**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
University of Wyoming
Laramie, Wyoming

We have audited the financial statements of the University of Wyoming (the "University") as of and for the year ended June 30, 2006, and have issued our report thereon dated October 13, 2006, which indicates that the financial statements of the University of Wyoming Foundation (the "Foundation"), a discretely presented component unit, were audited by other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the University of Wyoming's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the University of Wyoming's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in Section III.B. of the accompanying schedule of findings and questioned costs as item 2006-01.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe the reportable condition described above is a material weakness.

We noted certain other matters that we have reported to management of the University in a separate letter dated October 13, 2006.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Trustees, management, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

Cheyenne, Wyoming
October 13, 2006

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Trustees
University of Wyoming
Laramie, Wyoming

Compliance

We have audited the compliance of the University of Wyoming (the "University") with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major Federal programs for the year ended June 30, 2006. The University's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major Federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to above that are applicable to each of its major Federal programs for the year ended June 30, 2006. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in Section III.B. of the accompanying schedule of findings and questioned costs as items 2006-04 through 2006-14.

Internal Control over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to Federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major Federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

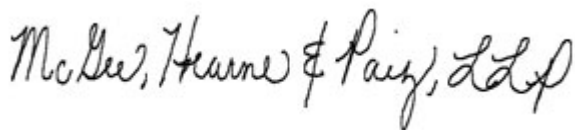

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the University of Wyoming's ability to administer a major Federal program in accordance with applicable requirements of laws, regulations, contracts and grants. Reportable conditions are described in Section III.B. of the accompanying schedule of findings and questioned costs as items 2006-02 through 2006-03.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major Federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions described above is a material weakness.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the University of Wyoming as of and for the year ended June 30, 2006, and have issued our report thereon dated October 13, 2006, which indicates that the financial statements of the University of Wyoming Foundation (the "Foundation"), a discretely presented component unit, were audited by other auditors. Our audit was performed for the purpose of forming an opinion on the University's basic financial statements taken as a whole. The accompanying schedule of expenditures of Federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Trustees, management, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1. Basis of Presentation

The purpose of the schedule of expenditures of Federal awards (the "Schedule") is to present a summary of the activities of the University of Wyoming (the "University") for the year ended June 30, 2006, which have been financed by the U.S. Government. The Schedule is presented on the cash basis of accounting. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of the general purpose financial statements.

For purposes of the Schedule, Federal awards have been classified into two types:

1. Direct Federal awards consisting of Federal assistance and Federal student financial aid, and
2. Pass-through funds received from non-Federal organizations made under Federally sponsored programs conducted by those organizations.

Note 2. Student Loan Funds and Loans Outstanding

Student loans are funded by the Federal Government under the Federal Perkins Loan Program. Activity related to this loan program in the accompanying Schedule includes transactions such as Federal and University contributions. This Schedule excludes certain transactions between students and outside third parties, including Federal Family Educational Loans, Parents Loans for Undergraduate Students and Federal Unsubsidized Stafford Loans (CFDA #84.032). Loans processed by the University and distributed by third parties were \$22,181,755 for Federal Family Educational Loans, \$2,850,728 for Parents Loans for Undergraduate Students, and \$7,014,905 for additional Federal Unsubsidized Stafford Loans for the fiscal year ended June 30, 2006.

The University's Federal Perkins Loan Program (CFDA #84.038) had an outstanding loan balance of \$8,025,184 as of June 30, 2006. Loans disbursed from the Federal Perkins Loan Program were \$2,056,988 for the fiscal year ended June 30, 2006. There were no Federal capital contributions for the year ended June 30, 2006.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006

I. SUMMARY OF INDEPENDENT AUDITOR'S RESULTS

A. Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

- Material weaknesses identified? _____ Yes X No
- Reportable conditions identified that are not considered to be material weaknesses? X Yes _____ No

Noncompliance material to financial statements noted? _____ Yes X No

B. Federal Awards

Internal control over major programs:

- Material weaknesses identified? _____ Yes X No
- Reportable conditions identified that are not considered to be material weaknesses? X Yes _____ None Reported

Type of auditor's report issued on compliance for major programs: Unqualified

- Any audit findings disclosed that are required to be reported in accordance with Section 510(a) of Circular A-133? X Yes _____ No

Identification of major programs:

