Instructions for A&S 210

TO RAISE AND LOWER THE SCREEN USE THE POLE LOCATED IN THE NE CORNER OF THE ROOM

TO USE DESKTOP

- Turn on the Projector by pressing the STANDBY/ON button on the upper left corner of the remote.
- Set the PROJECTOR to RGB by pressing the RGB button in the upper right corner of the remote.
- The projector should now be showing the desktop.

TO USE DVD/VCR

- Turn on the DVD/VCR, if not already on.
- Set the PROJECTOR to VIDEO by pressing the VIDEO button in the top middle of the remote.
- Insert DVD/VHS and play.
- System should be showing video.

TO USE LAPTOP

- Set the PROJECTOR to RGB by pressing the RGB button in the upper right corner of the remote.
- Connect the VGA cable on top of the podium to the Laptop.
- For Audio - Connect the audio cable to the laptop.
- Your laptop should now be shown on the projector.

HOWTO: Setup your Laptop to output VGA.
- Locate your FN key, this is your Function Key.
- Locate your toggle output key, it is usually on one of your F1, F2, F3..etc keys. It likely will have the image of either a small screen overlapping another or of what looks like a monitor.
- While holding down the FN key, SLOWLY press the Toggle output Key.

If SOUND is not working:

- Make sure that the volume on the projector is set to a reasonable level.
- Double click on the SOUND icon on the lower right hand side of the screen (on the toolbar).
- On the Volume Control screen that appears uncheck all of the Mute boxes.
- Make sure all of the volume slides are at the top.
