ASUW President
Addendum A

Division of Student Affairs
5% Consolidated Student Services Fee

1. Establish an Equipment Replacement Budget for the Division of Student Affairs. This money will be used to address yearly equipment replacement needs for Campus Rec, Union, Dean of Students, University Counseling Center, Disability Support Services etc.

2. Student hourly wages – Last year the Division made the decision to increase the base hourly wage for student employees from $7.25 to $8.00 and then address the compression for the students who have worked for more than a year.

3. 2% increase for full-time benefited staff effective July, 2019 per University of Wyoming Administration and Board of Trustees

4. 2 New positions –
   a. Dean of Students – Sr. Program Coordinator for Student Conduct:

   UW has been operating with only one staff member in Student Conduct for many years, even as student enrollment reaches record highs. While there is some support for conduct within Residence Life, which is standard at schools with residence halls, there is far too little staffing in the department directly. Other comparable peer institutions have 4-5 staff members within Student Conduct.

   Adding this second position still places us far below national staffing rates but would be a vast improvement for UW in our responsiveness to student needs and educating campus about community values and the code of conduct.

   b. Disability Support Services – Program Coordinator for University Disability Support Services:

   DSS meets the wide variety of support needs for all students who qualify for UDSS. The level of enrollment for services continues to increase each year, with nearly 1,500 students qualifying for extended time during tests, many of which are facilitated by UDSS. Legal Counsel reviewed our student case load per coordinator and notified the Dean of Students that we are operating at a high risk level given the overload on each coordinator. This new position will allow for some current students and new students to be supported more thoroughly, therefore increases care and reducing risk.
