

U of Wyoming Hunt: Instagram Scavenger Hunt

Notes to Instructor:

- Have all students tag as follows #UofWyomingHunt.
- Assign teams a number and be sure each photo includes an image of that number somehow to make it easier to tally up points.
- Choose to do this assignment either during class time (as created) or to complete outside of class (amend the stated rules accordingly).
- Feel free to revise the suggested locations and points to accommodate your particular FYE course.
- Not every student has Instagram, but as long as one student from every group does, this activity will work. Students can either use their personal Instagram or make a new one specifically for this assignment.
- To encourage team work, print only one copy of the rules (below) per team and one copy of the photo options.
- The photo options are in no particular geographic order.
- Remind team members that cooperation, planning, and strategy are necessary to get the most points.

#UofWyomingHunt

Rules: You **MUST** complete the Scavenger Hunt together as a team.

You have all 50 minutes of class. Please remember that this is also an exercise in communication, group work, time management, planning, mapping, and strategy. Be kind and courteous to your fellow team members so the activity stays fun – but you should also stay on your toes so you can collect the items that will get you the most points! To that end, if you think it will make a funny picture, do it. Make this enjoyable! Nobody wants to look at boring pictures and you certainly don't want to take them. This Scavenger Hunt will utilize INSTAGRAM.

<u>Instagram Challenge Options</u>	<u>Points</u>
• Instagram a group photo in Prexy's Pasture by the Nuclear Family Statue	1 point
