

Trihydro is looking for **Civil Engineers** at **Laramie, WY & New Braunfels, TX US**.

Job Title: Civil Engineer (entry)

Job Type: Full-time

Location: Laramie, WY & New Braunfels, TX US

Category: Engineering

Minimum Education Required: Bachelor's Degree

Career Level: Entry Level

Job Description:

New Braunfels, TX: Applicants must have a BS in Civil Engineering or similar. Preferred applicants will have 0-4 years of experience, an EIT, and aspirations to obtain a professional engineer (P.E.) certification. Duties will include civil engineering design, plans and specifications development, technical writing, CADD drafting, project management assistance, and design report production. Field duties will include site inspections and oversight. Experience with AutoCAD, Civil 3D, and ArcGIS is a plus. Applicants must have excellent technical writing skills, a clean driving record, and a demonstrated commitment to safe operations. This position will require field work and some travel. This is a full-time position with excellent benefits (including a 10% 401(k) match).

For Laramie: Applicants must have a BS in Civil Engineering or a related engineering field. Preferred applicants will have 0-4 years of experience. Applicants with a MS in Civil Engineering, an EIT, and aspirations to obtain a professional engineer (P.E.) certification are preferred. Additional duties will include supporting investigation, design, and construction management for infrastructure, transportation, water resources, environmental, and land reclamation projects. Duties will include technical writing, technical research, civil engineering design, CADD, site grading, and developing plans and specifications. Field duties will include site investigations, surveying, and construction observation and monitoring. This position will require field work and up to 50% travel. Experience with Autodesk, ArcGIS, or Carlson software is a plus. Applicants must have strong technical writing skills, a clean driving record, and a demonstrated commitment to safe operations.