<u>CFDA Numbers</u>	<u>Name of Federal Program or Cluster</u>	<u>Expenditures</u>
Cluster	Research and Development	\$ 28,937,376
Cluster	Student Financial Assistance	6,841,818
Cluster	TRIO	2,439,965
10.500	Cooperative Extension Service	2,028,911

Dollar threshold used to distinguish between Type A and Type B programs: \$1,693,774

Auditee qualified as low-risk auditee? X Yes _____ No

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

II. FINDINGS RELATING TO THE FINANCIAL STATEMENT AUDIT AS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GENERALLY ACCEPTED GOVERNMENT AUDITING STANDARDS

A. Reportable Conditions in Internal Control

2006-01: Accounting for Investments held by University of Wyoming Foundation

The University of Wyoming has investments with a market value of \$102,676,043 managed by the University of Wyoming Foundation. The University relies on investment information from the Foundation to complete its accounting and financial reporting. Timely and accurate reporting of the investment portfolio is a critical aspect of the University's internal control system over those investments and their performance. Also, the University reconciles certain information provided by the Foundation with its records as part of its internal control procedures. We noted that the University has not been receiving information from the Foundation in a timely manner which is making it increasingly difficult for the University accounting department to have adequate time to review, reconcile, request clarification and receive final, corrected information and meet its deadlines, both for interim internal reporting and the annual external audit. Also, the lack of timeliness of the information over the past three years has steadily decreased raising additional concerns as to whether the University will be able to receive this information in time to evaluate and process it and still meet its future accounting and financial reporting needs.

B. Compliance Findings

None

III. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

A. Reportable Conditions

2006-02: Documentation of CES Financial Reporting Submission Dates

Financial Status Reports (SF 269's) for each grant award under the Cooperative Extension Service are to be completed and submitted annually by April 1 each year. A good system of internal control would include documentation of the submission date.

Of the eight grants (projects) Financial Status Reports selected for financial reporting testing for the Cooperative Extension Service Cluster, we noted seven instances (CFDA #10.500) where the forms did not contain documentation of the date of submission. Per discussion with program personnel, multiple financial reports were completed and given to the CES Director for review and signature. Financial reports were signed and appear to have been reviewed; it is believed that only the first on the stack was dated with the date of submission. We recommend that the report review process be strengthened to ensure that all reports contain documentation of the submission date.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

2006-03: R&D Performance Reporting

Per discussion with the Sponsored Programs Office, the University does not have an effective centralized system in place for tracking the submission of performance and special reports. The University relies on individual grant managers (principal investigators) to identify required performance and special reports and file such reports timely. We recommend the University consider implementing a more formalized, centralized system to ensure all performance and special reports are submitted timely and are in accordance with the Federal agency requirements documented in each grant agreement.

B. Compliance Findings

2006-04: Student Financial Aid Reporting

Condition – Of the 23 student status changes tested for the proper reporting, three of the students who graduated in December 2005 were not reported to the NSLDS properly. The last day of classes was December 9, 2005 and the last day of finals was December 16, 2005, and the students were reported as graduating on December 9, 2005 instead of December 16, 2005. This also occurred with the spring semester graduates, with the last day of classes being April 28, 2006 and commencement on May 6, 2006, and the students reported as graduating of April 28, 2006 instead of May 6, 2006. This results in the students being reported as graduating earlier, the grace period begins earlier and repayment status also begins earlier.

Criteria – All Student Status Enrollment Confirmations must be submitted to the National Student Loan Data system every 60 days when using roster files to report information, per 34 CFR 682.610. Schools are required to report changes in the student's enrollment status, the effective date of the status and the anticipated completion date.

Cause – Due to limitations in the scheduling function of the software, Student Financial Aid personnel need to initially use the last day of class as the graduation date. After graduation is finalized, the Office corrects the graduation date. This year, this last step was inadvertently skipped.

Effect – A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking action deemed necessary to gain compliance.

Recommendation – We recommend that this be communicated to the appropriate individuals in the Office of the Registrar and that the review of student status changes specifically address proper graduation dates.

Questioned Costs - \$0

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

2006-05: Student Financial Aid Reporting

Condition – Of the 23 student status changes tested for the proper reporting, two of the students who withdrew during the semester were not reported to the Clearinghouse within the 60 day requirement.

Criteria – All Student Status Enrollment Confirmations must be submitted to the National Student Loan Data system every 60 days when using roster files to report information, per 34 CFR 682.610. Schools are required to report changes in the student's enrollment status, the effective date of the status and the anticipated completion date.

