	SPPA	2120	American Sign Language II	4		
▲	SPPA	3160	Language Development	4		
			USP Human Culture	3		H
<b>Credit hours subtotal:</b>				<b>14</b>		

This sample degree plan is a guide for course work in the major. • Course sequencing may need to be altered if ACT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. • Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions in the *University Catalog* and consult with their academic advisor to plan accordingly.

#### University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

#### College of Health Sciences notes:

Performance expectations for majors in the College of Health Sciences exceed institutional requirements. Please discuss with an academic advisor to understand the difference. • Admission to the clinical portions of Health Sciences majors is competitive and is not guaranteed even with minimum qualifications. Be prepared to exceed expectations. • Background checks are required at some point within all Health Sciences majors. Students should understand the long-term ramifications of all decisions and actions early on so as not to jeopardize future academic and career goals.
