YOUR OPPORTUNITY AWAITS
Your path to adventure!

Experience Wyoming: a place of academic pursuit, intellectual travel, global impact, civic leadership and incredible friendships, all in a pristine setting. The University of Wyoming is a nationally recognized research institution, where students engage daily with faculty to explore complex issues and enjoy a level of friendship found only around a campfire.

UW provides a unique learning environment comprised of accomplished faculty, world-class facilities, 200+ areas of study, 200+ student organizations and one of the nation’s most extensive study abroad programs. Establish new friendships among students from all 50 states and 90+ countries. Realize your educational dreams among opportunities as vast as one of our Rocky Mountain night skies.

Celebrating 125 years of UW excellence, pride and tradition!

Undergraduate Research

“Our undergraduate research support is unparalleled. At many schools, undergraduate researchers are simply volunteers who work 20 hours a week on somebody else’s project. But the University of Wyoming gave me an opportunity to tailor my education to my interests. They gave me independence. That’s why I was able to get the National Science Foundation fellowship. It’s what got me into Harvard for graduate school. It’s why I have such a strong research background. I really feel like I could not have done better than coming to the University of Wyoming.”

In 2010, Peters was one of just 278 national recipients of a Goldwater Scholarship, the premier undergraduate award for students in the fields of mathematics, the natural sciences and engineering.

Jake Peters, B.S. in Zoology and Physiology, 2012

Diversity Initiatives

Mysteries in space, on earth, and in the earth were explored by visiting undergraduate students from Winston-Salem State University. The students were matched with UW graduate student mentors involved in science, technology, engineering and mathematics (STEM) fields.

“Participating at UW addresses my academic and career interest by giving me a chance to do research and network with others who are doing the same.” Her first impression of the UW campus occurred when she came across the life-size Tyrannosaurus rex statue standing guard outside the Geological Museum. “I thought it was so cool,” says Jonna Smith, who is planning for a career in breast cancer research.

To learn more about UW Diversity Initiatives and exchange opportunities, visit uwyo.edu/sdic.

Leadership

In 2012, the Associated Students of the University of Wyoming (ASUW) successfully led the charge to renovate UW’s Half Acre complex. Among the planned improvements are academic spaces; an updated theater and dance studio; four new racquetball courts; expanded Outdoor Program space with a 35-foot-tall pinnacle wall; expanded cardiovascular exercise and weight training areas including a new and improved large fitness area on the first floor and additional smaller, more private fitness spaces on the second and third floors; new locker rooms; and a new multi-activity court gymnasium.

“With the renovations of Half Acre comes a complete improvement in the daily lives of future students. We can be the change we wish to see on the campus, and this story of success should motivate future student leaders.”

Megan Degenfelder, 2011-12 ASUW President, participant in UW’s Chinese Ambassador’s Wyoming Scholars Program, B.S. in Political Science and Economics, 2012

Recognition

Recognized by Forbes magazine as the nation’s 11th best college value for 2012.

Athletics & Clubs

200+ Clubs and Organizations

17 NCAA Division 1-A college sports

19 Club Sports Program teams

Global Opportunities

In July 2011, UW undergraduate students Chris Michael and Rebecca Skinner traveled to Indonesia on a National Geographic and UW-supported post-tsunami trip. A familiar photojournalist for National Geographic and a UW writer-in-residence, Mark Jenkins mentored Chris and Rebecca prior to the launch of their journey.

“Being some of the first/only foreigners to live among the Acehnese really gave us a robust understanding of the incredible rebuilding that has taken place with the help of a generous international community, as well as the villagers’ excitement to show the world their vibrant culture.”

Rebecca Skinner, Senior in Social Work
Sarah Ann Gregory
(‘11, Molecular Biology and Physiology)

Undergraduate research may seem like an unusual choice for a physiology and molecular biology major with her sights set on medical school. But Gregory was determined to explore the many options available to her. Gregory earned a world of experience while up to her knees in chilly water. “I got to develop relationships with doctoral students and faculty at the university, which you can’t quite get from extracurriculars or in classroom time.”

To learn more, visit uwyo.edu/uwyo/2011/13-1/something-in-the-water.html.

COLLEGE OF AGRICULTURE AND NATURAL RESOURCES

- Facilities include state-of-the-art teaching and research labs, field environments, plus an indoor livestock teaching arena.
- Our faculty have been recognized nationally for both teaching and research.
- Free tutoring for College of Agriculture & Natural Resources students.

