College of Health Sciences
UNIVERSITY OF WYOMING
SPEECH AND HEARING CLINIC
Audiology
Speech-Language Pathology
Serving Laramie and the surrounding communities for over 40 years
Open to the public and serving people of all ages with a variety of communication, cognitive, hearing and swallowing disorders.

HEARING
Audiology services include hearing screenings, diagnostic evaluations, hearing aid dispensing and evaluation, hearing aid repairs, aural rehabilitation, assistive listening devices, custom hearing protection, and vestibular assessment.

SPEECH-LANGUAGE
Evaluation and treatment of speech, language, memory, swallowing and voice disorders. These may include difficulty with speaking, understanding, and swallowing due to developmental delays, following a stroke, or as a result of other injuries such as a brain injury or diseases such as Parkinson’s and Alzheimer’s.
