Appendix A to UW Regulation 2-39

University of Wyoming
Alcohol and Other Drugs Policy

I. INTRODUCTION

A. Purpose
The purpose of this policy is to provide the university community with guidelines for the safe, legal, and responsible use of alcohol, to outline prohibitions for the use of illegal drugs, and to provide appropriate disciplinary sanctions.

B. Statement of Philosophy
The University of Wyoming Alcohol and Other Drugs Policy is intended to further the educational mission and goals of UW by advocating for individual responsibility, healthy and informed decision-making, and the safe, legal, and responsible use of alcohol and the prohibition of illegal drugs. The University of Wyoming is committed to creating a safe and healthy environment for all members of the University community in which the illegal or inappropriate use of alcohol or illegal drugs does not interfere with learning, performance, employment, residential living, or development.

C. Authority
Authority for establishment and implementation of this policy derives from University Regulation 39 and is vested in the Vice President for Administration or designee.

D. Application of laws, regulations, and policy
The University of Wyoming complies with requirements set forth in the Drug-Free Schools and Communities Act of 1989, the Drug-Free Workplace Act of 1988, and amendments thereto, plus applicable federal, state, and municipal laws. The unlawful uses, possession, production, manufacture, and distribution of alcohol and illegal drugs and controlled substances is strictly prohibited.

E. Policy distribution
The Alcohol and Other Drugs Policy will be published and distributed annually by the Vice President for Administration’s Office to each student and employee. The Policy shall also be made available through the University’s electronic information system.
F. Biennial program review
The alcohol and drug program shall be reviewed at least once every other year by the University’s Alcohol, Wellness Alternatives, Research and Education (AWARE) Coordinator, who shall file required reports with the U.S. Department of Education.

II. HEALTH RISKS

A. Alcohol. Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a vehicle safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts. Alcohol is often a major factor in crimes committed both on campus and off campus. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Women who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

For current research on the health effects of alcohol, refer to the National Institute on Alcohol Abuse and Alcoholism at www.niaaa.nih.gov

B. Illegal Drugs. Drugs such as marijuana, cocaine, hallucinogens, narcotics, anabolic steroids, amphetamines, and methamphetamines are regulated because they often have a powerful impact on the body and its systems. A description of health risks associated with the use of illegal drugs is printed in the Student Handbook & Planner. For current research on the health effects of drugs, refer to the National Institute on Drug Abuse website at www.nida.nih.gov
III. ABUSE PREVENTION PROGRAMS AND ASSISTANCE SERVICES

A. The University of Wyoming actively works toward reducing the misuse of alcohol and the harmful consequences associated with alcohol abuse through the implementation of research-based practices. UW offers late-night alcohol-free programming to students through the Campus Activities Center, a free shuttle service for students to prevent driving under the influence, conducts educational programs and activities in the residence halls, and supports the A-Team, which is a campus-community coalition that addresses alcohol issues. In addition, the UW Alcohol Wellness Alternatives, Research & Education (AWARE) Program provides education, prevention, and intervention services to the university and community.

B. All University of Wyoming students may receive alcohol and other drug education and referral services from the Alcohol Wellness Alternatives, Research & Education (AWARE) Program in the University Counseling Center (766-2187). Those enrolled full-time, or part-time if they have purchased the optional fee package, may receive services from the Student Health Service (766-2130). Substance abuse evaluations are conducted through the Counselor Education Training Clinic on campus (766-6820). Also, students may seek services in the community, incurring the charges themselves, at Peak Wellness Center (745-8915) for outpatient services, Ivinson Memorial Hospital, Behavioral Health Clinic (742-0285) for outpatient and detoxification services, or from a mental health professional listed in the telephone directory. Students at the University of Wyoming at Casper (UW-Casper) can receive services for drug and alcohol issues from Casper College Counseling and Student Development Services (268-2201).

C. All University of Wyoming faculty and staff can receive services for drug and alcohol issues in the Laramie community at Peak Wellness Center (745-8915) for outpatient services, Ivinson Memorial Hospital, Behavioral Health Clinic (742-0285) for outpatient and detoxification services, or from a mental health professional listed in the telephone directory. Faculty and staff may also receive, free of charge, a single session crisis intervention and referral consultation for drug and alcohol issues at the University Counseling Center (766-2187). Employees at the University of Wyoming at Casper (UW-Casper) are directed to Casper College Counseling and Student Development Services (268-2201) for drug and alcohol issues.

D. All University of Wyoming departments can receive assistance with alcohol policy development, and can receive consultation on current evidence-based practices for the prevention of alcohol and other drug abuse from the campus-community coalition called the A-Team (766-2187).
IV. LAWS AND REGULATIONS
