**[Accepted for Publication--but, Unfortunately Never Published]:**

**~Book chapter submitted and accepted by the editors**

“Sounding out a text with pictorial symbols: the 1789 Dublin edition of ‘A Curious Hieroglyphic Bible,’” for a book originally intended to be published in 2011, by the Irish Society for the Study of Children’s Literature, Dublin, Ireland (but the editors later decided that the submissions did not form a cohesive enough volume, so decided not to do the book after all)

**~Proposal for a book chapter submitted and accepted by the editors**

“A Social history of the Western ‘boy-girl’ heroines in dime novels of the *Deadwood Dick Library* series,” submitted Feb.21, 2007 for a Western anthology (but when I found out that another librarian published a very similar article that month and told the editors, they declined to give me the time to re-focus my research)

**~Article submitted and accepted by the editors**

“The Future of the past is in special collection libraries,” submitted June 1, 2004, to *Rethinking History: the Journal of Theory and Practice*, for a special themed issue on “The Future of the Past” (but neither of the British peer-reviewers reviewed my article in time for the issue’s London publication in 2005)

**~Essay submitted and accepted by the editors**

Accepted for publication in the spring 2000 issue of *Rare Books and Manuscripts Librarianship*, in response to an online call for essays on “What’s so special about special collections?” (but length issues with a new publisher caused some to be dropped, including mine)

## CLASSROOM TEACHING

### **Solo Instructor for a Repertoire of Semester-long University of Wyoming Courses, for three undergraduate or graduate credits:**

From 1996 through the Fall of 2016, I have kept the momentum going to offer twenty consecutive classes. The count stands at 295 students who registered and completed a book history course for U.W. academic credit. Also, 27 official auditors and 4 unofficial auditors have attended the classes. Thus, *the grand total is 326 instances of people who have spent a full semester learning about book history in the Toppan Library.* [I do need to note that it is not actually 326 individuals, since some book lovers--I don't quite know how many--have taken more than one of the courses.]

#### **~“Book History: Special Topics” course, History Dept., HIST 4077/5077**

[~2015, to The Wyoming Institute for Humanities Research, for one of the six available \$3,000 individual research grants. My request was for funding to travel to Italy for research. This is being mentioned here because of the extensive amount of time and effort involved (over the course of almost three months) corresponding back and forth with the required U.W. Professor “drovers” to create continuing improved drafts of my nine-page application. The title of my unsuccessful proposal was “*Exploring the importance of the humanities among the modern general public: An inquiry into the extent of continuing impact of a nineteenth-century scholarly work, John Ruskin’s “The Stones of Venice,” upon tourists in Venice.*”]
