### FSL Feud

1. Each team will consist of 6 participants.
  - a. You may not have more than 4 participants from the same chapter on a team.
  - b. Each chapter on your team must be represented
  - c. Must have at least one Faculty and/or Staff member on each team
2. Family Feud will consist of 10 rounds. **During each round two categories will be played.**
3. No phones, computers, or other electronic devices will be allowed during the game.

4. Category answers are pre-determined from a survey sent out prior to FSL Feud taken by 100 members in the UWYO Community. Categories are randomly picked from a list of 30 potential categories.

### **Playing the Game -Set Up**

1. Object of game: Complete the categories by listing in no particular order the top answers from each category. The team will be rewarded the points they earn from each category. The team continue through the bracket and earning points. To determine first through fifth place (depending on how many total teams compete in Greek Week), the total number of points from every round the team played will place them.
2. Points will be rewarded based how the team places: points are outlined in the point section.
3. Each team playing in the round will be stationed at their own table with a table name to identify the team.
4. A copy of the answers to the categories will be given to the person running the computer.
5. A table with 2 buzzers will be placed in the center of the room.
6. 2 tables with 6 six chairs at each will be placed on either side of the middle for the two teams participating in the round.

### **How To Play - Part 1: One-on-One Challenge**

The game official will begin the game by introducing the teams. One person from each team will come up to the center table and take position.

1. The game official will begin the game by introducing the teams. One team member from each team will come to the center table and take position.
2. When at the front table, participants must stand against the table with their hands behind their back.
3. The game official will read off the first category and after the game official finishes reading the statement, the team that buzzes in first gets to answer. The team member must answer what he/she thinks is one of the top answers on the board.
  - a. If the team member guesses correctly, the Team Challenge begins with their team.
  - b. If the team member does not guess correctly, the other team member in the one-on-one challenge may guess.
    - i. If they guess correctly, their team begins the Team Challenge.
    - ii. If they guess incorrect, the first team has another guess and so on until one of the members guesses correct to move on to the Team Challenge.

**NOTE: If a team member touches the button or shouts out the answer before the game official is done reading the category, the host will stop reading the question and they**

must answer. If wrong, the host will continue reading the question and the other team will have the opportunity to answer.

Note: All teams must stay until the end in case of a tie. If teams leave early, they will be disqualified.

## Part 2: Team Challenge

1. Once the One-on-One Challenge is over, the team that guessed correctly will begin the team challenge. The game official will introduce the team.
2. The game official will then re state the category name, the answer and how many points are rewarded. The game official will then ask the team member furthest to their left to give the next answer.
3. If a team member guesses an answer correctly, the game official will re-read the answer and motion the computer person to put it up on the screen and read the answer with how many points it is worth. The game official will move down the line from their left to right.
4. Points for each answer will be pre-determined through the FSL Feud survey based on how many people out of 100 answered the category with that answer.
5. If at any time a team member guesses an answer that is incorrect, a team will be given a strike. There are three strikes per category.
6. If the team clears the board in the category, they will be awarded the total points (100) for that category.
7. If a team receives three strikes and does not clear the board, the category will be given to the other team.
8. The team will be given 15 seconds to discuss and answer. They will have one try to guess one of the answers from the category in the same round.
  - a. If they guess correct, they have stolen the points and will be given all of the points awarded in that category (up to 100).
  - b. If they guess incorrect, the other team gets the points.
    - i. Please note: Not all 100 points will be given to each team every round, only the points guessed in the categories.

## Part 3: Team Challenge

1. Round two follows round one exactly.
2. Once two categories are completed in each round, the rounds will continue on.
3. Games will continue in the same setup and follow the round until first through fifth winners are established.

## Kickball

### Field, Equipment, and Team

1. Teams will consist of 9 players each on defense with at least one playing pitcher and one playing catcher. Defensive positions generally follow the standard baseball/softball infield/outfield model for positioning of players. Gloves or fielding aids are not allowed. All chapters must be represented on the team. The teams must consist of at least 6 women in coed teams. If there are same council teams, the teams may be made up of members in the chapters to create a 16-person team.
2. Offensively, teams may have up to 16 players in the "kicking order". Any player in the "kicking order" may switch in and out defensively as long as they remain in the active "kicking order".
3. Only official size kick-balls will be used
4. The field will have three bases and a home plate in the traditional diamond shape, with each being 60' apart.