Cause – In one instance, the University staff members who submit the Student Status Changes submitted the March 2006 roster file in April 2006. The other instance was due to the student withdrawing the day after a roster file was submitted, and therefore was not reported until the following submission.

Effect – A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking whatever action is deemed necessary to gain compliance.

Recommendation – The University should properly and timely report changes in students' enrollments status, the effective date of the status and the anticipated completion date. Submission of the roster files should be completed timely. The staff in charge of reporting status changes should also continue to monitor Student Financial Aid standards with regard to reporting status changes.

Questioned Costs - \$0

2006-06: Student Financial Aid Reporting

Condition – Of the 23 student status changes tested for proper reporting, three of the students whose status changed during the semester were not reported to the National Student Loan Data system consistently.

Criteria – All Student Status Enrollment Confirmations must be submitted to the National Student Loan Data system every 60 days when using roster files to report information, per 34 CFR 682.610. Schools are required to report changes in the student's enrollment status, the effective date of the status and the anticipated completion date.

Cause – It was noted during testing that three of the students, appearing to have the same situation, withdrew during the drop/add period. However, the withdrawal date on file with the National Student Loan Data System (NSLDS) did not agree to the withdrawal date determined by the University. Per discussion with University staff, it appears that these students were also enrolled at another institution and that the University dates were overwritten. However, we are unable to verify this from the available information.

Effect – A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking whatever action is deemed necessary to gain compliance.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

Recommendation – The University should properly and consistently report the effective date of changes in students' enrollments status and attempt to coordinate reporting with other educational institutions if the affected student is enrolled in more than one institution.

Questioned Costs - \$0

2006-07: TRIO Cluster - Eligibility

Condition – Of the four individuals served by the Talent Search Program (CFDA #84.044) selected for testing for the 2006 fiscal year, the documentation for one individual did not provide support that the individual was eligible to receive the services of the TS Program.

Criteria – Per 34 CFR Section 643.3, an individual is eligible to participate in a TS project if the individual meets all the following requirements: (1) is a citizen, national, or permanent resident of the United States or is in the United States for other than a temporary purpose; (2) has completed five years of elementary education or is at least 11 years of age but not more than 27 years of age (an individual more than 27 years of age and a veteran regardless of age may participate in a TS project if there is no EOC in the area); and (3) is enrolled in or has dropped out of any grade from 6 through 12 or has graduated from secondary school or dropped out of the postsecondary education and needs one or more of the services provided by the project.

Cause – Per review of the student application, it could not be determined if the student was a citizen, national or permanent resident of the United States or if he/she was in the United States for other than a temporary purpose as this portion of the application had been left blank.

Effect – A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking any action deemed necessary to gain compliance.

Recommendation – The Talent Search Program Director should monitor that eligibility is properly supported by appropriate documentation as part of the eligibility review process.

Questioned Costs - \$0

2006-08: Student Financial Aid Reporting

Condition – During our review of the Fiscal Operations Report and Application to Participate (FISAP) filed for the 2005-2006 academic year, we noted that Part III Federal Perkins Loan Program, Section C and Section D were reported incorrectly (CFDA #84.038).

Criteria – Per 34CFR673.3, the institution is required to submit the Fiscal Operations Report and Application to Participate (FISAP) annually to receive funds for the campus-based programs. The Fiscal Operations Report portion is used to report its expenditures in the previous award year and the Application to Participate portion is used to apply for the following year. All information reported on the FISAP should be complete and accurate.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

Cause – Per discussion with the various Student Financial Operations Office personnel, the inaccurate information was due to problems with software used to manage Perkins Loan information. The program was updated after the FISAP was filed and identified several errors throughout the Perkins Loan Program section of the FISAP.

Effect - A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking any action deemed necessary to gain compliance.

Recommendation – Although the University implemented an additional review process, there was insufficient time to complete the review of Part III of the FISAP before the filing deadline. We recommend that the University review its procedures and time line related to the FISAP to allow more time for the review process.

Questioned Costs - \$0

2006-09: CES Financial Reporting

Condition – During the testing of the quarterly Federal Cash Transaction Reports (SF 272) filed for the Cooperative Extension Service Program (CFDA #10.500) awarded by the U.S. Department of Agriculture, we noted that two reports were not submitted and one was submitted late. The report selected for testing included information for nine months of activity, rather than the three months as indicated on the Cash Transaction Report.