In addition to traditional programs like production agriculture, animal and veterinary sciences, wildlife habitat management and farm and ranch management, our degrees can also lead to stimulating careers in advertising, banking, plant and animal breeding/genetics, nutrition and dietetics, ecosystem restoration/reclamation, medicine, environmental consulting, child and family services, international agriculture, economics, forensic science, interior design, journalism, forestry, textiles and merchandising, turf management, geographic information systems and much more!

Visit uwyo.edu/uwag

COLLEGE OF ARTS AND SCIENCES

A&S offers more than 50 majors and 60 minors, as well as seven interdisciplinary programs. By studying the arts, literature, philosophy, math, sciences, languages and politics, you will prepare for “complete living” and acquire the communication, writing, and analytical skills for whatever path your career takes.

- Faculty members emphasize field study, internships and individual research projects.
- A&S offers exciting opportunities to enhance global perspectives through exchange programs and study abroad.
- Programs in geology, archaeology, botany and geography take advantage of Wyoming’s unique environment.
- A vibrant new Visual Arts Center features 79,000 square feet of studio space and new technologies for art history, ceramics, drawing, graphics, sculpting and much more.
- New majors in American Indian studies and religious studies span local, regional, national and international issues. So do many other fields such as political science, sociology and history.
- Many A&S programs offer scholarships for talent, ability and academic pursuit. Scholarships are combinable with UW’s general academic scholarships for entering students.
- From the stars to wildlife, from playwriting to psychology, A&S has it all.

To learn more visit uwyo.edu/uwyo/2012/13-2/big-picture.html.

UW Symphony Orchestra

A 90-member ensemble playing the finest in orchestral repertoire, the UW Symphony Orchestra (UWSO) features soloists ranging from internationally acclaimed guest artists to faculty performers to student competition winners. In 2007, on a week-long tour of Bolivia, UWSO performed concerts ranging from Centro Sinfonico in La Paz to village churches and plazas.

Visit uwyo.edu/as
Westin Grabow
(’10, Business Administration)

“I hadn’t realized how well-connected my professors were until I stepped out of the university setting. I can call any of my professors, even today, and they’d love to hear about how things are going in my life and in my career. There really is a personal touch that I don’t think you get at other universities — and their professional networks are absolutely world class.”

To learn more, visit uwyo.edu/profiles/students/student-success.html.

Kent Becker (associate professor of counselor education)

In working with individuals and communities struggling with mental health challenges, Becker says Photovoice projects provide him with insight and experience that he is able to pass on to students in the classroom and in the field. He also strives to involve students in projects. “It’s important that students hear the voices directly of the people they will be working with in their careers.”

To learn more, visit uwyo.edu/uwyo/2012/13-3/show-and-tell.html.
Daniel Kunkel (Mechanical Engineering)

“...I came to UW to study Mechanical Engineering and stayed for graduate school. The biggest draw was the proximity to outdoor activities with places such as Happy Jack and Vedavoo as well as the Snowy Range Mountains. UW is unique due to its quality engineering education and location. With all of the outdoor activities around, I always had something to do.”

College of Engineering and Applied Science

Work with the latest high-tech equipment as you design water purification equipment for a remote mountain village, manufacture assistive devices for the disabled incorporating advanced composite materials, create new types of robots, synthesize complex cancer-fighting drugs, design energy-efficient buildings, develop new energy options, write sophisticated computer programs and research ways of combating and preventing pollution.

• Power Groups allow freshmen to select common course schedules with students of similar interests.
• Free tutoring for all students within the college.
• Extensive undergraduate research opportunities.
• UW engineering seniors consistently score above the national average on their first licensing exam.

• The International Engineering Program enables students to study and work abroad.
• The Energy Systems Engineering program trains future engineers to address the country’s foremost challenges: to achieve energy independence and meet the growing demand for energy, while at the same time addressing critical environmental concerns.

College of Health Sciences

Our challenging programs lead to careers in pharmacy, nursing, social work, kinesiology and health promotion, physical education teaching, communication disorders (speech-language pathology and audiology) and dental hygiene. You’ll receive a superior education, precise and personal advising and the valuable experience of practicum and internships. Our Preprofessional Health Advising Office assists all UW students wishing to attend professional schools in dentistry, medicine, occupational therapy, optometry, physical therapy, physician’s assistant study and other health care professions.

