Full-time Civil Engineering position; City of Laramie, Laramie, WY

Job Description:

Engineer in Training

Application Deadline: open until filled

First Review: August 1, 2016

Salary Range: $54,926.71-$82,390.06

The City of Laramie is accepting applications for an Engineer in Training. This position reports directly to the City Engineer and will provide professional engineering work in the review of plats, annexations, site plans, design reports and other development related documents. Also will provide technical engineering support involved in the planning, design, and construction of public improvement projects

Duties and Responsibilities:

1. Review engineering designs submitted by engineering consultants, hired by private developers constructing infrastructure projects in the City of Laramie including but not limited to subdivisions, site plans, drainage reports, and infrastructure improvement plans.

2. Ensure that water, sewer, streets, and storm drainage projects are designed and constructed in compliance with the City’s approved construction standards and other generally accepted professional standards.

3. Work with owners, engineers and contractors to make revisions necessary to achieve compliance.

4. Model the City’s water, sanitary sewer and storm sewer.

5. Monitor development construction within the City

Knowledge, Skills and Abilities:

1. Bachelor’s degree in civil engineering from an accredited college or any equivalent combination of education and experience.

2. Two years of civil engineering experience preferred.

4. Wyoming Engineer-in-Training (EIT)