Criteria – Recipients of Federal funds shall timely submit financial reports as required by the Federal awarding agency. In addition, the information submitted should be complete and accurately reflect the financial records of the University.

Cause – Per discussions with University staff, this grant is very complicated. It is tracked and reported differently from any other grant in the Sponsored Programs Office. In addition, there were several issues requiring research regarding the classification of expenditures to the appropriate grant.

Effect - A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking action deemed necessary to gain compliance.

Recommendation – The University should strengthen the system in place to adequately track report due dates.

Questioned Costs - \$0

2006-10: CES Financial Reporting

Condition – During the testing of the Federal Cash Transaction Reports (SF 272) filed for the Cooperative Extension Service Program (CFDA #10.500) awarded by the U.S. Department of Agriculture, we noted that the University's general ledger did not support the expenditure amounts or cash balances detailed by grant as reported on the SF 272.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

Criteria – Recipients of Federal funds shall submit financial reports, as required by the Federal awarding agency, which should reflect the financial records of the University. In addition, the reports submitted should be complete and accurate.

Cause – One of the deposits received was inadvertently posted to the wrong General Ledger account at the University and was not identified and corrected during the review process by the Sponsored Programs Office.

Effect - A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking action deemed necessary to gain compliance.

Recommendation –We recommend that the Sponsored Programs Office strengthen the review process to ensure receipts are posted correctly.

Questioned Costs - \$0

2006-11: CES Financial Reporting

Condition – Of the eight grants (projects) selected for testing the annual Financial Status Reports (SF 269s) for the Cooperative Extension Service Program (CFDA #10.500) awarded by the U.S. Department of Agriculture, we noted that although the University receives three separate awards and files three individual SF 269s on the 3(b) and (c) Regular Funds grant, the 3(b) Special Needs grant, and the 3(c) CSRS Retirement grant, the matching requirements are not tracked separately for the 3(b) and (c) Regular Funds grant and the 3(c) CSRS Retirement grant. As such, the University’s general ledger does not support the individual amounts reported for these grants on the SF 269s.

Criteria – Recipients of Federal funds shall submit financial reports, as required by the Federal awarding agency, which should reflect the financial records of the University. In addition, the reports submitted should be complete, accurate, and have adequate support for amounts reported.

Cause –The matching requirements for individual grants were not supported by the University’s general ledger due to multiple grants’ expenditures being combined within the general ledger.

Effect - A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking action deemed necessary to gain compliance.

Recommendation –The College of Agriculture Business Office should track the financial information for each future grant received within separate budgets in the financial records of the University. This will allow the University to better track matching funds for each grant award.

Questioned Costs - \$0

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

2006-12: R&D Financial Reporting

Condition – Of the 23 grants (projects) selected for financial report testing for the Research and Development Cluster, we noted one instance (CFDA #47.050) for a grant awarded by the National Science Foundation that the quarterly financial report omitted some of the expenditure amounts. Expenditures incurred during the reporting period (\$15,459) were not reported on the financial report until the following quarter.

Criteria – Recipients of Federal funds shall submit financial reports, as required by the Federal awarding agency, which should reflect the financial records of the University. In addition, the reports submitted should be complete and accurate.

Cause – The financial report was filed with inaccurate expenditure amounts due to human error. The report preparer inadvertently did not include expenditures during the reporting period they were expended in, for the grants NSF44304EXT and NSF44304USL.

Effect - A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking any action deemed necessary to gain compliance.

Recommendation – Prior to submitting financial reports, the Sponsored Programs Office should ensure that information in the financial report reconciles to the general ledger and that all amounts are adequately supported.

Questioned Costs - \$0

2006-13 – R&D Subrecipient Monitoring

Condition – Of the 13 grants (projects) selected for testing compliance with subrecipient monitoring requirements, we noted one instance (CFDA #93.242) awarded by the Department of Health and Human Services, National Institute of Health, in which the University did not ensure that the required subrecipient audit was completed by obtaining a copy of the audit report or verifying via the Federal Audit Clearinghouse database that the subrecipient had no audit findings and that the required audit was performed.

Criteria – The requirements for subrecipient monitoring are contained in the 31 USC 7502(f)(2)(B) (Single Audit Act Amendments of 1996 [Pub. L. 104-156]), OMB Circular A-133 (§__.225 and §__.400(d)), A-102 Common Rule (§__.37 and §__.40(a)), and OMB Circular A-110 (§__.51(a)), Federal awarding agency program regulations and the terms and conditions of the award.

