Call sheets are used by the judges to mark their results. Posting is then completed from the call sheets. This example shows one way to print call sheets for a division. This can be done in any number of ways to print the needed call sheets for a fair.

1. Click **Go to > Call Sheets/Back Tags > Print Judges Call Sheets**. See Figure 1.

Figure 1. Judges Call Sheets
2. Click each **tab** to display the available selections. The blue box to the right shows selections are made when a check is in front of the items. Items are not checked in this box.

3. The *County/State* tab defaults to **County Fair Items**. The *Classes/Counties* tab defaults to **Classes-traditional**. These do not need to be selected.

4. Start with the **Select Level** tab.

5. Highlight **division**.

6. In the list, highlight the **desired department** and **division**.

- Departments, divisions, and classes can be multi-selected. See the **Select Multiple Items** tip sheet for more information.

7. Click the **Add Classes** button.

8. Click the **Sort Method** tab. It defaults to **Normal** and **Ascending**. Make changes as needed. See Figure 2.

9. Click the **Includes** tab. See Figure 3 on page 3. Make the selections needed for the call sheets being printed.
Zero entry call sheets are classes with no entries. Be sure to print these so judges can write in late entries. Also, judges know when they have a zero entry call sheet that there are no exhibitors in the class and the sheet is not missing. See Figure 4 for an example.
10. Click the **Destination** tab.

11. Click **Printer**.

12. Click the **Process/Print** button. See Figure 5 and Figure 6 on page 5 for a sample call sheet.
