Successful completion of the 2+2 plan requires that a student remain continuously enrolled and graduate with the associate's degree from his or her respective community college. • This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the catalogs of their respective institutions and consult with their academic advisor to plan accordingly. • Academic plans and course schedules may need to be altered if ACT or Math Placement scores require a student to take pre-college courses (e.g., MATH 0900, 0921, or 0925) before taking required math or English courses.

#### Western Wyoming Community College requirements:

In order to graduate, students must have a cumulative grade point average of 2.00 (a "C" average) or better in all hours attempted at Western Wyoming Community College. • At least 15 credit hours must be completed through WWCC. • Developmental courses in math or English do not count toward the minimum 64 credits needed to meet degree requirements. • Generally, no courses taken from WWCC for S/U grades may be used for graduation hours. • Students may not receive credit for courses which are prerequisite to course they have already completed. • A maximum of six (6) hours of studies or workshop courses may be applied toward the Associates Degree. • A maximum of four (4) hours of internship may be allowed for AA or AS degrees.

#### University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U.

### UW College of Arts and Sciences requirements:

Students must take two "core" courses in addition to UW's University Studies Program requirements: Diversity in the United States (ASD) and Global Awareness (ASG). • No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation. • At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

### WWCC Program Notes:

- 1) US Government requirement can be filled with HIST 1211, 1221, 1251 or POLS 1000
- 2) Social Science Course can be filled with SOC 1080, PSYC 1000, ANTH 1200 or 2200

### Theatre & Dance, Design/Tech Concentration Program Notes:

This degree program permits a total of 60-70 credits in the major. It is designed primarily for students who seek additional professional training in theatre & dance or who wish to enter MFA graduate programs. • Participation in the London Semester or a study abroad program is recommended. • Please consult with an academic advisor.

The department recommends that a foreign language be taken to fulfill UW's general studies humanities (H) requirement. However, if American Sign Language is taken, other courses will need to be identified to fulfill the H requirement.

### 3) Design/Tech Electives. Students will select two (2) courses from the following:

THEA 3805 Stage Lighting II

THEA 4810 Advanced Scenic Design

THEA 4850 Stage Costuming II

**Research in Theatre.** This is a collaborative and devised project developed in consultation with an instructor. Students in the program will have the option of petitioning for permission to serve on the production staff of a departmental production as a designer or technician. Ordinarily, the petition would be submitted to the departmental faculty during the student's junior year and the project would be completed in the student's senior year.