Cause – Although the University identified the need for obtaining audits for this subrecipient and attempted to obtain the report via letters to the subrecipient, no further action was taken when the letters resulted in no response.

Effect – A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking any action deemed necessary to gain compliance.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2006

Recommendation – We recommend that Sponsored Programs Office and the project accountants periodically review the status of requests for audit reports and continue to contact the subrecipient for the report.

Questioned Costs - \$0

2006-14: R&D Reporting

Condition – Of the 23 grants (projects) selected for performance and special report testing for the Research and Development Cluster, we noted six instances when the performance or special reports specified by the grant agreement were not submitted, three instances when the performance or special reports were not submitted timely, four instances when the financial reports were not submitted timely, and one instance when the financial report was not submitted.

Criteria – A-102 Common Rule – Financial reporting § __.41; Performance reporting, § __.40(b), OMB Circular A-110 – Financial reporting, § __.52; Performance reporting, § __.51, and the laws regulations, and the provisions of contract or grant agreements pertaining to the specific programs require that reports be submitted timely and in compliance with appropriate deadlines.

Cause – With respect to the six instances where performance or special reports were not submitted, the following causes were noted:

- DOELOC2275 awarded by the Department of Energy (CFDA NONE) –Three quarterly reports were not filed. Per discussion with the principal investigator’s assistant, the department had negotiated semi-annual reports rather than quarterly. Supporting documentation could not be provided supporting the new requirements.
- WYDEQ49800 awarded by the Department of Interior, Office of Surface Mining (CFDA #15.252) – Research team did not attend a required annual conference. Per discussion with the principal investigator, severe weather and road closures at the time of the conference precluded the team from attending and no alternative means of complying with the performance report was identified.
- EPA42800 awarded by the Environmental Protection Agency (CFDA #66.461) – Per discussion with the principal investigator, the mid-year progress report was not filed as she was unaware of the grant requirement.
- CPERL7834 awarded by the National Institute of Standards and Technology (CFDA NONE) – The principal investigator understood the progress reports to be due quarterly rather than every other month. Documentation indicating the change in reporting requirements could not be provided; therefore two progress reports were not filed.
- NSF44289ECOLOGY awarded by the National Science Foundation (CFDA #47.076) – Per discussion with the principal investigator, the annual progress report was inadvertently not filed.

UNIVERSITY OF WYOMING

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Year Ended June 30, 2006

- USDAARSLOC5174 awarded by the U.S. Department of Agriculture (CFDA #10.001)
 - The annual interim report was inadvertently not filed. According to the principal investigator, the grant was extended in the prior year and the amended agreement clearly identifies that performance reports were required although the original contract did not.

Regarding the three instances of late performance reports, the principal investigators either overlooked the reporting requirements or were not initially aware of the requirement. The following grants were affected: DODDTRA2189 awarded by the Department of Defense, Defense Threat Reduction Agency, CFDA NONE; DOELOC2275 awarded by the Department of Energy, CFDA NONE; WYDEQ49800 awarded by the Department of Interior, Office of Surface Mining, CFDA #15.252.

With respect to one financial report that was not filed (USDAARS44800 awarded by the U.S. Department of Agriculture, CFDA #10.001), the Sponsored Programs Office inadvertently failed to enter the requirement into their tickler system that tracks financial reporting requirements.

With respect to the four financial reports not being filed timely (one for DODARMY1733 awarded by the Department of Defense, CFDA #12.431; two for USDACSRE45206US awarded by the U.S. Department of Agriculture, CFDA #10.206; one for DOELOC2275 awarded by the Department of Energy, CFDA None) the Sponsored Programs Office inadvertently failed to complete the reports by the deadline indicated by the tickler system. Per discussions with Sponsored Programs staff members, the likely reason is increased turnover in the department in addition to the increase in the volume of grants.

Effect – A violation or failure to comply with Federal laws and regulations may result in the Federal agency taking any action deemed necessary to gain compliance.

Recommendation – The Sponsored Programs Office should continue to review grant requirements periodically to ensure that the required reports have been submitted by the deadline and that all reporting requirements have been met. The Office should also continue to emphasize to principal investigators that copies of the performance reports be sent to the Sponsored Programs Office to be retained in the grant file.

