

**CEAS Weekly Jobs/Internships/Career Events Bulletin; ending week of
Sept 29**

****Invest in Your Career****

JOB FAIR Notables:

- Over 711 UW students attended both job fairs on Sept 27 and College of Engineering and Applied Science students made up more than 485 of that number
- Many companies comments about the quality of students they talked with; the words “impressed” and “quality” came up often!
- **Thanks for attending! The spring *Engineering and Science* and *B.I.G. Job Fairs* are scheduled for Wed, February 21, 2018: different companies, different opportunities**

Upcoming Company Information Sessions

Northrop Grumman is inviting applicants for their College Day, 2017. If selected to attend this N.G. recruiting event, candidates can choose to go to Aurora or Colorado Springs, CO on Thursday, Oct 19. Northrop Grumman is a leading global security company providing innovative systems, products and solutions in autonomous systems, cyber, C4ISR, strike, and logistics and modernization to government and

commercial customers worldwide. Full-time (post-graduation) and Summer 2018 interns; all are welcome to submit a resume (Freshman through Seniors). Major or minors in Computer Science, Computer Engineering, Applied Math, Mathematics, Physics, Electrical Engineering, or Mechanical Engineering: Must have a 3.25 GPA or higher; Must be a U.S. Citizen; Must be willing to obtain a security clearance. **If interested in being selected to attend the NG College Day (with employee panel, interviews, site visit) please submit your resume by Oct. 9 to the following two email addresses from your college email server, to avoid the attachment being removed: Azalee.Rafii@ngc.com | Kyle.Rotte@ngc.com (two separate emails, one to each person with your attached document)**

National Energy Technology Laboratory (NETL) provides the opportunity to conduct hands-on energy research at NETL through educational programs administered by the Oak Ridge Institute for Science and Education (ORISE). NETL's Core Research and Development areas focus on five energy related issues: **Chemical Engineering, Decision Science and Analysis, Systems Engineering and Integration, Applied Materials Science and Engineering, and Environmental Subsurface Science.** To engage these five critical issues, ORISE offers three highly competitive programs designed for all academic levels – the Professional Internship Program (PIP) (for undergraduate or graduate students in good standing at a regionally accredited college/university, or a post-baccalaureate within one year of graduation), the Postgraduate Research Program (PGRP) (for graduates who received their master's degree within the last three years, or doctorate within the last five years.), and the Faculty Research Participation Program (FRP) (for full-time regular permanent faculty member at an accredited college/university with a research interest in NETL core R&D areas). Please visit <http://www.ornl.gov/netl> to learn more about the program and the application process. **To be considered for the NETL research program students need to apply online at <https://netl.ornl.gov>**

Handshake - Handshake - Handshake - Handshake - Handshake - Handshake - Handshake
