

# Health Sciences – Undeclared

## University of Wyoming, 2017-18

At the University of Wyoming, it is impossible to earn an "undeclared" degree. The "undeclared" classification is temporary in nature and is designed to allow students to consider and explore different majors and career paths. For maximum success and efficiency, students are advised to declare and concentrate on a major discipline as soon as possible. Therefore, this plan establishes an "undeclared" pathway for only one year. Please contact 307-766-3499 or 307-766-6704 with any questions about being undeclared in the College of Health Sciences.

Freshman Fall Semester			Hrs	Min Grade	Notes
		USP First-Year Seminar	3	C	FY; can substitute ENGL 1010 (College Composition and Rhetoric - C1) from the spring semester.
CHEM	1020	General Chemistry I *	4	C	PN
LIFE	1010	General Biology **	4	C	PN
MATH	1400	College Algebra ***	3	C	Q
Credit hours subtotal:			<b>14</b>		

Freshman Spring Semester			Hrs	Min Grade	Notes
		USP Human Culture	3		H
CHEM	1030	General Chemistry II	4	C	
ENGL	1010	College Composition and Rhetoric	3	C	C1; can substitute First-Year Seminar from the fall semester.
MATH	1405	Trigonometry	3	C	Consult with academic advisor.
		Life Science Lab Course	4	C	Consult with academic advisor.
Credit hours subtotal:			<b>17</b>		

This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation, and consult with an academic advisor. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the *University Catalog* and consult with their academic advisor to plan accordingly.

### University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

### Health Sciences Undeclared Notes:

Students in most Health Science majors take two (2) or three (3) math/laboratory science courses per semester. • In order to begin the foundational science courses for Health Science majors, students typically need to earn a "3" or better on UW's Math Placement Exam (MPE). This is equivalent to a score of 23 on the MATH ACT. Academic plans and course schedules may need to be altered if Math Placement scores require MATH 0900, 0921, or 0925, and if so, students should be prepared for additional time to complete a degree. • Coursework for Health Science majors begins to diverge significantly after the first semester. Students are encouraged to actively explore possible career paths in health care through job shadowing, volunteering, and/or working in health care. *ExploreHealthCareers.org* is an excellent resource. • Admissions to all Health Science majors is competitive based upon academic performance, understanding of the profession, passing background checks, and other attributes. Students intending to major in Health Sciences should seek out the resources and opportunities available to help them excel.

\* Requires MATH ACT  $\geq$  23, MATH SAT  $\geq$  600, Math Placement Exam  $\geq$  3, or concurrent enrollment in MATH 1400, 1405, or 1450. (University standard)

\*\* Requires MATH ACT  $\geq$  21, MATH SAT  $\geq$  600, Math Placement Exam  $\geq$  2, or  $\geq$  C in MATH 0921. (University standard)

\*\*\* Requires MATH ACT  $\geq$  23, MATH SAT  $\geq$  600, Math Placement Exam  $\geq$  3, or  $\geq$  C in MATH 0925. (University standard)
