

Graduating Masters candidates in either Civil or Mechanical Engineering:

Answer Engineering (Aerospace) from Englewood, CO has job openings at the MS level

This company plans to come to the UW campus and conduct interviews on May 5; the deadline to apply through Handshake is April 27 so the company can select candidates for the May 5 interviews.

Minimum 3.6 GPA; U.S. Citizenship required

Answer Engineering is a consulting firm that provides aircraft development design and analysis services to numerous aviation companies across the world. They want people who got into engineering "for the love of engineering." Engineers with experience in machine design, aerodynamics, FEA and CAD modelling are highly encouraged to apply.