• Speech-language pathologists enjoy 100 percent job placement in medical and educational settings.
• The nursing program uses active and team-based learning in one of the country’s most high-tech simulation centers, equipping our graduates with the tools for clinical judgment necessary for safe patient care.
• School of Pharmacy faculty and students provide direct care to patients 20,000 times per year.
• Our dental hygiene program offers a variety of degree options, including a bachelor’s degree.
• More than half of all kinesiology and health graduates continue on for graduate placement in a physical and occupational therapy program, medical, physician assistant, chiropractic, dentistry and optometry school each year.

Visit uwyo.edu/hs

Danielle Grifford (‘11 Nursing)

In 2011, Grifford joined the UW nursing brigade providing necessary medical assistance to residents of Agua Salada, Honduras. Upon graduation, Grifford received the UW School of Nursing Spirit Award for the student with exceptional spirit and enthusiasm. Grifford is employed as a registered nurse in Banner Health Community Hospital in Torrington, Wyoming.

To learn more about the Shoulder to Shoulder programs, visit uwyo.edu/uwyo/2011/12-3/crossing-borders.html.
Natural resource challenges – ranging from local freshwater supply to global energy generation, from sustainable food production to wildlife habitat conservation and much more – promise to intensify in the coming decades. Prepare to become a leader in addressing complex environmental issues with a degree from the Haub School of Environment and Natural Resources.

Haub School students are part of a unique community. They bring expertise from concurrent majors offered through UW’s various colleges to the ENR classroom and apply critical, interdisciplinary thinking to solve real-world problems. Haub School students interact with classmates from fields as diverse as policy, science, cultural studies, sociology, economics, art and business to dig into environmental questions. In addition, opportunities to study and work abroad, learn in the field and complete a professional internship mean ENR better prepares you for a meaningful professional career.

Visit uwyo.edu/enr

ENVIRONMENT PROGRAMS
HAUB SCHOOL OF ENVIRONMENT AND NATURAL RESOURCES (ENR)

The School of Energy Resources is addressing the complex energy needs of our future. Seeking to advance energy-related science, technology and economics through world-class research, SER is preparing students to work in fields integral to our nation’s energy economy. SER students earn a bachelor’s degree in energy resource management and development—an interdisciplinary program that combines engineering, science, business, law and natural resources studies. This challenging, rigorous and rewarding program develops real-world entrepreneurial problem solvers and innovative project managers. Collaborative skills will be enhanced through internships at leading companies, positioning graduates for project management careers throughout the energy industry.

Visit uwyo.edu/ser

ENERGY PROGRAMS
SCHOOL OF ENERGY RESOURCES (SER)

An excellent faculty of full-time professors and lecturers instruct about 225 carefully selected graduate students. The limited size of the student body and favorable student-faculty ratio creates an atmosphere of friendliness and informality. Small classes, personalized instruction, opportunities for hands-on experience and a diverse curriculum are strong traditions. Our alumni include not only leading private practitioners, but federal judges, business executives, former governors, state and federal legislators and a former United States Ambassador.

• The UW Law program has been an American Bar Association (ABA) approved law school since 1923.
• The Career Services Office provides planning, placement and counseling services for students, alumni and employers seeking to recruit UW students.
• Four legal clinics, three practicums, a rural law center and diverse internships and externship opportunities give UW Law students ample opportunity to practically apply their legal skills.

Visit uwyo.edu/law

GRADUATE COLLEGE OF LAW

The Outreach School is dedicated to reaching students who may not be able to travel to Laramie to continue their education. More than 35 degree and certificate/endorsement programs, including nine bachelor’s degree programs, are available to students through an extensive network of learning technologies, including online classes, video conferencing and audio teleconferencing. Eleven Outreach Regional Centers are located throughout Wyoming, with academic coordinators and support staff to help students complete their education. In addition, students seeking a small campus experience centrally located in Casper can attend the University of Wyoming/Casper College Center. Students who have completed their associate’s degree through a Wyoming community college will find it easy to transfer credits to the University of Wyoming and complete their bachelor’s degree without moving to Laramie. Visit the Outreach website to find out which degrees we offer near you.

