What can I do with a degree in... Agricultural Business?

University of Wyoming
Department of Agricultural and Applied Econ.
This program prepares students for careers in agriculture, rural business, international careers, and public agencies with a strong foundation in economic decision-making principles. Courses taught by this department prepare students for exciting career opportunities in multiple areas of industry and commerce. Half of the students go on to agricultural related jobs, while a little over a forth go on to non-agricultural related jobs. The remainder work in firms that do both agricultural and non-agricultural related work. Many students also move into graduate or professional degree programs.
