Resources for the Classroom and Beyond

Cameron H. G. Wright
Dean of the College and Professor of Electrical and Computer Engineering
chgw@uwyo.edu

August 19, 2020

Abstract
The University of Wyoming, the College of Engineering and Applied Science, and the individual programs and departments of the College offer a vast array of resources for the classroom, teaching laboratory, tutoring and beyond. Here’s a quick sampling, with pointers to many. For your browsing pleasure, visit http://www.uwyo.edu/ceas/dean/resources or click the “Faculty Resources” link at the bottom (i.e., bottom right box) of the CEAS Dean’s Office website.
The Ellbogen Center for Teaching and Learning

- University-wide center, located in Coe Library
- Provides regular workshops and forums
- [http://www.uwyo.edu/ctl](http://www.uwyo.edu/ctl)
- Regularly updated: “New Faculty Programs and Resources”
- Some recent workshop topics:
  - Tenure, Promotion, and Reappointment
  - Inclusive Teaching
  - Teaching with Wikipedia
  - Trick or Treat for Active Learning Tips
  - ... and many more! See their website.

**Register for these events if you wish to attend.**

- Also: New Faculty Consultations, New Faculty Peer Mentoring Groups, Best Practices for Online Course Delivery, Additional Resources
- Affiliated ... the Writing Center, LeaRN, Instructional Design and Technology Support
Computing, Information Technology, Web Site Support

- UW Information Technology
  - UWYO domain, MS Outlook email, bringing you YourNameHere@uwyo.edu
  - University student computing labs (all across campus)
  - Home-based MS products for Work at Home
  - Administrative computing facilities (accounting, WyoWeb, etc.)
  - Some sales and repair
  - http://www.uwyo.edu/infotech
  - WyoWeb portal, WyoCourses course management system, WyoCloud data/financial

- ESIG Labs (historical name: Engineering Science Interactive Graphics)
  - College of Engineering and Applied Science “central” student computing
  - The 1st floor computing labs, portable projection and laptops
  - Excellent staff manager and students.
  - http://www.uwyo.edu/ceas/resources/computer-labs/index.html

- Department servers and staff
  - Department specific software, labs and classrooms, file serving, printing
Most Courses Should Have a Website

- At the very least, for posting syllabus, schedule, other admin info
  - Students immediately directed to “your site” via WyoCourses / WyoWeb
  - UW Academic Affairs wants syllabus on WyoCourses, visible to all UW students
  - ECTL provides support through their “Instructional Design and Technology Support” group
Access to Student Records / Other Information

- **WyoRecords / WyoWeb Access**
  - Web-based access for student and course records, communication.
  - A must-have for advising questions students will have, and for degree checks.
  - Be aware of how two CEAS organizations, the Advising Center and the Susan McCormack Center for Student Success, will work with your students and with you.

- Beware: Read your FERPA guidelines, obey “need to know” rules.

- Much more of this than we have time to cover; ask other Dept members or folks in the Advising Center about:
  - Degree Checks — Department and College assistance.

- **WyoCloud**: all financial information moved here. If you need to order parts/supplies for a course, you may need to deal with this.
Conclusions

There are many resources available to support your courses

• Take some time to learn about them
• Decide what resources will help you
• Take the time, if needed, to learn how to use the resources
• Don’t hesitate to ask for help or more information