Implementation of the Higher Education Act and current state authorization regulations has affected the admission of out-of-state students in UW’s distance education programs. At this time students from: Arkansas, Iowa, Kansas, Massachusetts and Minnesota will not be admitted into UW distance education programs. This policy is to comply with regulations in these states.

Visit uwyo.edu/outreach

DISTANCE LEARNING
OUTREACH SCHOOL
HONORS PROGRAM

Honors offers you exciting challenges and engaging opportunities. Small innovative classes discuss new ideas and great books, explore topics like HIV/AIDS, nanotechnology, race and racism and the music and culture of Bali. These are some of the multitude of opportunities for you to excel and embark on intellectual and international travel with other students who want the best from their college education.

Through Honors, you can grow intellectually, learn with other top students, prepare for solid jobs and graduate school or develop your hidden talents and abilities. Benefits of the Honors Program include:

• Priority course registration. Register for the classes you want when you want them.
• Exclusive scholarships. More than $300,000 of scholarships are offered annually to students.
• An Honors House where you can live and work with other Honors students.
• The option of honors floors in residence halls. Live and learn with your peers.
• Study abroad experiences including honors classes taking you to Japan, Ecuador, England and Italy.
• A full schedule of social and cultural activities such as visits to the Denver Art Museum or combine talents to build a homecoming float.

Freshman Honors program applicants need one of the following: a composite ACT score of 28, a combined math and critical reading SAT score of 1240, or an unweighted high school GPA of 3.7. Visit uwyo.edu/honors.

INTERNATIONAL PROGRAMS

Make foreign study an integral part of your degree program, regardless of your major or your second language skills. Spend a full academic year, a semester or a summer abroad earning UW credits. Students may use their financial aid and additional scholarships to finance their education abroad.

• Participate in a direct exchange through one of our foreign partner universities.
• Study abroad through a nationally ranked, UW-sanctioned program provider.
• Enroll in a program led by a UW faculty member.

UW partners with more than 400 exchange sites or study abroad programs, allowing students to go almost anywhere in the world and study in English or in a foreign language. UW’s International Programs Office can tailor your academic interest in studying abroad around your personal experience, major, skills or needs. Visit uwyo.edu/intprograms.
WELCOME TO YOUR UW HOME!

On-campus living and dining is an important part of your education, growth and college experience. The residence halls provide an environment that supports personal and academic success. Living on campus is also about convenience and affordability. Classes are within a 10-minute walk or a UW Roundup bus ride.

YOUR EXPERIENCE AWAITS

14 UW’S LIVING ROOM

The Wyoming Union, also known as the living room of campus, provides services and programs for students outside the classroom. It is a place to relax, eat, socialize with friends, participate in activities, shop and much more! The Union is the hub of more than 200 Recognized Student Organizations (RSOs), Student Activities Council and Concerts & Convocations events, Friday Night Fever and more. Connect at one of the Union’s many resource centers: Multicultural Resource Center, Rainbow Resource Center or the Women’s Center. Or enjoy a wide array of food and snacks with friends from Panda Express, Snowy Range Creamery, Spokes Pizza, Pita Pit, Rolling Mill, The Gardens and CJ’s. The Wyoming Union is also your source for campus event tickets and the place to purchase textbooks or the latest brown and gold attire at the UW Bookstore. Visit uwyo.edu/union.

Early application is essential for all housing facilities, especially if you intend to room with a friend or live in a specialty community. Single-occupancy rooms are available for graduate and undergraduate students of sophomore standing or above. First-year students are required to live in the residence halls during their initial two semesters. Exceptions exist for students with special circumstances. Visit uwyo.edu/reslife-dining.

RESIDENCE LIFE & DINING AMENITIES

- Residential Freshman Interest Groups (FIG) uwyo.edu/figs are specialty floors comprised of students sharing similar academic or social interests.
- Free tutoring is available at the Student Learning Center.
- Enjoy quiet study spaces within each building to focus your academic preparation.
- Computer assistance is close at hand in the Washake Center computer lab.
- All rooms are furnished and include cable television, internet connections, 24-hour keyed entry and extensive security.
- The nationally recognized Washake Dining Center is centrally located between the residence halls — a wide variety of delicious and nutritious cuisine is only a few steps away.

