Optional Facility Tour Information

Selected areas and programs on campus will open their facilities for optional tours. Interested students must sign up for one of the tours during event check-in from 10-10:45am. Tour sizes are limited and sign-up is first-come, first-serve during check-in.

1:40pm – 3:15pm

Wyoming State Veterinary Lab

This tour takes place at an off-campus location and attendees must provide their own transportation.

The mission of the Department of Veterinary Sciences is to help ensure that livestock, wildlife, and companion animals in Wyoming and the region are healthy through a combination of teaching, professional service, extension, and research activities. The department operates the Wyoming State Veterinary Laboratory, a full-service diagnostic laboratory that has been accredited since 1989 by the American Association of Veterinary Laboratory Diagnosticians. The laboratory provides testing and research services to veterinarians, animal owners and wildlife managers throughout Wyoming and the region. **Tour is limited to 20 people.**

2:00pm – 3:00/3:15pm

Buchanan Center for Performing Arts

The Buchanan Center for the Performing Arts boasts some of the best-equipped and finest small theatres in the Rocky Mountain region, including a 375-seat proscenium theatre, a 140-seat experimental black box theatre, and a new, thrust-style theatre. It also contains two state-of-the-art dance studios, full support facilities for scenic and costume construction, and a fully equipped Acting-for-the-Camera Studio. Recent renovations have also included additional performance and design/tech teaching laboratories, as well as enhanced production support facilities. The Department of Music houses two state of the art performance spaces that include the stunning new 100 seat recital hall and 700+ seat concert hall. The Department of Music boasts three new vocal, instrumental and jazz rehearsal spaces as well as multiple recording spaces. Music students perform with numerous finely tuned Steinway grand pianos in each rehearsal and performance space. **Tour is limited to 20 people.**

Cheney International Center

The Cheney International Center is the hub of international activity at UW. It houses the Center for Global Studies and the Global Engagement Office which consists of the Education Abroad Office, the International Students and Scholars Office and the English Language Center. The Education Abroad Office provides more than \$315,000 in annually awarded scholarships to UW students for academic study, service, research or internships overseas. Students can choose from over 400 programs in 83 different countries. With the single largest study abroad scholarship endowment of any public college or university in the U.S., there are many options to make studying abroad more affordable. Additionally, the Education Abroad Office welcomes to Wyoming exchange students from over 40 partner institutions overseas. Check us out on social media #UWyoAbroad. **Tour is limited to 30 people.**

College of Agriculture Meat Laboratory

This plant is a 9,720 square foot facility which was built in 1986 using the best design and construction available for food processing facilities. This modern meat plant was designed for education, research and extension. The facility is equipped with a slaughter floor, carcass coolers, fabrication room, inedible coolers, further processing room, cooked product cooler, freezers, non-meat ingredient storage, dry goods storage, locker rooms, management office, inspector's office, and retail sales room. This facility produces products under state inspection, retail exemption and custom (not for sale). The facility is also occasionally utilized for food preparation and catering activities. One full-time manager and approximately eight part-time student workers staff this plant. Beef, sheep, hogs, and poultry are slaughtered and /or processed at this location. **Tour is limited to 25 people.**

College of Business

The UW College of Business offers an innovative approach to business education, where students learn from industry professionals and gain hands-on knowledge through experiential learning. Our students can choose from majors in Accounting, Economics, Finance, Management, and Marketing, and practice interdisciplinary skills through areas like entrepreneurship, sales, and decision science. Here in our college, students consult for real companies, trade over 2 million dollars, and receive research stipends to work one-on-one with professors during the summer. Our students also travel the country and world to meet industry leaders, participate in internships, and engage in global thinking. We hold AACSB accreditation, an honor held by less than 5% of business schools worldwide, and a standard that assures quality and promotes excellence. Come join us in making an impact.

Half Acre Recreation Center

The recently renovated and expanded Half Acre Recreation and Wellness Center is home to Campus Recreation, which includes Open Recreation, Club and Intramural Sports, the Wellness Center and the Outdoor Program. The UW campus community can take advantage of a vast selection of cardio and weight training equipment; an indoor track; climbing wall and bouldering area; an updated swimming pool area with a heated spa; 60+ group fitness classes each week; and indoor courts for racquetball, basketball, volleyball, Futsal, and badminton. Attend this tour to see this impressive state-of-the-art facility which supports a culture of health and wellness at UW.

Shell 3-D Visualization Center

The Energy Innovation Center's Shell 3-D Visualization Center (Viz Center) proudly houses the only four-walled, 3-D CAVE (Cave Automatic Virtual Environment) in Wyoming. The Viz Center combines high-resolution stereoscopic projections and 3-D computer graphics to create a virtual environment where researchers can analyze, interpret and share a wide variety of spatially related data. One of the laboratory's many capabilities is its ability to model oil, gas, and water movements and interactions in the subsurface environment, which will aid researchers and energy companies in deriving maximum value from their mineral resources. **Please note that this tour is limited to 15 people.**
