ADVISING CENTER SESSION INFORMATION

During your New Student Day, students, with their guests, will have the opportunity to meet the Advising Center staff of their respective college and learn more about the timeline for fall class registration. Here is a quick preview of what each college/school session will include:

College of Agriculture, Life Sciences & Natural Resources
Confirmed students will be pre-registered in a couple of courses. Details about the summer timeline will be discussed.

College of Arts & Sciences
Students who have confirmed their intent to enroll will be pre-registered for core required courses. Details about summer timeline will be discussed. All students will have a 1:1 summer appointment where they finalize their schedule and make any changes needed to accommodate test scores (AP/IB/ACT/SAT) or transfer credit. Detailed information about their major will be presented during the session.

College of Business
Those students who have confirmed their enrollment will be pre-registered for courses and then the College of Business will reach out in June to students from success@uwyo.edu email to set up the next appointment.

College of Education
Students who have confirmed their enrollment will be contacted prior to their New Student Day requesting information on any AP/IB/concurrent college course information. The College of Education will work with students during the event to aim to register for a minimum of 12 credits.
**College of Engineering & Physical Sciences**
Confirmed students will be pre-registered in a couple of courses with details shared about the summer advising timeline. A deep dive will be provided by the college faculty and staff.

**College of Health Sciences**
Confirmed Health Sciences students will be enrolled in key courses based upon information the college currently has. Students will be introduced to non-academic expectations of the college and be introduced to the advising process. The details of summer follow-up advising will be discussed.

**Haub School of Environment and Natural Resources**
Confirmed students will be pre-registered in a couple of courses. Details about the summer advising timeline will be discussed.

**School of Energy Resources**
Students who have confirmed their enrollment and have ACT/SAT scores or have taken the Math Placement exam will be registered for courses. If you have IB/AP/Dual or Concurrent credit, discuss this with your advisor during your college session.