Active Bodies for Engaged Minds

Stay in shape with a full range of sports and fitness offerings. Full-time students enjoy free use of Half Acre Gym and the Corbett P.E. Building. These facilities feature an indoor climbing wall, jogging track, swimming pools, fitness classes, weight machines, cardio equipment and indoor courts for basketball, handball, racquetball and volleyball. Other athletic facilities on campus include softball and soccer fields, indoor and outdoor tennis courts and an 18-hole golf course. Visit uwyo.edu/rec.
SUPPORT FOR YOUR JOURNEY

As a student, you will encounter success, obstacles, challenges and victories. UW staff will be right there with you during your journey toward your degree. We regularly extend a helping hand to students to ensure success. All the support you need to be successful is available, no matter your particular circumstance, academic background, disability or situation. Visit uwyo.edu/studentaff.

The University of Wyoming is committed to providing access and support to technology in all areas of campus. The majority of campus buildings offer wireless connectivity and staffed computer labs with a high-speed data network. Adaptive technology is available to ensure accessibility for students with disabilities. Students having problems with their personal computers or mobile devices can obtain assistance at the IT Service center. Visit uwyo.edu/infotech/services.

COMPUTER TECHNOLOGY

BREAK OUT AND ENCOUNTER CLUBS AND ORGANIZATIONS

Establishing connections, making lifelong friendships, learning a new sport and expressing your political, spiritual or personal beliefs all enrich your life as a student. With UW’s 200+ Recognized Student Organizations (RSOs), you can tailor your involvement to any area of interest. Every action you take during your time at UW will help you define your character. Visit uwyo.edu/cac.

UW students regularly step out into their communities, the country and the world to volunteer and make a difference in people’s lives. Service is the true measure of a leader. Everyday, UW students are serving in a multitude of capacities all while honing their leadership skills. Nurture your leadership talents through SLCE, a program promoting Service, Leadership and Community Engagement. Visit uwyo.edu/slice.

IN AND AROUND LARAMIE

Nestled between two mountain ranges in southeastern Wyoming, Laramie is a town of 30,000, with a unique blend of western hospitality and sophistication. Browse through historic downtown, dine in one of our fine restaurants, relax in a coffeehouse or check out a museum or gallery. Summers offer the excitement of Laramie Jubilee Days and the Snowy Range Music Festival. The nearby Medicine Bow National Forest and Rocky Mountains provide quick access to hiking, fishing, hunting or camping. Within 20 minutes, you can take on a challenging mountain bike ride, Nordic ski trail or scale the massive granite monoliths of the Vedauwoo formation. Dive into great Rocky Mountain powder on the slopes of the Snowy Range Ski Area. Denver, a two hour drive and offers shopping, concerts, theatre, professional sporting events and international flight connections. Visit laramie.org and visitlaramie.org.

UW students can receive up to 16 hours of UW credit for courses offered through the National Outdoor Leadership School (NOLS), the leader in wilderness education! For more information, visit nols.edu.

SERVICE, LEADERSHIP AND COMMUNITY ENGAGEMENT

UW students regularly step out into their communities, the country and the world to volunteer and make a difference in people’s lives. Service is the true measure of a leader. Everyday, UW students are serving in a multitude of capacities all while honing their leadership skills. Nurture your leadership talents through SLCE, a program promoting Service, Leadership and Community Engagement. Visit uwyo.edu/slice.

REACH THE PEAK

Take advantage of UW’s unique setting and add to your adventure! Enjoy a myriad of outdoor sports: skiing, hiking, fishing, rock climbing, rafting and mountain biking, all within easy access from the university. Your exploration plans must include UW’s Outdoor Program, featuring informative clinics, exciting outings and affordable equipment rentals. Visit uwyo.edu/op.

UW students can receive up to 16 hours of UW credit for courses offered through the National Outdoor Leadership School (NOLS), the leader in wilderness education! For more information, visit nols.edu.

“I LIKE GOING TO THE SNOWIES TO RUN OR SKI AND EAT PIZZA IN CENTENNIAL. I’M A MUCH BETTER FLY FISHERMAN THAN I AM A WRITER.”

- Callan Wink
MFA in Creative Writing student
Experience the passion of NCAA Division I-A college sports and take part in the tradition and pride of Wyoming Athletics. Cheer on the Cowboys and Cowgirls as they compete against regional rivals or national powers in the Mountain West Conference. Students are the backbone of Wyoming’s home advantage and receive exclusive seating benefits by taking part in The Stampede.