Questioned Costs - \$0

UNIVERSITY OF WYOMING

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Year Ended June 30, 2006

FINDING	STATUS
2005-1: Student Financial Assistance Cluster – Special Reporting	The Office of Student Financial Aid reviewed the AY 2005-2006 FISAP according to the action plan submitted. The Associate Director for Federal Programs reviewed the data and the supporting documentation along with the Director and the Information Specialist. The Business Analyst Executive performed additional review and the University Controller reviewed selected data. A corrected AY 2004-2005 FISAP was submitted to the Department of Education on December 7, 2005.
During our review of the Fiscal Operations Report and Application to Participate (FISAP) filed for the 2004-2005 academic year, we noted three instances where the information reported did not have or did not agree to supporting documentation (CFDA #84.007, #84.033, and #84.038):	<i>Auditor’s Comment – Finding 2005-1</i>
<ul style="list-style-type: none">• Total Federal Pell Grant expenditures for the 2004-2005 Award Year (Part II, Section D) were reported incorrectly.• Total expended for State grants and scholarships made to undergraduates for the Award Year July 1, 2004 to June 30, 2005 (Part II, Section D) was reported incorrectly.• Total tuition and fees for the award year July 1, 2003 through June 30, 2004 (Part II, Section E) was allocated between undergraduates and graduate/professional students using the ratio of the number of students in each classification instead of actual amounts received by each of the two classifications.	We noted that the University filed an amended FISAP for academic year 2004-2005. The FISAP filed for the 2005-2006 academic year had fewer errors and errors noted were isolated to one specific form of financial aid that had reporting problems due to software issues, which have been corrected.
2005-2: Research and Development Cluster – Financial Reporting	Sponsored Programs continues to attempt to determine which financial reports are due and submitted by the deadline.
Of the 23 grants (projects) selected for financial report testing for the Research and Development Cluster, we noted three instances when the quarterly financial report was not filed by the deadline specified in the grant agreement and one instance when the annual financial report had not been filed in a timely manner.	<i>Auditor’s Comment’s – Finding 2005-2</i>
	As noted in 2006-14 of the 23 grants (projects) selected for testing, four quarterly financial reports were not filed by the deadline specified in the grant agreement and one annual financial report had not been filed.

UNIVERSITY OF WYOMING

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Year Ended June 30, 2006

FINDING	STATUS
2005-3: Research and Development Cluster – Performance/Special Reporting	Sponsored Programs continues to encourage the Principal Investigators to submit the applicable deliverables in the timeframe designated in the award documentation. Emails were sent to the Principal Investigators who were found non-compliant in the FY 05 audit.
Of the 23 grants (projects) selected for performance and special report testing for the Research and Development Cluster, we noted one instance when the performance and special reports specified by the grant agreement were not submitted (related to U.S. Department of Interior, National Park Service). We also noted one instance where it could not be determined if the required reports were filed (related to U.S. Department of Interior, Bureau of Land Management).	<i>Auditor’s Comment’s – Finding 2005-3</i>
2005-4: Cooperative Extension Service – Matching	As noted in 2006-14, of the 23 grants (projects) selected for testing, six performance/special reports were not submitted and three reports were not submitted timely.
During the testing of the matching requirement on the FFY 1999 3(d) Water Quality grant in the Cooperative Extension Service Program (CFDA #10.500), we noted that the University could not provide adequate support for the match recorded.	The College of Agriculture Administrative Business Office continues to record and report the match for the Federal formula funds in the campus PAR system. The amount reflected on the system’s cost share report at the end of the fiscal year is the amount reported on the SF 269.
2005-5: TRIO Cluster – Reporting	<i>Auditor’s Comment’s – Finding 2005-4</i>
The project director of Upward Bound Math and Science Program (CFDA #84.047) and the Academic Services Coordinator could not determine which excel file had been attached to the MSIP annual performance report. This excel file reports the number of individuals served and if those individuals were dual criteria or single criteria. As such, it could not be determined if the correct numbers were reported to the Department of Education (ED).	Based on current year testing, we determined that the client implemented the above procedure.
	The “APR data, submission, and archival policy” that was instituted on September 29, 2005 is still in effect and is being followed by all projects within the TRIO cluster, including the Math Science Initiative Project. The policy was distributed to all Project Directors and is included in each project’s individual Standard Operating Procedures handbook. The complete policy will be provided upon request. Submission of the 04-05 Annual Performance Reports followed these policies.
	<i>Auditor’s Comment’s – Finding 2005-5</i>
	Based on current year testing, we determined that the client implemented the above procedure.

