This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation, and consult with an academic advisor. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the *University Catalog* and consult with their academic advisor to plan accordingly.

University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

College of Engineering and Applied Science requirements:

Students must have a minimum cumulative GPA of 2.0 in all Engineering courses for graduation. • A grade of C or higher is required for all prerequisite courses. Students must also achieve a grade of C or better in all required mathematics courses.

Computer Science–Computer & Business Concentration Program Notes:

All computer science, math, and statistics courses must be completed with a grade of C or better. A grade of C- is not acceptable.

^ Computer Science core courses.

* Requires MATH ACT ≥ 25 , MATH SAT ≥ 600 , Math Placement Exam ≥ 4 , or $\geq C$ in MATH 1400 within one year prior to the start of the course. (University standard)

Computer Science–Computer & Business Concentration Program Notes con't:

** Requires MATH ACT \geq 27, MATH SAT \geq 600, Math Placement Exam \geq 5, or \geq C in MATH 1405 or 1450. (University standard)

*** **Science Series I & II.** Students must complete two courses from a tightly-coupled series, each of which has a lab component and recommended for science or engineering majors. Be aware that the first course in each series has a Math Placement Exam or course prerequisite requirement; please consult the course descriptions in the *University Catalog* for specific information. Courses can be selected from:

- CHEM 1020 (General Chemistry I) & CHEM 1030 (General Chemistry II)
- CHEM 1050 (Advanced General Chemistry I) & CHEM 1060 (Advanced General Chemistry II)
- LIFE 1010 (General Biology I) & LIFE 2022 (Animal Biology) or LIFE 2023 (Biology of Plants & Fungi)
- PHYS 1110 (General Physics I) & PHYS 1120 (General Physics II)
- PHYS 1210 (Engineering Physics I) & PHYS 1220 (Engineering Physics II)
- PHYS 1310 (College Physics I -) & PHYS 1320 (College Physics II)

Computer Science—Computer & Business Concentration Program Notes con't:

**** **Operating Systems Course.** Chose one (1) course from the following options:

- COSC 3750 Linux Programming for Systems Applications
- COSC 4740 Operating Systems Design
- COSC 4750 Systems Programming and Management

***** **Science Electives.** Please see the Computer Science Department web page

www.uwyo.edu/cosc/undergraduate_students/cosc_degree/ for a current list of approved courses. These course selections must have a lab component and be recommended for science or engineering majors.

***** **Computer Science Electives.** A total of six (6) hours of upper division (3000-level or above) computer science electives are required. A maximum of three (3) hours of COSC 3970 (Internship) can be included in this requirement.