Visit wyomingathletics.com
Scholarship opportunities available!
uwyo.edu/scholarships

Explore an array of competitive scholarships for qualifying resident and nonresident students, including merit and need-based awards. UW also awards scholarships based on talent, ability and student achievement. Many scholarships have specific deadlines, application or audition requirements.

All scholarships and financial aid are subject to available funding and current university and trustee policies.

WYOMING RESIDENT FRESHMAN SCHOLARSHIPS

HATHAWAY SCHOLARSHIP
The Hathaway Scholarship Program provides merit and need-based awards for qualifying students, determined by a combination of GPA*, test scores and completion of high school curriculum requirements. The merit portion of the scholarship offers three levels of support at UW:

* GPA calculated on a 4.0 unweighted scale.

- **HONORS**: $3,200 per year
  - Minimum GPA of 3.50 and ACT of 25
- **PERFORMANCE**: $2,400 per year
  - Minimum GPA of 3.00 and ACT of 21
- **OPPORTUNITY**: $1,600 per year
  - Minimum GPA of 2.50 and ACT of 19

Students must complete certain high school courses to be considered for Hathaway Scholarships and maintain specific satisfactory academic progress standards while attending UW to continue to receive their scholarship. Students should carefully review all Hathaway details at uwyo.edu/hathaway and visit with their counselor. Hathaway awards are valid for eight semesters (four years).

Homeschooled Wyoming residents and recipients of Wyoming GED credentials are also eligible for the Hathaway Scholarship. Complete eligibility details may be found at the website above.

TRUSTEES’ SCHOLARS AWARD
UW will recognize 75 top admitted new resident freshmen to receive the Trustees’ Scholars Award. *This award, when combined with the Hathaway Honors award, provides the equivalent cost of tuition and mandatory fees (18 credit hours per semester, excluding summer sessions), double occupancy room and an unlimited access dining plan. Recipients will be chosen based on their high school GPA, test scores, and academic rigor. Consideration for the Trustees’ Award is given to those who have submitted a complete admissions application (application, $40 application fee, official transcripts, and ACT/SAT test scores) which must be received by the UW Admissions Office on or before December 1. Awardees will be notified on or around February 1. *Continued eligibility for the Wyoming and Trustees’ Scholars Awards requires a minimum 3.0 cumulative UW GPA and Full-time enrollment (12 or more credit hours) per semester. Both scholarships are available for a maximum of eight semesters (fall and spring semesters only).

WYOMING SCHOLARS AWARD
Provides $1,000 per year to students with a 3.5 cumulative high school GPA (4.0 unweighted scale) and a 25 composite ACT. *This amount is in addition to any Hathaway Honors Scholarship award received. To ensure Wyoming Scholars Award consideration, please submit all of your admission application materials and be admitted by May 1.

2012-13 UNDERGRADUATE YEARLY COSTS*
WESTERN UNDERGRADUATE EXCHANGE (WUE)

UW will recognize a select group of new non-resident freshman from 15 western states for their academic excellence (high school GPA, test scores, and academic rigor) through awarding of the Western Undergraduate Exchange (WUE) scholarship. WUE recipients will pay tuition at 150 percent of the resident tuition rate.

For WUE Scholarship consideration, students must be residents of a WUE participating state and have a completed admissions application (application, $40 application fee, official transcripts, and ACT/SAT scores) which must be received by the UW Admissions Office on or before December 1. Awardees will be notified on or around February 1. Awards are competitive and limited. A list of qualifying WUE states is available at uwyo.edu/scholarships. *WUE award value fluctuates yearly based on UW tuition rates and recipient enrolled credit hours. The WUE program cannot be combined with the Rocky Mountain Scholars Award.

*Continued eligibility for the Rocky Mountain Scholars Award and WUE requires a 3.0 or greater cumulative UW GPA and successful completion of 12 or more credit hours per semester on the Laramie campus (online courses are not considered part of the 12 credit hour requirement). Each scholarship is available for a maximum of eight semesters (fall and spring semesters only).

NON-RESIDENT FRESHMAN SCHOLARSHIPS

ROCKY MOUNTAIN SCHOLARS AWARD

The Rocky Mountain Scholars Award provides one of five amounts annually for non-resident students based on their cumulative high school GPA (4.0 unweighted scale) and composite ACT/SAT score (see grid). * Rocky Mountain Scholars Awards are limited and subject to available funding. Homeschooled students are also eligible for the Rocky Mountain Scholars Award. Consult uwyo.edu/scholarships for further details. To ensure Rocky Mountain Scholars Award consideration, please submit all of your admission application materials and be admitted by May 1.

