

## Making College Count: University of Wyoming First-Year Student Guidebook Three Ways to Access the booklet:

- 1) Order the guide as a course packet for your students to purchase through the University Bookstore (only \$4 per booklet)
- 2) Ask students to access web content for class discussion, presentations on transition skills, etc. <https://www.uwyo.edu/fye/making-college-count/index.html>
- 3) Access the guide through WyoCourses modules that contain assignments (which can be downloaded into your existing course shell):

In WyoCourses, click on “Commons” in the left navigation bar.

Search for Making College Count  
Once you find it, it will look like this:

**Then you should click on the Blue Title to open it. It will look like this:**

The screenshot shows the WyoCourses Commons interface. The top navigation bar includes 'Commons', 'Search', 'Shared', 'Imported', 'Updates (2)', and 'Favorites'. Below this, there are options for 'Edit Resource' and 'Remove from Commons'. A search bar contains 'Making College Count'. The main content area shows the course details, including a list of modules (8), assignments (16), pages (58), quizzes (9), and files (88). A blue arrow points to the 'Import/Download' button, which is highlighted in blue. Below this button, there are options for 'Add to Favorites' and 'Copy Resource Link'.

**Click on the blue Import/Download button. You can then select your course(s), and push the “Import to Course Button.**

**You will get the message: You have successfully started the import ...**

**You have successfully started the import! It may take a little while to see changes in your course.**

**From there you can decide to use parts of the booklet only by deleting other parts, or you can use the entire thing. The edits from now on will be within your course shells.**
