## Graduate Student Travel Funding Request

---

This form is to be used by graduate students requesting travel funds from the Department of Ecosystem Science and Management. The Department has a fund set aside for annual travel support for graduate students traveling to a conference at which they are presenting their work. The expectation is that students will attend a professional conference where they will deliver a poster or oral presentation related to their graduate research. This is non-competitive funding, but funds are contingent on budget realities and availability of funds. Students can apply for one \$300 request per fiscal year (July 1 – June 30).
