Saratoga Middle/High School  
Star Valley High School  
Star Valley Middle School  
Swift Creek High School

Students

WWCC offers tutoring/mentoring and quarterly workshops which cover college exploration and planning activities. All of the opportunities GEAR UP WWCC provides are aimed at promoting academic achievement and giving the students the resources and skills they need to accomplish their education dreams. At each of the schools, our staff strive to stay connected with the students enrolled in GEAR UP to keep students on track with their academic goals and help them achieve success in higher education.

Parents

Parent and family events are provided throughout the year. These events are geared toward helping parents and guardians maneuver the college admission processes from start to finish, including helping their students apply for college admission, scholarships, and Federal Student Aid. WWCC also helps lead parents through what the first year of their student’s college life will be like. GEAR UP stresses to parents how much it means to students when their parents become involved in this process.
