Teaching and Learning Certification Program
Ellbogen Center for Teaching and Learning

To keep track of your points and to reflect on your experience in the certification program, please create a portfolio on WyoCourses. An ECTL instructional designer will review this with you each year until you have completed the program.

To access the e-portfolio go to your Wyocourse. Click on your photo or initials on the left to access your account. At the bottom of the drop down box there is a tab for e-portfolio. This will lead you through the process of setting it up. There will be a URL link. This is your private access. Please send that link to Janel when you are ready so she can access it. You may share this link with anyone you choose or you may keep it just between us.

Suggested headings might include:

1. Intro
   • Name, beginning date, title, and any other background information
2. Teaching philosophy
   • This is a great place to start as it can inform your decisions. This is a working document that may change as you work through the process.
3. Areas of focus or learning
4. Focused Specialty
   • You may want to add extra documentation or reflection on a specialty area
5. Final reflection
   • This can be a paper, storyboard, slide show, video, etc. of your final reflection on the over all process.

You earn points by reflecting on each activity you do. This is not a report but rather a reflection on what you found useful, or not, and how you may or may not sue would you learned. What stood out to you and any follow-up thoughts or questions. For example: For an hour-long workshop, this reflection should be a paragraph or two, no more than a page. For a book review, this may be 1-3 pages. Please enter your reflections as close to completing an activity as possible, so you don’t forget!