To ensure Rocky Mountain Scholars Award consideration, please submit all of your admission application materials and be admitted by May 1.

ADDITIONAL SCHOLARSHIP AND AID OPPORTUNITIES

MERIT AND TALENT SCHOLARSHIPS

UW’s academic programs, departments, athletics and activities offer merit and talent scholarships to first-year students. Students should pursue scholarships through the college containing their chosen major, program, sport or area of interest. All of these scholarships require a separate application, audition or performance. Visit uwyo.edu/scholarships.

ALUMNI ASSOCIATION SCHOLARSHIPS

A variety of scholarships are available through the UW Alumni Association for children of UW alumni. Alumni Association scholarships require a separate application. Visit wyoalumni.com.

CHILDS OF UW ALUMNI TUITION

Children of UW graduates are eligible to receive non-resident tuition equal to 150 percent of that paid by residents. This program cannot be combined with the Rocky Mountain Scholars Award or WUE program. Eligible students are encouraged to also pursue merit, talent, and UW Alumni Association scholarships. Visit uwyo.edu/admissions/alumnifreshman.

NON-RESIDENT FRESHMAN SCHOLARSHIPS

ROCKY MOUNTAIN SCHOLARS AWARD

The Rocky Mountain Scholars Award provides one of five amounts annually for non-resident students based on their cumulative high school GPA (4.0 unweighted scale) and composite ACT/SAT score (see grid). * Rocky Mountain Scholars Awards are limited and subject to available funding. Start your UW journey now!

Spend time with us and discover how energizing UW’s Cowboy pride can be! We are excited to arrange a personalized visit any weekday. Take a guided tour with a UW student, get to know our faculty in your area of interest, speak one-on-one with an Admissions representative and enjoy a campus lunch on us!

Prefer to visit campus on a Saturday? Take advantage of a UW Saturday visit program including Discovery Days (Nov. 17, Feb. 16, April 6), Campus Pass (Sept. 15) or Showcase Saturday. Experience campus along with other prospective students and their families as you participate in facility tours, a resource fair and lunch, plus informational sessions on academics, admissions, financial aid, scholarships and residence life.

Sign up online today! Register at uwyo.edu/visit or call (307) 766-4075.
25

The University of Wyoming is an exceptional place. We welcome all students to apply and will consider each student based on their individual academic achievement. Apply today online at uwyo.edu/apply. Be sure and submit your one-time nonrefundable $40 application fee, official high school transcripts sent directly from your school and official ACT or SAT test scores for admission consideration.

ADMISSIONS REQUIREMENTS

If you’re a high school senior or graduate and new first-year student, or have fewer than 30 transferable semester college credit hours, you’ll need:

• A cumulative, unweighted high school GPA of 3.0.
• A minimum composite ACT score of 21 or SAT score of 980 (math/ critical reading combined).
• Completion of the success curriculum while attending high school.

UW welcomes qualified homeschooled students and students with GED credentials. Please contact the Admissions Office for details on admission requirements.

ADMISSION WITH SUPPORT

Admission with support is available to you if you are a high school senior or graduate and satisfy the following:

• Submitted official ACT or SAT test scores
• A cumulative, unweighted high school GPA of:
  • 2.5 – 2.99.
  • 2.25-2.49 and a minimum composite ACT score of 20 or SAT score of 960 (math/critical reasoning combined).
• Completion of the success curriculum with no more than two deficiencies.

Both deficiencies cannot occur in the same curriculum category.

To foster academic success, students admitted with support participate in UW’s nationally recognized Synergy program or other academic transition programs. Visit uwyo.edu/synergy for additional details.

We also realize there may be special cases or unusual circumstances.

Therefore, you may be considered for admission by exception. If you have

ADMISSIONS REQUIREMENTS

HIGH SCHOOL SUCCESS CURRICULUM

(One unit = One year):

4 years English
4 years Math* To include a college preparatory Algebra I, Algebra II, and geometry sequence.
4 years Science
One year must be from the physical sciences: physics, chemistry, or a college preparatory physics/chemistry course. Remaining years may be a combination of biological, life, physical, or earth/space science courses.
