biomechanics of Human Movement).
4. Prerequisites of KIN 3010 (Fundamentals of Health & Fitness Assessment) and KIN 3021 (Physiology of Exercise).

† Six (6) credit hours of **internship &/or research internship** are required for the Kinesiology & Health Promotion major. Up to twelve (12) credit hours may be completed and applied toward the program of study. Internship credit hours may be split across terms (e.g., fall/spring/summer) or may be completed in a single semester if coursework scheduling allows.

**Therapeutic Science Emphasis.** For students pursuing a "therapeutic science" emphasis (e.g., medicine, physician assistant, PT, OT, optometry, chiropractic, etc.), 16 credit hours of additional science/math elective coursework offered outside the Division of Kinesiology & Health is typically required. Students should meet with their advisor and/or the College of Health Sciences pre-professional advisor to determine which elective science/math coursework is required/recommended. Elective coursework should be included in junior/senior program planning based on student needs and course availability. Some science courses are only offered one time per year (either fall or spring semester) so advance planning is recommended. Of the 16 additional science/math courses needed for students pursuing a therapeutic sciences emphasis, six to nine (6-9) credit hours may be applied as "Elective courses" in the junior/senior year coursework.

**Therapeutic Science Elective Courses** (to be taken in the junior/senior years; these are prerequisite courses for some pre-health professional programs; please discuss with an academic advisor.)
