

**InMotion** is bringing their company to Laramie, WY.

This company started as an Indie Game Development Studio back in July 2008 when the Apple App Store launched. They built 23+ gaming & casual lifestyle apps from 2008 - 2013. About half reached Apple's Top 100 "Top Paid" status including a #1 worldwide hit and a #7 worldwide hit. That notoriety led to introductions and partnerships with companies like Sony PlayStation, Nickelodeon and Microsoft.

Since 2014 the company has evolved into a "next-generation" software consulting firm blending their 25+ years large enterprise expertise with their 8+ years Mobile expertise to help customers win as they've won in the areas of driving revenue, improving operational efficiencies and enhancing customer experiences via web and mobile.

Today InMotion Software combines strategic leadership, design thinking and industry-leading engineering into a single, powerful partner for any American company with an idea, a pain point and/or looking to improve digitally. Digitally meaning web, mobile, gaming, wearables, virtual reality, augmented reality. InMotion Software is in the business of helping customers move from ideas to outcomes and as a result they are one America's fastest growing companies.

InMotion Software aims to bring software jobs back to America and provide software-oriented jobs to the great State of Wyoming.
