The Central Wyoming College (CWC) GEAR UP program focuses on student success as a student, family, school, community, and college partnership. Our goal is to provide opportunities for students to succeed in their secondary education, to explore career aspirations, and to be college ready as they enter into post-secondary education.

**CWC GEAR UP opportunities include:**

- Guidance with middle/junior and high school academics
- Visits to college campuses and introductions to college student life
- Individual student meetings for students to explore college and career goals and make individual plans to reach these goals
- Workshops for students and families on college readiness and information on financial assistance to pay for college
- Summer programs at college campuses and areas of interest in Wyoming and surrounding states

---

CWC GEAR UP Summer Academy to South Dakota

"College… it’s not a dream. It’s a plan."
