## CEAS Newsletter:

Still panicking about your job or internship opportunities this summer? Don't be! Handshake has numerous opportunities available at the click of a button. Go get exploring!

### Opportunities on Campus

#### **Outreach Ambassadors Scholarship**

The College of Engineering and Applied Science (CEAS) is offering a \$1000 scholarship award for the 2017-2018 academic year. If you enjoy engineering and want to share your passion with K-12 students across the state, this is an excellent opportunity. Email Teddi Hofman at [thofmann@uwyo.edu](mailto:thofmann@uwyo.edu) for more information.

#### **Monsanto Internship**

Luling, LA; Muscatine, IA; Soda Springs, ID

Summer Internship

##### **Minimum 3.0 GPA**

Monsanto is a leader in the development of agriculture technologies to produce plant products for a rapidly growing world. Despite the emphasis in plants, the company has a strong interest in engineers. If you are a diverse student with an ability to relocate during a three or six month job position, don't hesitate to check it out. More information is available on Monsanto's [website](#).

#### **CEDAR Lunch and Learns (two sessions, attend one or both!)**

Wednesday, April 19

11-12pm and 12-1pm

EN1062

Want to know about opportunities in one of the fastest growing job sectors, Cybersecurity? Join CEDAR and the CS department to learn what the National Security Agency and the Department of Homeland Security has to offer computer engineers in the field of cyber security.

#### **Answer Engineering (Aerospace) Job Interviews**

Englewood, CO

##### **Civil and Mechanical Engineering**

May 5 Interviews **(on the UW campus!!)**

### Minimum 3.6 GPA

Answer Engineering is coming to the UW campus to conduct interviews: this company is a consulting firm that provides aircraft development design and analysis services to numerous aviation companies across the world. They want people who got into engineering "for the love of engineering." Engineers with experience in machine design, aerodynamics, FEA and CAD modelling are highly encouraged to [apply](#). **Deadline to apply, through your Handshake account, is April 27 so the company can select candidates for the May 5 interviews!!**

### **Job and Internship Opportunities on Handshake**

*Please note: for the sake of brevity and attention span, the jobs listed below are only a few of the dozens found on Handshake. Log in and start searching! The link to **Handshake** can be found on the CEAS student resources/career services site:*

### **Hampton Lumber**

Willamina, Oregon

Internship

All engineering disciplines

**Deadline: April 20**

**Minimum GPA: 3.0**

Hampton Lumber, a sawmill operator and owner in Oregon, Washington and British Columbia, is looking for engineering interns! Hampton emphasizes environmental sustainability and community excellence in the lumber manufacturing business, and wants to find driven engineering students who feel the same! The position is designated as "electrical engineering" but is open to any engineering major with the following skills:

- High proficiency in the Microsoft Office Suite
- Physically capable and able to meet necessary job requirements
- Flexibility to work any shift.

Pay starts at \$16/hr. Interns will work from June - September and work alongside professional engineers, electricians and other mill professionals and eventually are designated a personal project to pursue. Apply now on [Handshake](#). **The position closes April 20.**

## Nebraska Dept. of Roads

Lincoln, NE

Full Time

Civil and Architectural engineering

**Deadline: April 21**

The Nebraska Department of Roads is in need of civil engineers who know the road. Or...what *makes* up a road, rather. Under close supervision of a PE, a candidate would assist in the design of roadway construction projects. If you have strong knowledge in construction, roadway design and project plans, this may be a job for you. Passing the FE is necessary, as well as experience in Projectwise and GEOPAK, among others. For complete information, apply on [Handshake](#).

## Cator, Ruma & Associates

Colorado, Idaho and Wyoming

Full time

Architectural Engineering

**Deadline: April 20**

Now's the change to start into architectural engineering *and* consulting! Cator, Ruma & Associates is looking to fill an entry-level engineering position for architectural engineers interested in electrical system design. Candidates would be designing electrical systems for a variety of facilities, interfacing with clients and assisting with oversight throughout construction. Knowledge of Revit and AutoCAD is a plus. This is an excellent opportunity for long-term professional growth and advancement. For more information, go to Handshake: [www.uwyo.edu/ceas/resources/student-services/jobs/index.html](http://www.uwyo.edu/ceas/resources/student-services/jobs/index.html)

## Simon Contractors

North Platte, NE

Internship

Civil or Mechanical Engineering

**Deadline: April 22**

If you're still looking for internships, they're alive and well! Simon Contractors wants a construction intern for the summer. Under direct supervision, you'd be assisting horizontal construction personnel in planning and building work. The position requires good communication skills, with previous construction experience. You must be willing to travel and communicate very well in team

environments. Again: internships are still out there! Apply through the UW student's Handshake system which can be found at [www.uwyo.edu/ceas/resources/student-services/jobs/index.html](http://www.uwyo.edu/ceas/resources/student-services/jobs/index.html)
