- Worland High School
- Worland Middle School

GEAR UP at Northwest College

One of the most successful aspects of Northwest College’s GEAR UP program is building relationships with parents and students. This, combined with a team of tutors, mentors, and school liaisons, enables GEAR UP to positively impact lives with each contact.

Students
Northwest College offers tutoring, mentoring, college exploration, and college preparation activities. GEAR UP opportunities promote academic achievement and give the students the resources and skills they need to accomplish their educational goals. At each of the schools, GEAR UP staff strive to stay connected with GEAR UP students to keep students on track with their academic goals and help them achieve success in higher education.

Parents
Parent and family events are provided throughout the year. These events are geared toward helping parents and guardians maneuver the college admission processes from start to finish. Parents can learn how to help their students apply for college admission, scholarships, and Federal Student Aid. Northwest College also helps parents understand the first year of their student’s college life. GEAR UP encourages parents to be involved in the process and stresses how much it means to their students.

Northwest College GEAR UP Staff