### Game Rules

1. Scoring will be baseball/softball style with three outs per inning of a five-inning game
2. The pitcher must roll the ball towards the "kicker" and must not bounce it in. If the kicker decides the offering is too bouncy or too far in/outside, they may choose to not attempt to kick the pitch
3. The kicker may only kick one foul ball without being ruled out. A second foul on the same at bat will result in an out being called
4. The kicker is out if:
  - a. The kicked ball is caught in the air
  - b. A fielder fields a ground ball and throws it and hits the kicker/runner before they reach the base or throws the ball to the base before the kicker/runner arrives (if it's a "force out" situation)
  - c. If a ball thrown at a runner misses the runner, all runners will advance one base only, no matter where the ball began or ends up.
5. No sliding is allowed
6. Base runners must not impede a fielder's opportunity to make a play. If they do, Runner Interference is called and all runners will return to the base in which they were at when the play started with the runner creating the interference ruled out. A player may not score on a play in which runner's interference is called
7. Double elimination tournament bracket. Teams will be drawn before the start of Kickball.

## Tug of War

7-person teams (4 Females and 3 Men per team)

If teams are only made of the same council, the team members will be as follows

- All men teams – 5 men per team

### Game Rules

1. Round robin tournament bracket. Teams will be drawn at random before the start of the tug-of-war tournament.
2. No chalk, tar, or other grip enhancing substance will be permitted. Players caught using anything that could provide an unfair advantage will be subject to point deductions, and or elimination from the tournament with no participation points.
3. After both teams are "set," the designated official will indicate the start and end of the match with a whistle.
4. The middle of the rope will be indicated with a line on the ground.
5. The first team to cross the line in the middle will be declared the winner
6. Early pulling is not permitted. Once the designated office signals the start of the match, you may begin pulling. The match will only end if the designated official, or member of the Greek Week Leadership Team, indicates that it is over.

### Relay Race

Relay races will consist of 4 segments. Each segment must use different members of the team. In all, 9 team members will be needed for this activity. Each chapter must be represented. In co-ed teams there must be at least three women throughout the segments.

#### **Segment 1: Egg Carry (2 people)**

- At the start line, each racer will begin with an egg on a spoon. The spoon must remain in the mouth of the racer at all times and cannot be assisted with hands or other objects.
- The racer will advance to the next racer where they will have to transfer the egg, without hands, to the next racer who will carry the egg on the spoon to the segment's finish.
- If an egg is dropped, the racer must go back to their original starting location to restart.

#### **Segment 2: Grapefruit Roll (1 person)**

Once the egg racer has successfully crossed the finish line, the grapefruit roll segment may begin.

- The racer will have a nylon with a grapefruit in it and the nylon should be wrapped around the racer's forehead. Only using the grapefruit in the nylon (not feet, hands, or other items), the racer is to push a whiffle ball to the finish line, again, without any additional assistance.

#### **Segment 3: Balloon Race (2 people)**

Once the whiffle ball has crossed the finish line, the next team of racers can continue.

- Two racers may use their hands to position themselves and their balloon before they cross the start line. Once the start line is crossed, no hands may be used to secure the balloon.
- The objective is for both racers to cross the finish line with the balloon intact and not having hit the ground. Upon crossing the finish line, the team must work to pop the balloon together. Segment 4 racers may not commence until the balloon has been popped.

#### **Segment 4: Trashcan Tennis (4 people)**

Teams will be supplied a ping pong ball and 4 pieces of cardboard (one piece for each racer). While keeping the ball constantly in motion, the team of 4 has to advance the ball down the

path and hit it into the bucket at the finish line. If the ball hits the ground, the team must restart back to the beginning of the segment line.
