

Postdoctoral Position in Microfluidic Separations

Department: Chemistry, University of Wyoming

Location: Laramie, Wyoming, USA

URL: <http://uwadmnweb.uwyo.edu/chemistry/>

Start Date: Immediately

Description: A Postdoctoral Research Associate position in chemistry is available at the University of Wyoming. The project involves designing novel microfluidic devices for enhancing the resolving power of electrophoretic and chromatographic methods. The candidate is expected to work independently and conduct research in a highly interdisciplinary environment. Applicants with experience in microfluidics and/or separations will be given preference. The successful candidate should have a Ph.D. in chemistry, chemical engineering or a related field. Research experiences in instrumentation, micro-fabrication and/or immunoassays are a plus. Application should consist of curriculum vitae with a brief summary of research experience and contact information for three references. Please send applications via email to ddutta@uwyo.edu. The position is available immediately for one year with the possibility of extension for subsequent years.

Other details: UW is an equal opportunity employer

Please submit: CV, names and e-mail addresses of 3 references

Person to contact: Prof. Debashis Dutta
