**Chief of Staff**

- This Friday the Executives had a meeting to discuss new ways of being more efficient in the office and what they felt like teamwork meant to them and how they want it applied to the office. I have also been working on updated everyone's office hours so stay tune for those different times. Lastly the executives and myself will start tabling more this year in order to get more outreach if you could help that would be much appreciated it. If you have any concerns please let me know other than come downstairs to visit us!

**Director of Finance**

- During this past week I have been working on our next event called "Financial Wellness Savviness," which will be an event focused on teaching students about financial wellness. We will have finance professor, Suman Banerjee, come in and speak to students. We will also have pizza! Next week I will continue to work with the Financial Wellness Committee about the next events we will host.

**RSO Relations**

- This past week I've been going about business as usual, lots of accounting tasks and managing the RSO budget. Outside of the office, I've been making a true effort to get to know senators as well as freshman senators. Funding Board requests are slowing down so primarily I've been spending time with receipts, invoices, and credit card logs.

**Director of marketing**

- This week I worked on getting through to IT about the UWyo Guide Button, which hasn't happened yet. I'll keep annoying them. I also made a poster, sandwich board, and table tents for Richard's upcoming "Financial Wellness Savviness" event. I made a design for an ASUW business card with social media and other resources info on it. I also made a

save the date for the governor's dinner, which you all should receive soon. Lastly, I updated the website with all current information. This coming week, I will begin to work on the student help button with Tyler, begin researching an outlet to publish on all social media directly from, and take some of my office time to get pictures for Sources of Strength of UCC and the Wellness Center with the Mental Health wedge. Again, if anyone is worried about making their social media outreach points, this is an amazing way to do so and I can't do this all by myself.

### **Director of Governmental Affairs**

- Governors Dinner is December 6<sup>th</sup>, at 6 PM. I will get Authorized Absences for anyone who needs them.
- I have spent this week working on the Judicial Council Archives, organizing and prepping for digitizing.
- I have also identified what is precedent, and what is not. These will be kept in written form, but not digitized.

### **Director of Programs and Institutional Development**

- -I have the meeting on Friday to set goals so I will go from there tomorrow.
- -When I hear back from Ava then I will put together something hopefully for Guidebook, I am hoping to edit a document for the template for legislation, I'm just not sure that Guidebook is a good platform for this since you can't download it and edit it off of Guidebook.
- -I plan on doing more research for the NTSC, and I hope to meet with Macki if the legislation for Strategic Partners (fingers crossed) goes through.
- -I am hoping to hear back Amelia from UMC on what they actually benefit from through being programs of ASUW. With this information I hope to get started on a few new bylaw changes, but this will probably be pushed back a few weeks.
