Upcoming Events

Career Fair Prep Week

February 13th - February 17th

12:00 - 1:00pm

COB 123

Prepare yourself to stand out and impress for the upcoming Science and Engineering Job Fair on February 22nd: go to Career Prep Week! Employers will be presenting "Lunch and Learn" throughout the week. Lunch is included. Speakers and events are included below.

Feb. 13th: **Resumes** presented by Fastenal

Feb. 14th: **Job Fair Preparation** presented by Target

Feb. 15th: **Internships and Evaluating Fit** presented by Mountain West Farm Bureau

Feb. 16th: **Interview Preparation** presented by Cintas

Feb. 17th: **Your Authentic Self: A Discussion on Culture in the Workplace** presented by T. Rowe Price

Presentations are for all audiences, regardless of major in college, and generally reflect most company processes when recruiting/interviewing/working with any candidates.

Learn the foundational skills that all job seekers need to be successful!

Science and Engineering Job Fair

February 22

1:00 - 5:00pm

Rochelle Gateway Center

Whether you're preparing for your career after college, or wanting to develop your networking skills or potential for an internship, the job fair can prove a critical step to success. Employers are listed on UWyo's Handshake website [here](#). Come prepared and make the most of this opportunity!

Etiquette Dinner

Wednesday, March 1

6:00 - 8:30pm

Reserve a seat no later than February 24 for the Etiquette Dinner! Learn the do's and don't of dining with potential clients or customers. Reserve your seat with a \$20 deposit, which will be returned upon your attending of the full dinner.

Tickets can be picked up at EN2081 during normal business hours. **Only one ticket per person, and student ID is required.**

CEAS is only holding 70 tickets for the college, so get yours while you can! Contact Ann Jones at aliones@uwyo.edu if you have any further questions.

Job and Intern Opportunities

On Handshake:

UWyo's Handshake site opens the door to many available job and internship opportunities. Below are listed just a few of the 200+ opportunities with deadlines approaching in the next 10 days:

February 10 DEADLINES:

DON Student Trainee – Navair

Interested in Department of Defense Work? Navair is offering a summer-long internship with the civilian branch of the Department of the Navy in Camarillo, California. The position is open to **Freshmen, sophomores and juniors only**. Looking for all engineering professions. Minimum GPA of 2.5 required. Resume and official transcript necessary for application.

Software Development and Electronic Engineering Positions – Futurex

San Antonio based provider of electronic and software security services. Looking for electric, computer engineering and science engineers for full-time positions in Bulverde, Texas. Experience in Python and C++, Linux is required for electrical engineers. CAD, circuits and processors, for computer science majors. Resume is required.

February 13:

Computer Science Engineering Positions -- Echostar

Numerous positions available with Echostar for engineering majors in computer science and engineering and electrical engineer. Masters' Degree is preferred, with strong experience in C++, Java, and Linux/Unix development. Resume required. 3.0 GPA.

February 14:

Structural, Mechanical, Electrical and Plumbing Engineers in Training – Triple C

Local architectural engineering firm located right here in Laramie, WY! Looking for a structural EIT to “generate all aspects of production and design.” Experience in Revit modelling, structural calculations are preferred. May be in undergrad or graduate level program. **Application requires resume, cover letter and project information that you have been a part in developing.**

February 15:

Java Software Developer – Click Bank

An online platform innovator located in Broomfield, Colorado. Looking for a junior developer who is expected to “be a sponge.” Click Bank is interested in candidates who are pragmatic problem solvers and can collaborate with others. Require a Bachelor’s degree in computer science, with some experience in Linux/Unix, MySQL and “microservice architecture,” among others.

February 18:

Entry level EE – Bureau of Reclamation

Numerous electrical engineering positions opening up with the Bureau of Reclamation, which is “best known for dams, power plants and the canals is constructed in 17 western states.” GPA not specified, resume required. Position performs laboratory and field tests in support of power systems in Lakewood, CO.

February 19:

Computer Science Internship – Echostar

Located in Englewood, Colorado, Echostar is looking for computer science and electrical engineering undergraduates for a summer intern position. **3.0 GPA required, 10-12 week program. Juniors and above only.** Must have experience in C++, Java, Android Apps and basic network communication

Other Job and Internship Opportunities

US Army Aviation and Missile Research Development and Engineering Center (AMDREC)

AMDREC is searching for Computer Science, Computer Engineering, and Electrical Engineers! Experience with Python, Matlab, ASp.njet, C++ and others is heavily encouraged. Positions focus on the modelling and simulation of missile defense, data science and big data analytics, among others. AMDREC is looking to fill positions in five states, including a location in Colorado Springs, CO. **AMDREC will be at the Science and Engineering Job Fair, so prepare now!**

NASA DEVELOP: Accepting Summer Applications NOW!

Space as we know it may be 1,200 miles away, but opportunities to work in space technology are even closer! NASA's DEVELOP team at ISU is recruiting now for the summer 2017 term. DEVELOP addresses environmental and public policy issues through interdisciplinary research projects that apply the lens of NASA Earth observations to community concerns around the globe. **Freshmen - seniors involved in the Earth Sciences and remote sensing are encouraged to apply. A minimum 3.0 GPA is required.** Apply online at <http://develop.larc.nasa.gov/apply.php>.

Applications are due February 17.
