Leader Projects

Frustrated with leader projects showing with the member projects? A parameter can be changed so this no longer happens.

1. Click **Go to > Utilities > Parameters**.

2. Highlight the parameter **Use last digit "0" for member-leader projects**.

3. Click the **True** radio button under *Options*.

4. Exit the program.

When the program is reopened, the leader projects no longer display with the member projects.
