

Graduating Seniors in Civil Engineering (May/Aug 2017 graduates)

At the WY Engineering Society conference last week (Feb 2-3, 2017), I talked with James Gores who owns James Gores & Associates. He is interested in obtaining resumes from upcoming BS graduates who are interested in potential employment with his company in Riverton, WY. He isn't positive of upcoming construction projects the company will have but, he would like to have resume on hand from graduating seniors interested in his company and the Riverton, WY location.

The company website is www.Goresengineers.com. If interested, email Mr. Gores a resume and express your interest in being considered for a position with James Gores & Associates, in the email. Feel free to reference my name (Ann Jones) and that I am the source of information as to why you are contacting him. His email address is gores@wyoming.com. He would like resume over the next couple of weeks so submit them by March 1. A secondary email is mail@goresengineers.com.