UNIVERSITY OF WYOMING

Date: December 6, 2006

To: McGee, Hearne & Paiz, LLP

From: Janet S. Lowe, CPA, Associate Vice President for Administration

Re: University of Wyoming Audit – Fiscal Year 2006

The following are corrective action plans to address the Findings and Questioned Costs for Federal Awards, in the FY 2006 A-133 Compliance Report:

2006-04: Student Financial Aid Reporting

Recommendation – We recommend that this be communicated to the appropriate individuals in the Student Financial Aid Office and that the review of student status changes specifically address proper graduation dates.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: David Gruen, Office of Student Financial Aid (OSFA)

Completion date: immediately

Action Plan: *The cause of this exception was the requirement for the term end date to be loaded as the last day of class on the old student information system in order to schedule classrooms for final examinations. The date was to be changed after the final exam schedule was printed, however it was not. The new Banner system allows us to load the term date differently and does not require personnel to remember to change it.*

2006-05: Student Financial Aid Reporting

Recommendation – The University should properly and timely report changes in students' enrollments status, the effective date of the status and the anticipated completion date. Submission of the roster files should be completed timely. The staff in charge of reporting status changes should also continue to monitor Student Financial Aid standards with regard to reporting status changes.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: David Gruen, Office of Student Financial Aid (OSFA)

Completion date: immediately

Associate Vice President • Division of Administration • Dept. 3314 • Room 202, Old Main

1000 E. University Avenue • Laramie, WY 82071 • (307) 766-3307 • fax (307) 766-4836 • e-mail: jlowe@uwyo.edu

Action Plan: *The cause of this exception was the delay in sending the Clearinghouse report for March 2006. It was not sent until April 2006 due to a vacation of the technical staff member. The resolution of this problem will be cross training of technical staff in the Registrars office so that this report is submitted on time. The Registrar will follow up with the technical staff to ensure that the file is sent. The Registrar's office will also explore the option of scheduling this file to automatically run on the assigned dates. The Office of the Registrar will also coordinate the NSLC submission schedule with Student Financial Aid to ensure the appropriate timing. However, with the scheduled cross training within the Registrar's Office, the 60 day reporting window should be met with the current process.*

2006-06: Student Financial Aid Reporting

Recommendation – The University should properly and consistently report the effective date of changes in students' enrollments status and attempt to coordinate reporting with other educational institutions if the affected student is enrolled in more than one institution.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: David Gruen, Office of Student Financial Aid (OSFA)

Completion date: immediately

Action Plan: *The cause of this exception was the enrollment of the students at another institution (Central Wyoming College). Students were withdrawn from the University of Wyoming and the correct status dates were reported to the NSLC. However, the students were also enrolled at Central Wyoming College and the status dates listed on NSLC were overwritten with the CWC dates. The Office of the Registrar and Student Financial Aid will attempt to coordinate status dates with other consortium institutions. The NSLC chose to overwrite UW's information with CWC's information.*

2006-07: TRIO Cluster - Eligibility

Recommendation – The Talent Search Program Director should monitor that eligibility is properly supported by appropriate documentation as part of the eligibility review process.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Curtis Sandberg, Student Educational Opportunity

Completion date: immediately

Action Plan: *All files of the coordinator whose participant file did not include the appropriate documentation for citizenship were internally audited October 18-19, 2006. No other problems regarding citizenship were found.*

The Project Director is in the process of reviewing the policies regarding what documentation must be included in participant files with each staff member and expects to complete this training by January 15, 2007. The Project Director will conduct quarterly reviews of random files from each of the three site offices.

2006-08: Student Financial Aid Reporting

Recommendation – Although the University implemented an additional review process, there was insufficient time to complete the review of Part III of the FISAP before the filing deadline. We recommend that the University review its procedures and time line related to the FISAP to allow more time for the review process.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Lynn Crist, Financial Services Business Office

Completion date: immediately

Action Plan: *The Financial Services Business Office and the Office of Student Financial Aid will review their procedures and time lines for preparation and review of the FISAP, in an effort to allow sufficient time for the recently implemented additional review by the University Controller. The review of procedures will include a training session addressing sufficient documentation of data reported in the FISAP. A corrected FISAP will be submitted in December 2006.*

2006-09: CES Financial Reporting

Recommendation – The University should strengthen the system in place to adequately track report due dates.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Christy Rickard, Office of Sponsored Programs

