

Pre-Occupational Therapy

University of Wyoming

GENERAL INFORMATION:

- Preprofessional coursework does *not* constitute a major. Preprofessional coursework is completed in addition to that of a declared major in order to enhance the likelihood of acceptance to a professional school and success in a professional degree program.
- Be aware that, for some degrees, it may take *more* than four years to graduate with a bachelor's degree while incorporating preprofessional coursework.
- Students starting in MATH 1400 or higher can complete this plan in four years, with modest modifications. Students starting below MATH 1400 should plan on at least an additional year prior to applying to physical therapy schools.
- It takes more than a year to apply to occupational therapy school. In order to go directly from an undergraduate degree program to professional program, students must develop a competitive resume and largely complete their prerequisite coursework by the end of their junior year.
- The prerequisite coursework listed below is for general guidance *only*. Specific programs may have additional requirements. Students should carefully research a variety of realistic potential programs to make sure they are meeting both the academic *and* non-academic expectations and requirements of the program.
- Begin working with the Preprofessional Health Advising Office *as soon as possible* to determine a realistic path to professional school. Contact information and an appointment link can be found at uwo.edu/preprof. For students not in Laramie, phone appointments are welcome.

Freshman Fall Semester

	Hrs	Min Grade	Notes
USP First-Year Seminar	3	C	FY
LIFE 1010 General Biology *	4		PN
MATH 1400 College Algebra **	3		Q
