The MATHCOUNTS Competition Series is a great opportunity for students in grades 6-8 to build confidence, find relevance in math and improve problem solving skills. There are four levels of competition – chapter, chapter invitational, state, and national.

- Online practice competition training available October 2020
- Virtual competition environment at the chapter, chapter invitational, and state levels
- All-expenses paid trip to the 2021 MATHCOUNTS National Competition in Washington, DC, for top state qualifiers.
