& BACKYARDS**
RURAL LIVING IN WYOMING
www.barnyardsandbackyards.com

The Workshop will feature
the following presentations:

Topic 1: Grazing Management for small acreages AND
the Why's, Why-not's and Wherefores of re-seeding
pastures

Topic 2: Livestock Care/Diseases to watch out for

Topic 3: Managing your acreage for Water Quality and
Wildlife

Topic 4: Controlling Insects and Weeds

Topic 5: Septic System Maintenance/Design/Permitting
for Crook County

Topic 6: Forest Management, Windbreaks & Living
Snow Fence Design, Forest Health, Fire mitigation and
Defensible Space.

Topic 7: Soil Properties

Topic 8: What you need to know about buying land in
Crook County

Field Trips planned include a visit to an existing
young windbreak and small acreage with timber
management (forest thinning and defensible space),
fish ponds and water conservation projects. Another
choice will be a HANDS-ON Septic System Tour,
with percolation tests and soil test pit
demonstrations.

The University of Wyoming and the United States Department of
Agriculture cooperate. The University is an equal
opportunity/affirmative action institution.
