

"Eagle Creek is a technology consulting company located in Minneapolis. We specialize in the latest digital customer engaging technologies supported by the industry's most compelling delivery model, U.S. Onshore. U.S. Onshore is the new alternative to offshore. In the last decade, our model has facilitated over 700 career opportunities for college graduates from institutions just like yours. Demand for our services is surging and we're hiring 200 recent or soon-to-be college graduates by the end of this summer. We're contacting you because your university is a bullseye for Eagle Creek. It's size, academic programs and student profile is identical to who we've recruited from over the last ten years. We've demonstrated this group can compete against anyone in the world and can successfully deliver the most complex projects in the industry. We know that all your graduates, not just the top end, have the potential to excel. As part of our program, we offer competitive salaries, paid training, healthcare benefits, and will assist in the cost of relocation".

At their website, <https://www.eaglecrk.com/company/career-opportunities> click on "*Recent Graduate Opportunities*"; apply to the position if interested.

Java/.NET Developer – Entry-Level Position Tracking Code 1729-506

"You have graduated or are about to graduate from college. You are looking for experience and a place to build your career. At Eagle Creek Software Services, we'll jumpstart your career with the most relevant technologies in the U.S. We will assist you with your relocation and give you paid training. After completing the training, you will be part of a team working on the most advanced projects in the industry. All this is happening at our market leading, U.S. facilities located outside of Fargo, North Dakota.
