This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation, and consult with an academic advisor. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the *University Catalog* and consult with their academic advisor to plan accordingly.

### University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete +2 hours of upper division (5000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

### College of Engineering and Applied Science requirements:

Students must have a minimum cumulative GPA of 2.0 in all Engineering courses for graduation. • A grade of C or higher is required for all prerequisite courses. Students must also achieve a grade of C or better in all required mathematics courses.

### Architectural Engineering Program Notes:

Architectural engineering degree candidates must have an average grade point average of 2.0 ( C ) in civil and architectural engineering courses attempted at UW.

\* Requires MATH ACT  $\geq$  23, MATH SAT  $\geq$  600, Math Placement Exam  $\geq$  3, or concurrent enrollment in MATH 1400, 1405, or 1450. (University standard)