Completion date: immediately

Action Plan: *Overlooking that the SF 272 was due was not the reason for the SF 272 not being submitted. The workload was so extensive that the reports kept getting put on hold. The Sponsored Programs Office has added another full-time position to help alleviate the workload burden. Also, the Sponsored Programs Specialist has been instructed on the importance of submitting the quarterly SF 272 on a timely basis.*

2006-10: CES Financial Reporting

Recommendation – We recommend that deposits be detailed by grant prior to the submission to the cashiers' office to ensure that all funds are deposited into the correct account. In addition, the cash balance for each grant should be reconciled to the University's general ledger on at least a quarterly basis and any discrepancies should be investigated and resolved in a timely manner.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Christy Rickard, Office of Sponsored Programs

Completion date: immediately

Action Plan: *As far as the expense portion of this finding, the referenced instance pertains to the activity entitled "Penalty Mail." In prior years, there had been a separate award for "Penalty Mail." No award had been issued recently for "Penalty Mail," yet the College of Agriculture continued to spend for that activity. Thus, the expenditures could not be reported to USDA. In*

researching the problem, we discovered that the "Penalty Mail" activity was now combined with the Smith-Lever Administration award. The UW Sponsored Programs Office has requested that the Executive Business Manager in the Agriculture Business Office inform Sponsored Programs of any changes to the Federal Formula Funds. The deposit error portion of this finding pertained to a deposit that should have been split between the standard Federal Formula Funds and a Normal Research Award. The Sponsored Programs Office will research what the possibilities are of converting the Federal Formula Funds to the same handling procedures as Normal Research Awards.

2006-11: CES Financial Reporting

Recommendation –The College of Agriculture Business Office should track the financial information for each future grant received within separate budgets in the financial records of the University. This will allow the University to better track expenses for each grant award, which will allow for more accurate reporting of grant activity to the Federal agency.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Jacque Cook, College of Agriculture Business Office (ABO)

Completion date: immediately

Action Plan: *When ABO first began showing match on the Smith Lever 3(b) and (c) funds, it was agreed that all of the match for these categories would be rolled into one record, primarily, because there is/was no individual who could be identified as contributing time to the supported project. That still is the case with the CSRS Retirement funds but the College of Agriculture Business Office can justify showing match. The Special Needs grant is now being used to support the State Initiative Teams so their salary match would be justified. Beginning with FY2007, CES will split these funds out for match and show match separately for the three grants.*

2006-12: R&D Financial Reporting

Recommendation – Prior to submitting financial reports, the Sponsored Programs Office should ensure that information in the financial report reconciles to the general ledger and that all amounts are adequately supported.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Christy Rickard, Office of Sponsored Programs

Completion date: immediately

Action Plan: *The budget referenced in the finding was established on a "Preliminary Spending" basis. The Sponsored Programs Specialist thought it was a new project, thus had no expenditures. The Specialist has been instructed on researching the validity of projects and not presuming their status.*

2006-13 – R&D Subrecipient Monitoring

Recommendation – We recommend that Sponsored Programs and the project accountants periodically review the status of requests for audit reports, and when no response is received, either attempt to verify via the Federal Audit Clearinghouse that the required subrecipient audit

was performed and that there were no audit findings or continue to contact the subrecipient for the report.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Christy Rickard, Office of Sponsored Programs

Completion date: immediately

Action Plan: *Each August, following the University of Wyoming's fiscal year end, UW Sponsored Programs will send a request for certification of audit results to all subcontractors, with a comment that it is to be completed and returned within thirty days. If no response is received within two months, UW Sponsored Programs will send another request, with a note accompanying the request that states "Failure to respond to the request will result in future subcontract payments being withheld until the subcontractor responds to the request for audit certification." UW Sponsored Programs will continue to contact subcontractors monthly until a response is received.*

2006-14: R&D Reporting

Recommendation – The Sponsored Programs Office should continue to review grant requirements periodically to ensure that the required reports have been submitted by the deadline and that all reporting requirements have been met. The Office should also continue to emphasize to principal investigators that copies of the performance reports be sent to the Sponsored Programs Office to be retained in the grant file.

Questioned Costs - \$0

University of Wyoming Corrective Action Plan

Contact person: Christy Rickard, Office of Sponsored Programs

Completion date: immediately

Action Plan: *The University will research what it will entail, both financially and in human resource terms, to have an electronic system that will notify the faculty members of their responsibilities. Current notices will be sent to the Principal Investigators of the projects listed in the finding to reinforce the need to submit reports or get documentation for variances in the requirements.*
